About PET:

Phoslock Environmental Technologies Limited (ASX: PET) specialises in water treatment products to remediate polluted lakes, rivers, canals and drinking water reservoirs. PET is headquartered in Sydney, has a factory and warehouse in Changxing, China, and offices in China, the UK/Europe, and in the USA. The Company is represented by licensees, distributors and agents in other countries including HydroScience in Brazil and The Orion Companies in the USA.

PET's main manufactured product is Phoslock®, a lanthanum modified bentonite (LMB) that permanently binds excess phosphorus in the water column and sediments, and thus improves water quality and biodiversity. Phoslock does not harm living organisms and is certified for use in drinking water in North America, Europe, Brazil, Australia, and China. www.petwatersolutions.com.
