Foreign withholding tax gross-up	0.000000
Other tax credits	0.000000
Estimated Gross Distribution (Cents-Per-Unit)	38.452905

Estimates Only

The information stated on this announcement provides estimates for the Fund for the distribution period ending 4 September 2024. Full year tax components will be stated on each unitholder's annual tax statement, which will be issued following financial year end.

The Fund is an Attribution Managed Investment Trust for the purposes of the Income Tax Assessment Act 1997 (ITAA 1997).

“**Fund Payment Amount**” is relevant for non-resident Australian investors (Foreign Investors) holding a widely held trust such as the iShares ETF. It refers to the distribution of Australian sourced income and capital gains (excluding dividends, interest and royalties) that for a Foreign Investor is subject to withholding tax. The Fund Payment Amount is calculated as the sum of the components Australian sourced income (Other Income), Net capital gains – TAP (Discounted capital gains – TAP, multiplied by 2) and Net Capital Gains – TAP (Capital gains – Other method TAP).

“**Franking credits gross-up**” represents your entitlement to a tax offset. For example, for the majority of investors, where a \$70 fully franked dividend is declared, you will receive \$70 in cash and \$30 of franking credits gross up will be attributed to you (notional amount). The \$30 will need to be “grossed up” in your assessable income (i.e., you will include \$100 [\$70 + \$30] in your assessable income) and may be claimed as a tax offset.

Disclaimer: The impact of franking credits gross up may be different depending on your circumstances. As such, the above example is for illustrative purposes only and does not constitute tax advice and may not be relied upon as such. It is recommended that you obtain your own independent professional taxation advice.
