

## Exploration-focused Investor Webinar

### *“Exploration: A Deep Dive into Ewoyaa”*

Atlantic Lithium Limited (AIM: ALL, ASX: A11, OTCQX: ALLIF, “Atlantic Lithium” or the “Company”), the African-focused lithium exploration and development company targeting to deliver Ghana’s first lithium mine, is pleased to announce that it will host a live online presentation focused solely on the Company’s exploration activities on Tuesday, 23 April 2024 at 9:00 am UK time (6:00 pm Sydney time).

The webinar, which is entitled *“Exploration: A Deep Dive into Ewoyaa”*, will be held on the Investor Meet Company platform and is open to all shareholders, stakeholders, and other interested parties.

Led by Len Kolff (Head of Business Development & Chief Geologist), Iwan Williams (Exploration Manager) and Abdul Razak (Country Manager), the webinar will comprise **i)** an overview of the Company’s exploration methodology and how it made the initial discovery of and has since developed the Ewoyaa Lithium Project in Ghana **ii)** a summary of exploration activities undertaken across the Cape Coast Lithium Portfolio to-date and **iii)** an outline of near-term opportunities at the Project that present potential value drivers for the Company, followed by a Q&A session.

Interested parties can sign up to Investor Meet Company for free and “Add to meet” Atlantic Lithium via the following link to join the webinar: <https://www.investormeetcompany.com/atlantic-lithium-limited/register-investor>.

Those who already follow Atlantic Lithium on the Investor Meet Company platform will be automatically invited.

- Interested parties are encouraged to submit questions pre-event via the “Ask a Question” function located on the Investor Meet Company dashboard up until 9am (UK time) the day before the meeting or at any time during the live presentation.
- Whilst the Company will not be in a position to answer every question it receives, it will address the most prominent within the confines of information already disclosed to the market through regulatory notifications.
- For those unable to attend the webinar, a recording will be published at the earliest opportunity on the Investor Meet Company platform and the Company’s website following the presentation, as well as responses to the Q&A.
- Feedback can also be submitted post the event to ensure the Company can understand the views of all elements of its stakeholder base.

**About Atlantic Lithium**

[www.atlanticlithium.com.au](http://www.atlanticlithium.com.au)

Atlantic Lithium is an AIM and ASX-listed lithium company advancing its flagship project, the Ewoyaa Lithium Project, a significant lithium spodumene pegmatite discovery in Ghana, through to production to become the country's first lithium-producing mine.

The Definitive Feasibility Study for the Project indicates the production of 3.6Mt of spodumene concentrate over a 12-year mine life, making it one of the largest spodumene concentrate mines in the world.

The Project, which was awarded a Mining Lease in October 2023, is being developed under an earn-in agreement with Piedmont Lithium Inc.

Atlantic Lithium holds a portfolio of lithium projects within 509km<sup>2</sup> and 774km<sup>2</sup> of granted and under-application tenure across Ghana and Côte d'Ivoire respectively, which, in addition to the Project, comprises significantly under-explored, highly prospective licences.
