Australian Bond Exchange Holdings Limited (ASX: ABE)

Appendix 4C Quarterly Cash Flow Report & Business Update – Q2 FY25

Highlights

- Cost reduction program initiated in FY24 is delivering tangible results.
- Launched the Good Year Tire and Rubber Company AUD-denominated market-linked security, further expanding ABE's suite of unique products.
- Artificial Intelligence program continues to demonstrate significant potential.

Australian Bond Exchange Holdings Limited ("Australian Bond Exchange" or "ABE" or "the Company"), an innovative financial technology and services company providing private investors, funds, and financial institutions with access to the OTC bond market, is pleased to present its **Appendix 4C Quarterly Cash Flow Report** for the quarter ended **31 December 2024 (Q2 FY25)**.

ABE remains committed to its **vision** of democratizing financial markets—ensuring that financial products and markets are more **inclusive, transparent, and accessible** to all investors. The Company continues to play a key role in the evolution of financial markets and remains focused on expanding its capabilities.

During the quarter, ABE added to its unique product offerings, releasing a new market linked security enhancing the traditional OTC market trading. It continued developing software solutions including its Artificial Intelligence based compliance efficiency and client protection software suite and its transaction processing capabilities to advance the OTC global financial markets democratization.

Financial Performance

ABE reported a **net operating cash flow shortfall of \$0.7 million** for the quarter, a significant improvement from the **\$1.5 million shortfall** in the previous quarter. This reduction is primarily attributed to seasonal factors, as well as the **impact of the cost reduction program initiated in FY24**, which is now yielding results.

ABE has successfully streamlined its **cost base and operational model**, positioning itself for sustainable growth. The leaner structure provides a strong foundation for future expansion and efficiency.

Operational Activities

With the cost reduction program now complete, ABE is shifting its focus to **growth**, leveraging its **unique product offerings** and expanding its client base. The Company remains **resilient and adaptable**, closely monitoring market trends while maintaining an **agile** approach to emerging opportunities and challenges.

During the quarter, ABE continued its **product innovation strategy** with the introduction of the **Good Year Tire and Rubber Company market-linked security** to the Australian market. This addition increased the total face value of market-linked products to **over \$180 million**, reinforcing ABE's commitment to **providing access to global investment opportunities** typically unavailable to Australian investors.

Technology & Innovation

ABE remains at the forefront of technological advancements, ensuring **equal access to financial markets for individual Australian investors**. Key developments during the quarter include:

- Completion of the **first phase of its AI-based conversation monitoring tool**, which evaluates one-sided conversations to enhance **advisory quality and sales effectiveness**. The trial processed over **3,800 conversation snippets**, yielding valuable insights into the application of AI in financial services.
- Continued integration of **ISO20022 (New Payments Platform - NPP) protocols** into its transaction processing and settlement systems. This implementation is expected to **reduce operational time and costs**, while improving **efficiency, performance, and accuracy**.

Financing Activities

As previously signalled to the market, ABE secured funding through the **issuance of unsecured convertible notes**. No convertible notes were issued during the quarter, and **\$1.5 million in outstanding commitments** remain to be issued.
