Discussions are ongoing with debt providers looking at providing sufficient capital for the company to achieve its stated target of getting connected to the power grid in Botswana and selling electricity. The debt providers will need to complete their internal due diligence on the company prior to allocation of funds. Subject to the results of this due diligence, funds from one or more of these groups is expected in Q3 2024. In addition, the company may raise equity capital via a placement in advance of receiving debt funding if necessary. While indications from the debt providers and discussions with potential equity investors have been positive, the company cannot guarantee that sufficient capital will be raised either from debt providers or from a potential placement.

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: The company expects to be able to continue operations and meet business objectives should sufficient funds be received from the ongoing discussions. If not the company may need to delay or postpone planned activities until sufficient capital becomes available.
