The Directors of Savannah Goldfields Limited are pleased to announce that Savannah has today launched a capital raising program comprising a Placement, Entitlement Offer, Conditional Placement and Convertible Note Placement to raise in aggregate approximately \$14 million, to strengthen the Company's balance sheet and to fund the re-commencement of gold mining and processing operations at the Company's Agate Creek and Georgetown projects and resource growth activities.

Cornerstone Investor

The Company has received investment commitments in the current capital raising program totaling approximately \$7 million from an entity associated with Wes Maas comprising:

- upfront Placement subscription of approximately \$1.19m (approx. 79m shares at 1.5c per share);
- Sub-underwriting commitment in the Entitlement Offer approximately \$0.73m;
- Conditional Placement commitment of approximately \$0.9m plus balance of sub-underwriting commitment not subscribed for in shortfall;
- Convertible Note Placement subscription commitment for approximately \$4.3m; and
- Upon completion of the cornerstone investment commitment, there will be an issue to Wes Maas' subscribing entity of 10m free attaching options exercisable at \$0.06 expiring 30 June 2025 (existing listed series of options (ASX:SVGO)) (**Options Placement**).

Wes Maas is a successful entrepreneur and business leader and is the founder, major shareholder and CEO of Maas Group Holdings Ltd (ASX:MGH). MGH is a leading independent Australian construction materials, equipment and service provider with diversified exposures across the civil, infrastructure, mining and real estate end markets.

The Conditional Placement, Convertible Note Placement and Options Placement to Wes Maas' entity will all be subject to receipt of applicable shareholder approval. The Convertible Note Placement is also subject to the proposed amendments to the Company's existing convertible notes as detailed below.

Equity Raising

The equity raising components of the capital raising program comprise the Placement, Entitlement Offer and the Conditional Placement and will raise in aggregate approximately \$9.91 million.

Sub-underwriters appointed by Morgans Corporate Limited (**Lead Manager**) have committed to subscribing for shares in the Conditional Placement in the event shortfall shares in the Entitlement Offer are insufficient to cover their sub-underwriting commitments. Accordingly, depending on the results of the Entitlement Offer, the Directors will place up to an additional 200 million shares at the same offer price of 1.5 cents to sub-underwriters to raise up to \$3 million, subject to the Company obtaining the approval of shareholders at a general meeting (**Expanded Conditional Placement**).

The issue price of \$0.015 per New Share under the Entitlement Offer, Placement and Conditional Placement represents a:

- 25% discount to the last closing price of \$0.02 on 29 January 2025 (being the last trading day before Savannah announced the Entitlement Offer);
- 30.8% discount to the 15-day volume weighted average price of Savannah shares on ASX of \$0.0217 as at the same date; and
- 9.1% discount to the theoretical ex-rights price (**TERP**) of \$0.016.¹

The Placement and Entitlement Offer is fully underwritten by Morgans Corporate Ltd. The Conditional Placement and Expanded Conditional Placement are not underwritten.

The Placement is being conducted under the Company's ASX listing rule 7.1 placement capacity. The Company has obtained a standard 'supersize' waiver from ASX to enable it to conduct the Placement.

The Conditional Placement and Expanded Conditional Placement (if undertaken) will be subject to shareholder approval for the purpose of ASX listing rule 7.1 and for all other purposes.

Convertible Note Raising

A conditional placement to the Cornerstone Investor of the current issued series of Convertible Notes to raise approximately \$4.3m comprising the issue of 15.3m notes at an issue price of \$0.28 per note subject to shareholder and noteholder approvals.

Savannah will also be seeking approval from holders of the Company's existing issued Convertible Notes, and approval from shareholders, if necessary, including pursuant to the ASX Listing Rules, to amend the Terms of Issue of the Convertible Notes that currently mature 31 October 2025.

The proposed amendments, if approved, will extend the maturity date of the Convertible Notes to 31 December 2026 and reduce the conversion price of the Convertible Notes to 4 cents. Each Convertible Note (which has a face value of 28 cents) would therefore be convertible into 7 ordinary shares.

Use of Funds

The funds raised in the capital raising program will be used for the purposes of:

- planning and preparations for mining and processing operations restart;
- working capital requirements for the restart of mining and processing operations;

¹ The TERP of \$0.016 is calculated using the Company's closing price on 29 January 2025 assuming proceeds from the equity raising of up to \$9.91 million. TERP is the theoretical price at which the Company's shares should trade immediately following the ex-date for the Entitlement Offer assuming 100% take up of the Entitlement Offer. TERP is a theoretical calculation only and the actual price at which the Company's shares trade immediately following the ex-date for the Entitlement Offer will depend on many factors and may not approximate TERP.

- additional financial assurances to be provided pursuant to requirements under Environmental Authorities;
- exploration and resource definition drilling programs;
- payment of existing creditors;
- part repayment of short-term borrowings; and
- the costs of the Equity Raising and general working capital.
