PORTFOLIO COMMENTARY

Market Review

The S&P/ASX 300 Accumulation Index (benchmark) rose 1.0% in February. Reporting season dominated the month with core thematics including rising costs as well as a resilient consumer. Traditional value sectors like Energy (-5.9%) and Materials (-4.8%) struggled in the face of questions around China's economic growth whilst the small but frothy IT sector surged (+19.7%), echoing the tech boom offshore. Big resource names like Fortescue (-9.6%), Woodside (-6.3%) and Rio (-6.9%) dragged on the benchmark. Meanwhile the Consumer Discretionary, Real Estate and Financial sectors were all outperformers.

Portfolio

The PIC portfolio returned 2.6%, outperforming the benchmark by 1.7% in February. Quality businesses did well in this environment with key PIC holdings such as Goodman Group, A2 Milk and Light & Wonder all showing strength and contributing to outperformance of the portfolio versus the growthier pull of the market.

The overweight position in GWA Group (+20.7%) contributed to performance over the month. The 1H24 result saw volume growth in the core Australian business for the first time in many years thanks to investment in re-engaging with the plumber. The company also benefitted from deflationary tailwinds from manufacturers in China. This, combined with the ability to further push prices saw gross margins expand almost 300bps. GWA Group's diverse product portfolio, encompassing bathroom and kitchen fixtures, along with its robust relationship with distributors, positions the company for sustained growth. The prevailing trend of mergers and acquisitions in the building suppliers sector is also a further potential source of upside.

Light & Wonder (+26.9%) substantially contributed to the portfolio's performance as it re-rated on the back of an impressive fourth quarter result. Light & Wonder delivered a result ahead of analyst expectations, driven primarily by outperformance in the core land-based gaming division. The strong performance of one of its new release games, Dragon Train, in the home Australian market is of particular note. Dragon Train is showing strong early signs of success with leading game performance translating to market share gains. The game is expected to be imminently released into the larger US market, providing a solid foundation for anticipated earnings growth in 2024.

Over the past few years, Light & Wonder has undergone a significant transformation, resulting in a repositioned company with a robust balance sheet, an exceptional management team, creative talent, and a clear strategic vision. Pleasingly, recent operational results suggest that the foundational changes made in the business are translating to better products for customers and ultimately better earnings and overall outcomes for shareholders. Despite the recent re-rate, we maintain that the company trades at an attractive valuation relative to its attainable growth prospects.

A2 Milk significantly contributed to the portfolio's returns in February, rising +19.9%. This can be attributed to a strong 1H24 result where sales and operating margin held despite the backdrop of a shrinking China IMF market. A2 upgraded full year FY24 forecast fuelled by robust sales in mother-baby stores and cross-border e-commerce. Moreover, Kantar market share data underscores A2's increasing market presence in both offline and online channels. A2 Milk has successfully evolved from a rapid-growth startup to a well-established, professionally managed entity with a brand that resonates with Chinese consumers. The company exhibits adept inventory and pricing management, and our confidence in the returns generated from its marketing investments is growing. With a robust balance sheet boasting over \$790 million in cash, we view A2 as being well-positioned for strategic manoeuvring in the face of the challenging macroeconomic landscape.

Outlook

We believe a great deal of uncertainty lies ahead. Inflation, which seemed beaten in the US, is showing signs of life again and could be a leading indicator of further inflation in Australia. This in turn is leading to questions about the timing and speed of Fed and RBA rate cuts. Australia is also more exposed to a very uncertain growth profile in China where policymakers are battling dour consumer sentiment and an ongoing property downturn. Geopolitical and policy risks abound. We continue to seek high quality businesses at reasonable valuations to navigate these choppy waters.

REMINDER: TAX CERTIFICATION COMPLETION

Under the Australian Government's participation in Automatic Exchange of Information (AEOI) regimes, PIC is required to collect CRS certification information and an investor's tax residency from shareholders. The information in certain circumstances may be reported to the Australian Taxation Office (ATO) which in turn reports to various global tax authorities.

Please check that you have completed your CRS certification by logging into the Link investor portal here.

From there, under the Payments & Tax tab you will find 'CRS', where you can fill in the Self Certification. Completing this information online is straightforward as the questions will guide you, and in some instances, it is only a couple of steps.

If you do not certify, PIC may be required to provide information about your account to the ATO. For more information on the self-certification process via Link please click here. For further information on FATCA and CRS, please visit here.

KEY FEATURES

INVESTMENT OBJECTIVE

The investment objective of the Company is to provide investors with an income stream and long-term capital growth in excess of its benchmark (the S&P/ASX 300 Accumulation Index) over minimum 5 year investment periods.

INVESTMENT STRATEGY

The Company's investment strategy is to create a concentrated and actively managed portfolio of Australian securities with typically a mid-cap focus and global listed securities. The Company will typically hold 20 to 40 securities.

50% - 100% Australian listed securities 0% - 35% Global listed securities

0% - 25% Cash

The Manager typically expects that the portfolio will be unhedged. Currency exposures may be hedged defensively where the Manager sees significant risk of currency weakness, but no attempt is made to add value to the portfolio by actively managing currency. Derivatives are permitted.

ABOUT THE MANAGER

The Company's investment portfolio is managed by Perpetual Investment Management Limited, part of the Perpetual Group, whose has a longstanding commitment to deliver superior outcomes over the long-term for clients. This is underpinned by its proven investment process that focuses on value and quality.
