Equity markets corrected last week with volatility surging following results from Alphabet that failed to live up high expectations by investors. A shadow has been cast over the other Mag 7 and AI related names that have led the rally this year. The yen also rallied as large short positions are unwound, and as markets brace for possible rate hikes from the BOJ and easing from the Fed. Precious metals corrected with the short yen unwind. We have made no changes to the Fund's portfolio during the week.
