

TEM | Yalgoo Update - Remorse Site Works Commenced

Key Points

- Access and pad construction in progress at Remorse Target
- Drilling to commence as soon as safely possible

Summary

Tempest Minerals Ltd (TEM) is pleased to update the market on the Remorse Project. After significant weather related delays, safe access has been established and earthworks at the Remorse Target have commenced. This work includes critical site access and drill pad construction. It is expected that upon the completion of this work that drilling will commence shortly thereafter in late August 2024.

Yalgoo Project

Remorse Target Drilling

TEM have previously announced its plans to conduct a circa 5,000m Reverse Circulation (RC) drilling program at the exciting Copper focussed Remorse Target ¹ which is part of the Company's flagship Yalgoo Project. Works have been significantly delayed due to unforeseen weather and flooding onsite ² which have prevented safe access. Earthworks have now commenced including site access tracks and drill pad construction. Upon completion of this work, drilling is anticipated to start late August 2024.

Figure 01: Earthworks commencing at the Remorse Target

Next Steps

- Earthworks to be completed
- Drilling expected to commence late August 2024

The Board of the Company has authorised the release of this announcement to the market.

About TEM

Tempest Minerals Ltd is an Australian based mineral exploration company with a diversified portfolio of projects in Western Australia considered highly prospective for precious, base and energy metals. The Company has an experienced board and management team with a history of exploration, operational and corporate success.

Tempest leverages the team's energy, technical and commercial acumen to execute the Company's mission - to maximise shareholder value through focused, data-driven, risk-weighted exploration and development of our assets.
