Chairman's Letter

15 March 2024

Dear Eureka Shareholder

On behalf of Aspen Group Limited (**Aspen**), I am pleased to present to you this offer to acquire all of your shares in Eureka (the **Aspen Offer**).

Aspen Group (ASX: APZ) (which comprises Aspen and Aspen Property Trust) is a leading provider of quality accommodation on competitive terms. Our core customer base is the approximate 40% of Australian households with income of less than \$90,000 per annum who can afford to pay no more than \$400 per week to rent or \$400,000 to purchase their housing needs.

Aspen Group provides value for customers and securityholders through acquiring suitable properties at attractive prices, cost effective development, offering a variety of lease terms to suit customers' needs, disciplined cost management, and prudent capital management.

Aspen Group's property portfolio has grown four-fold over the past five years to over \$500 million and we expect the rapid growth to continue given the abundant opportunities available in acutely undersupplied segments of Australia's housing market.

Summary of the Aspen Offer

Aspen is offering you 0.26 Aspen Securities for every Eureka Share that you hold.

The Offer represents a 15.6% increase to the Offer ratio of 0.225 Aspen Securities per Eureka Share proposed by the Bidder in a non-binding and indicative offer to the Eureka Board for its consideration as announced by Eureka to the ASX on 29 March 2023.

See FAQ "What is the value of an Aspen Security?" in **Section 2** of this Bidder's Statement for a summary of the implied value of the Offer.

Key reasons to accept the Aspen Offer

If you accept the Offer and the Offer becomes unconditional, you will be entitled to become a securityholder in Aspen Group and based on Aspen's Offer ratio would benefit from a:

- 58% increase to distributions per security (**DPS**) for Aspen Securities when compared to the corresponding estimated Eureka DPS of 1.40 cents per Eureka share;¹
- 21 – 25% increase to the underlying operating earnings per security (**EPS**) for Aspen Securities when compared to the corresponding estimated Eureka EPS of 2.80 cents per Eureka Share;² and
- 10% increase to net asset value (**NAV**) per Aspen Security when compared to the corresponding Eureka NAV of 0.49 cents per Eureka Share.³

¹ Based on an assumed FY24 DPS of 8.50 cents per Aspen Security being Aspen Group's disclosed DPS guidance as a minimum distribution for FY24, and a DPS of 1.40 cents per Eureka Share being Aspen's estimate of Eureka's DPS based on Eureka's most recent half year DPS of 0.70 cents on an annualised basis.

² Underlying operating earnings (**EPS**) is a non-IFRS measure that is determined to present, in the opinion of the directors, the operating activities of Aspen Group in a way that appropriately reflects Aspen Group's underlying operating performance. Refer to Aspen Group's financial reports for full definition of EPS. Assumes FY24 EPS of 13.00 – 13.50 cents for Aspen Group being Aspen Group's disclosed EPS guidance range, and 2.80 cents for Eureka being Aspen's estimate of Eureka's EPS based on Aspen's definition of EPS. Eureka may have a different definition of underlying earnings.

³ Based on Aspen Group's NAV of \$2.10 per Aspen Security and Eureka's NAV of \$0.49 per Eureka Share as at 31 December 2023.

It is also our view that you will also benefit from the better growth prospects that Aspen Group has compared to Eureka on a standalone basis for the following reasons:

- Aspen Group has a fully integrated platform and stable management team with a successful track record⁴ over the past 5 years of generating attractive returns to securityholders through growth in net asset value, earnings, distributions, and stock price;
- Aspen Group has a broader business model and portfolio providing affordable accommodation to all household types, not just retirees, presenting Aspen Group with a total addressable market and opportunity set many times larger than Eureka's; and
- Aspen Group is larger and, in the event the Offer is successful, will become a more significant group that is several times larger than Eureka on a stand-alone basis with greater economies of scale. The Combined Group will be more relevant on the ASX, particularly to large institutional investors which could improve stock trading liquidity, stock price, and cost of capital.

If Aspen does not acquire at least 90% of Eureka Shares during the Offer Period, and therefore does not become entitled to compulsorily acquire the remaining Eureka Shares on issue, some of these benefits that would otherwise accrue to Eureka Shareholders that have accepted the Offer may not be fully realised.

Next steps

Details of the Aspen Offer, including its terms and the benefits you will receive from accepting the Aspen Offer are set out in this Bidder's Statement. The Bidder's Statement also includes important information about a holding of Aspen Securities, including risks associated with Aspen Group and the Aspen Offer. We urge you to read all of the Bidder's Statement carefully, and then to ACCEPT the Offer as soon as possible.

The Offer is scheduled to close at 7.00pm (Sydney time) on 28 May 2024, unless extended. To accept the Offer, please follow the instructions in this Bidder's Statement and on the accompanying Acceptance Form. If you require any assistance on the process of accepting the Offer, please contact the Aspen Offer Information Line on 1300 972 485 (within Australia) or +61 2 9068 1924 (outside Australia) between 8.30am and 7.00pm (Sydney time).

We appreciate your consideration of our Offer and look forward to receiving your acceptance prior to Offer close and welcoming you as an Aspen Securityholder.

Yours faithfully

Aspen Group Limited

1 Why you should **ACCEPT** the Aspen Offer

The Aspen Offer provides significant benefits to you as a Eureka Shareholder. The key reasons why you should accept the Aspen Offer are as follows:

1	The Aspen Offer is attractive and is expected to result in significant accretion to estimated FY24 DPS, underlying EPS and NAV for Eureka shareholders
2	Aspen Group has a proven track record ⁵ of adding value through its fully integrated platform with strong ownership, operating, development, and capital management skills
3	The Combined Group would be larger and more diversified than the individual entities alone which improves economies of scale and reduces risk
4	Aspen believes it can extract superior returns from Eureka's portfolio
5	The Combined Group would have greater opportunities for growth
6	The Combined Group would have a stronger and more robust balance sheet than if Eureka continues to operate on a standalone basis
7	The Combined Group would have increased scale and relevance on the ASX
8	Aspen Securities are attractively priced at \$1.76 per Aspen Security ⁶
9	You will not incur brokerage in accepting the Offer except in very limited circumstances ⁷
10	No Australian stamp duty should be payable by you on acceptance of the Offer ⁸
11	Eureka Share price may fall if Aspen's Offer lapses
12	No competing offer has emerged for your Eureka Shares

It should be noted that certain benefits regarding Aspen Group outlined in this **Section 1** assume that Eureka becomes a wholly owned subsidiary of the Bidder (to form the **Combined Group**). If the Bidder does not acquire at least 90% of Eureka Shares during the Offer Period, and therefore does not become entitled to compulsorily acquire the remaining Eureka Shares on issue, some of these benefits that would otherwise accrue to Eureka Shareholders that have accepted the Offer may not be fully realised.

⁵ Past performance is not a reliable indicator of future performance.

⁶ Based on the closing price of Aspen Securities on the ASX on 7 March 2024.

⁷ See **Sections 1.9** and **15.15** of this Bidder's Statement.

⁸ See **Section 10** of this Bidder's Statement.

1.1 The Aspen Offer is attractive and results in significant accretion to estimated FY24 DPS, EPS and NAV for Eureka shareholders

Aspen's Offer to Eureka's shareholders is highly accretive in terms of Eureka's estimated FY24 distribution per share (DPS), underlying earnings per share (EPS), and net asset value (NAV) per security as at 31 December 2023 based on the ratio for the Offer Consideration.

1.1.1 Significant increase in DPS for Eureka shareholders

Source: Aspen and Eureka announcements and financial accounts, and Aspen estimates. In cents per security.

Aspen Group expects to pay a minimum DPS of 8.50 cents in FY24 on all issued Aspen Securities (including Aspen Securities issued as part of the Offer). This equates to 2.21 cents per Eureka Share based on Aspen's Offer ratio, an **increase of 58%** on Eureka's current annualised DPS.⁹

Aspen Securities typically trade ex-distribution in December and June each year, whereas Eureka Shares will trade ex-dividend in April 2024 for its declared interim dividend of 0.7 cents per share. Depending on the timing of acceptance of the Offer and the distributions made by Aspen and Eureka, accepting Aspen's Offer¹⁰ may result in Eureka Shareholders accruing distributions from both entities.

See **Section 2** for further details on the proposed treatment of the Aspen 2HY24 Distribution and Eureka HY24 Distribution.

⁹ Based on an assumed FY24 DPS of 8.50 cents per Aspen Security being Aspen Group's disclosed DPS guidance as a minimum distribution for FY24, and a DPS of 1.40 cents per Eureka Share being Aspen's estimate of Eureka's DPS based on Eureka's most recent half year DPS of 0.70 cents on an annualised basis.

¹⁰ Aspen will not deduct from the Offer the value of any distributions declared or made by Eureka from 29 February 2024 until the Offer closes, provided it is less than \$2.50 million in aggregate but reserves all other rights in respect of any excess above this or any other distribution made by Eureka. Eureka Shareholders will receive the Eureka HY24 Distribution of 0.70 cents per share from Eureka if they continue to hold Eureka Shares on the record date for that distribution, which is 5 April 2024, and will receive the Aspen 2HY24 Distribution if they accept Aspen's Offer, the conditions are satisfied or waived and they are issued with Aspen Securities before the record date for that distribution, which is expected to be 28 June 2024.

1.1.2 Material accretion in EPS for Eureka shareholders

Note: Based on Aspen's estimate of Eureka's EPS and the midpoint of Aspen's pro forma FY24 underlying operating EPS guidance for the Combined Group of 13.25 cents.

Aspen estimates pro forma FY24 EPS¹¹ of 13.00 – 13.50 cents for the Combined Group, representing no change on Aspen Group's current FY24 guidance. This equates to 3.38-3.51 cents per Eureka Share, which represents an **increase of 21-25%** on Aspen's estimate of Eureka's EPS on a standalone basis. Aspen's estimate of FY24 EPS for the Combined Group is based on the following assumptions:

- FY24 EPS of 13.00-13.50 cents per Aspen Security for Aspen Group being Aspen Group's disclosed EPS guidance in its latest financial accounts disclosed to the ASX;
- FY24 EPS of 2.80 cents per Eureka Share for Eureka which is an assumption made by Aspen in the absence of specific guidance from Eureka;
- cost synergies of \$2.2 million per annum by merging the companies, mainly related to eliminating duplication of board and administrative functions¹²; and
- total transaction costs of \$10.6 million for the Combined Group.

¹¹ Underlying operating earnings (**EPS**) is a non-IFRS measure that is determined to present, in the opinion of the directors, the operating activities of Aspen Group in a way that appropriately reflects Aspen Group's underlying operating performance. Refer to Aspen Group's financial reports for the full definition of EPS. Assumes FY24 EPS of 13.00 – 13.50 cents for Aspen Group being Aspen Group's disclosed EPS guidance range, and 2.80 cents for Eureka being Aspen's estimate of Eureka's EPS based on Aspen's definition of EPS. Eureka may have a different definition of underlying earnings.

¹² Assuming the Bidder acquires at least 90% of Eureka Shares during the Offer Period, and becomes entitled to compulsorily acquire the remaining Eureka Shares on issue.

1.1.3 Substantial uplift in NAV per share

Source: Aspen and Eureka announcements and financial accounts. In A\$ per share.

Aspen's and Eureka's NAV per security at 31 December 2023 were \$2.10 and \$0.49¹³, respectively. Based on the Offer Consideration of 0.26 Aspen Securities per 1 Eureka Share the Combined Group would have a pro forma NAV of \$2.07 per security,¹⁴ which would equate to a NAV of \$0.54 per Eureka Share, representing a **10% increase** to Eureka's standalone NAV.

1.1.4 Premium to Initial Indicative Offer

The Aspen Offer represents a 15.6% increase in the Offer ratio as compared to the First Offer of 0.225 Aspen Securities per 1 Eureka Share.

¹³ Based on Aspen Group's NAV of \$2.10 per Aspen Security and Eureka's NAV of \$0.49 per Eureka Share as at 31 December 2023.

¹⁴ Assumes all Eureka Performance Rights have been vested and converted into Eureka Shares but that no additional Eureka Shares are issued after the Last Practicable Date including under the Eureka Dividend Reinvestment Plan. See **Section 8.3(b)(i)** for certain pro forma adjustments and assumptions in estimating the net assets of the Combined Group.

1.2 Aspen Group has a proven track record¹⁵ of adding value through its fully integrated platform with strong ownership, operating, development, and capital management skills

Aspen’s board and executive management team have extensive real estate experience with four members each holding senior roles in the industry for over 30 years. Aspen’s Joint Chief Executive Officers have led Aspen for 5 years and own a substantial combined stake in Aspen Group of over 8%.

Over the last 5 years, Aspen’s management team have consistently outperformed Eureka’s in terms of shareholder returns, profitability, growth and adding value to its portfolio.

1.2.1 Total Shareholder Return comparison

Source: Aspen and Eureka announcements and financial accounts, and ASX. In A\$ per share.

Over the period from when Aspen’s current management team joined the company to the trading day prior to Aspen’s announcement of its Offer (being 14 March 2019 to 22 January 2024 inclusive), Aspen Securities have generated a total shareholder return of 108% relative to Eureka’s 92%, an outperformance of 17%.

Over the period between 14 March 2019 to 14 March 2024, Aspen Securities have generated a total shareholder return of 122% relative to Eureka’s 118%.

In Aspen’s opinion, the relative trading prices of Aspen Securities and Eureka Shares between 22 January 2024 and 14 March 2024 have been disturbed by Aspen’s Offer and recent acquisitions by a single Eureka Shareholder. These acquisitions have materially increased Eureka’s share price, particularly in light of the historically low trading volumes of Eureka Shares. As a consequence, Aspen is of the view that Eureka’s recent share price is not reflective of its historical

¹⁵ Past performance is not a reliable indicator of future performance.

average price and Eureka Shareholders should exercise caution in assessing Aspen's Offer based solely on the recent prices of both Aspen Securities and Eureka Shares.

1.2.2 Return on book equity – statutory earnings / starting NAV

Over the period from the end of FY19 to 1HFY24, Aspen Group generated an average annualised return on equity (ROE) of 21.2%, about twice the rate achieved by Eureka, while also growing its business and portfolio at a substantially faster rate.

Source: Aspen and Eureka announcements and financial accounts. ROE has been calculated as statutory earnings each financial year divided by NAV at the start of the financial year

1.2.3 Net asset value growth comparison

Aspen's management adds value for securityholders through acquiring suitable properties at attractive prices, refurbishing existing buildings and greenfield development, offering a variety of lease terms and services to customers, operating the assets well and recycling capital.

Over the period from 30 June 2019 to 31 December 2023 Aspen's NAV per security has increased by a compound average of 14.8% per annum, nearly double Eureka's growth of 7.5% per annum.

Source: Aspen and Eureka announcements and financial accounts. In A\$ per share.

1.3 The Combined Group would be larger and more diversified than the individual entities alone which improves economies of scale and reduces risk

The Combined Group would have an Australia-wide footprint with presence in every Australian State and the Northern Territory. Aspen Group has senior head office employees in proximity to most of its properties in Sydney, Adelaide and Perth, and Eureka's Queensland team would complement this platform.

The Combined Group would own and manage almost 8,000 dwellings and sites including about 1,200 approved sites for future development, highly diversified by geography, property type, tenant type, lease type, and regulation.

Property NOI and Development Profit Mix

Source: Aspen's FY24 estimates for Aspen, Eureka and the Combined Group.

1.4 Aspen believes it may extract superior returns from Eureka's portfolio

Aspen believes that in the event it acquires 100% of Eureka following the Offer it may be able to extract a superior return from Eureka's portfolio.

If Aspen becomes entitled to proceed with compulsory acquisition it intends to implement the strategies below which in its view will place the Combined Group in a position to increase profitability, reduce risk and generate superior returns for securityholders from Eureka's existing portfolio as at the date of this Bidder's Statement than Eureka currently extracts:

- selling marginal properties, particularly small communities in remote locations with stagnant population and high capex requirements;
- upgrading the more attractive properties to improve appeal and help withstand new competition. In Aspen's opinion a large proportion of units would benefit from bathroom & kitchen upgrades and air conditioners which are estimated to cost around \$30,000-35,000 per unit;
- reducing property operating costs including Eureka's unallocated corporate overheads that are directly related to leasing, marketing/branding, information technology and travel;
- maintaining or reducing rents comfortably below \$400 per week so they remain affordable to the core target customer base, single aged pensioners, who receive only \$640 per week including Commonwealth Rent Assistance;
- broadening the target customer base by providing self-contained units where possible and not forcing tenants to buy food packages; and
- optimising and simplifying Eureka's property ownership structure and third party property and funds management contracts which are expensive to run and dilute opportunities and returns for securityholders in Aspen's opinion.

Further information on Aspen's intentions is set out in **Section 7** of this Bidder's Statement.

1.5 The Combined Group would have greater opportunities for growth

Aspen Group has a broader investment mandate and significantly larger total addressable market than Eureka, and therefore greater opportunities to acquire properties at an attractive price and create value for securityholders.

Aspen Group's core target customer base is the approximate 40% of Australian households with income of less than \$90,000 per annum who can afford to pay no more than \$400 per week to rent or \$400,000 to purchase their housing needs. Aspen estimates that its total addressable market is worth at least \$1 trillion of housing stock.

Aspen Group has a more substantial development platform and pipeline than Eureka from which additional value can be created. Aspen generates development profits from the sale of houses in land lease communities and land in residential communities. This component of the business is highly profitable, generating about 20% return on invested capital (**ROIC**) and the current pipeline is over 10-years based on current approved sites and sales rates. Development land has been acquired at very attractive prices which has helped limit total development inventory and surplus land to less than 7% of Aspen Group's total assets, and it is highly diversified across 9 active projects and several Australian States, which further mitigates risk.

Aspen loosely targets an average net operating income and development profit mix of 80/20% to optimise returns for securityholders while maintaining a manageable level of development volatility and risk. Aspen expects its FY24 earnings to be broadly in line with the targeted mix. As Eureka undertakes substantially less development, the pro forma FY24 estimated mix for the Combined Group would reduce to a net operating income and development profit mix of approximately 87/13%, which enables Aspen to increase its development activity while maintaining its target risk profile. If Aspen were to rebalance the mix to the targeted 80/20% in future years by leveraging its significant development platform and approved pipeline, development profit and underlying earnings could increase by about \$5 million or 2 cents per security for the Combined Group.¹⁶

1.6 The Combined Group would have a stronger and more robust balance sheet than if Eureka continues to operate on a stand-alone basis

Aspen has demonstrated prudent capital controls whilst delivering superior returns to securityholders. Aspen Group directly owns 100% of its property portfolio, whereas Eureka has only partial equity interests in the property portfolio owned by a Tasmanian joint venture and the unlisted Eureka Villages WA Fund which increases complexity, lessens control, and gives rise to competing and conflicting interests between various stakeholders.

Additionally, Aspen's balance sheet is currently more robust than Eureka's with lower reported gearing¹⁷, higher reported interest cover ratio¹⁸, and more undrawn debt capacity as at 31 December 2023 as illustrated below:

¹⁶ Based on pro forma FY24 estimated net operating income of \$53.5 million and development profit of \$8.0 million for the Combined Group prior to increasing the contribution mix to 80%/20%. Eureka Shareholders should note that Aspen's ability to rebalance this mix could only occur after FY24 is uncertain and would depend upon a number of factors and is subject to committing and executing on a development pipeline.

¹⁷ Gearing ratio as reported by both entities at 31 December 2023.

¹⁸ Interest cover ratio (**ICR**) as reported by both entities at 31 December 2023.

Source: Aspen and Eureka announcements and financial accounts.

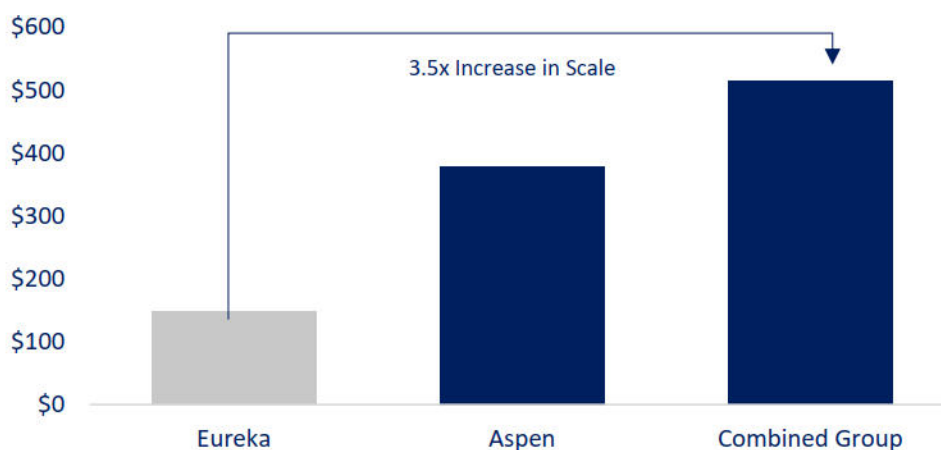

Aspen's focus on capital management has ensured maintenance of gearing and risk at appropriate levels.

Aspen estimates that the Combined Group would have lower pro forma gearing, higher pro forma interest cover ratio, and more capacity to debt fund capital expenditure and acquisitions, than Eureka on a standalone basis.

1.7 Increased scale and relevance on the ASX

The Combined Group would initially have net assets of about \$514 million¹⁹, approximately 3.5x the current scale of Eureka and 1.4x the current scale of Aspen Group. Aspen believes the larger Combined Group would be more relevant on the ASX, especially to large institutional investors including index funds, potentially improving stock liquidity, stock price and cost of capital.

¹⁹ See Section 8.3(b)(i) for certain pro forma adjustments and assumptions in estimating the net assets of the Combined Group.

1.8 Aspen Securities are attractively priced at \$1.76 per Aspen Security

1.8.1 Historical Average ROE (left), Historical DPS / NAV (middle) and Price / NAV (right)

Source: Aspen, Eureka, Ingenia & Lifestyle Communities (LIC) announcements and financial accounts, and ASX.

Note 1: Historical average annual return on equity commencing FY20 and ending 1HFY24 based on the statutory earnings for each period divided by net asset value at the start of each period.

Note 2: Historical average annual distribution yield commencing FY20 and ending 1HFY24 based on total distribution for each period divided by net asset value at the start of each period.

Note 3: Based on closing prices of stocks on the ASX on 7 March 2024 and the most recently stated net asset value (NAV) of the entities as at 31 December 2023.

Since FY20 Aspen's management team has outperformed its listed peers delivering outsized return on equity of 21% whilst paying an attractive average distribution yield of 5.5% to securityholders. Despite this, Aspen's stock, based on its trading price on the Last Practicable Date, currently trades at a 16% discount to its net asset value and even greater discount to its listed peers. As a result, accepting the Aspen Offer could provide Eureka Shareholders with an attractive entry point into a larger company that has the potential to re-rate and drive future shareholder returns.

Based on Aspen's stated NAV and guidance, Aspen Securities are currently trading at a:

- price / NAV per Aspen Security of 0.84x based on NAV per Aspen Security of \$2.10 at 31 December 2023;
- price / EPS ratio of 13.0-13.5x based on current FY24 EPS guidance of 13.00-13.50 cents; and
- distribution yield of 4.8% based on current minimum FY24 DPS guidance of 8.50 cents.

1.9 You will not incur brokerage in accepting the Offer except in very limited circumstances

If Your Eureka Shares are registered on an Issuer Sponsored Holding in your name and you deliver them directly to the Bidder, you will not incur any brokerage fees in connection with your acceptance of the Offer.

If Your Eureka Shares are in a CHESS Holding, or if you are a beneficial owner whose Eureka Shares are registered in the name of a broker, bank, custodian or other nominee you should ask your “Controlling Participant” (usually your broker) or that nominee whether they will charge any transactional fees or service charges in connection with acceptance of the Offer.

If you are an Ineligible Foreign Shareholder, the cash proceeds that you will receive (following the sale by the Sale Nominee of the Aspen Securities that you would otherwise be entitled to receive under the Offer) will be net of brokerage and sale expenses.

You may incur brokerage if you choose to sell Your Eureka Shares on market. See **Sections 2 and 15.15** of this Bidder’s Statement for more information regarding payment of brokerage fees.

1.10 No Australian stamp duty should be payable by you on acceptance of the Offer

No Australian stamp duty should be payable by Eureka Shareholders through their Offer acceptance – refer to **Section 10** for further details.

1.11 Eureka Share price may fall if Aspen’s Offer lapses

Given the benefits that Aspen believes are available to Eureka shareholders under the Aspen Offer, Eureka Shares may fall in price if the Aspen Offer lapses. As aforementioned, it is Aspen’s opinion that Eureka’s share price has been disturbed for a substantial period due to the potential of a takeover offer.

Aspen was able to acquire a 13.7% stake in Eureka at a price of \$0.39 per Eureka Share in December 2022. Immediately after Aspen acquired its stake, the Eureka share price increased, reversing a consistent downward trend throughout calendar year 2022.

While Eureka’s share price closed at \$0.45 on the last trading date prior to announcement of the Aspen Offer, being 22 January 2024, Aspen believes that the share price was supported by the expectation of a takeover offer by Aspen since at least December 2022 as a consequence of the acquisition of an interest in Eureka by Aspen. If the Aspen offer lapses, Eureka’s shares may trade below current levels.

1.12 No competing offer has emerged for your Eureka Shares

As far as Aspen is aware, the Aspen Offer is the only proposal for Eureka that has been publicly announced at the date of this Bidder’s Statement that provides you with an opportunity to sell your Eureka Shares.

As at the date of this Bidder’s Statement, Aspen is not aware of any other party intending to make a competing proposal that includes an offer for Eureka Shares and there is no certainty that any such offer will be made.

<p>What is the Offer?</p>	<p>The Bidder is offering to buy all Your Eureka Shares by way of an off-market takeover. You may only accept the Offer for all Your Eureka Shares.</p> <p>If you accept the Offer, and the Offer is declared or becomes unconditional, you will receive the Offer Consideration of 0.26 Aspen Securities, for each Eureka Share that you hold.</p> <p>If you are an Ineligible Foreign Shareholder you will not be provided with Aspen Securities. Instead, you will receive the net proceeds of the sale of the Aspen Securities you would have otherwise been entitled to. Refer to Section 15.9 for further details.</p>
<p>Who is making the Offer?</p>	<p>The Offer is being made by Aspen Group Limited ACN 004 160 927 (Bidder), which collectively with the Aspen Property Trust forms Aspen Group.</p> <p>See Section 4 of this Bidder's Statement for more information on the Bidder and Aspen Group.</p>
<p>Who may accept this Offer</p>	<p>Any person who is capable of, during the Offer Period, giving good title to a parcel of Eureka Shares that:</p> <ul style="list-style-type: none"> • are on issue as at the Record Date; or • are issued or come into existence before the end of the Offer Period; <ul style="list-style-type: none"> ○ as a result of the vesting of and conversion of the Eureka Performance Rights; and ○ pursuant to the Eureka Dividend Reinvestment Plan.
<p>Who is Aspen Group?</p>	<p>Aspen Group (ASX: APZ) is an ASX-listed provider of quality accommodation on competitive terms in residential, retirement lifestyle and park communities with total property holdings in excess of \$550 million comprising over 5,000 dwellings and sites.</p>
<p>What is an Aspen Security?</p>	<p>Aspen Securities consist of one Aspen Share and one Aspen Unit, stapled together and jointly quoted on the ASX under the ASX code 'APZ'.</p>

What is the value of an Aspen Security?

The Aspen Offer has an implied value of:

- \$0.429 per Eureka Share as at 22 January 2024, being the last trading day immediately prior to announcement of the Aspen Offer, based on the closing price of Aspen Securities of \$1.65 per Aspen Security, as compared to the closing price of Eureka Shares of \$0.45 per Eureka Share on that date, which represents a discount of 4.67%; and
- \$0.464 per Eureka Share as at 14 March 2024, being the date which is the last trading day prior to the lodgement of this replacement Bidder's Statement, based on the closing price of Aspen Securities of \$1.79 per Aspen Security, as compared to the closing price of Eureka Shares of \$0.52 per Eureka Share on that date, which represents a discount of 10.75%.

Eureka Shareholders should be aware that the implied value of the Aspen Offer is not fixed and will vary based on the respective prices of Aspen Securities and Eureka Shares on the ASX from time to time. Aspen is of the view that Eureka's recent share price (being \$0.52 based on its closing price as at 14 March 2024) has been largely affected by a series of acquisitions of Eureka Shares by a single shareholder immediately following the announcement of Aspen's Offer²⁰. These acquisitions have materially increased Eureka's share price, particularly in light of the historically low trading volumes of Eureka Shares. As a consequence, Aspen is of the view that Eureka's recent share price is not reflective of its historical average price and Eureka Shareholders should exercise caution in assessing Aspen's Offer based solely on the recent prices of both Aspen Securities and Eureka Shares.

Aspen notes the Offer has an implied net asset value of \$0.55 based on the NAV per Aspen Security on 31 December 2023 of \$2.10.

The implied values above may change as a result of movements in the market price of Aspen Securities and NAV per Aspen Security.

²⁰ See Eureka's ASX announcements: (a) "Becoming a substantial holder" dated 6 March 2024; and (b) "Change in substantial holding" dated 8 March 2024, 11 March 2024, 12 March 2024, 14 March 2024 and 15 March 2024.

<p>Are there any circumstances in which you will not be entitled to receive Aspen Securities?</p>	<p>If you are an Ineligible Foreign Shareholder, you will not be provided with Aspen Securities. Instead, you will be paid the net proceeds of the sale of the Aspen Securities you would have otherwise been entitled to.</p> <p>An Ineligible Foreign Shareholder is an Eureka Shareholder whose address as shown in the register of shareholders of Eureka is in a jurisdiction other than Australia or its external territories or New Zealand, unless Aspen determines (in its absolute discretion) that it is:</p> <ul style="list-style-type: none"> • not unlawful, onerous or impracticable to make the Aspen Offer to a Eureka Shareholder in a jurisdiction that is outside Australia and New Zealand and to issue Aspen Securities to such a Eureka Shareholder on acceptance of the Aspen Offer; and • not unlawful for such a Eureka Shareholder to accept the Aspen Offer in such circumstances in the relevant jurisdiction. <p>Based on the information available to the Bidder as at the Last Practicable Date as far as the Bidder is aware there are no Ineligible Foreign Shareholders.</p> <p>See Section 15.9 for further information.</p>
<p>When does the Aspen Offer close?</p>	<p>The Aspen Offer closes at 7.00pm (Sydney time) on 28 May 2024, unless it is extended or withdrawn as permitted by the Corporations Act.</p>
<p>How I accept the Aspen Offer?</p>	<p>See the Section on “How to accept this Offer” in Section 15.5.</p>
<p>Why accept the Offer?</p>	<p>The Bidder believes that Eureka Shareholders should accept the Offer for the following key reasons:</p> <ol style="list-style-type: none"> (a) the Aspen Offer is attractive and results in significant accretion to estimated FY24 distribution per share, underlying earnings per share and net asset value for Eureka Shareholders than if Eureka were to remain a standalone entity; (b) Aspen Group has a proven track record of adding value through its fully integrated platform with strong ownership, development and capital management skills²¹; (c) the Combined Group would be larger and more diversified than the individual entities alone which improves economies of scale and reduces risk; (d) Aspen believes it can extract superior returns from Eureka’s portfolio; (e) the Combined Group would have greater opportunities for growth;

²¹ Past performance is not a reliable indicator of future performance.

However, as Aspen Group is already admitted to the Official List of the ASX and securities in Aspen Group in the same class or on the same terms as those to be issued under the Aspen Offer are already quoted, Aspen Group is of the view that the quotation of the Aspen Securities will be granted.</p>
Will my Aspen Securities have the same rights and liabilities as all other Aspen Securities?	<p>Yes, the Aspen Securities issued under this Aspen Offer will rank equally with existing Aspen Securities, including for any distribution with a record date that falls on or after the date the Aspen Securities are issued under the Aspen Offer.</p> <p>Refer to Section 5.7 for further information about the rights and liabilities attaching to the Aspen Securities issued under the Aspen Offer.</p>
What are the Conditions of the Aspen Offer?	<p>The Offer is conditional on:</p> <p>(a) the Bidder acquiring a relevant interest in more than 50.1% of Eureka Shares on issue at that time;</p> <p>(b) no Material Adverse Change;</p> <p>(c) no Prescribed Occurrences;</p>

²² Based on the closing price of Aspen Securities on the ASX on 7 March 2024.

When will I be notified of the status of the Conditions?

If the Conditions are satisfied or waived, the Bidder will, as soon as practicable, give the ASX and Eureka a notice that states the Conditions have been satisfied or waived.

What if the Conditions are not satisfied or waived?

If the Conditions are not satisfied or waived by the end of the Offer Period, then the Aspen Offer will lapse and your

	<p>acceptance will be cancelled. You will continue to hold Your Eureka Shares and be free to deal with Your Eureka Shares as if the Aspen Offer had not been made, unless you have already sold Your Eureka Shares to someone else.</p>
<p>When will I receive the Offer Consideration?</p>	<p>If you accept the Offer, and the Conditions are fulfilled or waived, the Bidder will provide the Offer Consideration due to you for Your Eureka Shares to which you are entitled under this Offer on or before the earlier of:</p> <p>(a) one month after the Offer is accepted, or one month after the Conditions are fulfilled or waived (whichever is later); and</p> <p>(b) 21 days after the end of the Offer Period.</p>

<p>How will Ineligible Foreign Shareholders be treated?</p>	<p>All Eureka Shareholders are invited to accept the Offer on the same basis. However, Ineligible Foreign Shareholders that accept the Aspen Offer will not receive Aspen Securities. Rather, Aspen will appoint an ASIC approved Sale Nominee and the Aspen Securities that Ineligible Foreign Shareholders would have been entitled to receive will be issued to, and sold by, a Sale Nominee and the net cash proceeds attributable to each Ineligible Foreign Shareholder will be paid to them in Australian dollars.</p> <p>Refer to Section 15.9 for further information.</p> <p>Based on the information available to the Bidder as at the Last Practicable Date as far as the Bidder is aware there are no Ineligible Foreign Shareholders.</p>

<p>Can I accept the Offer for part of my holding in Eureka?</p>	<p>No. You cannot accept the Offer for part of your holding. You may only accept the Offer for all of Your Eureka Shares.</p> <p>However, if you hold one or more parcels of Eureka Shares as trustee or nominee, you may accept the Offer as if a separate offer had been made in relation to each of those parcels and any parcel you hold in your own right. Further information on the Bidder’s intentions is set out in Section 7 of this Bidder’s Statement.</p> <p>If the Bidder gains control of Eureka but is not entitled to or does not otherwise compulsorily acquire the remaining Eureka Shares, those Eureka Shareholders who do not accept the Offer will become minority Eureka Shareholders in circumstances where Eureka has a controlling shareholder (being the Bidder), with possibly less influence over the future direction of Eureka than they may have had previously.</p>

The Bidder also confirms that it will not reduce the Offer Consideration as a result of the payment of the Eureka HY24 Distribution provided such payment does not trigger the no Distributions Condition.</p> <p>Nothing in this Bidder’s Statement restricts the Bidder’s ability to rely upon or waive the No Distributions Condition, or the Bidder’s right to otherwise adjust the Offer Consideration in accordance with Section 15.8.</p>
<p>Am I entitled to receive the Aspen 2HY24 Distribution if I accept the Offer?</p>	<p>If you accept the Aspen Offer and the Aspen Offer is declared or becomes unconditional you may be entitled to receive the Aspen 2HY24 Distribution if the Aspen Securities issued as consideration to you are issued prior to the record date for the Aspen 2HY24 Distribution.</p> <p>The Bidder anticipates that the record date for the Aspen 2HY24 Distribution will be 28 June 2024.</p> <p>Refer to Section 15.8 for the timing of payment. Subject to Section 15.8, the Bidder is unable to provide any assurance or guarantee that Aspen Securities will be issued prior to the record date for the Aspen 2HY24 Distribution.</p> <p>To maximise the likelihood of receiving the Aspen 2HY24 Distributions, the Bidder urges all Eureka Shareholders to accept the Offer as soon as possible.</p>

<p>How does the Offer apply to my Eureka Performance Rights?</p>	<p>The Bidder is not making a separate offer to holders of Eureka Performance Rights. However, the Offer extends to all Eureka Shares that are issued before the end of the Offer Period as a result of the vesting and conversion of any Eureka Performance Rights on issue at the Record Date. This means that holders of Eureka Performance Rights that vest will be able to accept the Offer in respect of the Eureka Shares issued during the Offer Period as a result of their conversion.</p>
<p>How does the Offer apply to Eureka Shares under the Eureka Dividend Reinvestment Plan?</p>	<p>The Offer extends to all Eureka Shares that are issued before the end of the Offer Period under the Eureka Dividend Reinvestment Plan.</p>

(f) **How will Ineligible Foreign Shareholders be treated?**

Generally speaking, if your address on Eureka's register of shareholders is in a jurisdiction other than Australia, its external territories or New Zealand, you will be considered an Ineligible Foreign Shareholder. Ineligible Foreign Shareholders that accept the Aspen Offer will not receive Aspen Securities and should read **Section 15.9** for further information.

4.3 History of Aspen Group²⁵

Over the past 10 years Aspen Group has been transformed from an underperforming highly diversified property owner and fund manager that struck trouble during the global financial crisis (GFC), to a highly successful specialist provider of affordable accommodation. Post-GFC under previous management, Aspen Group disposed of its commercial properties and funds including the unlisted Aspen Parks Property Fund which owned one of Australia's largest portfolios of park properties at the time, and redeployed the capital into park and lifestyle properties for its own balance sheet. Stiffening competition and very low interest rates during this period led to a rapid increase in the price of suitable properties which limited the growth of Aspen Group. In early 2019 when the current executive team joined Aspen Group, the strategy was broadened to include residential property so that Aspen Group could service the entire spectrum of household types that require more affordable accommodation. This move significantly increased Aspen Group's total addressable market and opportunity set.

Since FY19, Aspen Group has been one of the fastest growing and best performing ASX-listed real estate groups, and it has achieved the following:

- significant improvement in the senior executive team and platform, with new offices opened in Adelaide and Perth to complement the Sydney headquarters;
- improved scale with a more than four-fold increase in the value of its property portfolio;
- increased diversification into more Australian States and property types including residential in metropolitan locations, which has materially reduced earnings volatility, seasonality and risk, and improved long term growth prospects in Aspen Group's opinion;
- increased the value-add activities of brownfield and greenfield development without materially changing the risk profile of the group, with development inventory currently less than 7% of total assets;
- reduction in management expense ratio²⁶ from 4.2% in FY19 to 1.1% in 1HFY24;
- material increase in EBITDA margin²⁷ from 20% in FY19 to 36% in 1HFY24;
- 20% per annum compound growth in EPS;
- 15% per annum compound growth in NAV per security;
- 11% per annum compound growth in DPS while reducing the distribution payout ratio from 97% to 62% in HY24 to retain cash to fund growth initiatives;
- maintained a strong balance sheet with conservative gearing²⁸ of 27% and interest cover ratio²⁹ of 3.8x at 31 December 2023 against the backdrop of rapidly increasing interest rates; and
- 83% increase in the price of Aspen Securities from \$0.96 on the day the new executive team joined Aspen to the current \$1.76³⁰ as at the Last Practicable Date.

²⁵ Past performance is not a reliable indicator of future performance.

²⁶ Management Expense Ratio is corporate overheads divided by total assets.

²⁷ EBITDA margin is underlying earnings before interest, tax, depreciation and amortisation divided by total revenue.

²⁸ Gearing is net debt divided by total assets less cash less retirement village resident loan obligations and deferred revenue.

²⁹ Interest Cover Ratio is EBITDA divided by total interest paid as defined under Aspen's debt covenant.

4.5 Aspen's portfolio has attractive investment return drivers

In Aspen's opinion, the performance of all of its property types are highly correlated to Australia's general residential market which will provide attractive investment returns over the long term because:

- ✓ Housing is essential – not discretionary
- ✓ There are no substitutes – housing is not being interrupted by work from home practices or online shopping like office buildings and shopping centres
- ✓ Vacancy rate is rarely above 3% - office market vacancy rates are frequently over 10%
- ✓ Leasing incentives are rare and typically not material – rents are not being artificially inflated and therefore are more sustainable and can grow more
- ✓ Rental properties generate a relatively high net income margin of 60-70% -even higher where land tax subsidy is available
- ✓ Volatility (risk) of returns is considered low compared to some other asset classes such as listed equities
- ✓ Residential assets support a relatively high level of low cost debt -particularly with owner-occupiers who provide personal guarantees
- ✓ Governments and banks have strong vested interests to support the market, owner-occupiers and renters
- ✓ The value of land in desirable locations typically appreciates in real terms over the long run due to increasing scarcity and building density as population and wealth increases
- ✓ The residential market is very deep and liquid – it is 3.7x larger than the ASX market capitalisation and 7.9x larger than commercial real estate by value

Aspen strives to make higher returns than the general residential market through the following means:

- ✓ Investing at the affordable end of the housing market which is the most essential (least discretionary) and acutely undersupplied with limited solutions in sight
- ✓ Creating quality housing at less than new replacement cost through disciplined acquisitions and cost-effective development
- ✓ Keeping rents competitive to help ensure high levels of occupancy regardless of the economic environment
- ✓ Securing land tax exemptions and other subsidies where available
- ✓ Helping households receive government support to help pay the rent - for example, Commonwealth Rent Assistance which can be available to lifestyle property tenants, but not retirement village tenants
- ✓ Applying its intensive operating skills to generate profit and value above passive rent collection
- ✓ Positioning for the appreciating land dynamic – a large proportion of Aspen Group's portfolio value is in the underlying land in attractive locations that are densifying, with strong potential for development into more valuable uses in the future

The chart below illustrates the real growth in rents and prices across CoreLogic’s Home Value and Rent Indices over the 10 years to December 2023:

- Rent increased by 1.1% per annum more than the CPI³¹
- Property value increased by 3.8% per annum more than CPI and 1.4% per annum more than nominal growth in GDP³²

Aspen believes that over the long run, rents are highly correlated to wages and other household income (including government subsidies), whereas values can sustain a higher rate of growth as wealth increases and becomes more concentrated in wealthier households.

Photos of some of Aspen's different property types are shown below:

Residential – UniResort Upper Mount Gravatt QLD

Lifestyle – Alexandrina Cove Lifestyle Village SA

Park – Barlings Beach NSW

Aspen Group creates quality accommodation for its customers and attractive returns for securityholders through cost-effective development of new land and dwellings (greenfield) and refurbishing existing dwellings (brownfield).

Aspen Group currently has nine active greenfield development projects underway comprising seven lifestyle projects where it sells new houses to customers who rent the underlying land site, and two residential land projects. Aspen Group has been achieving attractive profit margins of around 30% and return on invested capital of around 20%.

Aspen Group mitigates risk by maintaining a targeted conservative profit mix of 80% from net rental income and 20% from development profit. Aspen Group's balance sheet exposure to total development inventory including spare land is very low at less than 7% of total assets.

Information about the Combined Group is set out in **Section 8**.

5.6 Aspen Performance Rights Plan

Aspen Group operates the Aspen Performance Rights Plan as part of its strategy to reward and retain executives and senior managers. The Aspen Performance Rights Plan facilitates the grant of performance rights to executives and senior managers of Aspen Group.

A performance right granted under the Aspen Performance Rights Plan is a conditional right to acquire a fully paid ordinary Aspen Security for nil consideration (although the terms of the Aspen

Performance Rights Plan enable the Aspen Board to impose an exercise price if considered appropriate). A performance right holder will only be able to convert their performance rights to the extent the vesting conditions are satisfied. Performance is assessed relative to two measures, total shareholder returns and net asset value, with each measure accounting for 50% of the potential entitlement. The vesting conditions for each measure determine the award and are measured over a three-year period from the start of the financial year in which they are offered. The Aspen Board may consider introducing additional or different conditions for future grants of rights should prevailing market conditions support such a decision. Presently, continued employment and meeting total shareholder return and net asset value hurdles are the only two vesting conditions.

As at the date of this Bidder's Statement, Aspen Group has 4,019,620 outstanding performance rights on issue.

5.7 Rights and liabilities attaching to Aspen Securities

(a) Introduction

Each Aspen Security comprises one Aspen Share and one Aspen Unit, which are stapled and quoted and traded on the ASX as a stapled security under the ticker code 'APZ'.

You can transfer either an Aspen Share or an Aspen Unit if the transfer is accompanied by a transfer of an equal number of Aspen Shares or Aspen Units (as the case may be). Further, any issue of new Aspen Shares by Aspen Group or issue of Aspen Units by Aspen Property Trust must be matched by an issue of an equal number of Aspen Units or Aspen Shares (as the case may be).

The Aspen Securities to be issued pursuant to the Aspen Offer will be fully paid and will rank equally for distribution and other rights in all respects with existing Aspen Securities then on issue.

The following is a summary of the principal rights attaching to Aspen Securities. It does not purport to be exhaustive or to constitute a definitive statement of the rights and liability of holders of Aspen Securities. Aspen Securityholders should seek their own advice when trying to establish their rights in specific circumstances.

(b) Aspen Shares

The rights and liabilities attaching to the Aspen Shares which will be issued as part of the consideration under the Offer are set out in the Aspen Company Constitution and in the Corporations Act. A full copy of the Aspen Company Constitution is available at <https://aspengroup.com.au/>.

The main rights and liabilities attaching to the Aspen Shares are summarised below.

(i) Voting

At a general meeting, every member present in person or by proxy, attorney or representative has one vote on a show of hands and one vote on a poll for each fully paid Aspen Share held (with adjusted voting rights for partly paid shares). If the total number of votes to which a member is entitled on a poll does not constitute a whole number, the Bidder will disregard the fractional part of that total. If an Aspen Share is held jointly, only the vote of the member whose name appears first in the Aspen Register counts.

Voting at any meeting of members is by a show of hands unless a poll is demanded or required under the Corporations Act. A poll may be demanded by at least five members entitled to vote on the resolution, members with at least 5% per cent of the votes that may be cast on the resolution on the poll or the chairperson. If votes are equal on a proposed resolution, the chairperson has a casting vote on a show of hands or on a poll.

(ii) Dividends and capitalisation of profits

Subject to the Corporations Act, the ASX Listing Rules and any rights or restrictions attached to a class of shares, the Bidder may pay dividends as the Aspen Board resolves but only out of profits

of the Bidder. Each Aspen Share confers the right to an equal share in any dividends (with adjusted rights for partly paid Aspen Shares).

Subject to the ASX Listing Rules, the Aspen Board may capitalise any profits of the Bidder and distribute that capital to the holders of Aspen Shares, in the same proportions as the Aspen shareholders are entitled to a distribution by dividend.

(iii) Issue of further Aspen Shares

The Bidder may (subject to the restrictions on the issue of shares imposed by the Aspen Company Constitution, the Corporations Act and the ASX Listing Rules) issue or grant options in unissued Aspen Shares. The Bidder may also issue preference shares, including redeemable preference shares.

Notwithstanding the above, the Bidder must not allot or issue Aspen Shares to any person or permit securities held by any person to convert to Aspen Shares unless there is a contemporaneous and corresponding allotment or issue of Aspen Units.

(iv) Variation of class rights

The Bidder may vary or cancel rights attached to shares in that class, or convert shares from one class to another by:

- the written consent of the holders of at least 75% of the votes in that class; or
- special resolution of the Bidder and separate special resolution passed by holders of shares in that class.

(v) Conversion, reductions of capital and buy-backs

The Bidder may by ordinary resolution of members convert all or any Aspen Shares into a larger or smaller number of Aspen Shares, provided the Aspen Shares may only be converted if the related Aspen Units are also converted at the same time and to the same extent.

The Bidder, subject to applicable laws may also at its discretion reduce its share capital and buy-back Aspen Shares in itself on any terms and at any time, provided the Bidder must not reduce its share capital or buy-back any Aspen Shares unless there is a contemporaneous buy-back of the corresponding number of Aspen Unit in a manner which ensures that a person who holds Aspen Shares holds an equal number of Aspen Units.

(vi) Transfer of Aspen Shares

Holders of Aspen Shares may transfer Aspen Shares by a written transfer instrument in any usual form or other form approved by the Aspen Board or by a proper transfer. However, the directors can refuse to register a transfer where it is permitted to do so, or required to do so, by applicable law or the transfer is, or might be, in breach of the ASX Listing Rules or an escrow agreement entered into by the Bidder. All transfers must comply with the Aspen Company Constitution and the Corporations Act.

(vii) Unmarketable parcels

Subject to applicable laws, the Bidder has the power to sell unmarketable parcels of Aspen Shares held by members.

(viii) General meeting and notices

Each member is entitled to receive at least 28 days prior notice of meetings of the holders of the Aspen Shares, and to attend and vote at such meetings, or appoint a proxy or attorney to attend and vote in place of the holder.

Notice will be given in person, by sending it by post to the address of the Aspen shareholder in the register of members or by facsimile number or electronic address (if any) nominated by the Aspen shareholder.

(ix) Directors

The Bidder must have at least three, and not more than 10 directors. A director may be appointed by resolution at a general meeting. The directors may appoint a new director to fill a casual

vacancy or as an addition to the Aspen Board. No director, other than the managing director, may hold office for longer than three years without re-election.

(x) Officers' indemnity

To the extent permitted by law, the Bidder indemnifies each person who is or has been an officer of the Bidder against:

- any liability incurred by that person as an officer of the Bidder; or
- legal costs incurred in defending any liability incurred by that person as an officer of the Bidder.

The Bidder, to the extent permitted by law, may insure a person who is or has been an officer of the Bidder against a liability incurred by such person in the person's relevant capacity as an officer of the Bidder.

(xi) Proportional takeover provisions

Proportional takeover provisions were adopted by holders of Aspen Securities and renewed at the 2023 Annual General Meeting. The provisions prohibit the registration of transfers of Aspen Shares acquired under a proportional takeover bid unless a resolution is passed by securityholders approving the bid. The provisions cease to have effect on the third anniversary of their adoption or last renewal unless renewed.

(c) Aspen Units

Aspen Property Trust is governed by the Aspen Property Trust Constitution and has been registered as a managed investment scheme. As such, the rights and liabilities attaching to the Aspen Units which will be issued as part of the consideration of the Aspen Offer are set out in the Aspen Property Trust Constitution and in the Corporations Act. A full copy of the Aspen Property Trust Constitution is available at <https://aspengroup.com.au/>.

The main rights and liabilities attaching to the Aspen Units are summarised below.

(i) Aspen Property Trust unitholders' rights and obligations

The beneficial interest in the Aspen Property Trust is divided into Aspen Units.

Each Aspen Unit, subject to the terms of the Aspen Property Trust Constitution, confers an equal and undivided interest in the Aspen Property Trust's assets as a whole, subject to the liabilities of the Aspen Property Trust, but it does not confer an interest in any particular asset.

(ii) Aspen Units

The Responsible Entity can issue Aspen Units in accordance with the Aspen Property Trust Constitution. The Responsible Entity may in its absolute discretion accept or refuse, in whole or in part, any application for Aspen Units without giving any reason for the rejection. The Responsible Entity must, however, reject an application for Aspen Units if the applicant does not apply at the same time for an identical number of Aspen Shares.

The Responsible Entity may also, at any time, issue different classes of Aspen Units and has the power to issue options (for consideration or no consideration) in respect of the Aspen Units.

As required by the Corporations Act, the Aspen Property Trust Constitution contains provisions for calculating the issue price of Aspen Units, which subject to certain exceptions is calculated based on the market price of Aspen Securities less the application price of Aspen Shares.

(iii) Transfers

Aspen Units may be transferred in any manner permitted by ASX Settlement Pty Ltd (whether via the CHES System or any replacement system) or in any form approved by the Responsible Entity.

The Responsible Entity must request a holding lock or prevent a transfer of any Aspen Units if:

- required by the ASX Listing Rules;
- registration of the transfer is prohibited under the proportional takeover provisions of the Aspen Property Trust Constitution;

- registration is prohibited under the stapling provisions of the Aspen Property Trust Constitution (i.e. the form of transfer purports to transfer an Aspen Unit separate to an Aspen Share); or
- the transfer is in breach of the ASX Listing Rules or any “restriction agreement” within the meaning of the ASX Listing Rules.

(iv) Redemption of Aspen Units

Subject to the Corporations Act and the ASX Listing Rules, while the Aspen Units remain quoted on the ASX the Responsible Entity is not obliged to give effect to a redemption request.

(v) Income

The Responsible Entity will determine the distributable income of the Aspen Property Trust for each financial year. Unless the Responsible Entity determines otherwise prior to the end of the financial year, the distributable income of the Aspen Property Trust will be the net income of the Aspen Property Trust calculated in accordance with income tax legislation.

The unitholders of the Aspen Property Trust are entitled to a share in the Aspen Property Trust’s income based on the number of Aspen Units held. The Aspen Property Trust Constitution provides that the Responsible Entity may decide whether to permit or require a unitholder to reinvest some or all of any distribution to acquire Aspen Units in the Aspen Property Trust. No reinvestment in additional Aspen Units may occur unless, contemporaneously the unitholder of the Aspen Property Trust subscribed for or purchased an identical number of Aspen Shares which when issued or acquired are then stapled to the additional Aspen Units.

The Responsible Entity may also at any time distribute any amount of capital to Aspen Property Trust unitholders pro rata to the number of Aspen Units held as at a time decided by the Responsible Entity.

(vi) Meetings

The Responsible Entity may call a meeting of the unitholders of the Aspen Property Trust at any time and must do so if required by the Corporations Act. The provisions of the Corporations Act governing notice of a meeting of unitholders, proxies and voting for meetings of members of a registered scheme applies to the Aspen Property Trust.

(vii) Liability of Aspen Property Trust unitholders

Liability of the unitholders of the Aspen Property Trust is limited to amounts (if any) which remain unpaid in relation to the Aspen Property Trust unitholder’s subscription for their Aspen Units. In the absence of a separate agreement with a unitholder of the Aspen Property Trust, the recourse of the Responsible Entity and any creditor is limited to the assets of the Aspen Property Trust, and Aspen Property Trust unitholders are not required to indemnify the Responsible Entity if there is a deficiency in the assets of the Aspen Property Trust or to meet the claim of any creditor of the Responsible Entity in respect of the Aspen Property Trust.

(viii) Responsible Entity’s powers and duties

The Responsible Entity of the Aspen Property Trust is Evolution.

Subject to the Aspen Property Trust Constitution, the Responsible Entity has all the powers in respect of the Aspen Property Trust that it is possible under law to confer on a trustee as though it were the absolute owner of the assets of the Aspen Property Trust and acting in its personal capacity. The Responsible Entity’s power includes the power to:

- borrow or raise money, whether or not on security of the assets of the Aspen Property Trust;
- invest in, dispose of or otherwise deal with Aspen Property Trust property and rights;
- vary the principle investment policy (to invest either directly or indirectly in real property);
- authorise any person to act as agent or delegate;
- incur all other types of obligations and liabilities including giving a guarantee;

- enter into an arrangement with a person to underwrite the subscription or purchase of units or options on such terms as the Responsible Entity determines;
- subject to the Corporations Act and ASX Listing Rules, apply to unstage the Aspen Units from Aspen Shares and/or apply to have Aspen Units removed from quotation; and
- subject to the Corporations Act and ASX Listing Rules, cause the stapling of any other security or securities to the Aspen Units.

The Responsible Entity may also appoint an investment responsible entity of the Aspen Property Trust, to act in relation to the investments of the Aspen Property Trust or any part of the Aspen Property Trust, on the terms determined by the Responsible Entity. The Responsible Entity has the power to revoke the appointment of an investment responsible entity of the Aspen Property Trust.

Notwithstanding any other provision in the Aspen Property Trust Constitution, in exercising any power or discretion conferred on it, the Responsible Entity may, subject to the Corporations Act, while stapling applies, have regard to the interests of the unitholders of the Aspen Property Trust and the shareholders of the Bidder as a whole and not only to the interests of the unitholders of the Aspen Property Trust alone.

(ix) Interested dealings

Subject to the Corporations Act, the Responsible Entity or any of its associates may:

- deal with itself (as responsible entity of the Aspen Property Trust or in another capacity), the Bidder, an associate or with any unitholder of the Aspen Property Trust;
- be interested in any contract or transaction with itself (as responsible entity of the Aspen Property Trust or in another capacity), the Bidder or any Aspen Property Trust unitholder or associate or retain for its own benefit any profits or benefits derived from any such contract or transaction; or
- act in the same or a similar capacity in relation to any other managed investment scheme.

(x) Valuation of Assets

The Responsible Entity may at any time cause the valuation of any asset of the Aspen Property Trust and must do so when required by the Corporations Act. The Responsible Entity may determine the net asset value of the Aspen Property Trust at any time.

The Responsible Entity may determine valuation methods and policies for each category of asset and change them from time to time. Unless the Responsible Entity determines otherwise, the value of an asset for the purpose of calculating the net asset value will be its market value.

(xi) Responsible Entity's limitation of liability

Subject to the extent that the Corporations Act imposes liability, the Responsible Entity is not liable for any loss suffered by the Aspen Property Trust unitholders in respect of the Aspen Property Trust and is not liable to any person who is not a unitholder of the Aspen Property Trust to any extent beyond the assets of the Aspen Property Trust.

(xii) Responsible Entity's indemnities

The Responsible Entity is entitled to be indemnified out of the assets of the Aspen Property Trust for any liability incurred by it in properly performing or exercising any of its powers or duties in relation to the Aspen Property Trust. The indemnity includes any liability incurred as a result of any act or omission of a delegate or agent appointed by the Responsible Entity and continues to apply after the Responsible Entity retires or is removed from the office it holds in relation to the Aspen Property Trust.

(xiii) Remuneration and recovery of expenses

The Responsible Entity is entitled to a maximum annual management fee made up of:

- in respect of that part of the value of the assets of the Aspen Property Trust that is less than \$10 million, a fee of 0.5% of the value of the assets of the Aspen Property Trust; and

- in respect of that part of the value of the assets of the Aspen Property Trust that exceeds \$10 million, a fee of 0.25% of the value of the assets of the Aspen Property Trust, calculated monthly at the rate of one twelfth of the relevant percentage of the value of the assets of the Aspen Property Trust as at the last day of each month, and payable in arrears within five Business Days after the last day of the relevant month.

The Responsible Entity may accept lower fees than it is entitled to receive under the Aspen Property Trust Constitution.

The Aspen Property Trust Constitution also provides for the payment of an investment management fee to the Responsible Entity, however, such fee is waived so long as the Responsible Entity engages an external party as investment responsible entity. Presently the Responsible Entity has engaged Aspen Funds Management Limited ACN 104 322 278 (AFSL: 227933), a wholly-owned subsidiary of the Bidder as investment responsible entity.

In addition to these fees, and any other right of indemnity under the Aspen Property Trust Constitution or the law, all expenses incurred by the Responsible Entity in relation to the proper performance of its duties in respect of the Aspen Property Trust are payable or reimbursable out of the assets of the Aspen Property Trust to the extent that such reimbursement is not prohibited by the Corporations Act.

(xiv) Winding up the Aspen Property Trust

Following termination of the Aspen Property Trust, the Responsible Entity must realise the assets of the Aspen Property Trust. This must be completed in 180 days if practical and in any event as soon as possible after that.

The net proceeds of realisation, after making allowance for all liabilities of the Aspen Property Trust (actual and anticipated) and meeting the expenses (including anticipated expenses) of the termination, must be distributed to the unitholders of the Aspen Property Trust in accordance with the number of Aspen Units held.

(xv) Amendments to the Aspen Property Trust Constitution

If the Corporations Act allows, the Aspen Property Trust Constitution may be amended by special resolution or by deed executed by the Responsible Entity.

(xvi) Small holdings

(xviii) Proportional takeover offers

The Aspen Property Trust Constitution contains corresponding proportional takeover provisions to that described in **Section 5.7(b)(xi)** above.

6.7 Eureka’s Performance Rights

Eureka currently has in place an employee equity plan that was approved by Eureka Shareholders at the 2023 annual general meeting held on 26 October 2023 (**2023 Equity Plan**). 126,953 Eureka Performance Rights are still governed by the previous version of the employee equity plan approved by Eureka Shareholders at the 2020 annual general meeting held on 6 November 2020 (**2020 Equity Plan**). Under the terms of the 2023 Omnibus Equity Plan and 2020 Omnibus Equity Plan, Eureka may invite certain employees to participate in the plan and receive options over Eureka Shares, Eureka Performance Rights, performance share awards or Eureka Shares.

According to documents provided by Eureka to ASX, as at the Last Practicable Date, Eureka had on issue the following Eureka Performance Rights:

The Eureka Performance Rights vest and become exercisable (if applicable) to the extent that the relevant vesting conditions are satisfied. The Bidder understands that the Eureka Performance Rights will not vest until 30 September 2024 at the earliest unless there is a "Change of Control Event" as defined in the 2023 Equity Plan or 2020 Equity Plan (as applicable). A Change of Control Event will occur where a takeover bid is made and an entity obtains voting power (as defined in the Corporations Act) of more than 50% and the takeover bid becomes unconditional, in which case the Eureka Board may in its absolute discretion determine that the Eureka Performance Right will vest and be exercised immediately.

The Bidder is not making a separate offer to the holders of any Eureka Performance Rights. However, the Aspen Offer extends to all Eureka Shares that are issued or otherwise come into existence before the end of the Offer Period as a result of the vesting and exercise of any Eureka Performance Rights on issue at the Record Date. This means that holders of Eureka Performance Rights that vest will be able to accept the Offer in respect of the Eureka Shares issued during the Offer Period as a result of their conversion.

- there were significant increases in operating expenses on an annualised basis in the following categories compared to FY23:
 - employee expenses increased by 16.5% despite Eureka not having a permanent CEO for most of the period; and
 - other expenses increased by 23.8% - this category includes technology and branding expenses which Eureka excludes in underlying earnings despite their recurring nature.

The following table sets out the adjustments Eureka made to statutory profit to derive its definition of EPS for each of the periods.

Aspen notes the following regarding Eureka's stated underlying earnings for the half year ending 31 December 2023:

- depreciation & amortisation and finance costs includes a component of accounting depreciation and interest for right of use assets which essentially represents gross rent. The amount was not disclosed in 1HFY23 and was \$0.34 million in FY23. Aspen treats gross rent as an operating expense in its underlying earnings and it is therefore deducted from EBITDA;
- strategic project expenses of technology and branding have been excluded from Eureka's underlying earnings despite their recurring nature. Aspen expenses these items in its underlying earnings; and
- Eureka defines its underlying profit before tax as underlying EBITDA less finance costs, depreciation and amortisation. However, Eureka has been omitting its share of interest expense in its joint venture leading to an overstatement of underlying profit before tax.

1. EBITDA (Earnings before interest, tax, depreciation and amortisation) is an unaudited non-IFRS measure. The directors of Eureka believe it is a readily calculated measure that has broad acceptance and is referred to by regular users of published financial statements as a proxy for overall operating performance. EBITDA is calculated from amounts disclosed in the financial statements.

2. Underlying EBITDA is an unaudited non-IFRS measure that represents the operating performance of the Eureka Group and excludes valuation adjustments, asset disposals and certain non-core or non-recurring transactions.

3. Underlying Profit before tax is an unaudited non-IFRS measure and equals Underlying EBITDA less finance costs, depreciation and amortisation.

7 Bidder's intentions in relation to Eureka

7.1 Introduction

This **Section 7** sets out the Bidder's intentions in relation to the following:

- (a) the continuation of the business and operations of Eureka;
- (b) any major changes to the business or operations of Eureka and any redeployment of the fixed assets of Eureka; and
- (c) the future employment of the present employees of Eureka.

The intentions set out in this **Section 7** have been formed on the basis of publicly available facts and information concerning Eureka and the general business environment which are known at the time of preparing this Bidder's Statement. Final decisions will only be reached by Aspen Group in the light of material information and circumstances at the relevant time. Accordingly, the statements set out in this section are statements of current intention only and may change as new information becomes available or circumstances change, and the statements in this section should be read in this context.

7.2 Overview and rationale for Aspen Offer

Aspen views Eureka as a complementary business and a strategic fit. Both Aspen Group and Eureka are in the same fundamental business of providing affordable accommodation to Australian households. In particular, Aspen considers the Aspen Offer a key step in the expansion and further diversification of the collective portfolios of Aspen Group and Eureka. As noted in **Section 1.2** the Combined Group would have an Australia-wide footprint with meaningful exposure to every state in Australia and the Northern Territory and a combined property portfolio valued at over \$750 million.

A merger of Aspen Group and Eureka provides further opportunities to:

- reduce corporate overheads as a proportion of total assets (management expense ratio) to improve profitability and returns to securityholders;
- derive revenue and cost synergies through improved operational management, marketing/branding, information technology systems and other means;
- recycle capital from marginal properties that are expected to produce sub-optimal returns, into new acquisitions, capital improvements and development;
- attract a broader base of equity investors which may lead to an improved stock price and lower cost of capital for the group;
- reduce financial leverage from Eureka's current elevated levels; and
- provide better career opportunities for most employees across the group.

7.3 Continuation of operations

Whether Eureka becomes wholly or majority owned by the Bidder, other than are set out elsewhere in this **Section 7** and subject to the completion of the operational and strategic review outlined in **Section 7.4(c)**, it is the Bidder's present intention to:

- (a) replace all members of Eureka's Board with nominees of Aspen;
- (b) seek to maintain the employment of substantially all of Eureka's existing employees in the same or other capacities on terms and conditions consistent with Aspen's current competitive remuneration levels and structure;
- (c) continue to own affordable accommodation in substantially the same manner as at the date of this Bidder's Statement;
- (d) maintain gearing around a level consistent with Aspen's long term target gearing ratio range of 30-40%;

- (e) identify and dispose of properties that are not expected to generate adequate investment returns for Eureka;
- (f) identify and restructure, dispose or terminate contracts to manage third party properties, joint venture interests and funds that are not expected to generate adequate profitability; and
- (g) consider whether raising equity and or reducing dividends is required to strengthen Eureka's balance sheet.

Until the operational and strategic review outlined in **Section 7.4(c)** is complete it is not presently possible to identify the specific properties, contracts, joint venture interests or funds that the Bidder may elect to dispose, restructure or terminate as outlined in (e) and (f) above.

7.4 Intentions for Eureka upon becoming entitled to proceed with compulsory acquisition

If the Bidder and its Associates acquire a Relevant Interest in 90% of the Eureka Shares by the end of the Offer Period and the Bidder becomes entitled to compulsorily acquire the outstanding Eureka Shares in accordance with the Corporations Act, the Bidder intends to proceed with compulsory acquisition and its intentions for Eureka are as set out in this **Section 7.4**.

(a) Eureka Performance Rights

As mentioned in **Section 6.7** of this Bidder's Statement, the Offer does not extend to any Eureka Performance Rights. However, the Offer extends to all Eureka Shares that are issued before the end of the Offer Period as a result of the vesting and exercise of any Eureka Performance Rights on issue at the Record Date. This means that holders of Eureka Performance Rights that vest will be able to accept the Offer in respect of the Eureka Shares issued during the Offer Period as a result of their conversion.

As outlined in **Section 6.7**, it is the Bidder's understanding that the Eureka Performance Rights on issue will not vest until the Bidder has acquired Voting Power greater than 50%. To the extent there are any Eureka Performance Rights on issue at the end of the Offer Period, the Bidder may seek to acquire any remaining Eureka Performance Rights if it becomes entitled to do so under Part 6A.1 of the Corporations Act.

(b) Corporate matters

The Bidder would:

- (i) arrange for Eureka to be removed from the official list of ASX; and
- (ii) replace the members of the Eureka Board with nominees of Aspen Group.

Replacement board members have not yet been identified by Aspen and their identity will depend on the circumstances at the relevant time.

(c) General operational and strategic review

At the end of the Offer Period, the Bidder intends to conduct a review of Eureka's operations on both a strategic and financial level to evaluate Eureka's performance, profitability, business operations and strategy.

Once this has been completed, the Bidder will determine the level of financial and other resources necessary to optimise Eureka's operations. In particular, the Bidder will determine the optimal strategy in terms of realising maximum value for its investment in Eureka, and in doing so, will keep all options open for value maximisation.

(d) Eureka portfolio

Subject to the operational and strategic review described in **Section 7.4(c)** and the operating and economic environment at the time, Aspen intends to undertake the following actions in connection with the development, management and sale of Eureka's existing portfolio:

- the sale of marginal properties, particularly small communities in remote locations with stagnant population and high capex requirements;

- upgrade the more attractive properties within Eureka’s existing portfolio to improve appeal and help withstand new competition. In Aspen’s opinion a large proportion of units would benefit from bathroom and kitchen upgrades, and air conditioning which are estimated to cost around \$30,000-35,000 per unit;
- reduce property operating costs including Eureka’s unallocated corporate overheads that are directly related to leasing, marketing/branding, information technology and travel;
- maintain or reduce rents below \$400 per week so they remain affordable to the core target customer base, single age pensioners, who receive only \$640 per week including Commonwealth Rent Assistance;
- broaden the target customer base by providing self-contained units so that tenants are not forced to buy food packages; and
- optimising and simplifying Eureka’s property ownership structure and 3rd party property and funds management contracts which are expensive to run and dilute opportunities and returns for securityholders in Aspen’s opinion.

(e) **Impact on employees**

Subject to the statements made about existing members of the Eureka Board and the operational review described in **Section 7.4(c)**, it is the Bidder’s current intention to seek to retain substantially all of Eureka’s employees. Aspen would aim to identify suitable alternative roles for any Eureka employees in business areas that are adversely affected by any integration. If redundancies do occur, those individuals will be treated in accordance with their legal and contractual entitlements.

7.5 Intentions for Eureka as a partly-owned but controlled entity

If the Bidder obtains control of Eureka, but is not entitled to compulsorily acquire the outstanding Eureka Shares, subject to **Section 7.7**, its intentions are set out in this **Section 7.5**.

(a) **Corporate matters**

The Bidder intends, subject to the Corporations Act and the constitution of Eureka, to seek to replace all of the members of the Eureka Board, with nominees of Aspen Group. Replacement board members have not yet been identified by Aspen and their identity will depend on the circumstances at the relevant time.

Subject to the ASX Listing Rules, the Bidder intends to ask the Eureka Directors to review whether Eureka should remain listed on ASX or be removed from the official list of ASX, having regard to considerations such as the costs associated with maintaining that listing, the Bidder’s final level of ownership, the number of remaining Eureka Shareholders and the level of trading in Eureka’s Shares. The Bidder expects that a final decision as to Eureka’s removal from the official list of ASX will ultimately be made by ASX in accordance with published ASX guidance.

In this regard, ASX guidance indicates that the usual conditions that the ASX would expect to be satisfied in order for it to approve the removal of Eureka from the official list in the context of a successful takeover bid include:

- (i) the Bidder owning or controlling at least 75% of Eureka Shares, with the Offer remaining open for at least two weeks following the date upon which the Bidder has attained the ownership or control of at least 75% of Eureka Shares; and
- (ii) excluding the Bidder and its related bodies corporate, the number of Eureka Shareholders having holdings with a value of at least \$500 is fewer than 150.

In such cases, provided the application for the removal of Eureka from the official list of the ASX is made within one month from the end of the Offer Period, the ASX will not typically require shareholder approval for Eureka’s removal from the official list of the ASX.

Even if the above conditions in (i) and (ii) are not satisfied, the ASX may approve an application for Eureka to be removed from the official list of the ASX with Eureka Shareholder approval.

Where such removal is sought 12 months after the close of the Offer, subject to the ASX's discretion, the Bidder may be entitled to vote on the resolution approving the removal.

If Eureka is removed from the official list of the ASX, there are risks with remaining as a minority shareholder in Eureka as opposed to a securityholder in Aspen Group, including the reduced or non-existent liquidity of Eureka Shares.

(b) General operational and strategic review

The Bidder intends to propose the Eureka Board pursue the strategic review referred to in **Section 7.4(c)** (to the extent appropriate) and allow the Bidder to participate in that review.

(c) Other intentions

The Bidder intends to implement the intentions set out in **Section 7.4**, which are consistent with the Bidder obtaining control of Eureka where they are consistent with Eureka being a controlled entity of (but not wholly-owned by) the Bidder and are considered to be in the best interests of Eureka Shareholders as a whole.

It is possible that, even if the Bidder is not entitled to proceed to compulsory acquisition of minority holdings after the end of the Offer Period under Part 6A.1 of the Corporations Act, it may subsequently become entitled to exercise rights of general compulsory acquisition under Part 6A.2 of the Corporations Act, for example, as a result of further acquisitions of Eureka Shares in reliance on the "3% creep" exception in item 9 of section 611 of the Corporations Act. The Bidder will make an assessment at the relevant time based on the then current circumstances as to whether or not it will undertake any such further acquisitions of Eureka Shares.

7.6 Intentions if the Bidder does not acquire control of Eureka

The Bidder reserves its right to waive the Minimum Acceptance Condition (and any other Conditions) to the Offer. However, the Bidder has not yet decided whether it will waive the Minimum Acceptance Condition (or any other Condition).

This **Section 7.6** sets out the Bidder's intentions if it does not obtain control of Eureka (i.e. where the Bidder has elected to waive the Minimum Acceptance Condition and acquires less than 50.1% of Eureka Shares).

The Bidder's intention, if it does not acquire control of Eureka, is to seek to obtain representation on the Eureka Board. The Bidder has not made any decision as to who would be nominated for appointment to the Eureka Board in that case.

The Bidder also intends to seek to have Eureka grant it access rights in respect of certain information of Eureka, and other information received by the Bidder's nominees to the Eureka Board in that capacity from time to time.

The Bidder may acquire additional Eureka Shares, including under the "3% creep" provisions of the Corporations Act and by other means. The Bidder has not decided whether it will acquire further Eureka Shares, as that will be dependent upon (among other things) the extent of the Voting Power of the Bidder in Eureka and market conditions at the time.

7.7 Limitations in giving effect to intentions

The ability of the Bidder to implement the intentions set out in **Sections 7.5** and **7.6** will be subject to the legal obligation of Eureka Directors to have regard to the interests of Eureka and all Eureka Shareholders and the requirements of the Corporations Act and the ASX Listing Rules, including in relation to transactions between related parties. These rules may limit or modify the implementation of the intentions outlined above.

Also, as a result of those requirements, the approval of minority Eureka Shareholders may be required for the implementation of some of the intentions outlined above.

Eureka Shareholders should be aware that if Eureka becomes a controlled entity of the Bidder, but the Bidder is not entitled to proceed to compulsory acquisition in accordance with Part 6A.1 of the Corporations Act, and Eureka continues to be listed on the ASX following the Offer, then the decrease in the number of Eureka Shares available for ASX trading may have a material adverse effect on their liquidity and market value.

8 Profile of the Combined Group on completion of the Aspen Offer

8.1 Introduction

This **Section 8** provides a profile of the Combined Group and the effect of the Aspen Offer on Aspen Group, assuming that Eureka becomes a wholly-owned subsidiary of the Bidder. If the Bidder does not acquire at least 90% of Eureka Shares during the Offer Period and therefore does not become entitled to compulsorily acquire the remaining Eureka Shares on issue, some of the benefits that would otherwise accrue to Aspen Group if Eureka were to become a wholly-owned subsidiary of the Bidder may not be fully realised.

8.2 Aspen Group strategy and rationale for making the Aspen Offer

If you accept the Offer, following completion you will become a securityholder in a larger and financially stronger entity, with a robust development platform and opportunities for greater growth. The Combined Group will own and manage a property portfolio valued at \$870 million comprising about 8,000 dwellings and sites, including about 1,200 development sites, and a market capitalisation of \$435 million.³⁶

Aspen Securityholders will include former Eureka Shareholders who choose to retain the Aspen Securities issued to them, and based on the Aspen's Offer ratio will benefit from the following (among other things) if the Offer becomes unconditional:

- the combination of two highly complementary businesses operating the same fundamental business of providing affordable accommodation to Australian households;
- a larger and more diversified business with meaningful exposure to every State in Australia and the Northern Territory, allowing the Combined Group to take advantage of a broader range of opportunities;
- expected material synergies, particularly with respect to corporate overhead costs which the Bidder estimates will generate savings of \$2.2 million per annum;³⁷
- estimated FY24 pro forma EPS of 13.00-13.50 cents per Aspen Security which is 21% to 25% above the Bidder's estimate of Eureka's FY24 EPS on a stand-alone basis of 2.80 cents per Eureka Share;³⁸
- potentially increased distributions due to Aspen's current FY24 guidance for a minimum DPS of 8.50 cents being at or below its policy to distribute 65-75% of the estimated FY24 pro forma EPS, and 58% above the Bidder's estimate of Eureka's FY24 DPS on a stand-alone basis of 1.40 cents per Eureka Share based on its 1HFY24 distribution annualised; and
- an increase in scale and relevance with total owned and managed property assets of \$870 million and a market capitalisation of approximately \$435 million³⁹ providing greater access to additional capital and stock liquidity, as well as a larger platform to compete with more established competitors in the market such as Ingenia Communities Group and Lifestyle Communities Limited.

See **Section 1** for further information on the benefits of the Aspen Offer.

³⁶ Based on Aspen Group's close price of \$1.76 on the Last Practical Date multiplied by securities on issue post-merger (assuming the Bidder acquires 100% of Eureka Shares including and assuming all Performance Rights have been converted to Eureka Shares).

³⁷ Assuming the Bidder acquires at least 90% of Eureka Shares during the Offer Period, and becomes entitled to compulsorily acquire the remaining Eureka Shares on issue.

³⁸ See **Section 1.1.2** for the assumptions underpinning Aspen's estimate of Eureka's FY24 EPS.

³⁹ Based on Aspen Group's close price of \$1.76 on the Last Practical Date multiplied by securities on issue post-merger (assuming the Bidder acquires 100% of Eureka Shares including and assuming all Performance Rights have been converted to Eureka Shares).

8.3 Financial profile of the Combined Group

This section contains the following pro forma financial information (**Pro Forma Financial Information**) comprising the pro forma historical statement of financial position of the Combined Group as at 31 December 2023 (**Pro Forma Historical Statements of Financial Position**) and the pro forma forecast operating EPS and DPS of the Combined Group for the financial year ending 30 June 2024 (**Pro Forma Forecast Financial Information**).

(a) **Basis of preparation**

(i) **Overview**

The directors of the Bidder are responsible for the preparation and presentation of the Pro Forma Financial Information which should be read in conjunction with the underlying financial information from which it is derived, the Bidder's current intentions regarding Eureka set out in **Section 7**, the potential risk factors set out in **Section 11**, Aspen Group's accounting policies, and other information contained within this Bidder's Statement.

The Pro Forma Financial Information has been presented in an abbreviated form and for illustrative purposes only. It does not contain all the presentation, disclosures and comparative information that are usually provided in an annual report (or half yearly report) prepared in accordance with the Corporations Act.

(ii) **Pro Forma Historical Statements of Financial Position**

The Combined Group Pro Forma Historical Statements of Financial Position have been prepared to illustrate the impact of transactions relating to the Aspen Offer as if they occurred on 31 December 2023 and is based on the following information:

- audited Aspen Group historical statement of financial position as at 31 December 2023 (as lodged with the ASX on 22 February 2024);
- audited Eureka historical statement of financial position as at 31 December 2023 (as lodged with the ASX on 29 February 2024); and
- other significant transactions, adjustments and events that have occurred post 31 December 2023 for Aspen Group and Eureka based on publicly available information and other additional information considered necessary to reflect the Directors pro forma adjustments.

The Pro Forma Historical Statements of Financial Position have been prepared assuming a range of scenarios:

- acquisition of 100% of Eureka; and
- acquisition of 50.1% of Eureka.

The Pro Forma Historical Statements of Financial Position, which assume that 100% of the Eureka Performance Rights have been converted into Eureka Shares but no Eureka Shares have been issued under the Eureka Dividend Reinvestment Plan, have been prepared in accordance with the recognition and measurement principles contained in AAS (including Australian Accounting Interpretations) adopted by the Australian Accounting Standard Board, which comply with the recognition and measurement principles of the International Accounting Standards Board and interpretations adopted by the International Accounting Standards Board.

The Pro Forma Historical Statements of Financial Position have been prepared in accordance with and should be read in conjunction with the accounting policies detailed in Aspen Group's Annual Report for the year ended 30 June 2023.

In preparing the Pro Forma Historical Statements of Financial Position, the Bidder has reviewed publicly available information to identify accounting policy differences where the impact is potentially material to the Combined Group and can be reliably estimated. Although no material differences were identified, significant accounting policy differences may be identified after the acquisition of Eureka. A preliminary assessment has not identified any significant material differences between the accounting policies adopted by Aspen Group and Eureka.

The Pro Forma Historical Statements of Financial Position are provided for illustrative purposes only and are not presented as being necessarily indicative of the Combined Group's future financial position.

(iii) **Pro Forma Forecast Financial Information**

The Aspen Board has considered the requirements of applicable law and practice, including ASIC Regulatory Guide 170, in concluding that forecast financial statements for the Combined Group cannot be provided as it does not have a reasonable basis for such forecasts.

As an alternative, Aspen has proposed the following:

- pro-forma forecast of underlying EPS for the Combined Group for the year ending 30 June 2024 and assuming Aspen is successful in acquiring either 100% or 50.1% of Eureka Shares (**Forecast Underlying EPS**); and
- pro-forma forecast DPS for the Combined Group for the year ending 30 June 2024 and assuming Aspen is successful in acquiring either 100% or 50.1% of Eureka Shares (**Forecast DPS**).

Underlying EPS is a non-IFRS measure that is determined to present, in the opinion of the Aspen Board the operating activities of Aspen Group in a way that appropriately reflects Aspen Group's underlying operating performance. Refer to Aspen Group's latest financial reports released to the ASX for the full definition of EPS.

DPS is based on Aspen's minimum guidance of 8.50 cents which is at the low end of Aspen's policy to distribute 65-75% of underlying EPS based on guidance of 13.00-13.50 cents. Aspen does not expect its FY24 DPS to change as a consequence of the Aspen Offer. The entire distribution is expected to be paid by Aspen Property Trust and a high proportion of the distribution is expected to be tax deferred.

The Pro Forma Forecast Financial Information is based on the following information or assumptions:

- in connection with the Forecast Underlying EPS:
 - FY24 EPS of 13.00-13.50 cents per Aspen Security for Aspen Group being Aspen Group's disclosed EPS guidance;
 - FY24 EPS of 2.80 cents per Eureka Share for Eureka which is an assumption made by Aspen after considering Eureka's 1HFY23 accounts and in the absence of specific guidance from Eureka for FY24;⁴⁰
 - cost synergies of \$2.2 million per annum by merging the companies, mainly related to eliminating duplication of board and administrative functions, noting that a large portion of Eureka's unallocated corporate overheads are required to operate its properties, management contracts, and new fund;⁴¹
 - total transaction costs of \$10.6 million for the Combined Group;
 - information contained within ASX announcements made by Eureka; and
 - other additional information considered necessary to reflect the directors' pro forma adjustments set out in **Section 8.3(c)**.
- in connection with the Forecast DPS:
 - FY24 DPS of 8.50 cents per Aspen Security being Aspen Group's minimum DPS guidance for FY24, noting Aspen Group has declared a first half FY24 DPS of 4.25 cents;

⁴⁰ See footnote 11.

⁴¹ Assuming the Bidder acquires at least 90% of Eureka Shares during the Offer Period, and becomes entitled to compulsorily acquire the remaining Eureka Shares on issue.

- estimated FY24 DPS of 1.40 cents per Eureka Share;⁴² and
- other additional information considered necessary to reflect the directors' pro forma adjustments set out in **Section 8.3(c)**.

In preparing the Pro Forma Forecast Financial Information, Aspen has been subject to certain limitations. In particular, Eureka has not provided access to non-public information to assist Aspen in completing the Bidder's Statement and Pro Forma Forecast Financial Information contained therein. Aspen has needed to rely on publicly available financial information to assist in completion of the Pro Forma Forecast Financial Information and the Pro Forma Forecast Financial Information should be read in conjunction with the assumptions and pro forma adjustments underlying their preparation as set out in **Sections 8.3(c)**.

The Pro Forma Forecast Financial Information presented in this statement is provided for illustrative purposes and may not reflect the financial performance or position of the Combined Group that would have resulted had the acquisition of Eureka actually been completed on the dates indicated. Importantly, the Pro Forma Forecast Financial Information and other forward looking statements (including in this **Section 8.3**) involve known and unknown risks, uncertainties and other important factors which may materially impact on actual outcomes, many of which are outside the control of Aspen Group. These factors may cause the actual results, performance or achievements of Aspen Group and the Combined Group to materially differ from the results, performance or achievements expressed or implied by the Pro Forma Forecast Financial Information. Such risks, uncertainties and other important factors include, among other things, those matters set out in **Section 11**. Accordingly, you are cautioned not to place undue reliance on such financial information.

The Pro Forma Forecast Financial Information and other forward looking statements (including in this **Section 8.3**) do not constitute an express or implied representation that future financial performance or distributions (or any other matter) will be achieved in the amounts or by the dates indicated and are presented merely as a guide to assist Eureka Shareholders in assessing the Offer.

⁴² Eureka has not publicly disclosed distribution guidance for FY24. Eureka's annualised DPS is 1.40 cents based on its most recent half year dividend of 0.70 cents per share for the half year ending 31 December 2023.

- d. Adjusting for the deferred tax impact on Aspen's current 13.6% stake in Eureka consolidated

- f. Acquisition elimination entries to reflect Eureka acquisition and acquisition costs incurred

(iii) Post balance date events

This section outlines the post-balance date events for both Aspen Group and Eureka which the Bidder's directors believe are material in providing Eureka Shareholders a relevant and accurate presentation of the financial position of the Combined Group.

- On 29 February 2024 Aspen paid a distribution of 4.25 cents per security. Aspen's 31 December 2023 accounts included a provision for the total amount of the distribution of \$7.65 million.
- On 1 March 2024 Aspen settled the acquisition of 81 apartments in Burwood, VIC at a total cost of approximately \$8.6 million. Expected net rental yield is over 8%. The purchase was initially funded with debt which is expected to be repaid with proceeds recycled from property sales.
- Aspen is nearing completion of the CoVE Maylands project and has commenced a leasing program which is progressing well.
- Aspen has continued to sell some of its houses in Perth and has commenced a sales program for some of its houses at Burleigh Heads. Aspen expects sales prices to be at or above book value and reflect approximately 3% net rental yield. Aspen expects total proceeds from property sales to be at least the amount of the cost of acquiring the Burwood, VIC apartments.
- On 29 February 2024 Eureka declared a dividend of 0.70 cents per share. Eureka's 31 December 2023 accounts did not include a provision for the total amount of the dividend of \$2.11 million.
- Eureka has announced that it is nearing completion of its Brassall project and that it has been funding it with equity and debt.

Notes:

1. Based on Aspen's treatment of expenses as underlying or non-underlying in its definition of Underlying Operating Earnings.
2. Aspen believes Eureka's underlying profit before tax as reported in its financial results presentations does not include Eureka's share of interest expense in its joint venture.

3. Aspen has not formed an opinion on the value of Eureka's intangible management contracts under Aspen's ownership and therefore the amount of amortisation that would be applicable for Aspen's underlying earnings.
4. Aspen includes gross rent payable for its office premises as an underlying expense in corporate overheads and therefore treats interest on lease liability and depreciation for right of use assets of office premises as non-underlying to avoid double-counting.

Pro forma adjustments and assumptions for 100% ownership

- a. Aspen's 13.6% stake in Eureka consolidated
- b. Aspen's estimate of overhead cost synergies of \$2.20 million and reclassification of Eureka's interest on lease liabilities and depreciation of right of use assets to corporate overheads, consistent with Aspen's treatment of these expenses
- c. Total transaction costs of the Combined Group of \$10.6 million funded with debt at an interest cost of 6.5%
- d. Assumes Aspen's historic tax losses are sufficient to shelter the Combined Group's pro forma taxable income

Notes:

1. Based on Aspen's treatment of expenses as underlying or non-underlying in its definition of underlying operating earnings

2. Aspen believes Eureka's underlying profit before tax as reported in its financial results omits Eureka's share of interest expense in its joint venture
3. Aspen has not formed an opinion on the value of Eureka's intangible management contracts under Aspen's ownership and therefore the amount of amortisation that would be applicable for Aspen's underlying earnings
4. Aspen includes gross rent payable for its office premises as an underlying expense in corporate overheads and therefore treats interest on lease liability and depreciation for right of use assets of office premises as non-underlying to avoid double-counting

Pro forma adjustments and assumptions for 50.1% ownership

- a. Aspen's 13.6% stake in Eureka consolidated
- b. Aspen's estimate of overhead cost synergies of \$0 and reclassification of Eureka's interest on lease liabilities and depreciation of right of use assets to corporate overheads, consistent with Aspen's treatment of these expenses
- c. Total transaction costs of the Combined Group of \$7.5 million funded with debt at an interest cost of 6.5%
- d. Assumes Aspen's historic tax losses are sufficient to shelter the enlarged group's pro forma taxable income
- e. The share of Eureka's earnings attributable to the 49.9% minority shareholders of Eureka adjusted for the assumed \$4.75 million increase in debt in Eureka to fund its transaction costs at an interest cost of 6.5%

(iii) Post balance date events

This section outlines the post-balance date events for both Aspen Group and Eureka which the Bidder's directors believe are material in providing Eureka Shareholders a relevant and accurate presentation of the financial position of the Combined Group.

- On 29 February 2024 Aspen paid a distribution of 4.25 cents per security. Aspen's 31 December 2023 accounts included a provision for the total amount of the distribution of \$7.65 million.
- On 1 March 2024 Aspen settled the acquisition of 81 apartments in Burwood, VIC at a total cost of approximately \$8.6 million. Expected net rental yield is over 8%. The purchase was initially funded with debt which is expected to be repaid with proceeds recycled from property sales.
- Aspen is nearing completion of the CoVE Maylands project and has commenced a leasing program which is progressing well.
- Aspen has continued to sell some of its houses in Perth and has commenced a sales program for some of its houses at Burleigh Heads. Aspen expects sales prices to be above book value and reflect approximately 3% net rental yield. Aspen expects total proceeds from property sales to be at least the amount of the cost of acquiring the Burwood, VIC apartments.
- On 29 February 2024 Eureka declared a distribution of 0.70 cents per share. Eureka's 31 December 2023 accounts did not include a provision for the total amount of the distribution of \$2.11 million.
- Eureka has announced that it is nearing completion of its Brassall project and that it has been funding it with equity and debt.

(iv) Forecast DPS for year ending 30 June 2024 assuming 100% and 50.1% ownership

Aspen has provided minimum distribution guidance for FY24 of 8.50 cents per security and has already paid an interim distribution of 4.25 cents per security. The 8.50 cents per security guidance equates to 63-65% of Aspen's FY24 EPS guidance of 13.00-13.50 cents per security which is at or below the bottom end of Aspen's policy to distribute 65-75% of earnings.

Given Aspen's pro forma FY24 EPS is expected to remain in the range of 13.00-13.50 cents per security under both the 100% and 50.1% ownership scenarios, Aspen continues to expect to pay a minimum distribution for FY24 of 8.50 cents per security.

The implied minimum final DPS of 4.25 cents per security equates to only \$2.9 million of additional distribution that would be paid by Aspen to Eureka shareholders under the 100% ownership scenario. This additional distribution represents only approximately 12% of Aspen's expected FY24 earnings.

8.4 Capital Structure

Set out below is the current capital structure of Aspen Group, and the immediate post-Aspen Offer capital structure under the scenario whereby Eureka becomes a wholly-owned subsidiary of Aspen Group, and whereby 50.1% of Eureka is held by Aspen Group.

Unless otherwise expressly stated, all statements in this Bidder's Statement about financial metrics per Aspen Security post the Aspen Offer (including EPS, DPS and NAV) assume that all Eureka Performance Rights have been vested and converted into Eureka Shares but that no additional Eureka Shares are issued including under the Eureka Dividend Reinvestment Plan.

9 Sources of Offer Consideration

9.1 Consideration under the Offer

The consideration for the acquisition of the Eureka Shares under the Aspen Offer will be satisfied wholly by the issue of Aspen Securities.

⁴³ Assumes: (a) no Aspen Securities are issued in respect of the 41,157,590 Eureka Shares held by the Bidder; (b) all Eureka Performance Rights have been vested and converted into Eureka Shares; and (c) no additional Eureka Shares are issued after the Last Practicable Date including under the Eureka Dividend Reinvestment Plan.

⁴⁴ Assumes: (a) no Aspen Securities are issued in respect of the 41,157,590 Eureka Shares held by the Bidder; (b) all Eureka Performance Rights have been vested and converted into Eureka Shares; and (c) no additional Eureka Shares are issued after the Last Practicable Date including under the Eureka Dividend Reinvestment Plan.

Based on the number of Eureka Shares on issue as at the date of the Bidder's Statement, and assuming that:

- acceptances are received by the Bidder under the Aspen Offer in respect of all Eureka Shares on issue as at the date of this Bidder's Statement (other than those Eureka Shares it already owns); and
- all of the Eureka Performance Rights issued by Eureka as at the date of this Bidder's Statement vest, are exercised and the holders of such Eureka Performance Rights accept the Aspen Offer,

then the maximum number of Aspen Securities that Aspen Group would be required to issue under the Aspen Offer, if acceptances are received for all of the Eureka Shares, is 67,959,474 Aspen Securities (subject to rounding under **Section 15.2(c) (Maximum Total Consideration)**). The Maximum Total Consideration does not provide for any Eureka Shares issued under the Eureka Dividend Reinvestment Plan. As at the date of this Bidder's Statement it is not possible to identify the specific terms of the Eureka Dividend Reinvestment Plan (i.e. the pricing) or shareholder participation under the Eureka Dividend Reinvestment Plan.

Aspen Group, including the Bidder and Responsible Entity of the Aspen Property Trust have each confirmed that it will issue on demand, the Aspen Securities necessary to satisfy the Maximum Total Consideration and the Offer Consideration in respect of Eureka Shares issued under the Eureka Dividend Reinvestment Plan. As at the date of this Bidder's Statement, the Bidder is not aware of any reason why Aspen Group would not be able to issue the Maximum Total Consideration and the Offer Consideration in respect of Eureka Shares issued under the Eureka Dividend Reinvestment Plan.

9.2 Other costs

Aspen will fund its transaction costs in connection with the Offer using its existing cash reserves.

10 Tax considerations

10.1 Overview

Section 10 is a general summary of the Australian income tax, GST and stamp duty considerations for Eureka Shareholders who accept the Offer.

This summary is general in nature and does not provide an exhaustive consideration of all possible Australian income tax, GST and stamp duty implications that could apply to Eureka Shareholders who accept the Offer as they may vary based on each Eureka Shareholders' facts and circumstances. This summary only considers tax implications from an Australian perspective and does not consider any tax implications in jurisdictions outside of Australia.

This summary only considers Eureka Shareholders who are individuals, trusts, complying superannuation entities and corporate shareholders that hold their Eureka Shares on capital account for Australian income tax purposes. In particular, it does not consider the implications for Eureka Shareholders that hold their Eureka Shares as trading stock or otherwise on revenue account. This summary is intended only as general guidance to the Australian tax implications of accepting the Offer and is based upon Australian taxation law and administrative practice in effect as at the date of this Bidder's Statement. **Section 10** does not constitute tax advice and any specific facts or circumstances that may apply to specific Eureka Shareholders have not been considered. As the potential tax consequences of accepting the Offer depends on each Eureka Shareholder's individual facts and circumstances, all Eureka Shareholders are advised to seek independent professional advice with respect to their own Australian and foreign tax consequences of accepting the Offer according to their own particular facts and circumstances.

10.2 Australian Tax Resident Shareholders

(a) CGT event

Acceptance of the Offer will involve the disposal by Eureka Shareholders of their Eureka Shares in exchange for Aspen Securities. This disposal of the Eureka Shares will constitute a CGT event for Australian CGT purposes.

The date for disposal for CGT purposes should be the date the contract to dispose of the Eureka Shares is formed, which will be the date the Eureka Shareholder accepts the Offer.

If a Eureka Shareholder does not accept the Offer and their Eureka Shares are compulsorily acquired in accordance with Part 6A.1 of the Corporations Act, the date of disposal for CGT purposes should be the date when Aspen becomes the beneficial owner of the Eureka Shares.

(b) Availability of partial scrip for scrip roll-over relief

Assuming that Aspen becomes the owner of 80% or more of the Eureka Shares, a Eureka Shareholder that makes a capital gain should be eligible for CGT scrip for scrip roll-over relief to the extent that they receive eligible proceeds for the disposal of their Eureka Shares.

Each Aspen Security comprises two separate CGT assets; a share in Aspen Group Limited and a unit in Aspen Property Trust. For the purposes of CGT scrip for scrip roll-over relief, the Aspen Group Limited share component of each Aspen Security is eligible proceeds and the Aspen Property Trust unit component of each Aspen Security is ineligible proceeds.

The portion of the Aspen Security that is eligible proceeds will be the percentage of the value of the Aspen Security represented by the shares in Aspen Group Limited (**Aspen Company Percentage**). The portion of the Aspen Security that is ineligible proceeds will be the percentage of the value of the Aspen Security represented by the units in Aspen Property Trust (**Aspen Trust Percentage**). One reasonable method of apportionment may be the net tangible asset value of Aspen Group Limited as a percentage of the net tangible asset value of the Aspen Group. As at 31 December 2023, based on the relative net tangible asset value of Aspen, the Aspen Company Percentage was 46.8% and the Aspen Trust Percentage was 53.2%.

If Aspen does not become the owner of 80% or more of the Eureka Shares or a capital loss arises for a Eureka Shareholder on disposal, CGT scrip for scrip roll-over relief does not apply.

(c) Consequences of Choosing CGT Scrip for Scrip Roll-over Relief

Broadly, if an Eureka Shareholder makes a capital gain and chooses to obtain partial CGT scrip for scrip roll-over relief, the consequences should be that:

- The Aspen Company Percentage of the capital gain made on the disposal of Eureka Shares will be disregarded.
- The Aspen Trust Percentage of the capital gain made on the disposal of Eureka Shares will be included in assessable income.
- The initial cost base of an Aspen Security acquired will be:
 - in respect of the share in Aspen Group Limited – the cost base of the Eureka Share disposed of multiplied by the Aspen Company Percentage; and
 - in respect the unit in Aspen Property Trust, the value taken into account as disposal proceeds of the Eureka Share.
- The Eureka Shareholder will be taken to have acquired the Aspen Group Limited component of their Aspen Securities at the time they originally acquired their Eureka Shares.
- The Eureka Shareholder will be taken to have acquired the Aspen Property Trust component of their Aspen Securities at the time of CGT event attributable to the disposal of the Eureka Shares.

(d) Calculation of capital gain or loss

A capital gain will be made to the extent the capital proceeds received by the Eureka Shareholder from the disposal of their Eureka Shares (being the market value of the Aspen Securities at the date of the CGT event) exceeds the cost base of those Eureka Shares. A capital loss will be made to the extent the capital proceeds received by the Eureka Shareholder from the disposal of their Eureka Shares are less than the reduced cost base of those shares.

The capital proceeds received on the disposal of the Eureka Shares should be equal to the market value of the 0.26 Aspen Securities received by Eureka Shareholders for each Eureka Share. The value of those Aspen Securities should be their market value on the date of the CGT event applicable to the Eureka Shareholder.

Generally the cost base will be equal to the cost of acquiring the Eureka Share, plus any incidental costs of acquisition and disposal (such as brokerage fees and legal costs). The reduced cost base of a Eureka Share is determined similarly to the cost base. However, depending on the Eureka Shareholder's particular individual facts and circumstances there may be some differences in the calculation of the reduced cost base.

Individuals, complying superannuation entities or trusts that make a capital gain (to which rollover does not apply) and have held Eureka Shares for at least 12 months, should be entitled to discount the amount of that capital gain after applying any available capital losses.

The CGT discount is:

- (i) 50% if the Eureka Shareholder is an individual or trust; and
- (ii) 33 1/3% if the Eureka Shareholder is a complying superannuation entity.

For trusts, the ultimate availability of a CGT discount will depend on a beneficiary's entitlement to the discount. The CGT discount is not available to Eureka Shareholders that are companies.

Where a capital loss from the disposal of the Eureka Shares is realised, this may be used to offset capital gains realised in that or subsequent income years (subject to satisfying certain conditions). Capital losses cannot however be deducted against ordinary income.

10.3 Foreign tax resident Eureka Shareholders

Section 10.3 applies to Eureka Shareholders that are not residents of Australia for Australian income tax purposes. It does not apply to non-resident Eureka Shareholders who have held their Eureka Shares at any time in carrying on a business at or through a permanent establishment in Australia.

Eureka Shareholders that are non-residents should only be subject to Australian income tax on disposal of those shares if those shares are taxable Australian property. The Eureka Shares should only be taxable Australian property if:

- more than 50% of the market value of Eureka's assets are taxable Australian property (being direct and indirect interests in Australian real property); and
- the shareholder has a non-portfolio interest in Eureka.

A non-portfolio interest exists where the shareholder, together with its associates holds a 10% or greater interest in Eureka:

- at the time of the CGT event; or
- for a period of 12 months within the 24 months leading up to the CGT event.

As at the date of this Bidder's Statement, Aspen expects that more than 50% of the market value of Eureka's assets are taxable Australian property.

If a non-resident Eureka Shareholder's Eureka Shares are taxable Australian property:

- CGT rollover may be available in respect of the Aspen Group Percentage of any capital gain in the manner described above, but only if the shares in Aspen Group Limited are also taxable Australian property; and
- the CGT discount may be applicable if the Eureka Shareholder acquired their Eureka Shares on or before 8 May 2012.

10.4 Foreign resident capital gains withholding (FRCGW)

If a Eureka Shareholder has Eureka shares which qualify as an indirect Australian real property interest, Aspen may be required to withhold and remit to the ATO 12.5% of the consideration otherwise payable to you under the Offer.

The FRCGW provisions place obligations on the purchaser of non-portfolio (10% or greater) shareholdings in a company whose principal assets are taxable Australian property if the market value of that shareholding is \$750,000 or more.

The obligation to withhold 12.5% of the purchase price and remit that amount to the ATO is not required where the shareholder provides either a Clearance Certificate from the Commissioner of Taxation (which attests to their Australian tax residency) or a Vendor Declaration that the entity is and will be an Australian tax resident or the membership interest is not an indirect Australian real property interest.

Eureka Shareholders who have an amount withheld should generally be entitled to a credit for the amount withheld upon lodging an Australian income tax return.

10.5 GST

GST should not be payable by Eureka Shareholders on the acquisition of their Eureka Shares by Aspen, or on the receipt of Aspen Securities as consideration under the Offer. Eureka Shareholders who are registered for GST may not be entitled to input taxed credits (or may only be entitled to reduced input taxed credits) for any GST incurred on costs associated with the disposal of their Eureka Shares.

10.6 Duty

No Australian stamp duty should be payable by Eureka Shareholders on the sale of their Eureka Shares to Bidder under the Offer.

No Australian stamp duty should be payable on the receipt of Aspen Securities as consideration for acceptance of the Offer if, as currently expected:

- i. Bidder and Aspen Property Trust are both considered to be relevantly “listed” for stamp duty purposes;
- ii. the percentage of total shares/units that will be issued in Bidder and Aspen Property Trust as consideration for acceptance of the Offer will be less than 90%; and
- iii. no person and their related persons will hold 90% or more of the shares/units in the Bidder / Aspen Property Trust.

11 Potential risk factors

11.1 Overview

In deciding whether or not to accept the Aspen Offer, you should read this entire Bidder's Statement carefully. You should also carefully consider the risk factors outlined in this **Section 11** and your personal circumstances. This **Section 11** is general only and does not take into account your individual objectives, financial situation or needs.

If the Aspen Offer becomes unconditional, Eureka Shareholders who accept the Aspen Offer (other than an Ineligible Foreign Shareholder) will become Aspen Securityholders.

This **Section 11** outlines:

- the specific risks that are common to the existing businesses of Aspen Group and Eureka, and which will therefore be risks to which the Combined Group will be exposed (see **Section 11.2**);
- the risks that arise from the Aspen Offer and the creation of the Combined Group (see **Section 11.3**);
- other sector risks (see **Section 11.4**);
- the risk of the Aspen Group trust structure (see **Section 11.5**); and
- other general risks (see **Section 11.6**).

Many of these risks are outside the control of Aspen Group and Eureka. Although the Combined Group will have in place a number of strategies to minimise exposure to, and mitigate the effects of, some of the risks outlined in this section, there can be no guarantee that such arrangements will protect the Combined Group from these risks.

There is no guarantee or assurance that the risks will not change or that other risks or matters that may adversely affect the business of Aspen Group and the sectors in which it operates will not emerge. Before accepting the Aspen Offer, you should be satisfied that you have a sufficient understanding of the risks involved having regard to your investment objectives, financial circumstances and taxation position and seek advice from your accountant, financial adviser, stockbroker, lawyer or other professional adviser.

11.2 Risks specific to the Combined Group

This section identifies the key risks that may affect the future operating and financial performance of the Combined Group. These risk factors are not exhaustive of the risks faced by potential investors in Aspen Securities.

If any of the following risks materialise, the Combined Group's business, financial condition and operational results are likely to suffer. In this case, the trading price of Aspen Securities may fall and you may lose all or part of your investment, and/or the distributable income of Aspen Group may be lower than expected, with distributions being reduced or being cut to zero.

(a) Occupancy and rental rate levels

Occupancy and rental rate levels can have a direct impact on the Combined Group's net income, which in turn may impact returns to Combined Group securityholders. Rental and ancillary income is variable and occupancy and rental rate levels are dependent upon various market conditions and other risks outlined in this **Section 11**.

Additionally, competing accommodation may be established in close proximity to the existing properties of the Combined Group, or properties to be acquired. This may have a negative impact on occupancy and rental rate levels at the properties of the Combined Group which reduces revenue and could adversely impact returns to Combined Group securityholders.

(b) Property valuation risk

The value of the properties of the Combined Group may fluctuate from time to time due to market and other conditions. Factors relevant to determining value include supply, demand and the state of the general property market, and these may change significantly over time for a variety of reasons. This includes both negative impacts (such as declines in occupancy and rental rates), as well as positive impacts (such as obtaining development approvals on excess land, or improvements in occupancy or rental rates).

External valuations and directors' valuations represent only the analysis and opinion of such persons at a certain date and they are not guarantees of present or future values. Changes in the value of the property portfolio of the Combined Group could adversely or positively impact returns to the Combined Group securityholders.

(c) Tenancy risk

There is a risk that tenants with medium or long-term leases may be unable or unwilling to honour their lease obligations. This may result in a reduction in the Combined Group income and increased costs associated with recovering outstanding amounts and re-letting the tenancy, each of which could reduce returns to the Combined Group securityholders. In addition, there is a risk that tenants may not renew leases that currently exist, and which the Combined Group assumes may be renewed.

(d) Property expenses

Increases in property expenses and the cost of managing the properties of the Combined Group may impact negatively on profitability and could reduce returns to the Combined Group securityholders.

(e) Capital expenditure

There is a risk that capital expenditure requirements could be more expensive and produce poorer outcomes than expected, resulting in increased funding requirements and potentially a lower net asset value and/or earnings.

(f) Purchasing additional properties

The Combined Group expects to acquire additional properties over time; however, there is no guarantee additional properties can be acquired nor that they will produce the same return on investment as the existing portfolio of the Combined Group. Acquisitions of additional properties may require the raising of new capital. If additional properties are acquired and they do not produce the same or a higher return on investment as the existing portfolio of the Combined Group, this could reduce returns to Combined Group securityholders.

Further, whilst it is the Aspen Group's policy to conduct thorough due diligence in relation to any property acquisition, there are inherent risks in such an acquisition. These risks could include lower than expected yields, unexpected problems or other latent liabilities.

(g) Property illiquidity risks

Property assets are by their nature illiquid investments. Therefore, it may not be possible for the Combined Group to dispose of its property assets in a timely manner should it decide or need to do so, and the Combined Group may incur selling costs in disposing of these properties. In addition, the ongoing value of properties held by the Combined Group may fluctuate due to a number of factors including rental levels, occupancy assumptions, vacancy periods, rental incomes and capitalisation rates, all of which may change for a variety of reasons. Valuations represent only the analysis and opinion of qualified people at a certain point in time and there is no guarantee that a property will achieve a capital gain on its sale or that the value of the property will not fall as a result of the assumptions on which the relevant valuations are based proving to be incorrect.

(h) Retention of key personnel

The Combined Group will be dependent upon a number of key management and executive personnel to manage the day-to-day requirements of the business. The loss of the services of one or more key personnel could have an adverse effect on the Combined Group. The Combined Group's ability to manage the Combined Group's properties will depend in part on the efforts of these individuals.

Additionally, some of Eureka's employees are qualified and experienced with in-depth industry knowledge. There is a risk that the Aspen Offer may adversely affect the ability of the Combined Group to retain key employees and/or attract new employees with appropriate qualifications and experience at comparable cost, which may negatively affect the financial performance of the Combined Group.

(i) Environmental risk

As an owner of real property, the Combined Group will be subject to various laws and regulations regarding environmental matters. These laws vary by jurisdiction and are subject to change. Current and future environmental laws could impose significant costs or liabilities on the Combined Group. For instance, under certain environmental laws, current or former owners or operators of real property may become liable for costs and damages resulting from soil or water contaminated by hazardous substances (for example, as a result of leaking underground storage tanks). Under these laws, an owner or operator may be liable regardless of whether they knew of, or were responsible for, the presence of such substances. These laws may result in significant unforeseen costs to the Combined Group, reduce the value of affected properties, potentially impact earnings and distributions, and impair its ability to sell or rent real property or to borrow money using contaminated property as collateral, on acceptable terms or at all. The Combined Group may be required to comply from time to time with environmental management issues that arise from factors beyond its control.

(j) Borrowing risk

Loan facilities are obtained for fixed periods of time. On expiry of any loan facility a new facility may not be available or the terms of that facility may not be the same. If the existing facilities cannot be refinanced at maturity or new facilities are not entered into, the Combined Group may need to sell properties to meet the Combined Group's debt repayment obligation, and there is a risk that the sale prices may be less than the book value of the properties of the Combined Group. Aspen has recently refinanced its bilateral debt facility with a new syndicated debt facility with an increased limit of \$210 million and term of 3 years ending 15 December 2026.

(k) Limitations on the ability of the Combined Group to raise further capital

The ability of the Combined Group to raise capital on favourable terms for future refinancing and capital expenditure depends on a number of factors including general economic and political conditions, the state and volatility of capital markets, and the reputation, performance and financial strength of the Combined Group. Limitations on the ability of the Combined Group to raise capital could reduce returns to the Combined Group securityholders.

(l) Leverage risk

As the Combined Group uses leverage (invests in a way that magnifies the gain or loss it would normally receive from a given investment or group of investments), its net asset value is likely to be more volatile and the risk of large losses is greater.

(m) Concentration risk

When investments are concentrated in a smaller number of investments or investment types, the failure of a single investment will have a material impact on the price of the Aspen Securities. Similarly, where the investments are concentrated in a single industry sector or geographic location, there is a risk that circumstances may arise which impact the sector or geography as a whole and therefore have an adverse impact on the price of the Aspen Securities.

The Combined Group will seek, in a manner consistent with its strategy, to maintain a diversified portfolio. However, at certain times the portfolio may be more concentrated in particular types of investments.

(n) **General counterparty risk**

The Combined Group could lose money if an entity with which it does business becomes unwilling or unable to meet its obligations to the Combined Group (as applicable).

11.3 Risks relating to the Aspen Offer and the creation of the Combined Group

In addition to the risk factors set out in **Section 11.2**, the following risks may arise as a result of the Aspen Offer and/or the creation of the Combined Group.

(a) **Acquisition of less than 100% of Eureka**

If the Bidder acquires less than 90% of all of the Eureka Shares on issue under the Aspen Offer, this would prevent the Bidder from compulsorily acquiring all remaining Eureka Shares.

Certain benefits regarding the Combined Group outlined in **Section 1**, including the cost synergies achieved as between the entities, assume that Eureka becomes a wholly-owned subsidiary of the Bidder. If the Bidder does not acquire at least 90% of Eureka Shares during the Offer Period, and therefore does not become entitled to compulsorily acquire the remaining Eureka Shares on issue, some of these benefits that would otherwise accrue to Eureka Shareholders that have accepted the Offer may not be fully realised.

Eureka Shareholders should also note that there is a risk that if the Aspen Offer completes and the Bidder does not acquire 100% of Eureka Shares, holders who do not accept the Aspen Offer become holders in a less liquid investment (and consequently Eureka Shares may trade below their current pricing levels or the implied value of the Aspen Offer).

(b) **Issue of Aspen Securities as consideration**

Eureka Shareholders are being offered Aspen Securities as consideration under the Aspen Offer. As a result, the value of the consideration will fluctuate depending upon the market value of Aspen Securities. Accordingly, the market value of Aspen Securities at the time you receive them may vary significantly from their market value on the date of your acceptance of the Aspen Offer.

(c) **Sale of Aspen Securities**

Under the Aspen Offer, the Aspen Group will issue a significant number of new Aspen Securities. Some Eureka Shareholders may not intend to continue to hold their Aspen Securities and may wish to sell them. There is a risk that increased sales of Aspen Securities may adversely impact on the price of, and demand for, Aspen Securities.

(d) **Counterparty change of control risk**

Eureka and Eureka Group Members may be parties to agreements that contain pre-emptive or default rights or change of control provisions that may be triggered if the Bidder acquires Eureka Shares representing a majority of the voting rights of Eureka or if Eureka is delisted.

These provisions, if triggered, could have negative consequences including enabling a counterparty to terminate a contract, accelerate payment obligations or require a Eureka Group entity to renegotiate a contract or dispose of an interest.

The Bidder has not been granted any form of due diligence access and is therefore unable to presently quantify the potential counterparty risk. To the extent there are any material risks known to Eureka Directors, they must be disclosed in the Target's Statement to be issued by Eureka.

(e) **Integration risks**

There is a risk that implementation and other one-off costs of integration may be substantial or greater than reasonably anticipated. This could have a material adverse impact on the Combined Group's financial position and performance.

The transition of information systems and data, technical, financial and legal information and resources may not proceed smoothly and may divert management's attention from managing the Combined Group's businesses. There is a risk that revenue streams or operations could be disrupted or that costs associated with the transition may be greater than expected, which could adversely affect the Combined Group's financial position and performance.

Additionally, such integration may take longer than expected and anticipated efficiencies, benefits and potential synergies of that integration may be less than targeted.

(f) Assumptions by Bidder

The Bidder has made certain assumptions in estimating EPS and EPS accretion of the Combined Group on a pro forma basis for the year ending 30 June 2024. See **Section 1.1.2** of this Bidder's Statement. There is a risk that the assumptions may not be accurate and the EPS and EPS accretion per security on a pro forma basis for the year ending 30 June 2024 may be higher or lower than estimated.

(g) Impairment of goodwill and other intangible assets

The financial statements of the Combined Group will be prepared in conformity with AAS and consistent with the current accounting policies of Aspen Group. Under AAS, intangible assets that have an indefinite useful life including goodwill, are not subject to amortisation and are reviewed annually for impairment. Individual assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an individual asset may not be recoverable. Changes to the carrying amounts of intangible assets of the Combined Group could have an adverse impact on the reported financial performance of the Combined Group.

(h) Accounting revisions may be required

Eureka has particular accounting policies and methods which are fundamental to how it records and reports its financial position and results of operations. The management of Eureka may have exercised judgement in selecting and applying certain accounting policies or methods which might have been reasonable under the circumstances yet might have resulted in reporting materially different outcomes than would have been reported under Aspen Group's policies and methods.

Some differences between Aspen Group's and Eureka's policies and methods have been identified to date. This includes Eureka's treatment of some of its information technology and branding expenses as non-underlying, abnormal, or one-off in nature, which Aspen may classify as normal underlying expenses of the business. The integration of Eureka's accounting functions may lead to revisions of these accounting policies, which may adversely impact the Combined Group's reported results of operations and/or financial position and performance.

(i) Reliance on public information

In preparing the information relating to Eureka contained in this Bidder's Statement, the Bidder has relied on publicly available information relating to Eureka. Risks may exist in relation to Eureka (which may affect the Combined Group) of which the Bidder may be unaware. However, as Eureka is an ASX-listed entity, any substantial threats to Eureka's business should have been disclosed pursuant to Eureka's periodic and continuous disclosure obligations.

If any material risks are known to Eureka's Directors, they must be disclosed in the Target's Statement to be issued by Eureka.

11.4 Other sector risks

In addition to the other risk factors set out in **Section 11**, the business activities of the Combined Group will be subject to various industry specific risks that may impact on the future performance of the Combined Group. Some of these risks can be mitigated by the use of safeguards and appropriate systems and controls, but some are outside the control of the Combined Group and cannot be mitigated.

The general risks to which participants in the property investment and development industry are exposed include the following (which you are currently exposed to through your holding of Eureka and will continue to be exposed to as an Aspen Securityholder).

(a) Property market risks

The Combined Group will be subject to the prevailing property market conditions in the sectors in which it operates. Adverse changes in market sentiment or market conditions may impact the Combined Group's ability to acquire, manage or develop assets, as well as the value of the Combined Group's properties and other assets. These could materially adversely impact upon the value, earnings, gearing levels and the carrying value of the assets of the Combined Group.

(b) Risks from investments

The value of properties held by the Combined Group may fluctuate from time to time due to fluctuations in the property market and to other conditions. Factors relevant to determining the value of the properties held by the Combined Group include the rental income generated from the properties, the occupancy levels at the properties and the property yield. The values of the properties are also affected by the expenses that are incurred by the Combined Group in managing and maintaining the properties.

Factors which may adversely impact upon returns generated by the properties include:

- the overall conditions in the national and local economy, such as changes to growth in gross domestic product, employment, inflation and interest rates;
- local real estate conditions, such as changes in the demand and supply for housing;
- the perception of prospective tenants regarding the attractiveness and convenience of the properties;
- changes in property laws and/or taxes;
- external factors including floods, fires, earthquakes, war, terrorist activities or other force majeure events;
- unforeseen capital expenditure; and
- investor demand and liquidity in investments.

The values of the properties held by the Combined Group may materially impact the value of the Combined Group.

(c) Competition

The Combined Group will face competition which could lead to, among others, the following adverse outcomes:

- oversupply of accommodation in the Combined Group's markets;
- excess competition and higher prices for new investment opportunities that are suited to the Combined Group;
- loss of tenants to competitors;
- a reduction in rents; and
- loss of key personnel to competitors.

(d) Fixed nature of costs

Many costs associated with the ownership and management of property assets are fixed in nature. The values of properties (and the value attributed to the Combined Group) may be adversely affected if the income from the asset declines and these fixed costs remain unchanged.

11.5 Risk related specifically to investing in the Aspen Property Trust

(a) Trust structure risk

Investing in any type of collective investment involves certain risks an investor would not face if investing in markets directly. Investors in the Aspen Property Trust could experience the following risks:

- the actions of other investors could interfere with orderly management of Aspen Property Trust and cause the net asset value of the Aspen Property Trust to fall;
- the investor cannot direct or influence how money is invested while it is in Aspen Property Trust;
- the buying and selling of investments by Aspen Property Trust may not be optimal for the tax efficiency of any given investor; and
- the Aspen Property Trust is subject to various investment laws and regulations that limit the use of certain securities and investment techniques that might improve performance.

In addition, there are risks associated with the structure of Aspen Property Trust, which include:

- the Investment Manager (acting as investment manager of the Aspen Property Trust) may at times find their obligations to the Aspen Property Trust to be in conflict with their obligations to other investment portfolios they manage (although in such cases, all portfolios will be dealt with equitably and currently the Investment Manager does not manage any other investment portfolios);
- the risk that Evolution breaches its AFSL or discontinues its business of acting as Responsible Entity of Australian managed investment schemes or for some other reason is forced to resign as Responsible Entity of the Aspen Property Trust in circumstances where a suitable replacement cannot be found, requiring the Aspen Property Trust to be wound up; and
- the risk that AFML breaches the conditions of its AFSL or discontinues its business of acting as Investment Manager of Australian managed investment schemes or for some other reason is forced to resign as Investment Manager of the Aspen Property Trust in circumstances where a suitable replacement cannot be found, requiring the Aspen Property Trust to be wound up.

(b) Conflict of interest risk

AFML may act as investment manager of other funds and mandates not described in this Bidder's Statement, and entities related to Evolution may act in various capacities (such as responsible entity, trustee and custodian) for other funds or accounts. AFML and Evolution have implemented policies and procedures to identify and where possible mitigate or avoid the conflict.

In addition, Evolution has in place governance frameworks, group policies and divisional procedures to ensure conflicts are identified and managed appropriately. These conflict policies are aimed at ensuring that conflicts involving individuals or related entities of Evolution are identified, reported, assessed and managed in a timely and appropriate manner in order to uphold the best interests of clients, members and shareholders. This ensures that Evolution and its related entities are adopting and promoting a culture of awareness and effective management of conflicts of interests when carrying out its operations. As part of the management of conflicts, Evolution maintains a conflicts of interest policy and register of corporate conflicts, including related party conflicts, when acting in multiple capacities. When such a conflict is identified, the register provides for certain controls to be utilised in order to manage this conflict. Examples of controls include engaging on 'arm's length' or third party terms, use of information barriers and compliance plans.

11.6 Other general risks

In addition to the other risk factors set out in **Section 11**, the business activities of the Combined Group will be subject to various general economic risks that may impact on the future performance of the Combined Group. Some of these risks can be mitigated by the use of safeguards and appropriate systems and controls, but some are outside the control of the Combined Group and cannot be mitigated.

(a) General economic conditions

The operating and financial performance of the Combined Group is influenced by a variety of general economic conditions and business conditions, including the level of inflation, interest rates and government fiscal, monetary and regulatory policies. Higher than expected inflation rates generally or specific to the property sector could be expected to increase costs. A prolonged deterioration in general economic conditions could materially and adversely affect the Combined Group's operations and/or financial position and performance.

(b) Equity market conditions

The market price of Aspen Securities will be affected by the financial performance of the Combined Group and other varied and often unpredictable factors influencing equity and credit markets generally. These factors include international stock markets, interest rates, domestic and international economic conditions, domestic and international political stability, investor sentiment, and the demand for equities generally.

(c) Taxation changes may occur

Changes in tax law (including goods and services taxes and stamp duties), or changes in the way taxation laws are interpreted may impact the tax liabilities of the Combined Group or the tax treatment of an Aspen Securityholder's investment. In particular, both the level and basis of taxation may change. In addition, an investment in Aspen Securities involves tax considerations which may differ for each Aspen Securityholder. Each prospective securityholder is encouraged to seek professional tax advice in connection with any investment in Aspen Group.

(d) Litigation and disputes

Disputes or litigation may arise from time to time in the course of business activities. There is a risk that material or costly disputes or litigation could adversely affect the Combined Group's financial performance and the value of Aspen Securities.

(e) Insurance

Aspen Group carries a range of insurance cover for various assets. However, there are certain events for which Aspen Group may not be able to maintain insurance cover. These events may include, but are not limited to, acts of war or political instability and catastrophic events such as floods.

(f) Occupational health and safety

Failure to comply with the necessary occupational health and safety legislative requirements across the jurisdictions in which the Combined Group operates could result in fines, penalties and compensation for damages as well as reputational damage.

(g) Foreign exchange/currency risk

All information in this Bidder's Statement is presented in Australian dollars. Aspen Securityholders who reside outside of Australia, or who rely on funding denominated in a currency other than the Australian dollar, should be aware of the impact that fluctuations in exchange rates may have on the value of their investments in, and returns from, Aspen Group.

(h) Changes in accounting policy

Aspen Group must report and prepare financial statements in accordance with prevailing accounting standards and policies. There may be changes in these accounting standards and policies in the future which may have an adverse impact on Aspen Group's financial performance and financial position as reported in its financial statements.

(i) **Regulatory risk**

The Combined Group may be affected by government legislation and regulations (including environmental and industrial relations legislation). Changes in legislation and regulations pertaining to, but not limited to, tenancy laws, stamp duty and taxation laws, environmental laws and industrial relations laws may have a material adverse effect on the forecast capital expenditure of the Combined Group or on the Combined Group's financial position or financial performance (such as by directly or indirectly reducing its income from its properties or increasing its costs in relation to the properties).

(j) **Other factors**

Other factors may impact on an entity's performance including natural disasters, changes or disruptions to political, regulatory, legal or economic conditions or to the national or international financial markets including as a result of epidemics, terrorist attacks or war.

12 Other material information

12.1 Status of Conditions

The Aspen Offer is subject to the Conditions set out in **Annexure A**. The Bidder will provide updates on any material developments relating to the status of these conditions through announcements to the ASX.

As at the date of this Bidder's Statement, the Bidder is not aware of any events or circumstances which would result in the non-fulfilment of any of the Conditions.

12.2 Potential for waiver of defeating conditions

The Aspen Offer is subject to the Conditions set out in **Annexure A**. Under the terms of the Aspen Offer and the Corporations Act, any or all of those Conditions may be waived by the Bidder.

If an event occurs which results (or would result) in the non-fulfilment of a Condition, the Bidder might not make a decision as to whether it will either rely on that occurrence, or instead waive the defeating Condition in respect of that occurrence, until the date for giving notice as to the status of the Conditions of the Aspen Offer under section 630(3) of the Corporations Act (see **Section 12.1**).

If the Bidder decides that it will waive a Condition it will announce that decision to the ASX in accordance with section 650F of the Corporations Act.

If any of the Conditions are not fulfilled, and the Bidder decides to rely on that non fulfilment, then any contract resulting from acceptance of the Offer will become void at (or, in some cases, shortly after) the end of the Offer Period, and the relevant Eureka Shares will be returned to the holder.

12.3 Date for determining holders of Eureka Shares

For the purposes of section 633(2) of the Corporations Act, the time and date for determining the people to whom information is to be sent under item 6 and 12 of section 633(1) of the Corporations Act is the Record Date being 7.00pm (Sydney time on 9 March 2024).

12.4 Consents

This Bidder's Statement contains references to, statements made by, and/or statements said to be based on statements made by the Bidder and the Responsible Entity. Each of the Bidder and the Responsible Entity has given its written consent to the inclusion of:

- (a) each reference to its name;
- (b) each statement it has made; and
- (c) each statement which is said to be based on a statement it has made,

in the form and context in which each reference or statement (as applicable) appears and has not withdrawn that consent as at the date of this Bidder's Statement.

Corrs Chambers Westgarth has acted as Australian legal adviser to the Bidder, MST Financial Services Pty Ltd has acted as Australian financial advisor and Automic has acted as share registrar for the Bidder in relation to the Aspen Offer. Each of Corrs Chambers Westgarth, MST Financial Services Pty Ltd and Automic has given its written consent to be named in this Bidder's Statement in the form and context in which it is named and has not withdrawn that consent as at the date of this Bidder's Statement. Neither Corrs Chambers Westgarth, MST Financial Services Pty Ltd nor Automic has made or purported to make, any statement in this Bidder's Statement or any statement on which a statement in this Bidder's Statement is based, and should not be regarded as authorising the issue of this Bidder's Statement or any statements in it.

12.5 Ineligible Foreign Shareholders

Eureka Shareholders who are Ineligible Foreign Shareholders will not be entitled to receive Aspen Securities as consideration for their Eureka Shares pursuant to the Aspen Offer, unless the Bidder otherwise determines in its absolute discretion.

A Eureka Shareholder is an Ineligible Foreign Shareholder for the purposes of the Offer if their address as shown in the register of shareholders of Eureka is in a jurisdiction other than Australia or its external territories or New Zealand, unless Aspen determines (in its absolute discretion) that it is:

- not unlawful, onerous or impracticable to make the Aspen Offer to a Eureka Shareholder in a jurisdiction that is outside Australia and New Zealand and to issue Aspen Securities to such a Eureka Shareholder on acceptance of the Aspen Offer; and
- not unlawful for such a Eureka Shareholder to accept the Aspen Offer in such circumstances in the relevant jurisdiction.

Notwithstanding anything else in this Bidder's Statement, the Bidder is not under any obligation to spend any money, or undertake any action, in order to satisfy itself concerning any of these matters.

Based on the information available to the Bidder as at the Last Practicable Date as far as the Bidder is aware there are no Ineligible Foreign Shareholders. In the event an Ineligible Foreign Shareholders acquires Eureka Shares during the Offer Period, the Aspen Securities which would otherwise have been issued to any such Ineligible Foreign Shareholders will instead be issued to a Sale Nominee that will be appointed by the Bidder and approved by ASIC. The Sale Nominee will sell these Aspen Securities and the net proceeds of the sale of such securities will then be remitted to the relevant Ineligible Foreign Shareholders. See **Section 15.9** for further details.

12.6 Institutional acceptance facility

The Bidder reserves the right to introduce an institutional acceptance facility. If it does so, it will announce details of the facility in a supplementary bidder's statement.

12.7 Social security and superannuation implications of Aspen Offer

and which is not offered to all holders of Eureka Shares under the Aspen Offer.

12.14 Foreign jurisdictions

The distribution of this Bidder's Statement outside Australia may, in some countries, be restricted by law or regulation. Accordingly, persons who come into possession of this Bidder's Statement should inform themselves of, and observe, those restrictions.

The Aspen Offer is being proposed and will be conducted in accordance with the laws in force in Australia and with the ASX Listing Rules. The disclosure requirements in relation to the Aspen Offer in Australia will differ from those applying in other jurisdictions. The financial statements included in this Bidder's Statement have been prepared in accordance with generally accepted accounting principles in Australia that will differ from those in other jurisdictions. Substantially, all of the directors of Aspen and the assets of Aspen Group are located in Australia. As a result, investors who reside in places other than Australia may have difficulties in enforcing their rights and any claims they may have arising under the laws of the jurisdiction in which they are resident against the Bidder or any of its directors, officers or employees. It may be difficult to compel the Bidder and its affiliates to subject themselves to a judgment of a court outside Australia. This Bidder's Statement is not a New Zealand product disclosure statement or other similar offering or disclosure document under New Zealand law and has not been registered, filed with or approved by any New Zealand regulatory authority under or in accordance with the *Financial Markets Conduct Act 2013* (NZ) or any other relevant New Zealand law. The offer of Aspen Securities under the Aspen Offer is being made to existing Eureka Shareholders with registered addresses in New Zealand in reliance upon an exemption from the relevant New Zealand securities regime and accordingly, this Bidder's Statement may not contain all the information that a product disclosure statement under New Zealand law is required to contain.

12.16 No collateral benefits

Other than as described in this Bidder's Statement, during the period of four months before the date immediately before the date of the Aspen Offer, neither the Bidder nor any of its Associates gave, or offered to give, or agreed to give a benefit to another person which was likely to induce the other person, or an Associate of the other person, to:

- (b) dispose of Eureka Shares,

and which is not offered to all holders of the Eureka Shares under the Aspen Offer.

12.17 Expiry date

No Aspen Securities will be issued on the basis of this Bidder's Statement after the date which is 13 months after the date of this Bidder's Statement.

12.18 ASIC modifications and exemptions

ASIC has enacted various legislative instruments providing for modifications and exemptions that apply generally to all persons, including the Bidder, in relation to the operation of Chapter 6 of the Corporations Act.

Among others, the Bidder has relied on:

- (a) the modification to section 636(3) of the Corporations Act set out in ASIC Corporations (Takeovers Bids) Instrument 2023/683 to include in this Bidder's Statement, without obtaining specific consents, statements which are made in, or based on statements made in, documents lodged with ASIC or given to ASX. If you would like to receive a copy of any of those documents, or the relevant parts of the documents containing the statements (free of charge) during the Offer Period, please contact the Offer Information Line on 1300 972 485 (within Australia) or +61 2 9068 1924 (outside Australia) between 8.30am and 7.00pm (Sydney time).
- (b) ASIC Corporations (Consents to Statements) Instrument 2016/72 which permits bidder's statements to include or be accompanied by certain statements:
 - (i) fairly representing a statement by an official person; or

Specific relief

12.19 Consent to early despatch

The Eureka Directors have consented to Aspen sending this Bidder's Statement to Eureka Shareholders earlier than would otherwise be permitted under s 633 of the Corporations Act (as modified by ASIC Corporations (Replacement Bidder's and Target's Statements) Instrument 2023/688).

12.20 Other material information

- (a) material to the making of a decision by a Eureka Shareholder whether or not to accept the Offer;
- (b) known to the Bidder; and
- (c) which has not previously been disclosed to Eureka Shareholders.

13 Fees and other costs

13.1 Consumer advisory warning

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns. For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your financial return by up to 20% over a 30-year period (for example reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees where applicable.

Ask the fund or your financial adviser.

To find out more

If you would like to find out more or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) Moneysmart website (moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

13.2 Fees and other costs

This section shows fees and other costs that you may be charged in relation to your investment in the Aspen Property Trust. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the managed investment scheme as a whole.

Taxes are set out in another part⁴⁵ of this document.

You should read all the information about fees and costs, because it is important to understand their impact on your investment.

13.4 Example of annual fees and costs for the Aspen Property Trust

This table gives an example of how the ongoing annual fees and costs in the Aspen Property Trust can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE: ASPEN PROPERTY TRUST BALANCE OF \$50,000* WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution fees	Nil	For every additional \$5,000 you put in, you will be charged \$0 .
PLUS Management fees† and costs	1.48% per annum	And , for every \$50,000 you have in the Aspen Property Trust you will be charged or have deducted from your investment \$740 each year.
PLUS Performance fees	Nil	And , you will be charged or have deducted from your investment \$0 in performance fees each year.
PLUS Transaction costs	0.13% per annum	And , you will be charged or have deducted from your investment \$65 in transaction costs.
EQUALS Cost of ASPEN PROPERTY TRUST	1.61%	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of \$805† What it costs you will depend on the fees you negotiate‡

* The additional management costs will be on a pro-rata basis and will vary depending on when you have made the additional investment during the year. This example is prescribed by the *Corporations Act 2001* (Cth), and is based on an assumption that the additional \$5,000 is invested at the end of the year (and therefore, the management costs are calculated using the \$50,000 balance only). This example also assumes that the value of your investment remains the same during the year.

† Additional fees may apply, such as the buy-sell spread which is not expressed in this example but this buy-sell spread is currently 0% upon entry and 0% upon exit. The dollar value of these buy-sell spread costs based on an application or a withdrawal of \$50,000 is currently \$0 for each individual transaction. Additional fees may be payable to third parties including financial advisers (if you have consulted one) for investing in the Aspen Property Trust. Please refer to the relevant Statement of Advice or advisor disclosure document in which details of the relevant fees should be set out. The management fees and costs and transaction costs are based on the financial year which ended on 30 June 2023 and the example assumes no abnormal expenses are incurred and does not include the costs associated with the bid set out in this Bidder's Statement (see also the 'Additional explanation of fees and costs' below). As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

ASIC provides a fees calculator at moneysmart.gov.au, which you may use to calculate the effects of fees and costs on your investment in the Aspen Property Trust.

13.5 Additional explanation of fees and costs

(a) Management fees and costs

Aspen Group is a stapled group comprising Aspen Group Limited and Aspen Property Trust. The Corporations Act requires us to set out in this **Section 13.5(a)** fees and costs information in relation to Aspen Property Trust (and referable to the Aspen Unit component of a stapled Aspen Security in the Aspen Group).

Management fees and costs comprise the additional fees or costs that a unitholder incurs by investing in the Aspen Property Trust rather than by investing directly in the assets. These are described in further detail below. Management fees and costs do not include transaction costs (i.e. costs associated with investing the underlying assets) or the Buy-Sell Spread (as defined below).

The management fees and costs per annum are comprised of:

- the Responsible Entity's fees of 0.06% of the net asset value of the Aspen Property Trust;
- the investment management fee payable to AFML of 0.24% of the net asset value of the Aspen Property Trust; and
- administration and management expenses of 1.18% of the net asset value of the Aspen Property Trust, including custodian fees, administration fees, audit fees and costs, and certain other ordinary expenses of operating the Aspen Property Trust.

The actual management fees and costs may vary from time to time. As required by law, the management fees and costs are expressed as a percentage of the NAV of the Aspen Property Trust, and the fees are based on those that currently apply and any of the other costs are based on the costs in the financial year which ended on 30 June 2023.

The management fees and costs shown above do not include abnormal or extraordinary expenses that may be incurred in the future (such as litigation costs, the costs of convening member meetings and termination and wind-up costs). Such expenses are not included in the above but are expected to occur infrequently and are recoverable from the Aspen Property Trust as long as they are properly incurred in operating the Aspen Property Trust.

As required by law, the above management fees and costs include the entirety of the investment management fee payable to AFML. Note that this investment management fee is not an actual cost borne by investors (except for any non-recoverable GST related to the investment management fee), given that the investors will hold stapled securities, which includes shares in Aspen Group Limited (**AGL**). AFML is a wholly-owned subsidiary of AGL.

(b) Transaction costs

Transaction costs include the costs associated with buying and selling assets such as brokerage, clearing costs, settlement costs, stamp duties, custody transaction costs and the costs associated with over-the-counter (or OTC) derivative instruments entered into for the primary purpose of hedging.

The net transaction costs of the Aspen Property Trust are 0.13% of the net asset value of the Aspen Property Trust. As required by law, this is based on the transaction costs incurred in the financial year which ended on 30 June 2023. This does not include the transaction costs associated with the bid in the current financial year which are paid by the Bidder. The actual transaction costs may vary from year to year without notice to investors.

The transaction costs shown in this Fees and Costs section are shown net of any amount recovered by the Buy-Sell Spread. As no Buy Spread or Sell Spread is charged at the date of this Bidder's Statement, the gross transactions costs are also 0.13%.

Transaction costs for the Aspen Property Trust are paid out of the assets of the Aspen Property Trust as and when incurred and are not fees paid to the Responsible Entity.

Transaction costs do not include borrowing costs, property operating costs and do not generally include implicit transaction costs or market impact costs such as the difference between the bid and ask price of assets traded by the Aspen Property Trust.

(c) Incidental fees and costs

Standard government fees, duties and bank charges may also apply to your investments and withdrawals (if applicable) including dishonour fees and conversion costs.

(d) Can the fees change or be updated?

Yes, all fees can change. Reasons might include changing economic conditions and changes in regulation. However, the Responsible Entity will give you 30 days' prior written notice of any increase to fees or as otherwise required by law. The Aspen Property Trust Constitution sets the maximum amount the Responsible Entity can charge for all fees. Within the limits of the Aspen Property Trust Constitution, we can change these fees without a member's consent. If the Responsible Entity wished to raise fees above the amounts allowed for in the Aspen Property Trust Constitution, the Responsible Entity would need the approval of Aspen Property Trust unitholders.

The maximum annual management fee that can be charged under the Aspen Property Trust Constitution (exclusive of GST) is:

- in respect of that part of the value of the assets of the Aspen Property Trust that is less than \$10 million, a fee of 0.5% of the value of the assets of the Aspen Property Trust; and
- in respect of that part of the value of the assets of the Aspen Property Trust that exceeds \$10 million, a fee of 0.25% of the value of the assets of the Aspen Property Trust.

The maximum annual investment management fee of 0.5% of the value of the assets of the Aspen Property Trust, calculated monthly at the rate of one twelfth of 0.5% of the value of the assets of the Aspen Property Trust as at the last day of each month. Such fee is waived so long as the Responsible Entity engages an external party as investment management services provider. Presently, the Responsible Entity has engaged AFML as investment manager which charges the above-mentioned management fee which is charged as an expense of the Aspen Property Trust.

(e) Adviser remuneration

We do not pay any commissions to your financial adviser or advisory firms.

However, additional fees and costs may be paid by you to a financial adviser (or other service provider) if you consulted one. The details of these fees and costs should be set out in the statement of advice provided by your adviser if you are a retail client.

(f) Taxation

Unless otherwise stated, all fees and costs are inclusive of GST and net of any ITCs and RITCs available to the Aspen Property Trust. The GST recovery by the Aspen Property Trust based on its entitlement to ITCs and RITCs may change the total level of costs incurred as stated above.

(g) For more information on fees and other costs

If you would like to better understand how our fee structure may impact your investment in the Aspen Property Trust, we recommend that you speak to your financial adviser or visit ASIC's website at www.moneysmart.gov.au where a fee calculator is available to help you compare the fees of different managed investment products.

15.9 Ineligible Foreign Shareholders

Based on the information available to the Bidder as at the Last Practicable Date as far as the Bidder is aware there are no Ineligible Foreign Shareholders. If an Ineligible Foreign Shareholder is or becomes during the Offer Period the registered holder of Eureka Shares to which the Offer applies then the following will apply.

If you are an Ineligible Foreign Shareholder, you will not be entitled to receive Aspen Securities as part of the Offer Consideration as a result of accepting the Aspen Offer, and Aspen Group will:

- (b) arrange for the issue to the Sale Nominee of the number of Aspen Securities to which all Ineligible Foreign Shareholders (including you) would have been entitled but for this **Section 15.9**. Aspen Group may arrange for the Aspen Securities to be issued to the Sale Nominee in tranches. Aspen Group has the sole and complete discretion as to when and in how many tranches to aggregate the Aspen Securities to be issued to the Sale Nominee as a result of acceptances of the Aspen Offer;
- (c) cause the Aspen Securities so issued to be offered for sale by the Sale Nominee (in one or more tranches) on the ASX as soon as practicable and otherwise in the manner, at the price and on such other terms and conditions as are determined by the Sale Nominee; and

Payments made by cheque will be posted to you, at your risk, by ordinary mail (or in the case of overseas shareholders, by airmail) at the address shown on the relevant register within the period required by the Corporations Act.

Under no circumstances will interest be paid on your share of the proceeds of the sale of Aspen Securities by Aspen Group or the Sale Nominee, regardless of any delay in remitting these proceeds to you.

The Sale Nominee may sell the Aspen Securities in such manner, at such price or prices and on such terms as the Sale Nominee determines, and at the risk of the Ineligible Foreign Shareholders. The Sale Nominee will sell the Aspen Securities on ASX following the issue of those securities to it and the Sale Nominee has sole and complete discretion with regards to the number of tranches in which to sell the Aspen Securities that are issued to it.

As the market price of Aspen Securities will be subject to change from time to time, the sale price of the Aspen Securities sold by the Sale Nominee and the proceeds of those sales cannot be guaranteed.

Neither the Bidder, Aspen Group nor the Sale Nominee gives any assurance as to the price that will be achieved for the sale of the Aspen Securities by the Sale Nominee.
