Dividends and capital management

Dividends and capital management

 - Balance sheet – maintain conservative credit metrics
- The Board has determined to pay a fully franked final ordinary dividend of 37 cents per share which is at the upper end of the Group's dividend payout policy
- In addition to the final ordinary dividend, the Board has determined to pay a fully franked special dividend of 50 cents per share
- Together with the interim ordinary dividend of 32 cents this represents an aggregate dividend payment to shareholders for FY24 of 119 cents per share
- The Group is continuing to target a long-term net debt / EBITDA position (pre AASB 16) of between 0 and 0.5x
- Decisions on future capital management activity will be made having regard to the outlook at the time and the primary objective of ensuring that the Group maintains the balance sheet strength and capacity to support its operations, growth plan and associated capital requirements

Trading update

FY25 trading update

	Like-for-Like Sales Growth FY25 v FY24 (Weeks 1 to 7)	Total Sales Growth FY25 v FY24 (Weeks 1 to 7)
Supercheap Auto	4%	6%
rebel	1%	1%
BCF	3%	5%
Macpac	9%	15%
Group Total	3%	5%

- The Group has made a strong start to FY25, delivering three per cent like-for-like sales growth and five per cent total sales growth in the first 7 weeks:
 - Supercheap Auto executed a successful Best Performing Oils promotion which was brought forward in the calendar compared to the pcp
 - Footwear and apparel have driven higher sales in rebel, which is cycling elevated sales of licensed products in the pcp relating to the FIFA Women's Football World Cup
 - BCF has seen continued growth in fishing, caravan and 4WD. BCF's superstores at Townsville, Kawana and Mackay are trading well
 - Macpac has delivered a strong finish to the peak winter sales period. Sales momentum has accelerated in FY25 YTD with insulation and rainwear sales benefitting from cold and wet weather

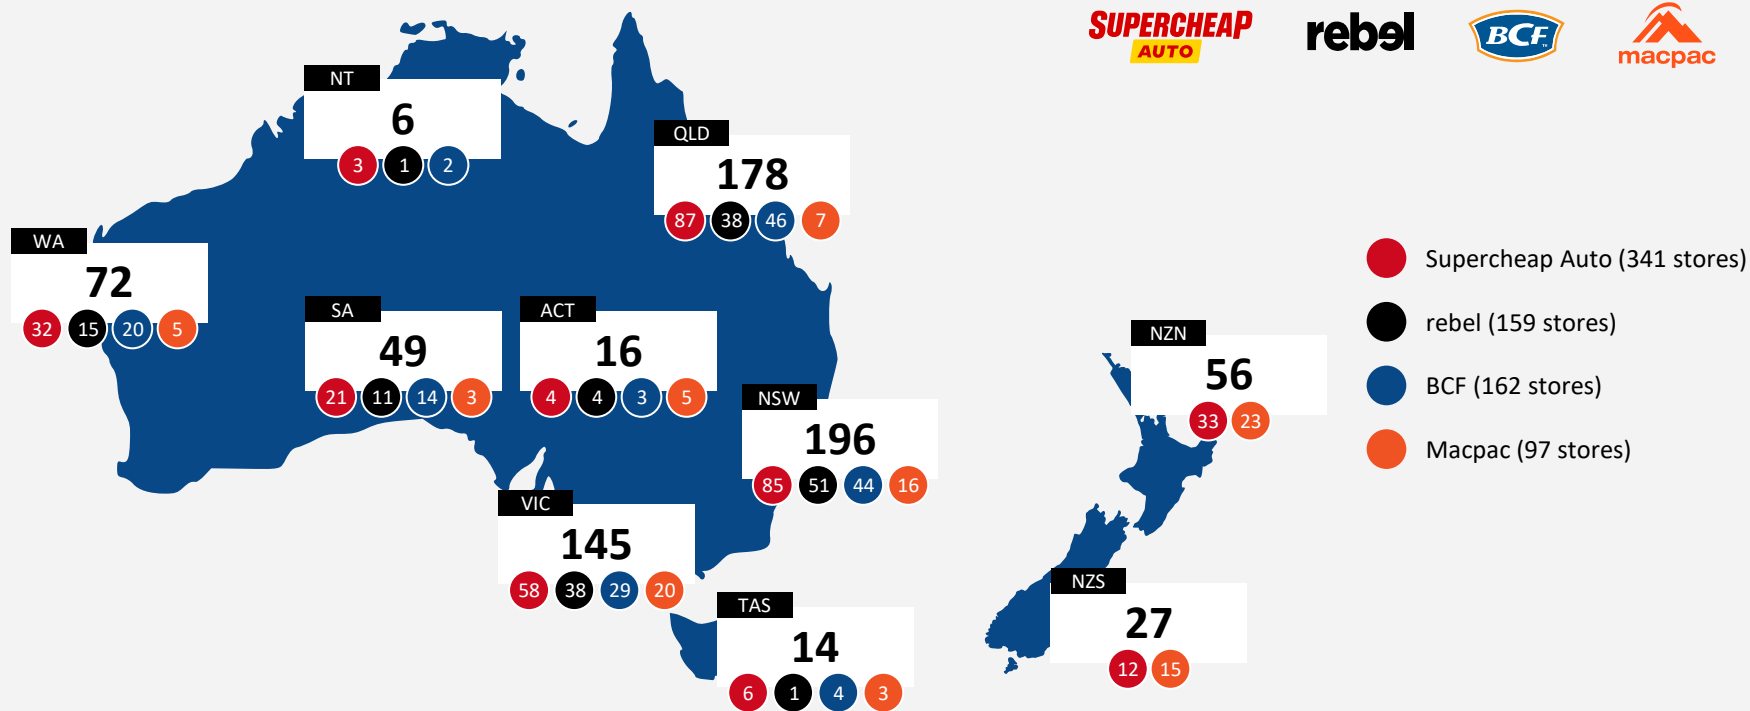

FY25 trading update

- The Group is targeting capex in FY25 of \$165 million – to fund its store development program, a new distribution centre, enhancements to its customer loyalty programs and cyber, omni and digital capability
- As previously flagged, the Group expects duplicated operating expenses associated with the transition from existing distribution centre facilities to the Group’s new Victorian distribution centre will result in a one-off increase to Group and unallocated costs in FY25 of \$8 million. Total Group and unallocated costs in FY25 (including this \$8 million) are expected to be \$40 million, compared to \$36 million in FY24
- While inflation appears to be gradually easing, the Group expects continued upward pressure on its cost base in FY25
- The Group’s 2024 retail and CCC Enterprise (EA) became operative from 14 July 2024. The FY25 increase to retail team members’ base pay rates represents a step up in retail team member expenses from FY24 to FY25 of approximately 3 per cent. The EA also included an increase in penalty rates. Targeted benefits from the Group’s workforce planning capability along with other improvements to EA terms are expected to more than offset the impact of penalty rate increases
- The Group plans to open 25 new stores in FY25 (Supercheap Auto 10, rebel 4, BCF 5, Macpac 6)
- The outlook for the consumer remains uncertain, given ongoing cost of living pressure on household budgets. The Group’s customer value proposition, the strength of the Group’s brands and the size its customer loyalty club membership base means Super Retail Group remains well positioned to perform in retail market conditions where customers are carefully managing their spending and prioritising value-for-money purchases
