# Directors' report

## Directors

The directors present their report, together with the financial statements, on the consolidated entity consisting of Felix Group Holdings Limited ("Felix" or 'the Company') and the entities it controlled ('the Consolidated Entity' or "the Group") at the end of, or during, the half-year ended 31 December 2024.

The following persons were directors of Felix Group Holdings Limited during the whole of the financial half-year and up to the date of this report, unless otherwise stated:

- Michael Bruce Bushby
- Michael Peter Davis
- Joycelyn Cheryl Morton
- Robert William Phillpot
- George Humphry Davy Rolleston
- Michael Anthony Trusler (resigned on 21 November 2024)

## Principal activities

During the period, the principal continuing activity of the Group consisted of a cloud-based SaaS solution to its Contractor and Vendor customer base to make it easier for them to find, manage and engage with each other. The Felix platform automates and streamlines a range of critical, procurement-focused business processes.

Contractors are contracted by asset owners to build or maintain capital works projects in the commercial construction and related industries.

Vendors comprise the Contractors suppliers and include subcontractors, equipment providers and service and materials providers.

## Review of operations

Felix has delivered strong operational and financial performance, achieving sustainable top-line growth while also delivering maiden positive operating cashflows. During H1 FY25, Felix signed nine new Contractor customers, including four customers in the mining & resources sector, 10 expansion deals, and delivered two consecutive quarters of positive operating cashflow. Felix has also continued to make progress against the platform internationalisation strategy, with multilingual capability for the vendor portal released in H1 FY25 and further rollout expected in H2 FY25.

## Maiden positive operating cashflow

Felix has achieved maiden positive operating cashflows for two consecutive quarters in H1 FY25, in line with previous guidance provided by the Company. The milestone was a result of careful cost management and strong Contractor ARR growth delivered through new customer acquisition and expansion deals. The Company recorded a \$493k operating cash inflow in H1 FY25, an improvement of \$1.3m on H1 FY24.

# Directors' report

## Maiden positive operating cashflow (cont.)

Figure 1. Net operating cashflow (\$'000).

## New contract wins

Felix signed nine new leading Contractors in H1 FY25, bringing the total number of Contractor customers to 72, representing a 33% increase on pcp (see Figure 2). In aggregate, the new Contractor customers added \$492k in Contractor ARR during H1 FY25. Of the nine new Contractor customers signed, four customers operate in the mining & resources sector, including Bellevue Gold (ASX:BGL), one of Australia's largest ASX-listed gold miners, and Karara Mining, the operator of one of Australia's largest magnetite mines. The accelerating adoption within the mining & resources sector is evidence of the broadening applicability of Felix's platform, with the sector now becoming Felix's second-largest customer sector across both existing customers and the sales pipeline.

# Directors' report

## Expansions across existing customers

Nine expansion deals were signed in H1 FY25 with tier 1 Contractor customers such as Pilbara Minerals (ASX:PLS), GPT Group (ASX:GPT), Westgold (ASX:WGX) and Abergeldie. A 3-year expansion deal was signed with GPT Group, which included a significant increase in user accounts, demonstrating broadening adoption within GPT Group's operations. De Grey Mining (ASX:DEG), a new customer signed in Q2 FY25, signed an expansion deal to license Felix's API module shortly after signing on as a customer in the same quarter. Felix has continued to deliver upon its strategic focus on delivering high margin expansion ARR through up-selling additional modules, expanding onto additional projects, increasing user count, and expanding to other divisions or geographies.

As a result of the new Contractor customers and expansion deals signed, total Group ARR reached \$8.3m in H1 FY25 (refer to Figure 3), increasing 22% on pcp. Strong customer sales saw Contractor ARR reach \$6.4m, increasing 29% increase on pcp. Vendor ARR continued to remain stable, in line with Felix's strategic focus on scaling the Contractor platform, ahead of monetising the large and growing Vendor Marketplace over the medium term.

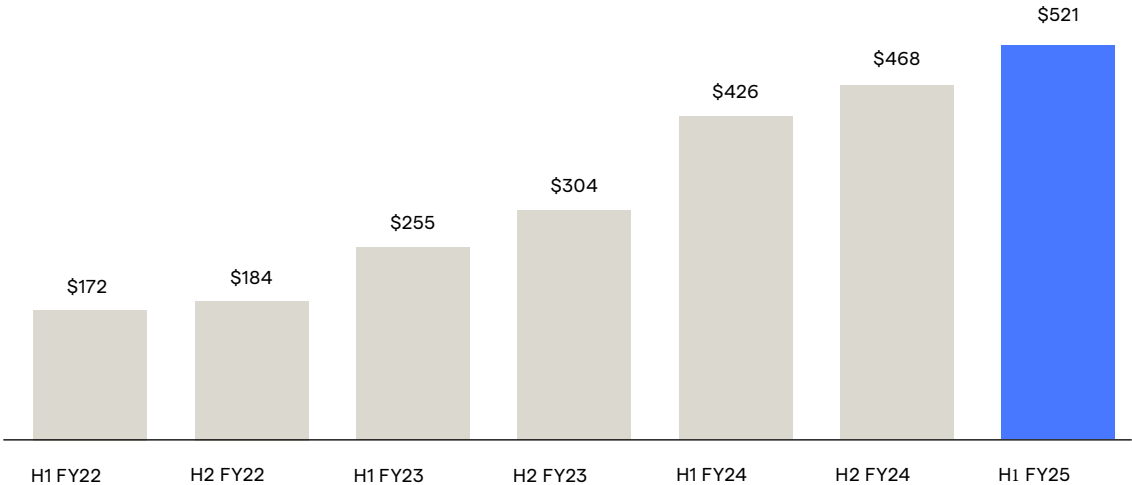

Figure 3. Group Contracted ARR (\$m)

## Contractor MRR

Contractor MRR has now reached \$521k, an increase of 22% on pcp (refer to Figure 4). Contractor Net Revenue Retention (NRR) increased on the prior quarter, with an NRR of 101% recorded at the end of H1 FY25. The strong performance is a testament to Felix's strong value proposition for existing customers and ability to secure high margin expansion ARR.

# Directors’ report

## Platform development

Felix continues to progress several platform development initiatives, with one of the primary focuses being platform internationalisation. During H1 FY25, multilingual capability for the vendor portal was released, with the first client roll-out expected in H2 FY25. The platform internationalisation strategy is designed to support Felix’s capital-light and opportunistic international expansion strategy.

Other platform enhancements delivered include the introduction of multi-stage approval capabilities within RFQ and RFA approval forms, designed to streamline the approval process for joint venture projects requiring multiple approvals. Post-Tender Requests (PTR) functionality has also been launched, being the final component of the Pricing Schedule enhancement strategy, which allows for quote revisions after a tender process has been closed and has reached the shortlisting or negotiation phase. The feature also allows for comprehensive pricing comparisons across various versions of submissions.

## Vendor marketplace

The Vendor Marketplace has continued to scale, with 115,266 vendors on the Vendor Marketplace at the end of H1 FY25, representing a 27% increase on pcp (refer to Figure 5). The strong ongoing growth in the Vendor Marketplace is driven by the onboarding of new Contractor customers, mandating the usage of Felix across their entire third-party supply chain of Vendors onto the platform. The sustained growth in scale underscores Felix’s medium-term ambition to monetise the Vendor Marketplace once key modules and features are developed.

Figure 5. Number of Vendors in Vendor Marketplace

## Engagement metrics

Felix has observed strong growth across its key platform engagement metrics throughout H1 FY25, reflecting expanding usage of its platform and indicating the platform’s deepened engagement within customer systems and processes. Key highlights were (for the half-year period ending 31 December 2024):

- Number of Active Projects: +122% pcp
- Requests for Quotations (RFQ) sent by Contractors: +59% pcp
- Total Contractor User Accounts: +26% pcp
- Total active Vendor Compliance Documents: +38% pcp

# Notes to the financial statements

— For the half-year ended 31 December 2024

## Note 1. Significant accounting policies

These general purpose financial statements for the interim half-year reporting period ended 31 December 2024 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2024 and any public announcements made by the company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The principal accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated.

### *Going Concern*

For the period ending 31 December 2024, the Group incurred a loss before income tax of \$2,447,083 (2024: \$2,887,800) and net cash from operating activities was \$493,351 (2024: -\$1,249,543). The first six months of trade is the Group's first six-month period of positive operating cash flows. The Group has had history of losses and operating outflows prior to this period.

The Group had a net asset deficit of \$2,529,875 at 31 December 2024 (2024: deficit of \$486,582). The deficit is a result of the Group invoicing customers annually in advance, upon contract execution. The revenue is recognized over the life of the contract. The unearned revenue liability will continue to grow as long as the Group continues to contract with more customers (nine new customers for the period ending 31 December 2024).

These matters give rise to a material uncertainty regarding the Group's ability to continue as a going concern.

The Directors consider that this uncertainty is mitigated by the following factors:

- The Group improved the net cash outflow from operations to \$0.5m, an improvement of \$1.7m or 139% from (\$1.2m) for H1FY24.
- The Group has posted consecutive quarters of positive cash flows in FY25.
- The Group is currently free of any debt liabilities.

On this basis, the Directors believe that the going concern basis of presentation is appropriate. No adjustments have been made relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Group not have the ability to continue as a going concern. If for any reason the Group is unable to continue as a going concern, it would impact on the Group's ability to realise assets at their recognised values and to extinguish liabilities in the normal course of business at the amounts stated in these financial statements.

### *New or amended Accounting Standards & Interpretations adopted*

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period. There was no material impact on the adoption of the new standards.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

## INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Felix group Holdings Ltd

### Report on the Half-Year Financial Report

#### Conclusion

We have reviewed the half-year financial report of Felix Group Holdings Ltd (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2024, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, material accounting policy information and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001* including:

- i. Giving a true and fair view of the Group's financial position as at 31 December 2024 and of its financial performance for the half-year ended on that date; and
- ii. Complying with Accounting Standard AASB 134 *Interim Financial Reporting and the Corporations Regulations 2001*.

#### Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be the same terms if given to the directors as at the time of this auditor's review report.

#### Material uncertainty relating to going concern

We draw attention to Note 1 in the financial report which describes the events and/or conditions which give rise to the existence of a material uncertainty that may cast significant doubt about the Group's ability to continue as a going concern and therefore the Group may be unable to realise its assets and discharge its liabilities in the normal course of business. Our conclusion is not modified in respect of this matter.

BDO Audit Pty Ltd ABN 33 134 022 870 is a member of a national association of independent entities which are all members of A.C.N. 050 110 275 Ltd ABN 77 050 110 275, an Australian company limited by guarantee. BDO Audit Pty Ltd and A.C.N. 050 110 275 Ltd are members of BDO International Ltd, a UK company limited by guarantee, and form part of the international BDO network of independent member firms. Liability limited by a scheme approved under Professional Standards Legislation.

## Responsibility of the directors for the financial report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is true and fair and is free from material misstatement, whether due to fraud or error.

## Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2024 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
