FY24 Upgraded Guidance and Results Release Date

Bravura Solutions Limited (ASX:BVS) (Bravura) is upgrading its FY24 unaudited EBITDA guidance to approximately \$25m (previously \$18m-\$22m), resulting in a Cash EBITDA guidance of around \$10m.

The upgraded FY24 guidance follows our successful transformation execution over the course of the year which has resulted in the stabilisation of the business and continued progress towards rightsizing the cost base. The scale and pace of the FY24 transformation has outperformed our FY24 budget planning expectations.

Bravura's Group CEO Andrew Russell said:

"We are pleased to deliver EBITDA performance that is ahead of guidance. This is further confirmation of the execution progress of our strategy to reset and energise the Bravura business. We have returned to profitability, are growing our cash EBITDA margin and have a healthy balance sheet. We intend to provide further updates on our capital management strategy at our full year results presentation in August."
