Forward-looking statements

This Prospectus contains forward-looking statements which are identified by words such as 'may', 'could', 'believes', 'estimates', 'targets', 'expects', or 'intends' and other similar words that involve risks and uncertainties.

These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this Prospectus, are expected to take place.

Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company, the Directors and the Company's management.

The Company cannot and does not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this Prospectus will actually occur and investors are cautioned not to place undue reliance on these forward-looking statements.

The Company has no intention to update or revise forward-looking statements, or to publish prospective financial information in the future, regardless of whether new information, future events or any other factors affect the information contained in this Prospectus, except where required by law.

These forward-looking statements are subject to various risk factors that could cause the Company's actual results to differ materially from the results expressed or anticipated in these statements. These risk factors are set out in Section 8.

Overseas shareholders

The Offers do not, and are not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

In particular, this document may not be distributed to any person, and the Shares may not be offered or sold in any country outside Australia except to the extent permitted by the laws of the relevant foreign jurisdiction.

For the avoidance of doubt, all Shareholders registered at the Record Date are eligible to participate in the Entitlement Offer.

The Shares have not been, and will not be, registered under the US

Securities Act, and accordingly, the Shares may not be offered, or sold in the United States without registration under the US Securities Act except in a transaction exempt from, or not subject to, the registration requirements of the US Securities Act and any other applicable US state securities laws

For further information on overseas Shareholders please refer to Section 5.10.

Continuous disclosure obligations

The Company is a “disclosing entity” (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Shares.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Please refer to Section 9.2 for further details.

Company Website

No documents or other information available on the Company's website is incorporated into this Prospectus by reference.

Financial forecasts

The Directors have considered the matters set out in ASIC Regulatory Guide 170 and believe that they do not have a reasonable basis to forecast future earnings on the basis that the operations of the Company are inherently uncertain. Accordingly, any forecast or projection information would contain such a broad range of potential outcomes and possibilities that it is not possible to prepare a reliable best estimate forecast or projection.

Clearing House Electronic Sub-Register System (CHES) and Issuer Sponsorship

The Company will apply to participate in CHES, for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHES will be issuer sponsored by the Company.

Electronic sub-registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with statements (similar to a bank account statement) that set out the number of Shares issued to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship.

Electronic sub-registers also mean ownership of securities can be transferred without having to rely upon paper documentation. Further monthly statements will be provided to holders if there have been any changes in their security holding in

the Company during the preceding month.

Photographs used in this Prospectus which do not have descriptions are for illustration only and should not be interpreted to mean that any person shown endorses the Prospectus or its contents or that the assets shown in them are owned by the Company. 3. LETTER FROM THE CHAIR

Dear Investor,

On behalf of the Board of True North Copper Limited (**True North Copper** or the **Company**), I am pleased to invite you to participate in an Entitlement Offer as part of a fully underwritten \$24.27 million equity raising.

True North Copper is well-positioned to become Australia's next major copper producer and critical metals supplier, with our focus fully on restarting mining at our 100%-owned Cloncurry Copper Project and producing copper concentrate. This project is set to produce approximately 28.7kt copper and approximately 20.9koz gold over an initial 4.6-year mine life, and is located within a tier-1 mining jurisdiction in north-west Queensland.

Current near-record copper and gold prices are highly supportive of the restart and significantly enhance the economics of the project, which is expected to make the Company cash flow positive within 12 months.

The project demonstrates strong economic return, benefiting from a low Capex start due to its ability to process ore at nearby mills. The project is fully permitted for a restart, with secured tolling and offtake agreements in place to facilitate ore processing.

Furthermore, there is a huge exploration upside at Cloncurry, creating the potential to optimise and extend the mine plan to allow more years of mining to occur. Exploration at both Cloncurry and our highly prospective Mt Oxide Project will remain a key focus and following this equity raising, is expected to be funded by the cash flow generated from mining operations.

Cloncurry is ready to go, contractors are engaged, workforce recruitment well advanced, and all regulatory requirements in place. The Company is ready to quickly commence mining activities at Cloncurry to promptly turn it into a profitable operating platform.

To strengthen our financial position and align corporate expenses with funding while TNC execute the restart at Cloncurry, the Company is seeking to raise approximately \$24.27 million through an equity raising comprising a Placement and Entitlement Offer with both institutional and retail investor components. We are pleased to have support from Tembo and Nebari, who are partially sub-underwriting the Retail Offer. Funds raised will ensure the Company's future in enabling the growth and exploration potential on its tenements to be realised.

I am also looking forward soon to introducing an enhanced executive management team to lead this exciting phase of TNC's growth.

This Prospectus contains detailed information about the Entitlement Offer and the financial position, operations, management team and future plans of True North Copper. I encourage you to read it carefully and in its entirety before making your investment decision.

I would like to thank its existing shareholders for their ongoing support and unwavering confidence in our journey. On behalf of the Directors, I look forward to welcoming new shareholders as we advance into what we believe are exciting times for the copper market and True North Copper.

Yours sincerely,

Ian McAleese

Chairman

4.2 Summary of the Placement and the Entitlement Offer

The Company is intending to conduct a placement and accelerated non-renounceable entitlement offer in order to raise up to approximately \$24.27 (before costs).

The funds raised from the Offers (assuming all Entitlements are accepted and the Placement is fully subscribed) are intended to fund operations through to steady state production at the Cloncurry Copper Project (including contingency, working capital, and other corporate expenses), strengthen its financial position and fund exploration to grow resources and reserves at the Cloncurry Copper Project and target new discoveries at the Mt Oxide Project in 2024. Refer to Section 6 for the purpose of the Offers and the intended use of funds raised under the Offers.

The Company is conducting an accelerated non-renounceable entitlement offer (**Entitlement Offer**) to raise approximately \$16.7 million (before costs) through the issue of approximately 298,210,083 Shares at an issue price of \$0.056 per Share, on the basis of 1 Share for every 2 Shares held by Eligible Shareholders as at the Record Date.

The Entitlement Offer has two components:

- (a) an accelerated offer to Eligible Institutional Shareholders, expected to comprise the issue of approximately 172,961,839 Shares to raise up to approximately \$9.69 million which is due to settle on Thursday, 30 May 2024; and
- (b) an offer to Eligible Retail Shareholders, expected to comprise the issue of approximately 125,248,232 Shares to raise up to approximately \$7.01 million which is due to open on Friday, 31 May 2024.

In addition, the Company is seeking to raise approximately \$7.57 million (before costs) by way of a placement to Institutional Investors (**Placement**) through the issue of up to 135,237,504 Shares (**Placement Shares**) at an issue price of \$0.056 per Placement Share.

The Company's major Shareholder, Tembo Capital Holdings UK Limited (**Tembo**), has committed to participate in the Entitlement Offer for up to \$6 million (being 107,142,857 Shares), comprising:

- (a) \$4 million of its Entitlement under the Institutional Entitlement Offer (being 71,428,571 Shares and 74.63% of its Entitlement); and
- (b) sub-underwriting the Retail Offer for up to \$2 million (being 35,714,285 Shares).

Tembo will only acquire up to an additional 107,142,857 Shares under the Offers, through partially taking up its Entitlement and partially sub-underwriting the Retail Offer, such that its voting power in the Company will be diluted (by the underwritten Placement) following completion of the Entitlement Offer and the Placement.

Further details in respect of the Placement and the Entitlement Offer are set out in Section 5.

4.4 Key Risk Factors

Prospective investors should be aware that subscribing for Shares involves a number of risks and an investment in the Company should be considered as highly speculative. The future performance of the Company and the value of the Shares may be influenced by a range of factors, many of which are largely beyond the control of the Company and the Directors. The key risks associated with the Company's business, the industry in which it operates and general risks applicable to all investments in listed securities and financial markets generally are set out in Section 8.

4.5 Directors' Interests in Securities

The relevant interest of each of the Directors in the Shares of the Company as at the date of this Prospectus, together with their respective Entitlement, is set out in the table below:

Director	Shares	Options	Share Entitlement	\$
Ian McAleese	523,029	1,308,952	261,514	\$14,645
Martin Costello	9,080,268	2,700,000	4,540,134	\$254,248
Paul Frederiks	1,000,000	1,135,807	500,000	\$28,000
Tim Dudley	-	-	-	-
Jane Seawright	32,000	600,000	16,000	\$896

Notes:

1. Refer to the respective Appendix 3Y for each Director for further details with respect to their security holding.
1. No Director holds any interest in warrants. Warrants are therefore not shown in the above table.

The Board recommends all Shareholders take up their Entitlements. The Directors reserve the right to take up their respective Entitlement in whole or in part at their discretion.

4.6 Underwriting and sub-underwriting

The Entitlement Offer and Placement Offer are fully underwritten by Canaccord Genuity (Australia) Limited (ACN 075 071 466) (AFSL 234666) (**Canaccord**) and Morgans Corporate Limited (ACN 010 539 607) (AFSL 235407) (**Morgans**) (together, the **Underwriters**).

The Underwriters have also been appointed as the joint lead managers of the Placement and the Entitlement Offer and will be paid the following fees, in their respective proportions (50:50):

- (a) a management fee of 2% of the total proceeds under the Placement, Institutional Offer and Retail Offer; and
- (b) a selling/underwriting fee of 4% of the total proceeds under the Placement, Institutional Offer and Retail Offer (excluding proceeds from Tembo and Nebari (or any of their related parties)).

Refer to Section 9.4 for details regarding the key terms of the Underwriting Agreement.

The obligation of the Underwriter to underwrite the Entitlement Offer and the Placement is subject to certain events of termination. Refer to Section 9.4 for details regarding the key terms of the Underwriting Agreement.

The Underwriter has agreed that, provided the Underwriting Agreement is not validly terminated, any unallocated Shortfall Shares must be subscribed for by the Underwriter or sub-underwriters.

The allocation of the Shortfall Shares will be determined by the Underwriter in agreement with the Company. For further information regarding the application and allocation of Shortfall Shares please refer to Section 5.3.

The Underwriters intend to enter into sub-underwriting agreements in respect of the Retail Offer with various sub-underwriters (**Sub-Underwriters**), to take up the Shortfall Shares.

Tembo (the Company's largest Shareholder) and Nebari have committed to sub-underwrite the Retail Offer for \$2 million and \$0.5 million, respectively (**Sub-Underwriting Commitments**).

Under the Underwriting Agreement, the Underwriters have agreed that no Sub-Underwriter will increase their Shareholding to above 19.99% as a direct result of the issue of Shortfall Shares (other than Tembo, whose voting power in the Company already exceeds 20% and will not increase as a result of the Offers).

4.7 Effect on Control

As the Offers are fully underwritten, there is not expected to be any change to the substantial holders on completion of the Offers, noting that Tembo may only acquire up to an additional 107,142,857 Shares through partially taking up its Entitlement and partially sub-underwriting the Retail Offer, such that its voting power in the Company will be diluted (by the underwritten Placement) following completion of the Entitlement Offer and the Placement.

The Underwriters are not related parties of the Company for the purposes of the Corporations Act. The issue of Shares under this Prospectus to the Underwriters may increase its interest in the Company and dilute the Shareholding of other Shareholders to the extent they elect not to participate in the Entitlement Offer or are ineligible to participate in the Entitlement Offer.

In accordance with the terms of the Underwriting Agreement, the Underwriters will allocate the Shortfall to its sub-underwriters and/or clients and people who have otherwise agreed to assist with the completion of the Entitlement Offer such that neither the Underwriters, the sub-underwriters nor any of the Underwriters' clients, individually, will have a voting power in the Company in excess of 19.9% after the issue of the Shortfall (other than Tembo, whose voting power in the Company already exceeds 20% and will not increase as a result of the Offers).

The Company, in consultation with the Underwriters, will ensure that the Entitlement Offer (including the equitable dispersion of any Shortfall Shares) complies with the provisions of Chapter 6 of the *Corporations Act 2001* (Cth) and is otherwise consistent with the policy guidelines contained in ASIC Regulatory Guide 6 and Takeovers Panel Guidance Note 17.

4.8 Potential dilution on non-participating Shareholders

Shareholders should note that if they do not participate in the Entitlement Offer, their holdings are likely to be diluted by approximately 42.26% (as compared to their holdings and number of Shares on issue as at the date of this Prospectus) as a result of the impact of the Offers.

For illustrative purposes, the table below shows how the dilution may impact the holdings of Shareholders:

Holder	Holding as at Record date	% at Record Date ¹	Entitlements	Holdings if Entitlement Offer not taken Up	% post Offers ²
Shareholder 1	10,000,000	1.68%	5,000,000	10,000,000	0.97%
Shareholder 2	5,000,000	0.84%	2,500,000	5,000,000	0.49%

Shareholder 3	1,500,000	0.25%	750,000	1,500,000	0.15%
Shareholder 4	400,000	0.07%	200,000	400,000	0.04%
Shareholder 5	50,000	0.01%	25,000	50,000	0.00%

Notes:

1. This is based on a share capital of 596,420,166 Shares as at the date of the Prospectus and assumes that no other Shares are issued and no Options or Warrants currently on issue are exercised.
2. Assuming the full amount offered is raised under the Placement Offer and the Entitlement Offer and no Options are exercised. The dilutionary effect shown in the table is the maximum percentage on the assumption that those Entitlements not accepted by Eligible Shareholders are placed by the Underwriters under the Shortfall Offer. In the event all Entitlements are not accepted and some or all of the resulting Shortfall was not subsequently placed, the dilution effect for each Shareholder not accepting their Entitlement would be a lesser percentage.

5. DETAILS OF THE OFFERS AND HOW TO APPLY

5.1 The Entitlement Offer

The Entitlement Offer is for an accelerated non-renounceable entitlement offer of approximately 298,210,083 Shares at an issue price of \$0.056 per Share, on the basis of 1 Share for every 2 Shares held by Eligible Shareholders as at the Record Date.

Fractional entitlements will be rounded down to the nearest whole number. The Entitlement Offer has two components:

- (a) an accelerated offer to Eligible Institutional Shareholders, expected to comprise the issue of approximately 172,961,839 Shares to raise up to approximately \$9.69 million which is due to settle on Thursday, 30 May 2024 (**Institutional Offer**); and
- (b) an offer to Eligible Retail Shareholders, expected to comprise the issue of approximately 125,248,232 Shares to raise up to approximately \$7.01 million which is due to open on Friday, 31 May 2024 (**Retail Offer**).

Both the Institutional Offer and the Retail Offer are non-renounceable. Accordingly, Entitlements cannot be traded on the ASX, nor can they be sold, transferred or otherwise disposed of.

Based on the capital structure of the Company as at the date of this Prospectus and assuming no Options or Warrants are exercised prior to the Record Date, a maximum of approximately 298,210,083 Shares are to be issued to raise up to approximately \$16.7 million (before costs of the Entitlement Offer).

The Shares offered under the Entitlement Offer will rank equally with the Shares on issue at the date of this Prospectus. Please refer to Section 7.1 for further information regarding the rights and liabilities attaching to Shares.

The purpose of the Entitlement Offer and the intended use of funds raised under the Entitlement Offer are set out in Section 6 of this Prospectus.

Any Applicant participating in the Entitlement Offer represents and warrants that:

- it is a Shareholder;
- it is an Institutional Investor or resident in Australia or New Zealand;
- if it is acting as a nominee or custodian, each beneficial holder on whose behalf it is submitting the Entitlement and Acceptance Form is resident in Australia or New Zealand or is an Institutional Investor and is not in the United States;
- if it decides to sell or otherwise transfer the Shares acquired under the Entitlement Offer, it will only do so in transactions exempt from, or not subject to, the registration requirements of the U.S. Securities Act, including in regular way transactions on the ASX or otherwise where neither it nor any person acting on its behalf knows, or has reason to know, that the sale has been pre-arranged with, or that the purchaser is, a person in the United States; and
- it has not sent this Prospectus the Entitlement and Acceptance Form and any information relating the Entitlement Offer outside Australia or New Zealand (except that nominees and custodians may send such

documents to Institutional Investors, excluding any person in the United States)

5.1.2 Institutional Offer

The Institutional Offer will be conducted over a two trading-day period (**Institutional Offer Period**). During the Institutional Offer Period, Eligible Institutional Shareholders will be invited to participate in the Institutional Offer and will be afforded the opportunity to subscribe for all or a portion of their full Entitlement under the Institutional Offer, at the price of \$0.056 per Share (**Offer Price**).

Unless otherwise agreed by the Company, any Eligible Institutional Shareholder that does not confirm their acceptance of the Institutional Offer by the close of the Institutional Offer will be deemed to have renounced all of their Entitlement and will not receive any value in respect of their Entitlement.

Shares equal in number to those Entitlements not taken up by Eligible Institutional Shareholders will form part of the Institutional Bookbuild. Allocation of the Institutional Bookbuild will be determined by the Underwriters in consultation with the Company and will otherwise be subject to the terms of the Underwriting Agreement, details of which are set out in Section 9.4.

The Board presently intends to offer the Institutional Bookbuild to Eligible Institutional Shareholders and selected Institutional Investors through a volume bookbuild process managed by the Underwriter over the Institutional Offer Period at the Offer Price.

Any Entitlement not taken up pursuant to the Institutional Bookbuild will form part of the Shortfall Offer. The Company reserves the right to allocate any additional Shares to Eligible Institutional Shareholders who wish to take up additional Shares at its sole discretion. The Company will not allocate or issue any additional Shares where it is aware that to do so would result in a breach of the Corporations Act, the Listing Rules or any other relevant legislation or law.

Further details in respect of the Shortfall Offer are set out in Section 5.3.

5.1.3 Retail Offer

Eligible Retail Shareholders are invited to participate in the Retail Offer under the Prospectus, on the same terms as the Institutional Offer.

The Retail Offer constitutes an offer to Eligible Retail Shareholders only.

Eligible Retail Shareholders who wish to acquire Shares under the Retail Offer will need to follow the instructions set out in Section 5.4 of this Prospectus.

Eligible Retail Shareholders may also apply for additional Shares under the Shortfall Offer up to a maximum of 100% of their existing Entitlements.

There is no guarantee that Eligible Retail Shareholders who apply for additional Shares will receive the number of additional Shares applied for, or indeed, any additional Shares at all. The number of new Shares issued under the Shortfall Offer will not exceed the Shortfall following the Offer. The Underwriter will determine the allocation of additional new Shares in accordance with the allocation policy for the Entitlement Shortfall set out in Section 5.3.

The Company, in consultation with Underwriter, may reject any application for additional new Shares or allocate fewer additional new Shares than applied for by Eligible Retail Shareholders for additional new Shares. The ability for the

Company to issue additional new Shares is dependent upon the extent of any Shortfall.

5.2 Minimum subscription

There is no minimum subscription to the Offers.

5.3 Shortfall Offer and Allocation Policy

Any Entitlement not taken up pursuant to the Entitlement Offer (**Shortfall Shares**) will form the Shortfall Offer. The Shortfall Offer is a separate offer made pursuant to this Prospectus and will remain open for up to three months following the Closing Date. The issue price for each Share to be issued under the Shortfall Offer shall be \$0.056 being the price at which Shares have been offered under the Entitlement Offer.

If you do not wish to take up any part of your Entitlement you are not required to take any action. That part of your Entitlement not taken up will form part of the Shortfall Offer and potentially be allocated to other Eligible Shareholders or other third parties as part of the Shortfall Offer. The Shortfall Offer will only be available where there is a Shortfall between applications received from Eligible Shareholders and the number of Shares proposed to be issued under the Entitlement Offer.

Eligible Shareholders who wish to subscribe for Securities above their Entitlement are invited to apply for Shortfall Shares under the Shortfall Offer by completing the appropriate section on their Entitlement and Acceptance Form or by making payment for such Shortfall Shares in accordance with Section 5.5.

Allocation of the Shortfall Shares will be determined by the Underwriter in agreement with the Company in accordance with the terms of the Underwriting Agreement, details of which are set out in Section 9.4. If the Shortfall Offer is oversubscribed (by take up of Entitlements and applications for Shortfall Shares by Eligible Shareholders and third parties), scale back may be applied to applications under the Shortfall Offer. There is no guarantee that Eligible Shareholders will receive Shares applied for under the Shortfall Offer.

The Underwriter notes that no Shares will be issued to an applicant under this Prospectus or via the Shortfall Offer if the issue of Shares would contravene the takeover prohibition in section 606 of the Corporations Act. Similarly, no Shares will be issued via the Shortfall Offer to any related parties of the Company.

Any Applicant participating in the Shortfall Offer represents and warrants that:

- it is an Institutional Investor or is shareholder in Australia or New Zealand;
- it understands that the Shares have not been, and will not be, registered under the US Securities Act or the securities laws of any state or other jurisdiction of the United States, and that the Shares may not be offered or sold in the United States except in transactions exempt from, or not subject to, the registration requirements of the US Securities Act and applicable US state securities laws;
- if it decides to sell or otherwise transfer the Shares acquired under the Shortfall Offer, it will only do so in transactions exempt from, or not subject to, the registration requirements of the U.S. Securities Act, including in regular way transactions on the ASX or otherwise where neither it nor any person acting on its behalf knows, or has reason to know, that the sale

has been pre-arranged with, or that the purchaser is, a person in the United States; and

- it has not distributed this Prospectus.

5.5 Payment options

5.5.1 By BPAY®

For payment by BPAY®, please follow the instructions on the Entitlement and Acceptance Form. You can only make a payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions. Please note that should you choose to pay by BPAY®:

- (a) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form;
- (b) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your Application Monies; and
- (c) if you pay more than is required to subscribe for your Entitlement, you will be taken to have applied for Shortfall Shares (if any) under the Shortfall Offer, to the extent of the excess.

You should be aware that your own financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration when making payment. **It is your responsibility to ensure that funds submitted through BPAY® are received by 5.00pm (AEST) on the Closing Date. The Company shall not be responsible for any delay in the receipt of the BPAY® payment.**

Guidance where you have more than one CRN (Shareholding of Shares)

If you have more than one shareholding of Shares and consequently receive more than one Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those Shareholdings only use the CRN specific to that Shareholding as set out in the applicable Entitlement and Acceptance Form. **Do not use the same CRN for more than one of your Shareholdings.** This can result in your Application Monies being applied to your Entitlement in respect of only one of your Shareholdings (with the result that any Application in respect of your remaining Shareholdings will not be valid).

5.5.2 By Electronic Funds Transfer

For payment by Electronic Funds Transfer (EFT) for both Australian and overseas Eligible Shareholders, please follow the instructions on the Entitlement and Acceptance Form. You can only make a payment via EFT if you are the holder of an account that supports EFT transactions to an Australian bank account. Please note that should you choose to pay by EFT:

- (a) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form;
- (b) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your Application Monies; and
- (c) if you pay more than is required to subscribe for your Entitlement, you will be taken to have applied for Shortfall Shares (if any) under the Shortfall Offer, to the extent of the excess.

5.6 Implications of an acceptance

Paying any Application Monies by BPAY® or EFT will be taken to constitute a representation by you that:

- (a) you have received a copy of this Prospectus and the accompanying Entitlement and Acceptance Form, and read them both in their entirety;
- (b) you acknowledge that once a BPAY® or EFT payment instruction is given in relation to any Application Monies, the application may not be varied or withdrawn except as required by law.

If ASX does not grant Official Quotation of the Shares offered pursuant to the Prospectus before the expiration of three months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any Shares and will repay all Application Monies for the Shares within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the Shares is not to be taken in any way as an indication of the merits of the Company or the Shares now offered for subscription.

1. Exchange rate of A\$0.6578/US\$1.00

2. Refer to Section 9.9 for further details.

On completion of the Offers, the Board believes the Company will have sufficient working capital to achieve its stated objectives.

The above tabled expenditures represent a statement of current intentions as of the date of this Prospectus. As with any budget, intervening events and new circumstances have the potential to affect the manner in which the funds are ultimately applied. The Board reserves the right to alter the way funds are applied on this basis.

The purpose of the Placement Offer is to facilitate the issue of the Shares the subject of those Offers and, in particular, to facilitate the secondary trading of Shares.

6.2 Effect of the Offers

The principal effect of the Offers (assuming all Entitlements are accepted, the Placement is fully subscribed and no other Shares are issued prior to the Record Date (including on exercise or conversion of other Securities on issue) will be to:

- (a) increase the cash reserves by approximately \$24.27 million (before deducting the estimated expenses of the Offers) immediately after completion of the Offers; and
- (b) increase the number of Shares on issue from 596,420,166 Shares as at the date of this Prospectus to approximately 1,029,867,753 Shares following completion of the Offers.

6.3 Effect on capital structure

The effect of the Offers on the capital structure of the Company (assuming all Entitlements are accepted, the Placement is fully subscribed and no other Shares are issued prior to the Record Date including on exercise or conversion of other Securities on issue) is set out below.

Shares

Warrants

	Number
Warrants currently on issue ¹	46,383,038
Warrants offered pursuant to this Prospectus	Nil
Total Warrants on issue after completion of the Offers	46,383,038

Notes:

1. As announced on 31 January 2024, TNC has agreed to issue additional warrants to Nebari Natural Resources Credit Fund II LP, subject to TNC shareholder approval under Listing Rule 7.1, on first drawdown of the tranche 2 loan amount (refer to the announcement dated 31 January 2024 for details of how the number and exercise price for the tranche 2 warrants will be determined).
2. The terms of the Warrants do not permit their holders to participate in the Entitlement Offer, except by exercise of the Warrants and thereby acquiring the underlying Shares in the Company before the Record Date for the Entitlement Offer. This is unlikely as the exercise price of each Warrant is materially higher than the price at which Shares in the Company have been trading on ASX in recent times. The terms of the Warrants do provide for an adjustment in their exercise price according to the formula in rule 6.22.2 of the ASX Listing Rules. The exercise price adjustment takes effect upon issue of the new Shares offered under the Entitlement Offer and is, in part, dependent on the difference between the price under the Entitlement Offer and the volume weighted average market price of the Company's Shares sold on ASX for the 5 trading days ending on the day before the 'ex date' for the Entitlement Offer. For the purposes of ASX Listing Rule 3.11.2, the Company advises that based on the volume weighted average market price of the Company's Shares sold on ASX for the 5 trading days ending on the day before the 'ex date' for the Entitlement Offer, the exercise price of the Warrants will be reduced to \$0.1127 as a result of the Entitlement Offer.

The capital structure on a fully diluted basis as at the date of this Prospectus would be 664,477,758 Shares and on completion of the Offers (assuming all Entitlements are accepted and no Shares are issued including on exercise or conversion of other Securities on issue prior to the Record Date) would be 1,097,925,347 Shares.

6.4 Pro-forma statement of financial position

The reviewed balance sheet as at 31 December 2023 and the unaudited pro-forma balance sheet shown below have been prepared on the basis of the accounting policies normally adopted by the Company and reflect the changes to its financial position.

The pro-forma balance sheet has been prepared assuming all Entitlements are accepted, the Placement is fully subscribed, no other Shares are issued prior to the Record Date including on exercise or conversion of other Securities on issue and including expenses of the Offers.

The pro-forma balance sheet has been prepared to provide investors with information on the assets and liabilities of the Company and pro-forma assets and liabilities of the Company as noted below. The historical and pro-forma financial information is presented in an abbreviated form, insofar as it does not include all of the disclosures required by Australian Accounting Standards applicable to annual financial statements.

Notes:

- The payments include a deferred payment consideration of \$1 million to the former shareholders of CopperCorp Pty Ltd (**CopperCorp**), as part of the agreement to acquire 100% of CopperCorp.
- On 31 January 2024, the Company made an announcement that it had entered into a binding loan agreement with Nebari. This agreement pertains to a four-year senior secured loan facility denominated in USD, amounting to USD28 million (equivalent to A\$42 million). The loan facility is divided into two tranches. Tranche 1, amounting to USD18 million (A\$27million), was drawn on 9 February 2024. As part of the Tranche 1 facility, a rehabilitation bond of approximately A\$13.47 million is held on term deposit, earning interest of approximately 5% per annum. Bank guarantees have been issued to meet the Company's obligations concerning rehabilitation bonding requirements. Also a short-term working capital loan of approximately A\$5.32 million was fully repaid. The short-term working loan from Tembo I in July 2023 for A\$4 million along with interest was converted into equity ahead of its maturity date 21 January 2024.
- Change in contributed capital (\$7,504,586) includes the following:
 - on 18 January 2024, the Company received A\$2.15 million in equity from Tembo Capital Mining Fund III, the second tranche of the capital raise (approved by shareholders on 22 December 2023);
 - the short-term working loan from Tembo in July 2023 for \$4 million along with interest were converted into equity ahead of its maturity date 21 January 2024; and
 - on 28 March 2024, the Company announced a share placement of \$5 million comprising the issue of 41,666,667 fully paid ordinary shares at 12 cents per share to Millinium Capital Managers Limited as trustee for MP Materials and Mining Group Fund. Subsequently in April 2024, the Company received a contribution of A\$1 million towards its share capital.

6.5 Details of substantial holders

Based on publicly available information as at the date of this Prospectus, those persons which (together with their associates) have a relevant interest in 5% or more of the Shares on issue are set out below:

Shareholder	Shares	% (Undiluted)	Entitlement	\$
			Shares	
Tembo Capital Holdings UK Limited ¹	191,430,844	32.10%	95,715,422	\$5,360,064

HSBC Custody Nominees (Australia) Limited	29,844,017	5.00%	14,922,009	\$835,633

Notes:

1. Tembo has agreed to take up \$4 million (71,428,571 Shares) of its Entitlement under the Institutional Entitlement Offer and has entered into a sub-underwriting agreement with the Underwriters to sub-underwrite up to \$2 million (35,714,285 Shares) of the Retail Offer.

As the Offers are fully underwritten, there is not expected to be any change to the substantial holders on completion of the Offers, noting that Tembo may only acquire up to an additional 107,142,857 Shares through partially taking up its Entitlement and partially sub-underwriting the Retail Offer, such that its voting power in the Company will be diluted (by the underwritten Placement) following completion of the Entitlement Offer and the Placement.

The Company, in consultation with the Underwriters, will ensure that the Offer (including the equitable dispersion of any Shortfall Shares) complies with the provisions of Chapter 6 of the Corporations Act and is otherwise consistent with the policy guidelines contained in ASIC Regulatory Guide 6 and Takeovers Panel Guidance Note 17.

7. RIGHTS AND LIABILITIES ATTACHING TO SHARES

7.1 Rights and liabilities attaching to Shares

The following is a summary of the more significant rights and liabilities attaching to the Shares being offered pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

(a) General meetings

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company. The Company's constitution permits the use of technology at general meetings of shareholders (including wholly virtual meetings) to the extent permitted under the Corporations Act, Listing Rules and applicable law.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

(b) Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at general meetings of shareholders or classes of shareholders:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid shares shall have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

(c) Dividend rights

Subject to the rights of any preference Shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

(d) **Winding-up**

If the company is wound up and the surplus assets are insufficient to repay the whole of the paid up capital, the surplus assets must be distributed so that, as nearly as may be, the losses are borne by the members in proportion to the capital paid up or which ought to have been paid up on the shares held by them at the commencement of the winding up.

If in a winding up the assets available for distribution among the members are more than sufficient to repay the whole of the capital paid up at the commencement of the winding up, the excess must be distributed among the members in proportion to the capital paid up or which ought to have been paid up on the shares held by them at the commencement of the winding up.

(e) **Shareholder liability**

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) **Transfer of shares**

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

(g) **Future increase in capital**

The issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of securities contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

(h) **Variation of rights**

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(i) **Alteration of constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

8. RISK FACTORS

8.1 Introduction

The Shares offered under this Prospectus should be considered as highly speculative and an investment in the Company is not risk free.

The Directors strongly recommend that prospective investors consider the risk factors set out in this Section 8, together with all other information contained in this Prospectus.

The future performance of the Company and the value of the Securities may be influenced by a range of factors, many of which are largely beyond the control of the Company and the Directors. The key risks associated with the Company's business, the industry in which it operates and general risks applicable to all investments in listed securities and financial markets generally are described below.

The risks factors set out in this Section 8, or other risk factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the Shares. This Section 8 is not intended to provide an exhaustive list of the risk factors to which the Company is exposed.

Before determining whether to invest in the Company you should ensure that you have a sufficient understanding of the risks described in this Section 8 and all of the other information set out in this Prospectus and consider whether an investment in the Company is suitable for you, taking into account your objectives, financial situation and needs.

If you do not understand any matters contained in this Prospectus or have any queries about whether to invest in the Company, you should consult your accountant, financial adviser, stockbroker, lawyer or other professional adviser.

8.2 Company specific

Risk Category	Risk
Potential for dilution	<p>Upon implementation of the Offers, assuming successful completion of the Offers and assuming no other Shares are issued prior to the Record Date, the number of Shares in the Company will increase from 596,420,166 Shares currently on issue to approximately 1,029,867,753. This means that immediately after the Offers each Share will represent a significantly lower proportion of the ownership of the Company.</p> <p>Specifically, Shareholders should note that if they do not participate in the Entitlement Offer, their holdings are likely to be diluted by approximately 42.26% (as compared to their holdings and number of Shares on issue as at the Record Date). Examples of how the dilution may impact Shareholders is set out in the table at Section 4.8.</p> <p>It is not possible to predict what the value of the Company, a Share will be following the completion of the Offers and the Directors do not make any representation as to such matters.</p> <p>The last trading price of Shares on ASX prior to the Prospectus being lodged of \$0.075 per Share is not a</p>

Risk Category	Risk
	reliable indicator as to the potential trading price of Shares after completion of the Offers.
Results of studies	<p>The Company may progressively undertake further studies in respect of its projects (including in connection with further exploration and testing programs to be undertaken, and optimisations and refinements of studies already announced). These studies may include scoping, prefeasibility and/or feasibility studies.</p> <p>These studies will be completed within parameters designed to determine the economic feasibility of the relevant project within certain limits. There can be no guarantee that any of the studies will confirm the economic viability of the relevant project, or the results of earlier studies undertaken by the Company (e.g. the results of a feasibility study may materially differ to the results of a scoping study).</p>
Funding risk	<p>The Company's ability to effectively implement its business and operations plans in the future, to take advantage of opportunities for acquisitions, joint ventures or other business opportunities and to meet any unanticipated liabilities or expenses which the Company may incur may depend in part on its ability to raise additional funds. The Company may seek to raise further funds through equity or debt financing, joint ventures, production sharing arrangements or other means. Failure to obtain sufficient financing for the Company's activities and future projects may result in delay and indefinite postponement of exploration, development or production on the Company's properties or even loss of a property interest. There can be no assurance that additional finance will be available when needed or, if available, the terms of the financing might not be favourable to the Company and might involve substantial dilution to Shareholders.</p> <p>Further, the Company, in the ordinary course of its operations and developments, is required to issue financial assurances, particularly insurances and bond/bank guarantee instruments to secure statutory and environmental performance undertakings and commercial arrangements. The Company's ability to provide such assurances is subject to external financial and credit market assessments, and its own financial position.</p> <p>Loan agreements and other financing rearrangements such as debt facilities, convertible note issue and finance leases (and any related guarantee and security) that may be entered into by the Company may contain covenants, undertakings and other provisions which, if breached, may entitle lenders to accelerate repayment of loans and there is no assurance that the Company would be able to repay such loans in the event of an acceleration. Enforcement of any security granted by the Company or default under a finance lease could also result in the loss of assets.</p> <p>The Company is exposed to risks associated with its financial instruments (consisting of cash, receivables,</p>

Risk Category	Risk
	<p>accounts payable and accrued liabilities due to third parties from time to time). This includes the risk that a third party to a financial instrument fails to meet its contractual obligations; the risk that the Company will not be able to meet its financial obligations as they fall due; and the risk that market prices may vary which will affect the Company's income.</p>
Mine development	<p>Possible future development of mining operations at the Company's projects is dependent on a number of factors including, but not limited to, the acquisition and/or delineation of economically recoverable mineralisation, favourable geological conditions, receiving the necessary approvals from all relevant authorities and parties, seasonal weather patterns, unanticipated technical and operational difficulties encountered in extraction and production activities, mechanical failure of operating plant and equipment, shortages or increases in the price of consumables, spare parts and plant and equipment, cost overruns, access to the required level of funding and contracting risk from third parties providing essential services.</p> <p>If the Company commences production on one of the Projects, its operations may be disrupted by a variety of risks and hazards which are beyond the control of the Company. No assurance can be given that the Company will achieve commercial viability through the development of any of the Projects.</p> <p>The risks associated with the development of a mine will be considered in full should any of the Projects reach that stage and will be managed with ongoing consideration of stakeholder interests.</p>
Production	<p>The Company cannot give any assurance that it will achieve its production estimates. The failure of the Company to achieve its production estimates could have a material and adverse effect on any or all of its future cash flows, results of operations and financial condition. Production estimates are dependent on, among other things, its projects being operational by targeted dates, the accuracy of Mineral Resource and Ore Reserve estimates, the accuracy of assumptions regarding ore grades and recovery rates, copper price and exchange rates, ground conditions and physical characteristics of ores, such as hardness and the presence or absence of particular metallurgical characteristics and the accuracy of estimated rates and costs of mining and processing.</p> <p>The Company's actual production may also vary from its estimates for a variety of reasons, including, adverse operating conditions (such as unexpected geological conditions, fire, weather, accidents), compliance with governmental requirements, labour and safety issues, delays in installing or repairing plant and equipment, inability to complete, or lack of success of, capital development and exploration drilling. Problems may also arise due to interruptions to essential services (such as power, water, fuel, equipment or transport capacity) or</p>

Risk Category	Risk
	<p>technical support which results in a failure to achieve expected target dates for production.</p> <p>Each of these factors also applies to the Company's sites not yet in production and to operations that are to be expanded. Depending on the price of copper, the Company may determine that it is impractical to commence or, if commenced, to continue commercial production at a particular site.</p>
<p>Exploration and Operating</p>	<p>The tenements comprising the Company's projects are at various stages of exploration, and potential investors should understand that mineral exploration and development are high-risk undertakings.</p> <p>There can be no assurance that future exploration of these licences, or any other mineral licences that may be acquired in the future, will result in the discovery of an economic resource. Even if an apparently viable resource is identified, there is no guarantee that it can be economically exploited.</p> <p>The future exploration activities of the Company may be affected by a range of factors including geological conditions, limitations on activities due to seasonal weather patterns or adverse weather conditions, unanticipated operational and technical difficulties, difficulties in commissioning and operating plant and equipment, mechanical failure or plant breakdown, unanticipated metallurgical problems which may affect extraction costs, industrial and environmental accidents, industrial disputes, unexpected shortages and increases in the costs of consumables, spare parts, plant, equipment and staff, native title process, changing government regulations and many other factors beyond the control of the Company.</p> <p>The success of the Company will also depend upon the Company being able to maintain title to the tenements comprising the Projects and obtaining all required approvals for their contemplated activities. In the event that exploration programmes prove to be unsuccessful this could lead to a diminution in the value of the Projects, a reduction in the cash reserves of the Company and possible relinquishment of one or more of the tenements comprising the Projects.</p>
<p>Tenure and Access</p>	<p>Renewal</p> <p>Mining and exploration tenements are subject to periodic renewal. The renewal of the term of granted tenements is subject to compliance with the applicable mining legislation and regulations and the discretion of the relevant mining authority. Renewal conditions may include increased expenditure and work commitments or compulsory relinquishment of areas of the tenements. The imposition of new conditions or the inability to meet those conditions may adversely affect the operations, financial position and/or performance of the Company.</p> <p>The Company considers the likelihood of tenure forfeiture to be low given the laws and regulations governing</p>

Risk Category	Risk
	<p>exploration in Queensland and the ongoing expenditure budgeted for by the Company. However, the consequence of forfeiture or involuntary surrender of a granted tenements for reasons beyond the control of the Company could be significant.</p> <p>Access</p> <p>Access to land in Queensland for mining and exploration purposes can be affected by land ownership, including private (freehold) land, pastoral leases and regulatory requirements within the jurisdiction where the Company operates.</p> <p>Several of the Tenements overlap certain third-party interests including private land, pastoral leases, petroleum licences and mining tenure held by third parties, and areas covered by native title determinations or native title claims.</p> <p>A number of agreements with the owners of the land underlying the Tenements, and relevant native title parties, are already in place in respect of some of the Tenements, although it is anticipated that updated and/or expanded agreements may be required in order to undertake expanded and/or more invasive activities on the Tenements in future.</p> <p>Any non-compliance by or dispute with the contract counterparty could affect the Company's ability to access its projects and associated infrastructure which will affect operations and financial performance generally.</p> <p>While the Company does not presently consider this to be a material risk to its planned exploration, there is a risk that any delays in respect of conflicting third-party rights, obtaining necessary consents, or compensation obligations, may adversely impact the Company's ability to carry out exploration or mining activities within the affected areas.</p>
<p>Financial assurance bond</p>	<p>The financial provisioning scheme administered under the <i>Mineral and Energy Resources (Financial Provisioning) Act 2018</i> (QLD) requires holders of environmental authorities to provide financial assurance (as security) to the state of Queensland for compliance with environmental authorities. True North is the holder of environmental authorities EPML00876013 and EPML00941713EPML, and accordingly is required to provide surety to the State of Queensland. The required financial assurance has been provided to the State of Queensland on behalf of True North via a financing arrangement with Dyda Property Management Pty Ltd, and was replaced on drawdown of tranche 1 of the Nebari loan facility in February 2024. As part of the Company's proposed activities, the Company may be required by the State of Queensland to submit additional financial assurance. In addition, there is a risk the financial assurance levels may change in the future due to changes in environmental risk associated with the Company's Projects and this may have an adverse effect on the Company's performance.</p>

Risk Category	Risk
<p>Native Title and Aboriginal Heritage</p>	<p>In relation to tenements which the Company has an interest in or will in the future acquire such an interest, there may be areas over which legitimate common law native title rights of Aboriginal Australians exist. Where native title rights do exist, the ability of the Company to gain access to tenements (through obtaining consent of any relevant landowner), or to progress from the exploration phase to the development and mining phases of operations may be adversely affected. A number of agreements with relevant native title parties, are already in place in respect of some of the tenements, although it is anticipated that updated and/or expanded agreements may be required in order to undertake expanded and/or more invasive activities on the tenements in future.</p> <p>In addition, a number of Aboriginal heritage sites and objects have been identified within the areas of some of the tenements comprising the Projects. Generally speaking, exploration and mining activities can be undertaken so as to avoid adverse impact to those sites identified, however the existence of these sites (and future Aboriginal heritage sites and objects identified) may lead to restrictions on the areas that the Company will be able to explore and mine.</p> <p>Specialist investigations in respect of the Henry's Cave site located on EPM 10313 have occurred and a management plan is in place to ensure the Company does not impact the cave. This management plan will inform the planning of future activities on that tenement. The Directors will continue to closely monitor the potential effect of native title claims or Aboriginal heritage matters involving tenements in which the Company has or may have an interest.</p>
<p>Environmentally Sensitive Areas</p>	<p>A number of tenements comprising the Projects contain areas that have been identified as Endangered Regional Ecosystems which are treated as Category B Environmentally Sensitive Areas under the Standard Environmental Conditions that apply to the environmental authorities for each of the tenements. These conditions provide that mining activities must not be undertaken within Category B Environmentally Sensitive Areas and machinery must not be used within 500m of a Category B Environmentally Sensitive Area.</p> <p>There is a risk that the existence of such area may preclude or limit mining activities in certain areas of the Tenements which are important to the Company's operations. However, these areas only cover a small proportion of the overall area of the Tenements and are unlikely interfere with the Company's proposed exploration activities.</p> <p>Tenements EPM 10313 and EPM 26852 overlap with the Chidna Nature Refuge and Belmont State Forest, respectively, which are treated as Category C Environmentally Sensitive Areas under the Standard Environmental Conditions contained in the Code of Environmental Compliance for Exploration and Mineral</p>

	<p>Development Projects. Whilst mining is not prohibited within these areas additional consents and approvals prior to conducting activities on the reserves may be required. Delays in obtaining, or the inability to obtain, these consents and approvals may significantly impact on the Company's operations.</p>
Climate Risk	<p>There are a number of climate-related factors that may affect the operations and proposed activities of the Company. The climate change risks particularly attributable to the Company include:</p> <p>(a) the emergence of new or expanded regulations associated with the transitioning to a lower-carbon economy and market changes related to climate change mitigation. The Company may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact the Company and its profitability. While the Company will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that the Company will not be impacted by these occurrences; and</p> <p>(b) climate change may cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns. All these risks associated with climate change may significantly change the industry in which the Company operates.</p>

8.3 Industry specific

Risk Category	Risk
Exploration Success	<p>The mineral assets in which the Company will acquire an interest are at various stages of exploration, and potential investors should understand that mineral exploration and development are high-risk undertakings.</p> <p>There can be no assurance that exploration of these assets, or any other assets that may be acquired in the future, will result in the discovery of an economic ore deposit. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited.</p>
Resource and Reserves and Exploration Targets	<p>The Company has identified a number of exploration targets based on geological interpretations and limited geophysical data, geochemical sampling and historical drilling. Insufficient data however, exists to provide certainty over the extent of the mineralisation. Whilst the</p>

Risk Category	Risk
	<p>Company intends to undertake additional exploratory work with the aim of defining a resource, no assurances can be given that additional exploration will result in the determination of a resource on any of the exploration targets identified. Even if a resource is identified no assurance can be provided that this can be economically extracted.</p> <p>Reserve and resource estimates are expressions of judgement based on knowledge, experience and industry practice. Estimates which were valid when initially calculated may alter significantly when new information or techniques become available. In addition, by their very nature resource and reserve estimates are imprecise and depend to some extent on interpretations which may prove to be inaccurate.</p>
<p>Grant of future authorisations to explore and mine</p>	<p>If the Company discovers an economically viable mineral deposit that it then intends to develop, it will, among other things, require various approvals, licence and permits before it will be able to mine the deposit. There is no guarantee that the Company will be able to obtain all required approvals, licenses and permits. To the extent that required authorisations are not obtained or are delayed, the Company's operational and financial performance may be materially adversely affected.</p>
<p>Environmental</p>	<p>The operations and proposed activities of the Company are subject to Australian regulations concerning the environment. As with most exploration projects and mining operations, the Company's activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds. It is the Company's intention to conduct its activities to the highest standard of environmental obligation, including compliance with all environmental laws.</p> <p>Mining operations have inherent risks and liabilities associated with safety and damage to the environment and the disposal of waste products occurring as a result of mineral exploration and production. The occurrence of any such safety or environmental incident could delay production or increase production costs. Events, such as unpredictable rainfall or bushfires may impact on the Company's ongoing compliance with environmental legislation, regulations and licences. Significant liabilities could be imposed on the Company for damages, clean-up costs or penalties in the event of certain discharges into the environment, environmental damage caused by previous operations or non-compliance with environmental laws or regulations.</p> <p>The disposal of mining and process waste and mine water discharge are under constant legislative scrutiny and regulation. There is a risk that environmental laws and regulations become more onerous making the Company's operations more expensive.</p> <p>Approvals are required for land clearing and for ground disturbing activities. Delays in obtaining such approvals</p>

Risk Category	Risk
	can result in the delay to anticipated exploration programmes or mining activities.
Regulatory Compliance	<p>Interests in tenements in Queensland are governed by legislation and are evidenced by the granting of leases and licences by the State. The Company will be subject to legislation and regulations in Queensland as it relates to the Projects located in Queensland and will have an obligation to meet conditions that apply to those tenements, including the payment of rent and prescribed annual expenditure commitments.</p> <p>The Projects will be, subject to annual review and periodic renewal. While it is the Company's intention to satisfy the conditions that apply to the Projects, there can be no guarantees made that, in the future, the Projects that are subject to renewal will be renewed or that minimum expenditure and other conditions that apply to the tenements will be satisfied. Renewal conditions may include increased expenditure and work commitments or compulsory relinquishment of areas of the Projects.</p>

8.4 General risks

Risk Category	Risk
Reliance on Key Personnel	<p>The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment.</p> <p>The Company may not be able to replace its senior management or key personnel with persons of equivalent expertise and experience within a reasonable period of time or at all and the Company may incur additional expenses to recruit, train and retain personnel. Loss of such personnel may also have an adverse effect on the performance of the Company.</p>
Economic risks	<p>General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's activities, as well as on its ability to fund those activities.</p>
Competition Risk	<p>The industry in which the Company will be involved is subject to domestic and global competition. Although the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operating and financial performance of the Company's projects and business.</p>
Market conditions	<p>Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:</p>

Risk Category	Risk
	<p>(a) general economic outlook;</p> <p>(b) introduction of tax reform or other new legislation;</p> <p>(c) interest rates and inflation rates;</p> <p>(d) changes in investor sentiment toward particular market sectors;</p> <p>(e) the demand for, and supply of, capital; and</p> <p>(f) terrorism or other hostilities.</p> <p>The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.</p> <p>Further, after the end of the relevant escrow periods affecting Shares in the Company, a significant sale of then tradeable Shares (or the market perception that such a sale might occur) could have an adverse effect on the Company's Share price.</p>
<p>Commodity Price Volatility and Exchange Rate Risks</p>	<p>The Company's operating results, economic and financial prospects and other factors will affect the trading price of the Shares. In addition, the price of Shares is subject to varied and often unpredictable influences on the market for equities, including, but not limited to, general economic conditions including the performance of the Australian dollar on world markets, inflation rates, foreign exchange rates and interest rates, variations in the general market for listed stocks in general, changes to government policy, legislation or regulation, industrial disputes, general operational and business risks and hedging or arbitrage trading activity that may develop involving the Shares.</p> <p>In particular, the share prices for many companies have been and may in the future be highly volatile, which in many cases may reflect a diverse range of non-company specific influences such as global hostilities and tensions relating to certain unstable regions of the world, acts of terrorism and the general state of the global economy. No assurances can be made that the Company's market performance will not be adversely affected by any such market fluctuations or factors.</p>
<p>Agents and Contractors</p>	<p>The Directors are unable to predict the risk of the insolvency or managerial failure by any of the contractors used (or to be used in the future) by the Company in any of its activities or the insolvency or other managerial failure by an of the other service providers used (or to be used in the future) by the Company for any activity.</p>
<p>Government Policy Changes</p>	<p>Adverse changes in government policies or legislation may affect ownership of mineral interests, taxation, royalties, land access, labour relations, and mining and exploration activities of the Company. It is possible that the current system of exploration and mine permitting in Queensland (in relation to the Projects located in Queensland) may change, resulting in impairment of</p>

Risk Category	Risk
	rights and possibly expropriation of the Company's properties without adequate compensation.
Insurance	<p>The Company intends to insure its operations in accordance with industry practice. However, in certain circumstances the Company's insurance may not be of a nature or level to provide adequate insurance cover. The occurrence of an event that is not covered or fully covered by insurance could have a material adverse effect on the business, financial condition and results of the Company.</p> <p>Insurance of all risks associated with the Company's business may not always available and where available the costs can be prohibitive.</p>
Force Majeure	The Company's projects now or in the future may be adversely affected by risks outside the control of the Company including labour unrest, civil disorder, war, subversive activities or sabotage, fires, floods, explosions or other catastrophes, epidemics or quarantine restrictions.
Taxation	<p>The acquisition and disposal of Shares will have tax consequences, which will differ depending on the individual financial affairs of each investor. All prospective investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Shares from a taxation viewpoint and generally.</p> <p>To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for Shares under this Prospectus.</p>
Litigation risks	The Company is exposed to possible litigation risks including intellectual property claims, contractual disputes, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position. The Company is not currently engaged in any litigation.
Potential Acquisitions	As part of its business strategy, the Company may make acquisitions of, or significant investments in, complementary companies or prospects and additional assets. Any such acquisitions will be accompanied by risks commonly encountered and listed in this Section.

8.5 Speculative investment

The risk factors described above, and other risks factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the Shares.

Prospective investors should consider that an investment in the Company is highly speculative.
