

ASX ANNOUNCEMENT

Lumos and BARDA Partnership - Investor Briefing

MELBOURNE, Australia 9 October 2024 – Lumos Diagnostics (ASX: LDX), (“Lumos” or the “Company”) a leader in rapid, point-of-care diagnostic technologies, is pleased to invite investors to an online briefing session on Friday, 11 October 2024, at 10.30am AEDT.

During the session, Lumos CEO and Managing Director, Doug Ward and Vice President of Medical Affairs, Annie Bell will further discuss the news (ASX: 3 October 2024) that Lumos and the U.S. Biomedical Advanced Research and Development Authority (BARDA) have partnered to support the coming FebriDx® CLIA waiver study and US FDA application. The discussion will also cover plans for the coming CLIA waiver study and the non-dilutive funding awarded to Lumos.

FebriDx is a rapid point-of-care respiratory test which delivers results in around 10 minutes from a fingerstick blood sample. In July 2023, the U.S. Food and Drug Administration cleared FebriDx to be marketed in the U.S. as an aid in the diagnosis of bacterial acute respiratory infection and differentiation from non-bacterial etiology. The test has been cleared for use by healthcare professionals with patients presenting in urgent care or emergency care settings and is intended to be used in conjunction with clinical signs and symptoms, including other clinical and laboratory findings, to evaluate patients for acute respiratory infection.

The partnership aims to expand authorized testing to CLIA waived, point of care settings, including U.S. physician offices, urgent care clinics, or other outpatient clinics, where empiric antibiotic prescription is a common practice.

Webinar details

Date and time: Friday, 11 October 2024 from 10:30am AEDT

Registration: Please register to attend the webinar using the following link. Once registered, an email confirmation will be sent confirming access details:
