This is achieved through:

- The identification of commodities with a favourable 20-year price outlook.

- Geological terranes with:
  - A demonstrated strong endowment for that commodity.
  - An under-explored history.
  - Opportunity for the application of recently developed exploration techniques.
  - Jurisdictions with improving socio-economic and regulatory frameworks.
  - Extensive available tenures.

DGR provides initial seed funding and management support to secure assets in subsidiaries and develop these assets to more advanced funding stages. DGR has a pipeline of projects in group companies at various stages of emergence, and in 2015 crystalised a significant return through the sale of its 15% holding in Orbis Gold for $26million.
