	8.6.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
	Answer: Item 8.1. is lower than historically as item 1.1. (Receipts from Customers) is much lower than in a normalised quarter as a result of the forward sale of ACP product in the prior quarter. This is reflected in the Revenue number (accrued accounting) being \$2.6m higher.	
	8.6.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
	Answer: No, see 8.6.1. and 8.6.3 - the cash flow from operations is expected to be positive in the next quarter.	
	8.6.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis? Answer: Yes. Please note that a new contract (see 17 October 2024 announcement) commenced on 1 October 2024 and we will receive additional profits from this contract in full for the December quarter. In addition, we expect that the facility in Kentucky will be operational in this quarter and this investment is expected to materially increase operational cash flows of the group.	

Note: where item 8.5 is less than 2 quarters, all of questions 8.6.1, 8.6.2 and 8.6.3 above must be answered.
