## Latrobe Magnesium Limited Change of Address Notice

---

Latrobe Magnesium Limited will relocate its Sydney Office on the 15 October 2024.

The contact details are as follows:

Office Address: 320 Tramway Road Hazelwood North, Victoria, 3840

Postal Address: PO BOX 3489, Morwell BC, VIC 3841

Phone Number: ( 03) 5101 0240

Email Address: [enquire@latrobemagnesium.com](mailto:enquire@latrobemagnesium.com)

John Lee  
Company Secretary

4 October 2024

### About Latrobe Magnesium

Latrobe Magnesium (**LMG**) is developing a magnesium metal Demonstration Plant in Victoria's Latrobe Valley using its world first patented extraction process. LMG intends to extract and sell magnesium metal and cementitious material from industrial fly ash, which is currently a waste resource from brown coal power generation. LMG has completed a feasibility study validating its combined hydrometallurgical / thermal reduction process that extracts the metal. The Demonstration Plant has now produced magnesium oxide with the full plant being commissioned in the second half of calendar year 2024. A Commercial Plant will be also be developed by LMG, with a capacity of 10,000 tonne per annum of magnesium metal, with completion targeted for the first half of calendar year 2026. The plant will be in the heart of Victoria's coal power generation precinct, providing access to feedstock, infrastructure, and labour. LMG will sell the 10,000 tonne per annum of refined magnesium metal under long-term contracts to LMG's US-based distributors. Magnesium has the best strength-to-weight ratio of all common structural metals and is increasingly used in the manufacture of car parts, laptop computers, mobile phones, and power tools. LMG's projects are at the forefront of ESG best-practice by recycling power plant waste, avoiding landfill, encouraging a circular economy, and by being a low CO2 emitter.
