INVESTOR UPDATE | MAY 2024

MARKET CONDITIONS

Retailing macro economic conditions remain weak

- Retail is emerging from a long recession, with retail sales volumes increasing by 0.3% in the December quarter (following four quarters of decline).
- We expect improvement in market conditions in FY25 as tax cuts, growth in real wages and population, and the potential for rate cuts are expected to allow some consumers to ditch frugality.
- Our brands are not immune to a tougher retail environment with our higher ATV (\$44) pizza & ribs brands more impacted than the lower ATV (<\$10) coffee & café brands

Online ecommerce remains a growth opportunity with Australia lagging behind other countries

Australia lags behind the UK in the uptake of online food shopping, however online shopping in general is more popular in the UK.

(1) SSS for QSR is inclusive of Rack'em Bones BBQ Ribs as this brand operates within an existing Crust outlet

- QSR contributed 29% of group network sales with no vertical integration of product sales into the network
- Competitors continued to use heavy discounting in their price war to chase volume. Crust has lost customer count by not matching discounts but has reduced the impacts to franchisee profitability
- QSR is focused on protecting franchisee profitability through growth in Rack'em Bones and expansion of product range (burnt ends & cheesy crust)
- Rack'em Bones has offset network sales loss and is now available in the majority of Crust locations. The next phase of growth will come from the release of a direct to customer eComm site in 2H24, expanding the product beyond UberEats
- Investment in first two company outlets in multi brand European Garage locations (Gloria Jean's, Crust, Ribs) supplemented by the conversion of a pizza capers franchisee store into a Crust company store

Quick Service Restaurants ('QSR')

- Customer count impacted by competitor discounting in the lead up to and the period immediately after Christmas and New Year trading
- Same Store Sales down \$8.2 million in pizza brands offset by \$4.5 million of sales through Rack'em Bones
- Stable outlet count in pizza brands (down 5) supplemented by rapid growth in Rack'em Bones outlets (up 56)
- Launch of Crustworthy as we continue to build product differentiation, invest in technology and drive customer acquisition

(1) Network sales based on unaudited reported sales by Franchise Partners and company outlets for FY23 weeks 1-52 and weeks 1 – 43 of FY24
 (2) Same Store Sales includes Rack 'em Bones ('REB') because brand commenced trading in an existing Crust or Pizza Capers Franchise and provides an incremental benefit to existing Franchise Partners

Underlying EBITDA

\$28m - \$32m

- QSR has deteriorated since our last update but has been offset by stronger trading in CCB
- Profits from Rack'em Bones continue to be reinvested into marketing to drive growth through 2H24 before generating profits in FY25 alongside launch into direct (non-3PA channel) in the second half
- Corporate store roll out largely complete for FY24 with focus now on outlet standards, revenue growth and improving margins to drive profitability
- We will invest up to \$0.5m in franchisee support to convert our mobile brands (Café2U and The Coffee Guy) to Gloria Jean's
