ASX ANNOUNCEMENT

20th February 2025

Portfolio Report

The Trust Company (RE Services) Limited (ABN 45 003 278 831; AFSL 235 150) (**Responsible Entity**), part of Perpetual Limited and the responsible entity for the Metrics Income Opportunities Trust (ARSN 631 320 628) (**MOT** or the **Fund**) has, since the launch of MOT in April 2019, issued a monthly investor update, including Fund performance and portfolio construction information, prepared by Metrics Credit Partners Pty Ltd (ACN 150 646 996) (**Metrics** or the **Manager**) the investment manager of the Fund.

The Responsible Entity has issued the Fund report attached to this announcement (**Report**) to provide investors in MOT with more comprehensive information in respect the investments to which the Fund is exposed. The Report supplements prior monthly reporting and provides more detailed data prepared by Metrics in respect of the historical and current performance and portfolio composition of both:

- the Fund; and
- each of the underlying wholesale funds in which MOT invests via its investment in the Metrics Wholesale Income Opportunities Trust (**Wholesale Funds**), as detailed in the Fund's Product Disclosure Statement lodged with the ASX on 10 February 2022.

The Responsible Entity intends to issue similar reporting, prepared by Metrics on an at least quarterly basis going forwards.

The Report includes detailed data in respect of:

- portfolio composition;
- diversification in terms of both industry and credit quality; and
- loan valuations and credit metrics,

applying to the investments to which the Fund is indirectly exposed by virtue of its exposure to the Wholesale Funds.

The Report also includes historical performance information of the Wholesale Funds. This is provided for background purposes only to assist investors in understanding the performance of the Wholesale Funds which affects the Fund's performance.

The Report also details (in respect of investments of the Wholesale Funds) arrears on loans; loans that are the subject of close monitoring due to the underperformance or change in risk profile of the borrower where the risk has changed in an adverse manner (i.e. asset watchlist); losses incurred on any loans; and any loans the subject of enforcement action or a restructuring.

Commenting on the additional data reporting Metrics Managing Partner, Andrew Lockhart said “This additional internal reporting is being released to assist investors to better understand the performance and risk settings of the Fund. The Fund continues to deliver on its investment objective and we thank investors for their continued support of MOT”.

While the Report seeks to provide detailed information in respect of MOT’s and the Wholesale Funds’ investment portfolios, it is important to note that investments in corporate loans are private and confidential transactions between the borrower and the Wholesale Funds, accordingly the Report does not identify individual investments.

The valuation policy (**Policy**) of the Fund reflects the exposure to debt, equity and equity-like exposures. In relation to loan asset exposures, the Policy requires that all assets held by the Wholesale Funds are valued each business day and that any movement in the carrying value of those assets (including any impairment) is reflected in the daily net asset value (**NAV**) of the Wholesale Funds. The Responsible Entity has engaged an international accounting and professional services firm to review the valuation of the underlying loan assets held by the Wholesale Funds on a monthly basis and to ensure that the carrying values of those assets are adjusted if there is evidence that indicates that an asset is impaired or overvalued. The Policy, in relation to equity and equity-like exposures, requires that all assets held by the Wholesale Funds are held at fair value and are reviewed at least monthly, and revalued when changes in value can be reliably determined. The valuation methodology for each asset may vary depending on the nature and maturity of the assets. A variety of valuation approaches are utilised, including independent third-party valuations, internal Metrics valuations, project reporting from Joint Venture partners, sales & settlement data, quantity

surveyor reports during the construction periods and cost to complete modelling. Any valuation adjustments in the assets of the Wholesale Funds are reflected in MOT's NAV which is published daily and lodged with the ASX. MOT's NAV is separately audited/reviewed by the Fund's independent auditors at each reporting date.

Metrics Income Opportunities Trust (ASX:MOT)

Metrics Income Opportunities Trust Underlying Funds

MOT targets to deliver stable monthly cash income with an opportunity to participate in a potential upside from capital appreciation with low risk of capital loss.

To deliver on this dual investment objective the Trust is structured as a hybrid fund that can invest in a portfolio of debt and equity/equity-like securities. MOT invests into the MCP Wholesale Investment Opportunities Trust which in turn invests into the following underlying wholesale funds;

- ▶ MCP Credit Trust (CT)
- ▶ MCP Secured Private Debt Fund II (SPDFII)
- ▶ MCP Real Estate Debt Fund (REDF)

The Trust doesn't have fixed allocation to the underlying wholesale funds due to its dual objective of income and capital growth demanding the need to re-allocate across debt and equity at different times. The chart below details the portfolio allocation for MOT since inception.

MCP Credit Trust

The MCP Credit Trust (**CT**) is an unregistered open-ended unit trust that invests in a portfolio of private market transactions throughout developed Asia (including Australia and New Zealand), primarily sub-investment grade or unrated debt products. CT seeks to provide attractive risk-adjusted returns including opportunistically delivering upside capital gains while retaining a focus on capital stability, active risk management and downside capital preservation. Net income is distributed monthly¹. CT seeks to deliver the minimum hurdle return of the benchmark (Bank Bills/BBSW 90 days) plus credit margin (+600 bps p.a.)² with an all-in target return of 11-14% p.a. (net of fees)².

(1) The payment of monthly cash income is a goal of the Fund only and neither the Manager nor the Trustee provide any representation or warranty (either express or implied) in relation to the payment of any income. (2) This is a target and may not be achieved. (3) Past performance is not a reliable indicator of future performance. (4) Returns are based on NAV unit price, after taking into account all fees and costs, and assume the reinvestment of distributions. Returns are annualised if over one year. All return periods over one month are compounded monthly.

(12) Leverage Ratio (Net Debt/EBITDA) applies to Corporate loans based on most recent certificate provided by the applicable borrower setting out compliance with financial covenants, Loan to Value Ratio applies to loans backed by CRE and are calculated based on an independent valuation based on the 'as is' or 'on completion' market value for projects under construction. The LTV reflects the approved maximum LTV and is documented by way of loan covenants with the borrower. (13) Calculated as the interest amount overdue divided by AUM. (14) Represents loans in respect of which the applicable lender has commenced enforcement of security granted in respect of that loan. (15) Represents loans in respect of which the lender has completed a restructuring by way of enforcement or agreement with the existing equity owners which resulted in the applicable lender’s exit from the loan asset. (16) Realised credit losses where recovery was less than invested capital.

Abbreviations: AUM = Assets Under Management; Corp = Corporate; CRE = Commercial Real Estate; LTV = Loan to Value; NAV = Net Asset Value; Sub = Subordinated; WA = Weighted Average; Avg = Average; NR = Not Rated.

MCP Real Estate Debt Fund

The MCP Real Estate Debt Fund (**REDF**) is an unregistered open-ended unit trust that invests in a portfolio of Australian Commercial Real Estate (CRE) loans. REDF offers investors direct exposure to Australia's bank dominated CRE loan market by lending to Australian CRE borrowers and projects including office, retail, industrial, residential development and specialised real estate assets (hotels, healthcare, etc). Net income is distributed monthly¹. REDF seeks to deliver the minimum hurdle return of the benchmark (Bank Bills/BBSW 90 days) plus credit margin (+500 bps p.a. net)² while adhering to fund parameters. REDF has an Issuer Rating of A-from S&P.

(1) The payment of monthly cash income is a goal of the Trust only and neither the Manager nor the Trustee provide any representation or warranty (either express or implied) in relation to the payment of any income. (2) This is a target and may not be achieved. (3) Past performance is not a reliable indicator of future performance. (4) Returns are based on NAV unit price, after taking into account all fees and costs, and assume the reinvestment of distributions. Returns are annualised if over one year. All return periods over one month are compounded monthly.
