

## Doctor Care Anywhere launches diagnostic test partnership with Medichecks

Doctor Care Anywhere Group PLC (ASX:DOC, “Doctor Care Anywhere” or “the Company”) announces the launch of a partnership with home health test provider Medichecks.

- Doctor Care Anywhere becomes Medichecks’ preferred provider of GP consultations for customers seeking advice on their test results
- Diagnostics partnership extends the Company’s involvement in the patient’s care journey

Through the collaboration, customers of Medichecks’ broad range of at-home blood tests now have the option to book an appointment with a Doctor Care Anywhere GP to discuss their test result. Medichecks provides a wide range of blood tests, from hormone and nutrition tests, to comprehensive health checks covering a wide range of biomarkers.

Doctor Care Anywhere’s partnership with Medichecks comes in response to customer feedback that they would benefit from specialist medical advice in support of their blood test results. The partnership enables Medichecks customers to discuss their test results directly with a Doctor Care Anywhere GP and identify the right course of action for their health needs.

Dr Yvonne Umebuani, MBBS, MRCGP, Deputy Chief Medical Officer at Doctor Care Anywhere, comments:

*“Doctor Care Anywhere (DCA) is dedicated to delivering exceptional health care experiences for all our customers. We see diagnostics as an essential part of this and we have extensive experience in providing secondary diagnostics to our customers. We are therefore thrilled to be partnering with Medichecks and see this as an evolution of our diagnostic service offering.”*

Speaking about the partnership, Dr Natasha Fernando, MBBS, MRCGP, Medical Director at Medichecks, says:

*“Our partnership with Doctor Care Anywhere marks a pivotal step towards offering a more holistic customer journey. Whether our customers have concerns that need contextualising with a consultation, questions about what their results mean for them, or simply seek reassurance and guidance, we’re now even better equipped to offer that. This service is especially crucial for those who, perhaps due to symptoms they’re experiencing, need a deeper understanding that only a GP consultation can provide.”*

Ben Kent, Chief Executive Officer of Doctor Care Anywhere, commented: *“Our new partnership with Medichecks is an important step in our strategy to extend the services that we offer our patients, as we help them in their care journey. I look forward to sharing more information on our strategic direction at our Annual General Meeting in April.”*

## About Doctor Care Anywhere

*Doctor Care Anywhere Group PLC is one of the UK's largest private providers of telehealth services. The Company works with insurers, healthcare providers and corporate customers to connect patients to a range of digitally enabled telehealth services on its proprietary platform. It is committed to delivering the best possible patient experience and clinical care through digitally enabled, joined up, evidence-based pathways.*

## About Medicecks

*Medicecks is the UK's first direct-to-consumer blood testing service. The company's vision is to be part of everyone's journey to better health by putting actionable insights into everyone's hands. Since 2001, Medicecks has helped more than 200,000 people take charge of their health with easy home blood testing — delivering over 7.5 million test results, with advice from its friendly team of doctors.*

*Medicecks' wide range of health checks includes finger-prick and advanced venous blood tests, covering everything from hormones to heart health. Tests can be taken at home or at partner clinics, with fast results delivered direct to customers' online dashboards. Medicecks is dedicated to offering an exceptional customer experience, reflected by its many glowing reviews and a Feefo Platinum Trusted Service award.*
