

ASX Announcement (ASX: B4P)

30 January 2025

Beforepay Group Limited Q2 FY25 Quarterly Activities and Appendix 4C Cash Flow Report (Unaudited)

Beforepay delivers continuing strong profit and growth, breaking through \$10m in quarterly revenue and setting new active-user records

Beforepay Group Limited (the Company) (ASX: B4P) has released its Appendix 4C for the quarter ended 31 December 2024 (Q2 FY25).

Beforepay Group CEO, Jamie Twiss said, *“Last quarter was another strong result for the Group, with a strong profit outcome and good credit results despite the seasonal increase. In addition to the strong performance of the Pay Advance business, it’s terrific to see the first Personal Loans being issued, and we continue to be confident in Carrington Labs.”*

Q2 FY25 Business Update

- The Company surpassed \$10m in quarterly revenue and achieved a net profit before tax (NPBT) of \$1.1m and EBITDA of \$2.4m.
- Q2 FY25 trading was in line with expectations and seasonal patterns with higher quarterly advances (\$205.6m), partially offset by higher net defaults (1.75%). This led to a slightly higher Net Transaction Margin of \$4.8m in Q2 FY25 (Q2 FY24: \$4.4m).
- The Company achieved record Active Users of 257,627 (Q1 FY25: 251,325), with customer acquisition cost (CAC) of \$40 (Q1 FY25: \$39).
- Operating expenses decreased to \$3.6m from \$5.3m in the prior quarter. This was predominantly due to a \$1.5m one-off non-cash adjustment which increased Q1 FY25 operating expenses.
- The Company maintained a strong balance sheet with an underlying reported cash on hand balance of \$18.3m and equity balance of \$35.6m as at Q2 FY25. As at the end of Q2 FY25, the Company has drawn \$38.5m under its third-party debt facility (\$16.5m undrawn). The cash decline largely reflected cash outflows to fund expected growth in the loan book over the holiday period.
- The Company launched its new Personal Loan product in Q2 FY25, offering customers access to larger sums over a longer period than the Pay Advance product. We have phased the rollout of the Personal Loan product, allowing us to observe trends and identify opportunities to improve the risk-model over an extended period.

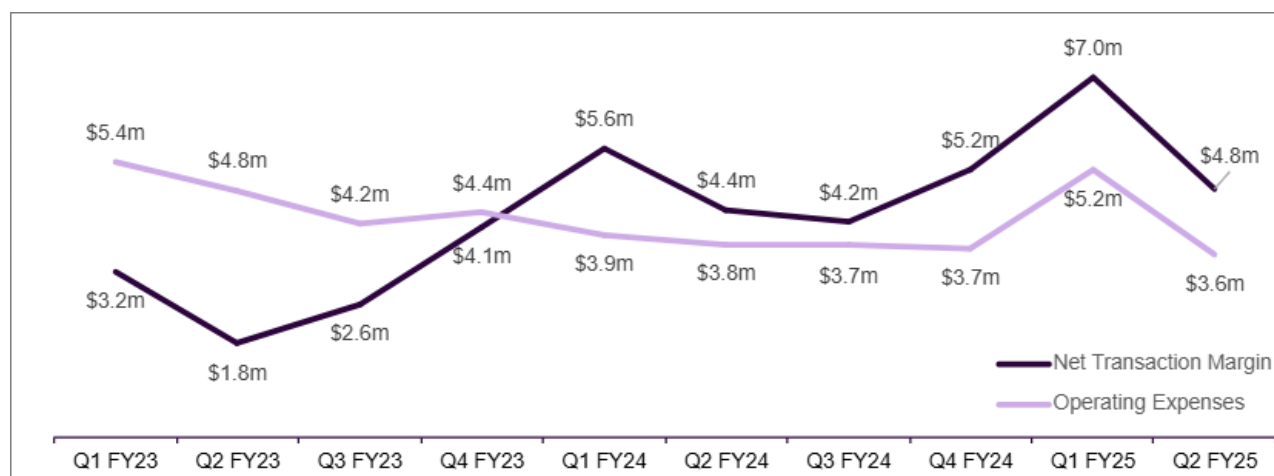

- In Q2FY25, Carrington Labs, the Company's enterprise software division, completed a fully implemented solution for one of its US-based clients.
- Q3 FY25 trading to date has been in line with expectations and seasonal patterns. As previously noted, the Company expects some increases in the cost base as we start to accelerate our offering through Carrington Labs, including having a dedicated salesperson based in the United States.
