DGR GLOBAL CREATES RESOURCE COMPANIES

DGR Global's business is the creation of resource exploration, development, and mining companies. The business uses the skills of a core team of talented exploration staff to identify resource projects capable of yielding world class discoveries of commodities with enduring strong fundamentals. This is achieved through the identification of commodities with a favourable 20-year demand, growth, and price outlook. DGR searches for geological terranes with:

- A demonstrated strong endowment for that commodity in an historically under-explored region.
- Opportunity for the application of newly developed exploration and metallurgical techniques to assist in the definition of economic resources.
- Jurisdictions with improving socio-economic and regulatory frameworks.
- Extensive available tenures.
- Existing data sets which provide the basis for innovative reinterpretation.

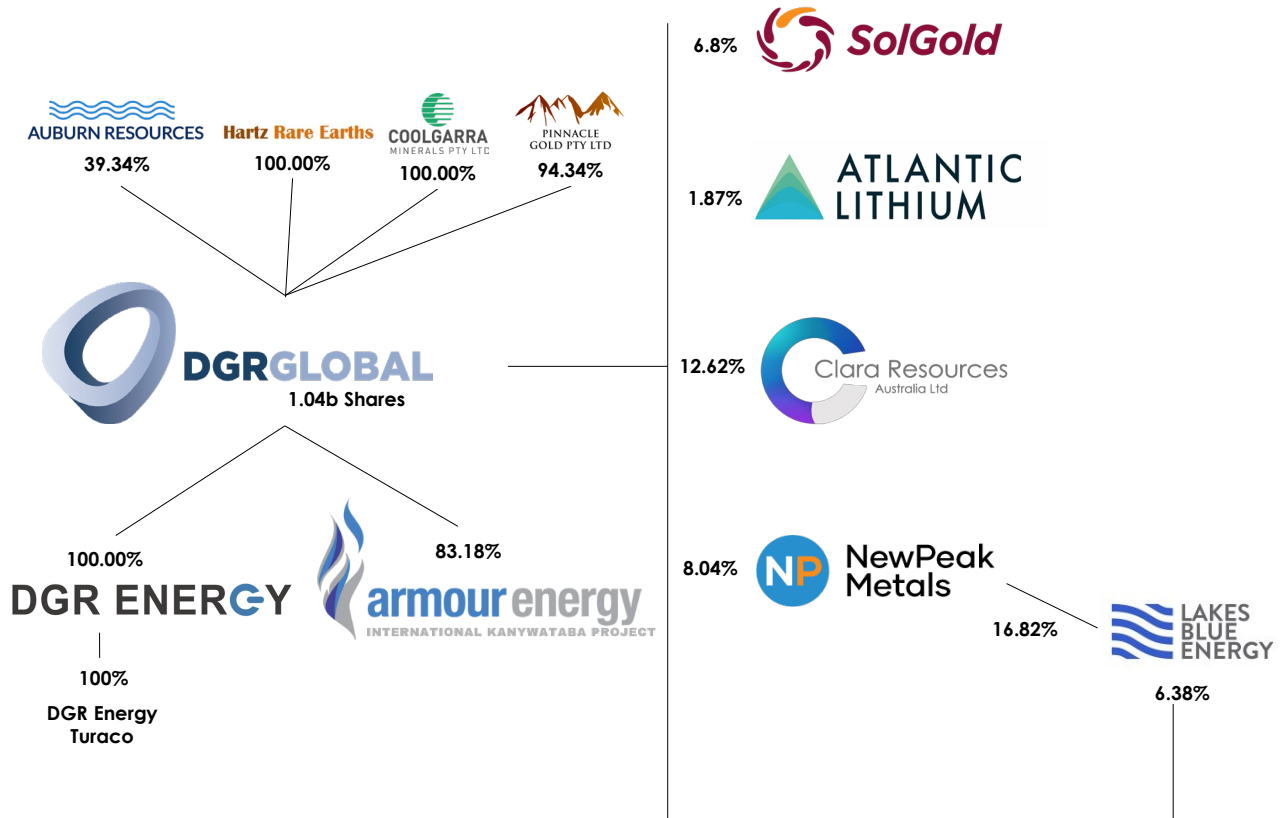

DGR Global provides initial seed funding and management support to secure these assets in subsidiaries and develop these assets to more advanced funding stages. The Company has a pipeline of projects in daughter companies at various stages of emergence, and in 2015 crystallised a significant return through the sale of its 15% holding in Orbis Gold for \$26Million. Further return from its holdings in LSE/TSX listed SolGold plc and AIM/ASX listed Atlantic Lithium Ltd and ASX listed Clara Resources Ltd , New Peak Metals Ltd , Lakes Blue Energy NL and unlisted Auburn Resources Ltd , DGR Energy Ltd and Armour Energy International Ltd is expected over the coming years.

The previous resource exploration and funding activities of DGR's key personnel underscore the opportunities provided by the DGR business model. DGR Global does not generally purchase its exploration projects. DGR's in house generative capabilities give the Company a strong competitive edge. DGR's focus on provincial tenement positions covering entire sedimentary basins or structural blocks where possible, delivers capital, government, and major resource corporate attention.

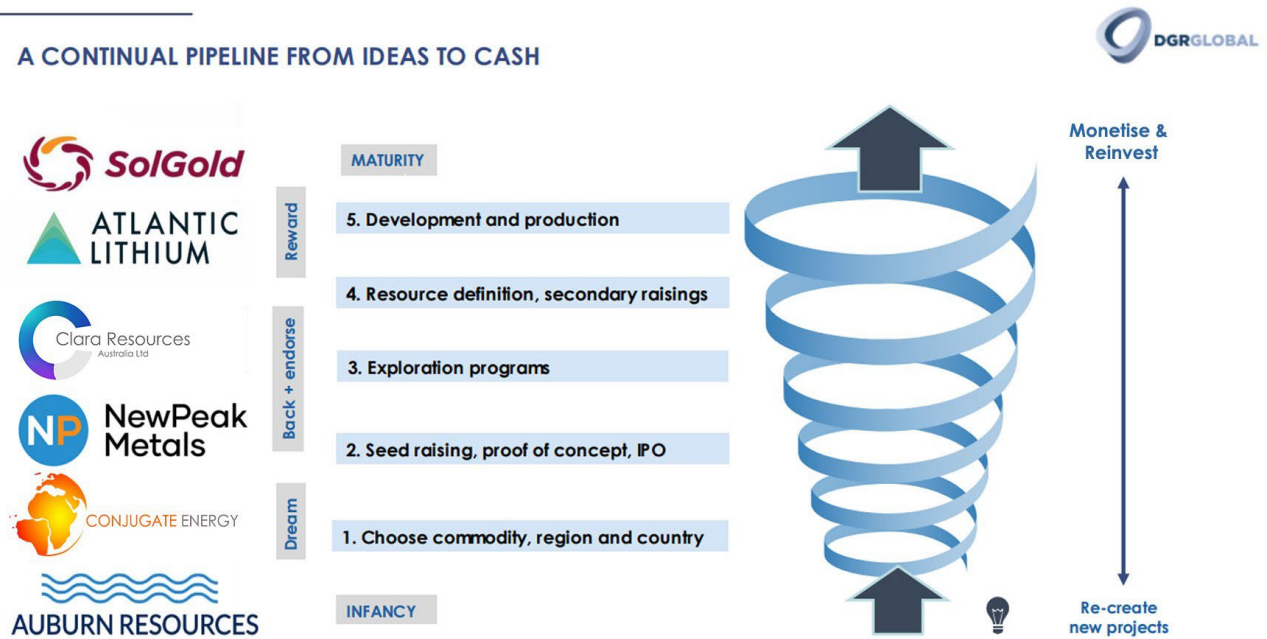

DGR Global holds key equity positions in its subsidiary companies after listing. As shown in the DGR Global Group Corporate Structure as of 31 March 2024, DGR Global holds:

- 6.8% of SolGold Plc (LSE/TSX : SOLG),
- 1.87% of Atlantic Lithium Ltd (LSE : ALL, ASX : A11),
- 12.62% of Clara Resources Australia Ltd (ASX : C7A),
- 8.04% of New Peak Metals Ltd (ASX : NPM),

QUARTERLY REPORT FOR THE PERIOD ENDED 31 MARCH 2024

During the quarter minimal field exploration and prospecting activities were undertaken. Notwithstanding previous rainfall and flooding events in a number of DGR's project/tenement areas during the previous quarter, DGR and its related entities continued to remain active and continued to advance projects and plan exploration programmes within their respective portfolios as reasonably permitted by the prevailing conditions. Highlights for each entity for the current quarter follow.

- Armour Energy Ltd - As previously disclosed to the ASX* post Armour Energy Ltd being placed into receivership and administration on the 10th of November 2023. DGR Global Ltd ('DGR' or 'the Company') had a material investment in Armour Energy Ltd (in liquidation) both via convertible notes and its position as the company's largest shareholder.
 - Accordingly, DGR Global Ltd progressed various Deeds of Company Arrangement (DOCA's) to present to creditors at the second creditors meeting dated 19th of January 2024 which sought to cater to all stakeholders' interests including all creditors and shareholders of Armour Energy Limited (in liquidation) and its subsidiaries.
 - DGRs DOCA's were voted against by creditors who supported the competing bid from ADZ Energy Pty Ltd a company incorporated in Australia in October 2023. The competing bid focussed primarily on the subsidiaries of Armour Energy Ltd (in liquidation), which has itself now been placed into liquidation.
 - DGR contends that the receivers of Armour Energy Ltd (in liquidation) were invalidly appointed and have commenced proceedings in relation to that, which are ongoing. DGR is also broadly assessing its legal options with respect to the receivership, administration and liquidation of the Armour Energy Ltd (in liquidation) and will update the market accordingly.

 3. Richard Scott Tucker and Robert William Hutson of KordaMentha in their capacities as the receivers and managers of the Armour Group; and

Project: Kanywataba Block and Turaco Block | Area: 344km² | Prospective for: Oil and Gas
Location: Albertine Graben, Uganda

Inspired by the world's "conjugate margins" where rich oil plays lie in porous and permeable sand traps along the fractured edges of the earth's seven major continental plates. These are Rift Basin settings and host 33% of the world's oil resources.

One of the world's early forming conjugate margins is in the East African Rift system where the Albertine Graben is located underneath Lake Albert.

The Albertine Graben lies on Uganda's western border and is renowned as an exceptionally hydrocarbon-rich rift basin.

Activities to date include:

KANYWATABA BLOCK

- Original 2D lines shot in 2010.
- Additional 2D seismic lines shot in 2021, focusing on quantifying and de-risking our portfolio.

TURACO BLOCK

- Large 3D seismic coverage
- 3D reprocessing (390km²), geochemical analysis, AVO and attribute analysis & Miocene outcrop study

Within the block there are multiple developed (untested) on-trend structural traps (3-way and 4-way dip closures) and multiple untested stratigraphic traps.

The Kingfisher oil discovery (40km NE of Kanywataba) oil seeps confirm a local working petroleum system.
