ABOUT DGR GLOBAL LIMITED

DGR Global's business involves the creation of resource exploration development and mining companies. The business uses the skills of a core team of talented geoscientists to identify resource projects capable of yielding world class discoveries of attractive commodities.

This is achieved through:

- The identification of commodities with a favourable 20-year price outlook.
- Geological terranes with:
 - A demonstrated strong endowment for that commodity.
 - An under-explored history.
 - Opportunity for the application of recently developed exploration techniques.
 - Jurisdictions with improving socio-economic and regulatory frameworks.
- Extensive available tenures.

DGR provides initial seed funding and management support to secure assets in subsidiaries and develop these assets to more advanced funding stages. DGR has a pipeline of projects in group companies at various stages of emergence and in 2015 crystallised a significant return through the sale of its 15% holding in Orbis Gold for \$26million. Further development of its holdings in LSE and TSX-listed SolGold Plc and AIM and ASX listed Atlantic Lithium Ltd, ASX-listed Clara Resources and NewPeak Metals and unlisted Auburn Resources Ltd are expected.
