

24 February 2025

Market Announcements Office  
ASX Limited

**TO BE RELEASED FOR EACH OF THE ASX CODES LISTED BELOW**

**Product Disclosure Statement**

Betashares Capital Ltd announces the following Fund name changes in accordance with the revised naming conventions for Exchange Traded Products set out in ASIC Information Sheet 230:

ASX Code	Old Fund Name	New Fund Name
AUST	Betashares Managed Risk Australian Share Fund (Managed Fund)	Betashares Managed Risk Australian Shares Complex ETF
WRLD	Betashares Managed Risk Global Share Fund (Managed Fund)	Betashares Managed Risk Global Shares Complex ETF

A replacement product disclosure statement (PDS) has been issued today in respect of the above Funds to reflect the name changes. The replacement PDS supersedes the two Product Disclosure Statements dated 16 September 2022 in relation to each Fund.

Each Fund's investment objective, strategy, fees and other key features remain unchanged.

A copy of the PDS is attached.

-----  
**IMPORTANT INFORMATION:** This information has been prepared by Betashares Capital Ltd (ABN 78 139 566 868 AFS Licence 341181) (Betashares), the issuer of the Betashares Funds. It is general information only and does not take into account any person's objectives, financial situation or needs. The information does not constitute an offer of, or an invitation to purchase or subscribe for securities. You should read the relevant Product Disclosure Statement (PDS), Target Market Determination (TMD) and ASX announcements and seek professional legal, financial, taxation, and/or other professional advice before making an investment decision regarding Betashares Funds. For a copy of the PDS, TMD and more information about Betashares Funds, go to [www.betashares.com.au](http://www.betashares.com.au) or call 1300 487 577.

Units in Betashares funds trade on the ASX at market prices, not at NAV. An investment in any Betashares Fund is subject to investment risk including possible delays in repayment and loss of income and principal invested. Neither Betashares Capital Ltd nor Betashares Holdings Pty Ltd guarantees the performance of any fund or the repayment of capital or any particular rate of return.

Betashares Managed Risk Global Shares Complex ETF

ASX: WRLD

## IMPORTANT INFORMATION

### About this PDS

This Product Disclosure Statement (**PDS**) is dated 24 February 2025.

Betashares Capital Ltd ABN 78 139 566 868 AFS Licence 341181 is the issuer of this PDS and is responsible for its contents. In this PDS references to the "Responsible Entity", "Betashares", "we", "our" and "us" refer to Betashares Capital Ltd.

This PDS is the offer document for the following registered managed investment schemes: Betashares Managed Risk Australian Shares Complex ETF (ARSN 602 666 384) and Betashares Managed Risk Global Shares Complex ETF (ARSN 608 056 962). These are referred to in this PDS individually as "Fund" and collectively as "Funds" or "Betashares Funds".

A copy of this PDS has been lodged with the Australian Securities and Investments Commission (**ASIC**) on 24 February 2025. Neither ASIC nor ASX Limited takes any responsibility for the contents of this PDS.

Each Fund commenced operations in 2015. An application was made to, and approved by, the ASX for Units in each Fund to be quoted for trading on the AQUA market of the ASX. The Units are currently quoted for trading on the AQUA market of the ASX under the AQUA Rules.

The PDS is designed so that a number of Betashares exchange traded funds may be offered under it over time. Additional funds may be added by the Responsible Entity issuing a supplementary PDS or a new PDS.

A copy of the latest PDS for the Funds being offered is available on the Betashares website at [www.betashares.com.au](http://www.betashares.com.au) or by contacting Betashares on (02) 9290 6888. A paper copy will be provided free of charge on request.

### The offer

The offer under this PDS is for certain financial institutions, called "Authorised Participants". Certain sections of the PDS (particularly those relating to applications for and redemptions of Units in the normal course) are of direct relevance to Authorised Participants only.

Other investors cannot apply for Units under this PDS, but can buy Units on the ASX through a stockbroker, or via a financial adviser. Such investors may use this PDS for information purposes only.

The offer to which this PDS relates is available to Authorised Participants receiving the PDS (electronically or otherwise) in Australia, or in certain overseas jurisdictions by direct arrangement with the Responsible Entity.

This PDS does not constitute an offer of securities in any jurisdiction where, or to any person to whom, it would be unlawful to make such an offer.

No action has been taken to register or qualify the Fund in any jurisdiction outside Australia and New Zealand, although the Responsible Entity reserves the right to do so at any time. The distribution of this PDS outside Australia and New Zealand may be restricted by law and persons who come into possession of this PDS outside Australia and New Zealand should seek advice on and observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities law.

Units have not been registered under the United States Securities Act of 1933 (as amended) and except in a transaction which does not violate such Act, may not be directly or indirectly offered or sold in the United States of America or any of its territories or for the benefit of a US Person (as defined in Regulation S of such Act).

### PDS updates

Information in this PDS that is not materially adverse to investors is subject to change from time to time and may be updated by the Responsible Entity by publishing such information on the Betashares website at [www.betashares.com.au](http://www.betashares.com.au). A paper copy of any updated information will be provided free of charge on request. Any new or updated information that is materially adverse to investors will be available to investors via a supplementary or new PDS accessible via the ASX Market Announcements Platform.

### Risks

An investment in the Units is subject to risk (refer to section 4 and the Product Supplement), which may include possible delays in repayment and loss of income and capital invested.

None of Betashares Holdings Pty Ltd, Betashares, or any of their related entities, directors or officers gives any guarantee or assurance as to the performance of, or the repayment of capital or income reinvested in, the Funds described in this PDS. Betashares Holdings Pty Ltd and its related entities may invest in, lend to or provide other services to the Funds.

### Not personal advice

This PDS is prepared for general information only and is not financial product advice. It is not intended to be a recommendation by the Responsible Entity, any of the Responsible Entity's associates or any other person to invest in the Funds. In preparing this PDS, the Responsible Entity did not take into account the investment objectives, financial situation or particular needs of any particular person. Before making an investment decision, investors need to consider whether an investment in the Funds is appropriate to their needs, objectives and circumstances.

Investors should consult a professional financial adviser and ensure they understand the risks of the Funds before investing.

### Definitions

Certain capitalised terms used in this PDS are defined in the Glossary in section 8. All references to dollar amounts in this PDS are to Australian dollars unless otherwise stated.

For further details on Betashares Funds, please contact a stockbroker or financial adviser or visit [www.betashares.com.au](http://www.betashares.com.au).

# 1 KEY FEATURES

## 1.1 ABOUT THE FUNDS

Each Fund is a managed investment fund whose units trade on the ASX, much like shares.

The following Funds are offered under this PDS:

- Betashares Managed Risk Australian Shares Complex ETF (ASX: AUST) ("**AUST**"); and
- Betashares Managed Risk Global Shares Complex ETF (ASX: WRLD) ("**WRLD**").

Each Fund aims to:

- provide exposure to a broadly diversified portfolio of shares in a particular market or markets. AUST provides exposure to Australian shares and WRLD provides exposure to global shares listed on the stock exchanges of the world's major developed economies; and
- reduce the volatility of the Fund's equity investment returns and cushion downside risk.

The investment objective and strategy of each Fund is set out in the relevant Product Supplement appearing after section 8.

As the Units of each Fund are quoted on the ASX, investors can benefit from simple trading of their investment, including the ability to buy and sell during the course of the trading day, much like listed shares.

Each Fund carries certain investment risks. For information on the risks applicable to the Funds, see section 4 and the relevant Product Supplement.

## 1.2 SUMMARY OF KEY INFORMATION

The following table briefly summarises some of the key information contained in this PDS. It is not a complete summary of this PDS and you should read the PDS in its entirety. You should seek your own professional investment advice before deciding to invest in the Funds.

The PDS is designed so that a number of Betashares exchange traded funds may be offered under it over time. Such funds are referred to in this PDS as "Funds" or "Betashares Funds". Additional Funds may be added by the Responsible Entity issuing a supplementary PDS or a new PDS.

Sections 1 to 8 of this PDS contain general information concerning the common features of all of the Betashares Funds that may be offered under the PDS. The Product Supplement appearing after section 8 contains information specific to each Betashares Fund being offered.

TABLE 1.2: SUMMARY OF KEY INFORMATION

TOPIC	SUMMARY	SECTION
<b>Investment objective</b>	<p>The investment objective of each Fund is to:</p> <ul style="list-style-type: none"><li>• provide exposure to a broadly diversified portfolio of shares in a particular market or markets. AUST provides exposure to Australian shares and WRLD provides exposure to global shares listed on the stock exchanges of the world's major developed economies; and</li><li>• reduce the volatility of the Fund's equity investment returns and cushion downside risk.</li></ul> <p>The Product Supplement sets out information specific to each Fund, including the investment objective and investment strategy applicable to the Fund.</p> <p>There is no assurance or guarantee that a Fund's returns will meet the investment objective.</p>	<b>2.1 and Product Supplement</b>
<b>Investing</b>	<p>The offer in this PDS is only available to Authorised Participants.</p> <p>Units can only be acquired in whole multiples of a "Creation Unit" unless the Responsible Entity agrees otherwise. The number of Units in a Creation Unit for each Fund is determined by the Responsible Entity and notified to Authorised Participants.</p> <p>For each Fund, application amounts are payable in the form of a parcel of quoted securities selected by the Responsible Entity from time to time, which generally corresponds to the composition of each Fund's securities portfolio, together with any balancing cash payment, unless the Responsible Entity agrees to accept a cash application.</p> <p>Applications are subject to an application fee described in section 3.</p>	<b>5 and Product Supplement</b>

TOPIC	SUMMARY	SECTION
	Units are quoted on the ASX under the AQUA Rules. Subject to market conditions, investors may purchase Units by trading on the ASX. The purchase of Units on the ASX is not governed by the terms of this PDS and therefore the minimum investment does not apply to purchases of Units on the ASX.	
<b>Redemptions</b>	<p>A Unitholder can generally only redeem Units if it is an Authorised Participant.</p> <p>Units can only be redeemed in whole multiples of a Creation Unit unless the Responsible Entity agrees otherwise. The number of Units that constitute a Creation Unit for the Fund is determined by the Responsible Entity and notified to Authorised Participants.</p> <p>For each Fund, the amount payable to a Unitholder on redemption will be in the form of a parcel of quoted securities selected by the Responsible Entity from time to time, which generally corresponds to the composition of each Fund's securities portfolio, together with any balancing cash payment, unless the Responsible Entity agrees to accept a cash redemption.</p> <p>Redemptions are subject to a withdrawal fee described in section 3.</p> <p>In certain specified circumstances, redemption requests may be delayed, rejected or scaled down. See section 6.2.7 and 6.2.8 for further information.</p> <p>Units are quoted on the ASX under the AQUA Rules. Subject to market conditions, investors may sell their Units by trading on the ASX. The sale of Units on the ASX is not governed by the terms of this PDS and therefore the minimum redemption does not apply to sales of Units on the ASX.</p> <p>A Unitholder who is not an Authorised Participant can only redeem Units in the special circumstances described in section 5.6.</p>	<b>5, 6.2.7 and 6.2.8</b>
<b>Distributions</b>	The distribution period in relation to each Fund is set out in the Product Supplement. The Responsible Entity intends to make distributions in respect of each Fund at least annually (assuming there is distributable income).	<b>2.2 and Product Supplement</b>
<b>Risks</b>	<p>There are a number of risks associated with investing in the Funds. The key risks include the following:</p> <ul style="list-style-type: none"> <li>Investment objective risk - There is no guarantee that a Fund's investment strategy will be successful or that the investment objective will be achieved.</li> <li>Market risk - A Fund's investment returns will be influenced by the performance of the market or markets to which the Fund is exposed. Changes in the value of the relevant assets, which may be volatile and fluctuate from day to day, may result in a loss in the value of the Units.</li> <li>Risk management strategy may not be effective - A Fund's strategy of seeking to cushion against declines in the value of its assets should not be expected to eliminate downside risk in the Fund and may not be effective to protect against adverse changes in the prices of the Fund's securities in all circumstances.</li> <li>Selling futures in rising markets - During periods when the relevant share market(s) is rising, a Fund can be expected to make losses on its futures positions and, to that extent, the Fund's capital growth will be lower than it would have been without the futures positions.</li> <li>Derivatives risk - The use of derivatives carries certain risks and can cause the Fund to incur losses. Derivatives will not be used for the purpose of leveraging the Fund.</li> <li>Suspension risk - In certain circumstances, the Responsible Entity can suspend or scale down applications or redemptions.</li> <li>Liquidity risk - Although the Units will be quoted on the AQUA market of the ASX, there can be no assurance that there will be a liquid market for Units, and no assurance that there will be a liquid market for the Fund's investments.</li> </ul>	<b>4 and Product Supplement</b>

TOPIC	SUMMARY	SECTION
	<ul style="list-style-type: none"> <li>The trading price of Units on the ASX may differ from the Net Asset Value per Unit.</li> </ul> <p>This is not a comprehensive summary of all the risks of investing in the Funds. Before investing in the Funds, investors should carefully consider the risks associated with an investment in the Funds and obtain financial advice on whether an investment in the Funds is suitable for their objectives, financial situation and needs.</p> <p>For further details of the risks of investing, see section 4 and the Product Supplement.</p>	
<b>Fees and other costs</b>	Fees and other costs as described in section 3 of this PDS will apply.	<b>3</b>
<b>Tax</b>	Tax information of a general nature is set out in section 7. Investors should seek their own professional tax advice which takes into account their particular circumstances.	<b>7</b>
<b>Complaints</b>	The Responsible Entity has a process in place to deal with complaints from Unitholders.	<b>6.2.22</b>
<b>Responsible Entity</b>	Betashares Capital Ltd is the responsible entity of each Fund and is the issuer of this PDS.	<b>1.3</b>

### 1.3 ABOUT BETASHARES

Betashares Capital Ltd is the responsible entity of the Funds and is responsible for the ongoing management of the Funds.

The Responsible Entity is an Australian asset management business located in Sydney which was established in 2009 to be a specialist provider of fund products that are exchange traded. The Responsible Entity launched its first funds in 2010. As at the date of this PDS, it manages over \$40 billion in assets and acts as responsible entity for more than 80 funds whose units are quoted for trading on the Australian Securities Exchange under the AQUA Rules. These funds provide exposure to the performance of specific equity strategies, equity indices, fixed income strategies, fixed income indices, currencies, commodities or commodity indices. The primary focus of the Responsible Entity's business is the operation of funds that are exchange traded.

Neither Betashares Capital Ltd nor any of its related entities, directors or officers gives any guarantee or assurance as to the performance of, or the repayment of capital invested in, the Funds.

The Responsible Entity has sufficient working capital to enable it to operate the Funds as outlined in this PDS.

### 1.4 ADMISSION TO TRADING UNDER THE AQUA RULES

Units in the Funds have been admitted to trading status on the ASX under the AQUA Rules. The AQUA Rules form part of the ASX

Operating Rules. The Funds will not be listed on the ASX under the ASX Listing Rules.

The AQUA Rules provide a tailored framework for the quotation of exchange traded funds, managed funds and structured products on the ASX.

In operational terms, the market for products quoted under the AQUA Rules operates in the same way that it does for listed equities, with continuous matching of bids and offers and an opening and closing auction.

#### AQUA Rules: fundamental difference

The key distinction between products admitted under the ASX Listing Rules and those quoted under the AQUA Rules is the level of control and influence that the issuer of the relevant product has over the value of the underlying assets of the product.

Under the ASX Listing Rules, listed equity securities typically reflect the value of the business operated by the issuer. By contrast, the value of a product quoted under the AQUA Rules typically reflects the performance of the underlying assets.

The following table highlights the key specific differences between the AQUA Rules and the ASX Listing Rules.

ASX LISTING RULES	AQUA RULES
<b>Control</b>	
An issuer of an entity listed under the ASX Listing Rules:	An issuer of a product quoted under the AQUA Rules: <ul style="list-style-type: none"> <li>does not control the value of the assets underlying its products, but</li> </ul>

ASX LISTING RULES	AQUA RULES
<ul style="list-style-type: none"> <li>controls the value of its own securities and the business it runs; and</li> <li>the value of those securities is directly influenced by the equity issuer's performance and conduct.</li> </ul> <p>For example, the management and board of a listed company generally control the fate of the business and, therefore, have direct influence over the share price.</p>	<ul style="list-style-type: none"> <li>offers products that give investors exposure to the underlying assets – such as shares, indices, currencies or commodities.</li> </ul> <p>The value (price) of products quoted under the AQUA Rules is dependent upon the performance of the underlying assets rather than the financial performance of the issuer itself e.g. an ETF issuer does not control the value of the shares it invests in.</p>
<b>Continuous Disclosure</b>	
<p>Issuers are subject to the continuous disclosure requirements under ASX Listing Rule 3.1 and Section 674 of the <i>Corporations Act</i>.</p>	<p>Issuers of products quoted under the AQUA Rules are not subject to the continuous disclosure requirements under ASX Listing Rule 3.1 and section 674 of the <i>Corporations Act</i> but must disclose information about:</p> <ul style="list-style-type: none"> <li>the Net Tangible Assets ("NTA") or the Net Asset Value ("NAV") of the funds;</li> <li>distributions declared; and</li> <li>any other information that is required to be disclosed to ASIC under section 675 of the <i>Corporations Act</i> must be disclosed via the ASX Market Announcements Platform at the same time it is disclosed to ASIC. The Responsible Entity also intends to post any such information on its website <a href="http://www.betashares.com.au">www.betashares.com.au</a> at the same time.</li> </ul> <p>AQUA Product issuers must also disclose to the ASX any information the non-disclosure of which may lead to the establishment of a false market in its products or would materially affect the price of its products.</p>
<b>Periodic Disclosure</b>	
<p>Issuers are required to disclose their half- yearly and annual financial information or annual reports to the ASX under Chapter 4 of the ASX Listing Rules.</p>	<p>Financial reports relating to the issuer itself are not required to be disclosed to the ASX. However, periodic financial reports relating to the AQUA Product must be disclosed to the ASX at the same time they are lodged with ASIC under Chapter 2M of the <i>Corporations Act</i>.</p>
<b>Corporate Control</b>	
<p>Requirements in the <i>Corporations Act</i> and the ASX Listing Rules in relation to matters such as takeover bids, share buy-backs, change of capital, new issues, restricted securities, disclosure of directors' interests and substantial shareholdings, apply to companies and listed schemes.</p>	<p>These requirements do not apply to AQUA Product issuers. Section 601FM of the <i>Corporations Act</i> continues to apply to the removal or change of the responsible entity. An extraordinary resolution would be required to change the responsible entity. An extraordinary resolution is a resolution passed by a majority of the total votes that may be cast by members entitled to vote on the resolution.</p>
<b>Related Party Transactions</b>	
<p>Chapter 10 of the ASX Listing Rules, which relates to transactions between an entity and persons in a position to influence the entity, specifies controls over related party transactions.</p>	<p>Chapter 10 of the ASX Listing Rules does not apply to AQUA Products. Products quoted under the AQUA Rules which are registered managed investment schemes remain subject to the related party requirements in Part 5C.7 and Chapter 2E of the <i>Corporations Act</i>.</p>
<b>Auditor Rotation Obligations</b>	
<p>There are specific requirements in relation to auditor rotation under Part 2M.4 Division 5 of the <i>Corporations Act</i>.</p>	<p>Issuers of products quoted under the AQUA Rules are not subject to the requirements under Part 2M.4 Division 5 of the <i>Corporations Act</i>. A responsible entity of a registered managed investment scheme will continue to be required to undertake an independent audit of its compliance with the scheme's compliance plan in accordance with Section 601HG of the <i>Corporations Act</i> and the auditor must not be the auditor of the scheme's financial statements (but may be from the same firm).</p>

## 2 ABOUT THE FUNDS

### 2.1 INVESTMENT POLICY

#### 2.1.1 Investment objective

The investment objective of each Fund is to:

- provide exposure to a broadly diversified portfolio of shares in a particular market or markets; and
- reduce the volatility of the Fund's equity investment returns and cushion downside risk.

The Product Supplement sets out more information about the investment objective of each Fund.

There is no assurance or guarantee that the returns of a Fund will meet its investment objective.

#### 2.1.2 Investment strategy

The Responsible Entity will aim to achieve the investment objective of each Fund by investing the assets of the Fund in a broadly diversified portfolio of shares in the relevant share market(s) and selling equity futures contracts to manage volatility and cushion downside risk. The Product Supplement sets out more information about the investment strategy of each Fund.

The Responsible Entity will only use futures for the purpose of hedging and volatility management and not to leverage the Funds.

The Funds will maintain a cash balance to cover distribution payments and any margin requirements in relation to futures positions.

The composition of each Fund's portfolio of equity securities and futures contracts will be published daily in the "Resources" section of the Fund's product page on the Betashares website at [www.betashares.com.au](http://www.betashares.com.au).

As at the date of this PDS, the Responsible Entity does not intend to engage in securities lending in connection with the Funds, although it may do so in the future provided that any such change is notified in advance to investors and potential investors via a supplementary or new PDS accessible through the ASX Market Announcements Platform. To the extent a Fund obtains its equity exposure by holding shares or units of another ETF, the investment strategy of that ETF may permit the lending of securities. Please see the relevant Product Supplement for further information on ETFs that may be held by a Fund.

The assets of each Fund, whether securities or cash, will be held by the Fund's custodian, other than cash held in accordance with the Corporations Act as collateral for futures positions.

#### *Investment Adviser*

The Responsible Entity has appointed Milliman Pty Ltd ("Milliman" or "Investment Adviser") to provide investment advisory services in connection with the Funds. As investment adviser, Milliman will advise the Responsible Entity on the establishment of each Fund's futures positions and on an ongoing basis will recommend changes to the futures positions consistent with the Fund's investment strategy.

Milliman has significant experience in managed risk strategies similar to that of the Funds. Milliman and its affiliates provide or implement managed risk strategies that have been used by some of the world's largest companies and funds, using strategies similar to that which will be employed by the Funds.

Milliman is a subsidiary of Milliman, Inc., one of the world's largest actuarial and consulting firms. Founded in Seattle in 1947, Milliman Inc. is an independent firm with offices in major cities around the globe.

The fees for Milliman's services will be an expense of the Funds (included in the recoverable expenses described in section 3.3.3) and/or paid by the Responsible Entity out of its management fee.

#### 2.1.3 Labour standards and environmental, social and ethical considerations

The Responsible Entity does not take into account labour standards or environmental, social or ethical considerations when selecting, retaining or realising investments.

The Funds do not pursue a sustainable investment strategy or have a sustainable investment objective, and will not be marketed as sustainability related products. The Funds are not designed for investors who wish to screen out particular types of companies or investments or are looking for funds that meet specific environmental, social (which includes labour standards) and governance ("ESG") goals.

#### 2.1.4 Performance

Performance information for each Fund, and the Net Asset Value for each Fund, will be published on the Betashares website at [www.betashares.com.au](http://www.betashares.com.au). Information relating to past performance is not a reliable indicator of future performance.

#### 2.1.5 Changes to investment objectives and strategy

The Responsible Entity may from time to time vary the investment mandate (i.e. the investment objective and strategy as described in sections 2.1.1 and 2.1.2 and in the Product Supplement) for any Fund as set out in this PDS.

Any significant change to the investment mandate will be notified to investors and potential investors via a supplementary or new PDS accessible through the ASX Market Announcements Platform.

Information in this PDS that is not materially adverse to investors is subject to change from time to time and may be updated by the Responsible Entity by publishing such information on the Betashares website at [www.betashares.com.au](http://www.betashares.com.au) (see "PDS updates" on page 1).

## 2.2 DISTRIBUTIONS

The Funds intend to pay any distributions at least annually. Distribution amounts may include dividends, realised gains or losses from disposal of securities, or other assessable income derived by the Funds, after allowing for fees and expenses.

#### 2.2.1 Distributions

Unitholders holding Units in a Fund at the end of a distribution period are entitled to a pro-rata share of the distributable income (if any) for that period based on the number of Units held in the Fund at the end of the distribution period.

The distribution periods in relation to a Fund are set out in the Product Supplement. The amount of distributable income at the end of any distribution period will be determined by the Responsible Entity. Under the AMIT tax rules, the Fund may make cash distributions that differ from taxable income attributed by the Fund to Unitholders. See section 7 for further information.

A Fund's NAV per Unit will normally fall after the end of each distribution period if a distribution is payable. Consequently, if you invest just before the end of a distribution period, some of your capital may be returned to you as income in the form of a distribution.

Distributions will generally be paid within 15 business days of the end of the distribution period to which they relate by deposit to a Unitholder's nominated Australian bank, building society or credit union account.

The amount of the distribution paid by a Fund will vary from period to period, and there may be periods when a Fund will not pay a distribution.

The Responsible Entity may, in its discretion, change the duration of a distribution period for a Fund (provided that distribution periods cannot be longer than one year).

Unitholders may also become entitled to the distributable income of a Fund on the redemption of their Units. See section 7.1.6 for further information.

Information about the timetable for each distribution and the declared distribution amount will be announced via the ASX Market Announcements Platform.

### **2.2.2 Tax statements**

The Responsible Entity will, as soon as reasonably practicable after the end of each financial year, issue to each Unitholder who received

an entitlement to the distributable income and/or who was attributed taxable income of a Fund during a financial year, a tax statement which outlines the amount and composition of the taxable income to which the Unitholder became entitled and/or was attributed. Where the relevant Fund is an Attribution Managed Investment Trust ("AMIT") for the financial year, the tax statement is referred to as an AMIT member annual statement ("AMMA").

### **2.2.3 Distribution Reinvestment Plan**

The Product Supplement states whether a distribution reinvestment plan ("DRP") is available for each Fund.

Participation in the DRP is subject to the terms and conditions of the DRP policy document, which is available at no charge by contacting Betashares on 1300 487 577 (within Australia). Any DRP is currently available only to Unitholders who have a registered address in Australia or New Zealand, unless the Responsible Entity determines otherwise.

Where a DRP is available, eligible Unitholders can choose to:

- participate in the DRP, meaning distributions from the relevant Fund will be reinvested in additional Units in the Fund; or
- have the distributions paid directly to a nominated Australian bank, building society or credit union account.

Full or partial reinvestment will be available. If no DRP election is made, the distributions will automatically be paid into the nominated Australian bank, building society or credit union account.

Eligible Unitholders can elect to participate in the DRP by completing an on-line form available on the Registrar's website or by contacting the Registrar.

## 3 FEES AND OTHER COSTS

### DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

### TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website ([www.moneysmart.gov.au](http://www.moneysmart.gov.au)) has a managed funds fee calculator to help you check out different fee options.

### 3.1 FEES AND OTHER COSTS

This section shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the managed investment scheme as a whole.

Taxes are set out in another part of this PDS.

You should read all the information about fees and costs because it is important to understand their impact on your investment.

TABLE 3.1: FEES AND COSTS SUMMARY

Betashares Managed Risk Australian Shares Complex ETF and Betashares Managed Risk Global Shares Complex ETF		
TYPE OF FEE OR COST	AMOUNT	HOW AND WHEN PAID
<b>Ongoing annual fees and costs</b>		
<i>Management fees and costs:</i>	<b>Betashares Managed Risk Australian Shares Complex ETF</b>	
The fees and costs for managing your investment	0.49% per annum of the Fund's Net Asset Value.  As at the date of this PDS, the management fees and costs of the Fund consist of the following components:  <b>Management fee</b>  0.39% per annum of the Fund's Net Asset Value.  <b>Plus</b>  <b>Recoverable expenses</b>  Capped at 0.10% per annum of the Fund's Net Asset Value. <sup>1</sup>  <b>Plus</b>  <b>Indirect costs</b>  Estimated at 0.00% per annum of the Fund's Net Asset Value. <sup>2</sup>	The management fee is calculated and accrued daily as a percentage of the Fund's Net Asset Value and reflected in the daily Net Asset Value per Unit. The amount is deducted from each Fund's assets monthly on or after the first day of the following month.  The recoverable expenses are calculated and accrued daily as a percentage of the Fund's Net Asset Value and reflected in the daily Net Asset Value per Unit. The amount is deducted from the Fund's assets monthly on or after the first day of the following month.  The indirect costs are calculated and accrued daily as a percentage of the Fund's Net Asset Value and reflected in the daily Net Asset Value per Unit. The amount is deducted from the Fund's assets as and when incurred.

TYPE OF FEE OR COST	AMOUNT	HOW AND WHEN PAID
<b>Betashares Managed Risk Global Shares Complex ETF</b>  0.54% per annum of the Fund's Net Asset Value.  As at the date of this PDS, the management fees and costs of the Fund consist of the following components:		
<b>Management fee</b>  0.39% per annum of the Fund's Net Asset Value.  <b>Plus</b>  <b>Recoverable expenses</b>  Capped at 0.15% per annum of the Fund's Net Asset Value. <sup>1</sup>  <b>Plus</b>  <b>Indirect costs</b>  Estimated at 0.00% per annum of the Fund's Net Asset Value. <sup>2</sup>	The management fee is calculated and accrued daily as a percentage of each Fund's Net Asset Value and reflected in the daily Net Asset Value per Unit. The amount is deducted from each Fund's assets monthly on or after the first day of the following month.  The recoverable expenses are calculated and accrued daily as a percentage of each Fund's Net Asset Value and reflected in the daily Net Asset Value per Unit. The amount is deducted from each Fund's assets monthly on or after the first day of the following month.  The indirect costs are calculated and accrued daily as a percentage of each Fund's Net Asset Value and reflected in the daily Net Asset Value per Unit. The amount is deducted from each Fund's assets as and when incurred.	
<i>Performance fees:</i>  Amounts deducted from your investment in relation to the performance of the product	Nil	Not applicable.
<i>Transaction costs:</i>  The costs incurred by the scheme when buying or selling assets	<b>Betashares Managed Risk Australian Shares Complex ETF</b>  Estimated at 0.01% per annum of the Fund's Net Asset Value. <sup>3</sup>  <b>Betashares Managed Risk Global Shares Complex ETF</b>  Estimated at 0.01% per annum of the Fund's Net Asset Value. <sup>3</sup>	Transaction costs reduce each Fund's Net Asset Value. How and when they are paid varies depending on the type of transaction cost. Certain costs, e.g. brokerage, are added to or deducted from the amounts payable from each Fund's assets or receivable by each Fund at the time of settlement in respect of investments purchased or sold for each Fund. Other costs, e.g. transactional custodian fees, are invoiced to each Fund and paid from each Fund's assets according to a regular monthly or quarterly cycle.
<b>Member activity-related fees and costs (fees for services or when your money moves in or out of the scheme)</b>		
<i>Establishment fee:</i>  The fee to open your investment	Nil.	Not applicable.
<i>Contribution fee:</i>  The fee on each amount contributed to your investment	<b>Betashares Managed Risk Australian Shares Complex ETF</b>  If you are not an Authorised Participant - \$0.	Payable only by Authorised Participants. <sup>4</sup>  This fee will be payable by Authorised Participants together with the application consideration at the time of applying for Units, for in-kind applications.

TYPE OF FEE OR COST	AMOUNT	HOW AND WHEN PAID
	<p>If you are an Authorised Participant – up to \$3,000 for in-kind applications.<sup>6</sup></p> <p><b>Betashares Managed Risk Global Shares Complex ETF</b></p> <p>If you are not an Authorised Participant - \$0.</p> <p>If you are an Authorised Participant – up to \$300 for in-kind applications.<sup>6</sup></p>	
<p><i>Buy-sell spread:</i></p> <p>An amount deducted from your investment representing costs incurred in transactions by the scheme</p>	Nil. <sup>5</sup>	Not applicable.
<p><i>Withdrawal fee:</i></p> <p>The fee on each amount you take out of your investment</p>	<p><b>Betashares Managed Risk Australian Shares Complex ETF</b></p> <p>If you are not an Authorised Participant - \$0.</p> <p>If you are an Authorised Participant – up to \$3,000 for in-kind redemptions.<sup>6</sup></p> <p><b>Betashares Managed Risk Global Shares Complex ETF</b></p> <p>If you are not an Authorised Participant - \$0.</p> <p>If you are an Authorised Participant – up to \$500 for in-kind redemptions.<sup>6</sup></p>	<p>Payable only by Authorised Participants.</p> <p>This fee will be deducted from the redemption proceeds at the time of the redemption, for in-kind redemptions.</p>
<p><i>Exit fee:</i></p> <p>The fee to close your investment</p>	Nil	Not applicable
<p><i>Switching fee:</i></p> <p>The fee for changing investment options</p>	Nil	Not applicable

<sup>1</sup> This figure reflects the estimated recoverable expenses incurred by each Fund for the previous financial year ended 30 June 2024 and may include the Responsible Entity's reasonable estimates where the Responsible Entity was unable to determine the exact amount or the information was not available at the date of the PDS. For more information on recoverable expenses, please see section 3.3.3 in the "Additional Explanation of Fees and Costs" section below.

<sup>2</sup> This figure reflects the estimated indirect costs incurred by each Fund for the previous financial year ended 30 June 2024 and may include the Responsible Entity's reasonable estimates where the Responsible Entity was unable to determine the exact amount or information was not available at the date of this PDS. For more information on the meaning and calculation of indirect costs, see "Indirect costs" under the heading "Additional Explanation of Fees and Costs".

<sup>3</sup> This figure reflects the estimated transaction costs incurred by each Fund for the previous financial year ended 30 June 2024 and may include the Responsible Entity's reasonable estimates where the Responsible Entity was unable to determine the exact amount or information was not available at the date of this PDS. This estimate is net of estimated transaction costs for which the Responsible Entity reimburses each Fund out of the application and redemption fees it receives from Authorised Participants, as described in section 3.3.6. For more information on transaction costs and the application and redemption fees payable by Authorised Participants see "Transaction costs" and "Application and redemption fees for Authorised Participants" under the heading "Additional Explanation of Fees and Costs".

<sup>4</sup> An Authorised Participant is a financial institution which is a participant in relation to a financial market (or which has engaged a participant to act on its behalf) which has entered into an agreement with the Responsible Entity in relation to Unit applications and redemptions. For an explanation of the contribution fees and withdrawal fees (also referred to in this PDS as application fees and redemption fees) please see section 3.3.6 "Application and Redemption Fees for Authorised Participants" in the "Additional Explanation of Fees and Costs" section. Unitholders who are not Authorised Participants may be charged a redemption fee if they redeem Units pursuant to their right to redeem in the special circumstances described in section 5.6 - see "Additional Explanation of Fees and Costs" section below for more information.

<sup>5</sup> While each Fund does not charge a buy-sell spread, as each Fund is traded on a securities exchange, investors may incur a bid-offer spread when trading on the exchange.

<sup>6</sup> Cash applications and redemptions are only available if agreed by the Responsible Entity. Additional contribution and withdrawal fees may apply in the case of a cash application or redemption, as agreed with the Responsible Entity from time to time.

Certain additional costs may apply. See the “Additional Explanation of Fees and Costs” section below for more information.

Each fee set out in this table may in some cases be negotiated with wholesale clients. For more information, refer to the explanation of “Differential fees, rebates and related payments” in the “Additional Explanation of Fees and Costs” section below.

All fees and costs in the table above include Goods and Services Tax (“GST”) net of any reduced input tax credits and any applicable stamp duty and are shown without any other adjustment in relation to any tax deduction available to the Responsible Entity or the extent to which any tax deduction may be passed on to unitholders.

## 3.2 EXAMPLE OF ANNUAL FEES AND COSTS

This table gives an example of how the ongoing annual fees and costs in each Fund can affect your investment over a one year period. You should use this table to compare this product with other products offered by managed investment schemes.

TABLE 3.2: EXAMPLE OF ANNUAL FEES AND COSTS

EXAMPLE – Betashares Managed Risk Australian Shares Complex ETF	AMOUNT	BALANCE OF \$50,000 WITH A CASH CONTRIBUTION OF \$5,000 <sup>1</sup> DURING THE YEAR
<b>CONTRIBUTION FEES<sup>2</sup></b>		For every additional \$5,000 you put in, you will be charged:
	\$0 if you are not an Authorised Participant; or	\$0 if you are not an Authorised Participant; or
	\$3,000 if you are an Authorised Participant. <sup>2</sup>	\$3,000 if you are an Authorised Participant.
<b>PLUS MANAGEMENT FEES AND COSTS<sup>3</sup></b>	0.49% p.a. of the Fund's Net Asset Value	<b>And</b> , for every \$50,000 you have in the Fund you will be charged or have deducted from your investment \$245 each year.
<b>PLUS PERFORMANCE FEES<sup>4</sup></b>	Nil	<b>And</b> , you will be charged or have deducted from your investment \$0 in performance fees each year. <sup>4</sup>
<b>PLUS TRANSACTION COSTS<sup>5</sup></b>	Estimated at 0.01% of the Fund's Net Asset Value	<b>And</b> , you will be charged or have deducted from your investment \$5 in transaction costs.
<b>EQUALS COST OF FUND</b>		<p>If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000<sup>6</sup> during that year, you would be charged fees and costs of:</p> <p><b>\$250 (if you are not an Authorised Participant) or \$3,250 (if you are an Authorised Participant). *</b></p> <p><b>What it costs you will depend on whether you are an Authorised Participant, the investment option you choose and the fees you negotiate.</b></p>

EXAMPLE – Betashares Managed Risk Global Shares Complex ETF	AMOUNT	BALANCE OF \$50,000 WITH A CASH CONTRIBUTION OF \$5,000 <sup>1</sup> DURING THE YEAR
<b>CONTRIBUTION FEES<sup>2</sup></b>		For every additional \$5,000 you put in, you will be charged:
	\$0 if you are not an Authorised Participant; or	\$0 if you are not an Authorised Participant; or
	\$300 if you are an Authorised Participant. <sup>2</sup>	\$300 if you are an Authorised Participant.
<b>PLUS MANAGEMENT FEES AND COSTS<sup>3</sup></b>	0.54% p.a. of the Fund's Net Asset Value	<b>And</b> , for every \$50,000 you have in the Fund you will be charged or have deducted from your investment \$270 each year.

<b>PLUS PERFORMANCE FEES<sup>4</sup></b>	Nil	<b>And</b> , you will be charged or have deducted from your investment \$0 in performance fees each year. <sup>4</sup>
<b>PLUS TRANSACTION COSTS<sup>5</sup></b>	Estimated at 0.01% of the Fund's Net Asset Value	<b>And</b> , you will be charged or have deducted from your investment \$5 in transaction costs.
<b>EQUALS COST OF FUND</b>	<p>If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000<sup>6</sup> during that year, you would be charged fees and costs of:</p> <p><b>\$275 (if you are not an Authorised Participant) or \$575 (if you are an Authorised Participant for the Fund).*</b></p> <p><b>What it costs you will depend on whether you are an Authorised Participant, the investment option you choose and the fees you negotiate.</b></p>	

\* Additional fees may apply. An Authorised Participant who redeems Units directly will also be charged a withdrawal fee of up to \$3,000 of the redemption amount for an in-kind redemption in Betashares Managed Risk Australian Shares Complex ETF, and up to \$500 of the redemption amount for an in-kind redemption in Betashares Managed Risk Global Shares Complex ETF, based on a balance of \$50,000. Unitholders who are not Authorised Participants may be charged a redemption fee if they redeem Units pursuant to their right to redeem in the special circumstances described in section 5.6. For more information, see "Redemption fees for other unitholders" in the "Additional Explanation of Fees and Costs" section below for more information.

Each fee in this table may in some cases be negotiated with wholesale clients. For more information, refer to the explanation of "Differential fees, rebates and related payments" in the "Additional Explanation of Fees and Costs" section below.

<sup>1</sup> Please note the minimum investment in each Fund by an Authorised Participant is one Creation Unit unless the Responsible Entity agrees otherwise.

<sup>2</sup> Assumes the maximum contribution fee set out in Table 3.1 applies.

<sup>3</sup> Management fees and costs are made up of the management fee, recoverable expenses and indirect costs. For more information, refer to the "Additional Explanation of Fees and Costs" section below.

<sup>4</sup> Each Fund does not charge, and there is no right for the Responsible Entity to charge, a performance fee.

<sup>5</sup> This figure reflects the estimated net transaction costs incurred by each Fund for the previous financial year ended 30 June 2024 and may include the Responsible Entity's reasonable estimates where the Responsible Entity was unable to determine the exact amount or information was not available at the date of this PDS. For more information, refer to "Transaction costs" under the "Additional Explanation of Fees and Costs" section below.

<sup>6</sup> Assumes the \$50,000 is invested for the entire year and the \$5,000 investment occurs on the last day of the year and therefore the fees and costs in this example are calculated using the \$50,000 balance only.

### 3.3 ADDITIONAL EXPLANATION OF FEES AND COSTS

#### 3.3.1 Management fees and costs

The management fees and costs for each Fund incorporate all relevant ongoing fees and other costs involved in managing each Fund and deriving investment returns. The management fees and costs comprise:

- Responsible Entity's management fee;
- recoverable expenses; and
- indirect costs

Management fees and costs do not include:

- transaction costs, such as brokerage, transactional custodian fees, and other transaction fees associated with buying and selling each Fund's assets; and
- other costs that an investor would ordinarily incur when investing directly in each Fund's underlying assets.

(These costs are therefore not included in the management fees and costs set out in Table 3.1 and Table 3.2 above, but they are paid out of each Fund's assets).

#### 3.3.2 Management fee

The management fee is charged by the Responsible Entity for managing each Fund and making it available to investors. It is calculated and accrued daily as a percentage of each Fund's Net Asset Value, and reflected in the daily Net Asset Value per Unit. The amount is deducted from each Fund's assets monthly on or after the first day of the following month.

#### 3.3.3 Recoverable expenses

The recoverable expenses represent the operating expenses incurred in the operation of each Fund. Each Fund's Constitution allows all properly incurred expenses to be recovered from each Fund and does not place any limit on the amount or types of expenses that can be recovered.

The expenses normally incurred in the day to day operation of each Fund include custodian, fund administration, unit registry, ASX and audit costs (other than transaction costs described above) and will be recovered from each Fund and reflected in its Net Asset Value per Unit. These expenses normally incurred and charged to a Fund will be capped as follows for each Fund while this PDS is current:

- Betashares Managed Risk Australian Shares Complex ETF: 0.10% per annum of the Fund's Net Asset Value; and
- Betashares Managed Risk Global Shares Complex ETF: 0.15% per annum of the Fund's Net Asset Value.

Any such expenses in excess of the cap will be paid by the Responsible Entity out of its own resources. The Responsible Entity has the right to be reimbursed for them at a later time, provided that the cap will not be exceeded at the time of reimbursement. The Responsible Entity may withdraw or replace this PDS at any time.

The management fees and costs figure disclosed in Table 3.1 includes the following recoverable expenses normally incurred for each Fund, which is the amount incurred by that Fund for the previous financial year ended 30 June 2024:

- Betashares Managed Risk Australian Shares Complex ETF: 0.10% per annum of the Fund's Net Asset Value; and
- Betashares Managed Risk Global Shares Complex ETF: 0.15% per annum of the Fund's Net Asset Value.

Extraordinary expenses are expenses that are not normally incurred in the day to day operation of each Fund and are not necessarily incurred in any given year. They may include costs associated with holding unitholder meetings, changing each Fund's constitution, or defending or pursuing legal proceedings. Any such expenses will be recovered from each Fund and reflected in its Net Asset Value per Unit. The management fees and costs figure disclosed in Table 3.1 includes extraordinary expenses of nil, which is the amount incurred by each Fund for the previous financial year ended 30 June 2024.

#### 3.3.4 Indirect costs

Indirect costs are any amounts that we know or where required, reasonably estimate, will reduce each Fund's returns that are paid from each Fund's assets (other than the management fee, recoverable expenses, and transaction costs described elsewhere in this section) or that are paid from the assets of any interposed vehicle (such as an underlying fund) in which each Fund may invest.

The management fees and costs figure disclosed in Table 3.1 includes indirect costs of nil, which is the Responsible Entity's estimate of the amount incurred by each Fund for the previous financial year ended 30 June 2024.

#### 3.3.5 Transaction costs

Each Fund incurs transaction costs, such as brokerage, clearing costs, transactional custodian fees, and other transaction fees associated with buying and selling each Fund's assets.

Transaction costs also include costs incurred by an interposed vehicle that would be transaction costs if they had been incurred by each Fund. As transaction costs reduce each Fund's Net Asset Value and are reflected in the daily Net Asset Value per unit, they are an additional cost to you and are not a fee paid to the Responsible Entity. The impact of transaction costs can be offset wholly or partly by the application and redemption fees the Responsible Entity receives as described in section 3.3.6.

How and when they are paid varies depending on the type of transaction cost. Certain costs, e.g. brokerage, are added to or deducted from the amounts payable from each Fund's assets or receivable by each Fund at the time of settlement in respect of investments purchased or sold for each Fund. Other costs, e.g. transactional custodian fees, are invoiced and paid from each Fund's assets according to a regular monthly or quarterly cycle.

The table below sets out the estimated total and net transaction costs borne by each Fund for the previous financial year ended 30 June 2024. Our estimate of the net transaction costs represents the total transaction costs minus the transaction costs reimbursed to the relevant Fund by the Responsible Entity for certain transaction

costs out of the application and redemption fees it receives from Authorised Participants, as described in section 3.3.6. The net transaction costs are borne by each Fund.

	Estimated total transaction costs per annum as a percentage of the Fund's Net Asset Value	Estimated net transaction costs per annum as a percentage of the Fund's Net Asset Value
Betashares Managed Risk Australian Shares Complex ETF	0.01%	0.01% (or \$5 for every \$50,000 you have in the Fund)
Betashares Managed Risk Global Shares Complex ETF	0.01%	0.01% (or \$5 for every \$50,000 you have in the Fund)

The transaction costs estimate shown in the fees and costs summary in Table 3.1 is shown net of any amount for which the Responsible Entity reimburses each Fund out of the application and redemption fees it receives from Authorised Participants.

The amount of these costs can be expected to vary from year to year depending on the volume and value of transactions undertaken.

#### 3.3.6 Application and redemption fees for Authorised Participants

No application fees or redemption fees are payable by investors who buy and sell Units on the ASX. However, brokerage charges may apply.

Subject to section 3.3.7 below, application fees and redemption fees will only be payable by Authorised Participants on an application for or redemption of Units directly with each Fund.

The applicable application and redemption fees are set out in Table 3.1 above and are paid by Authorised Participants to the Responsible Entity. Out of these fees, the Responsible Entity pays directly, or reimburses each Fund for, the estimated transaction costs associated with the application or redemption.

The application and redemption fees payable by Authorised Participants seek to ensure that the transaction costs associated with applications and redemptions are borne by the transacting Authorised Participants and not by other investors.

#### 3.3.7 Redemption fees for other Unitholders

Unitholders who are not Authorised Participants may be charged a redemption fee if they redeem Units pursuant to their right to redeem in the special circumstances described in section 5.6. The redemption fee per Unit will not be greater than the redemption fee per Unit that would be payable by an Authorised Participant for a cash redemption when withdrawing the minimum parcel of Units.

#### 3.3.8 Stockbroker fees

Investors may incur customary brokerage fees and commissions when buying and selling Units on the ASX, as for any listed or quoted security. Please consult a stockbroker for more information in relation to their fees and charges.

#### 3.3.9 Can fees and costs change and what are the maximums?

Yes, fees and costs can change subject to maximums in each Fund's Constitution.

The Constitution limits the amount of the Responsible Entity's management fee to a maximum of 3% p.a. of each Fund's Net Asset Value (plus GST).

The Constitution of each Fund provides for the following maximum fees:

- a maximum contribution fee of 5% of the aggregate Issue Price of the Units applied for (plus GST);
- a maximum withdrawal fee of 5% of the aggregate Withdrawal Amount of the relevant Units (plus GST).

The Responsible Entity also has the right under the Constitution to recover from each Fund all expenses properly incurred in the performance of its duties.

As at the date of this PDS, the Responsible Entity does not have any intention to change the fees and costs described in this PDS, although it has the right to do so at any time without investor consent. Any increase in the fees for each Fund will be announced to the ASX via the Market Announcements Platform at least 30 days before it occurs.

Any estimates of fees and costs in this PDS are based on information available as at the date of this PDS. As such, the actual fees and costs may differ and are subject to change from time to time. Information in this PDS that is not materially adverse to investors is subject to change from time to time and may be updated by the Responsible Entity by publishing such information on the Betashares website at [www.betashares.com.au](http://www.betashares.com.au). A paper copy of any updated information will be provided free of charge on request.

#### **3.3.10 Differential fees, rebates and related payments**

The Responsible Entity may, from time to time, agree with wholesale clients to rebate or reduce some of the management or

other fees on a case by case basis. The amount of fee reduction is at the Responsible Entity's discretion. The Responsible Entity will achieve these reductions and meet any rebates in relation to management fees by payments from its own resources. For more information, please contact the Responsible Entity at the address specified in the "Directory" section of the PDS.

Any reduction in management fees offered by the Responsible Entity to a wrap platform or master trust operator may be passed on to the clients of the operator or retained by the operator.

Subject to applicable law, the Responsible Entity may also pay one-off or annual product access payments to wrap platform or master trust operators for including each Fund in their offering. As of the date of this PDS, no product access payments have been made. The Responsible Entity would make any such payment from its own resources.

#### **3.3.11 Indirect investors**

Indirect investors investing through a wrap platform or master trust should note that the fees outlined in this section 3 are in addition to any other fees and costs imposed by the wrap platform or master trust operator.

#### **3.3.12 Financial advisers**

Additional fees may be paid to a financial adviser if you have consulted a financial adviser. You should refer to the Statement of Advice provided by your financial adviser in which details of the fees are set out.

#### **3.3.13 Taxation**

Information in relation to taxation is set out in section 7 of this PDS.

## 4 RISKS

Unitholders in the Funds face a number of investment risks. There are risks associated with any investment. Generally, the higher the expected return of an investment, the higher the risk and the greater the variability of returns.

The market price and Net Asset Value per Unit can fluctuate within a wide range. When considering an investment in the Funds, personal tolerance for fluctuating market values should be taken into account.

The most common risks associated with investing in the Funds are described below, but there could be other risks that affect the performance of the Funds. The discussion below is general in nature. You should also read the Product Supplement for a discussion of any additional risks that are relevant to each specific Fund.

The Responsible Entity does not provide assurances or guarantees on future profitability, returns, distributions or return of capital. An investment in a Fund could lose money over short or long periods.

You should seek your own professional advice on the appropriateness of this investment to your circumstances. You should also consider how an investment in the Funds fits into your overall investment portfolio.

### 4.1 INVESTMENT OBJECTIVE RISK

There is no guarantee that a Fund's investment objective will be achieved or that an investment in a Fund will earn any positive return in the short or long-term.

### 4.2 MARKET RISK

Market risk is the risk that the value of a Fund's investment portfolio will fluctuate as a result of changes in market prices. The Funds invest in listed securities of companies that operate in a particular share market or markets, each with different market risks. Changes in equity prices may result in a loss in the value of Units. Therefore, the market factors that drive changes in the prices of equities, including events (such as natural disasters, wars and other conflicts, and outbreaks of infectious diseases), general economic conditions, investor sentiment and industry specific factors, can be expected to influence the value of Units. Share markets can be and have been volatile, and have the potential to fall by large amounts over short periods of time. This volatility may cause the value of an investment in a Fund to decrease. Each Fund's risk management strategy will seek to reduce, but not eliminate, the volatility of the Fund's equity investment returns, but it may not be effective in all circumstances (see "Risk Management Strategy May Not Be Effective" below).

### 4.3 INDUSTRY SPECIFIC RISK

Factors specific to a particular market segment, such as an industry sector, may cause a Fund's returns to differ from that of the broader market. Such factors may include market estimations of future industry profitability, movements in input or output prices for companies operating in the industry and market sentiment.

### 4.4 SECURITY SPECIFIC RISK

Factors specific to a particular equity security may cause its return to differ from that of the broader market. Such factors may include changes in a company's operations, such as changes in management, or the loss of a significant customer, or changes in the market environment the company operates in, or actions by regulators or competitors. The Funds may be sensitive to security specific risk for those securities which form a material component of the Fund's portfolio.

### 4.5 RISK MANAGEMENT STRATEGY MAY NOT BE EFFECTIVE

The Funds' strategy of seeking to cushion against declines in the value of its assets should not be expected to eliminate downside risk in the Fund. In addition, the strategy of using futures may not be effective to protect against adverse changes in the prices of the securities in the portfolio in all circumstances. For example, were the Fund to be positioned with a low level of futures exposure at a time when the relevant Securities Portfolio fell rapidly in value, the cushioning effect of the volatility reduction strategy would be limited. Adjustments to the level of futures exposure may not occur in a timely manner in the event of rapid decreases or increases in value of the relevant Securities Portfolio. For further information on the details of this risk specific to each Fund, please refer to the relevant Product Supplement.

### 4.6 SELLING FUTURES IN RISING MARKETS

By selling futures as part of a Fund's investment strategy, the Fund will either receive, or be required to pay, a cash settlement amount on expiry of the relevant futures contract, based on the movement in the price of the relevant underlying share market. During periods when the underlying share market of a futures contract is rising, a Fund can be expected to make losses on that futures position and, to that extent, the Fund's capital growth will be lower than it would have been without that futures position. For further information on the details of this risk specific to each Fund, please refer to the relevant Product Supplement.

### 4.7 GENERAL DERIVATIVES RISK

The Funds will sell exchange traded equity index futures contracts (and associated currency futures in respect of the Betashares Managed Risk Global Shares Complex ETF) seeking to reduce the volatility of the Fund's equity investment returns and cushion downside risk. The primary risks associated with the use of such derivative contracts are:

- the values of the derivative failing to move in line with the underlying asset;
- the potential lack of liquidity of the derivative;
- the potential to incur substantial losses in excess of the initial amount invested;
- the possibility that the derivative position is difficult or costly to manage or reverse;

- a Fund may not be able to meet payment obligations as they arise, including any requirements to make margin payments to the futures broker;
- the counterparty to the derivative contract (the central clearing house or futures clearing broker) may not meet its obligations under the contract; and
- the electronic platforms on which such derivatives are traded are subject to risks related to system access, varying response time, security and system failure.

Any of the above factors could cause a Fund to incur losses, suffer increased costs, fail to realise gains or otherwise fail to achieve its investment objectives.

Importantly, derivatives will only be used in the Funds with the aim of managing risk and volatility consistent with the Fund's investment objective and they will not be used for the purpose of leveraging the Funds. The Responsible Entity will monitor the derivatives exposure daily and, on the recommendation of the Investment Adviser, will adjust the futures position consistent with a Fund's investment strategy.

The Funds will not use "over the counter" (OTC) derivatives. Any ETFs held by a Fund will be limited to those that obtain their investment exposure substantially through direct investment in the underlying shares (and not via OTC derivatives, except to an immaterial extent).

The Responsible Entity will aim to ensure that there is sufficient cash and other liquid assets available in the Funds at all times to meet any payment obligations under derivatives.

## 4.8 SECURITIES TRADING RISK

There is a risk that trading in one or more of the securities held by a Fund, or in the exchange traded futures used by a Fund, may cease due to action taken by the issuer of a security or by a regulatory authority, suspension of normal trading on the relevant exchange, or other reasons. Depending on the impact on a Fund, this may cause the Responsible Entity to suspend the application and redemption process for Units and the trading of Units on the ASX.

## 4.9 FUND TRADING RISK

In certain circumstances, the ASX may suspend trading of the Units of a Fund and in that event Unitholders would not be able to buy or sell Units of that Fund on the ASX. In these circumstances, the Responsible Entity may suspend the application and redemption process.

There may be other occasions where the Responsible Entity may suspend the application and redemption process, such as around the end of a distribution period or where other factors prevent the accurate calculation of Unit prices, such as the suspension or restriction of trading in securities held by a Fund. This may cause a Fund's Units to be suspended from trading on the ASX.

The ASX also imposes certain requirements for Units to continue to be quoted. The Responsible Entity will endeavour to meet these requirements at all times to ensure the Units remain quoted, although there can be no assurance that Units will remain quoted on the ASX. Under these circumstances, the Responsible Entity may take measures such as suspending the application and redemption process or potentially terminating a Fund.

## 4.10 LIQUIDITY RISK

Although the Units will be quoted on the AQUA market of the ASX there can be no assurances that there will be a liquid market for Units. The Responsible Entity has in place market making arrangements to assist in maintaining liquidity for the Funds on the ASX. The Responsible Entity cannot guarantee that a market maker will fulfil its obligations or that a market maker will continue to be appointed. The market making arrangements agreed by the Responsible Entity with each market maker also specify certain permitted circumstances where the market making obligations may be suspended (such as operational disruptions, market disruptions or unusual conditions (including those which make the market maker's ability to perform the market making function impossible, impracticable or unduly onerous such as an unusually volatile or "fast market"), other events set out in the ASX Operating Rules, the suspension or rejection of applications for Units or redemption requests, or the market maker not having ASIC relief to allow short selling of Units). If a market maker defaults on its obligations, the Responsible Entity may seek to replace the market maker, although the arrangements with the market maker may limit or exclude any liability on the part of the market maker.

In addition, there is the risk that one or more securities or other assets held by a Fund may be difficult or impossible to sell, preventing a Fund from closing out its position or rebalancing in a timely manner and at a fair price. This may be due to factors specific to that investment or to prevailing market conditions. A lack of liquidity could potentially result in the suspension of redemptions, which may cause a Fund's Units to be suspended from trading on the ASX.

## 4.11 TRADING PRICE OF UNITS MAY DIFFER FROM NET ASSET VALUE PER UNIT

As with any exchange traded fund, it is possible that the trading price of Units on the ASX may differ from the Net Asset Value per Unit. The trading price is dependent on a number of factors including the demand for and supply of Units, investor confidence, the availability of market maker services during the course of the trading day, and the bid-offer spread charged by a market maker. The trading price may be affected if there is a suspension of the application and redemption process. The application and redemption facility is designed to reduce the likelihood of Units trading at a significant discount or premium to the Net Asset Value per Unit. If the application or redemption facility for a Fund is closed on a particular day, the trading price might diverge further from the Net Asset Value per Unit.

Periods of increased market volatility or disruptions to the market making function may result in wider bid-offer spreads for Units and trading prices that differ significantly from the Fund's Net Asset Value per Unit. This risk may be higher in the period shortly after the ASX opens for trading and near the close of trading. If an investor purchases Units at a time when the market price is at a premium to the Net Asset Value per Unit or sells at a time when the market price is at a discount to the Net Asset Value per Unit, then the investor may sustain losses. Investors should consider placing "limit orders" to reduce the risk of trading at unfavourable prices.

## 4.12 EFFECT OF APPLICATIONS AND REDEMPTIONS ON DISTRIBUTIONS

The distribution per Unit amount for a distribution period may be affected by application and redemption activity during the period. The issue of Units during a distribution period will tend to reduce the amount of the distribution per Unit for that period (which will be

associated with a smaller decline in the NAV per Unit at the time of the distribution). Conversely, the redemption of Units during a distribution period will tend to increase the amount of the distribution per Unit for that period (which will be associated with a larger decline in the NAV per Unit at the time of the distribution).

#### 4.13 DISTRIBUTIONS RISK

Investors should be aware that each Fund may at times realise large income gains from its futures positions, which would be required to be distributed to Unitholders as by the end of the relevant financial year. In such circumstances, investors who hold Units as at the end of the financial year or any other distribution period determined by the Responsible Entity (including those investors who enter the relevant Fund after the realisation of these income gains and after the associated rise in the Fund's Unit price) may receive a large taxable income distribution.

#### 4.14 MANAGER RISK

This is the risk that the Responsible Entity's or the Investment Adviser's investment strategy is not successful, or not successfully implemented, resulting in a Fund failing to meet its objectives. No assurance can be given that the trading systems and strategies utilised by the Responsible Entity or the Investment Adviser will prove successful under all or any market conditions.

#### 4.15 FUND RISK

There is a risk that a Fund could terminate, that the Fund's investment objective or investment strategy or fees and expenses could change or that the Responsible Entity may not be able to continue to act, for example if it loses its Australian financial services licence (in which case it could be replaced as responsible entity of a Fund or a Fund could be wound up). Any replacement responsible entity might achieve different results for investors, positive or negative, than would otherwise be the case.

#### 4.16 GENERAL REGULATORY RISK

This is the risk that a government or regulator may introduce regulatory and/or tax changes, or a court makes a decision regarding the interpretation of the law, which affects the value of the Units or the tax treatment of a Fund (or the value of an in which a Fund may invest) and its Unitholders.

The Funds may be affected by changes to legislation or government policy in Australia or in overseas countries. These changes are monitored by the Responsible Entity and action is taken, where appropriate, to facilitate the achievement of the investment objective of each Fund. The Responsible Entity may not always be in a position to take such action.

#### 4.17 TAX RISK

Taxation law is complex and subject to changes by the Australian Government, possibly with retrospective effect.

As the circumstances of each investor are different, the Responsible Entity strongly recommends that investors obtain professional independent tax advice relating to the tax implications of investing in and dealing in Units.

Unitholders redeeming their Units should note the risk of potentially adverse tax implications where the Units are not held as trading stock or as revenue assets and should seek their own advice in this regard. The tax implications of redemption may be different to

selling Units on the ASX. These and other taxation matters are dealt with in section 7 of this PDS.

#### 4.18 OPERATIONAL RISK

A Fund's day to day operations may be adversely affected by circumstances beyond the reasonable control of the Responsible Entity, such as failure of technology or infrastructure, or natural disasters. A breakdown in administrative procedures and risk control measures implemented by the Responsible Entity or its service providers may also adversely affect the operation and performance of the Fund.

#### 4.19 SETTLEMENT RISK

The application and redemption processes associated with the issue or redemption of Units are subject to settlement procedures through CHES. A Fund is exposed to some risk if an Authorised Participant or other market participant fails to comply with its settlement obligations. These risks are mitigated by the fact that Authorised Participants and other market participants are subject to usual CHES trading practices including sanctions for failure to comply with obligations. A Fund may also suffer loss if an Authorised Participant fails to deliver the application consideration for Units, or redeliver Units in relation to a redemption, by the settlement time and the Fund has entered into transactions in reliance on delivery occurring.

#### 4.20 EARLY CLOSING RISK

Unanticipated early closings of a securities exchange on which securities held by a Fund are traded may result in a Fund being unable to sell or buy securities on that day. If the relevant exchange closes early on a day when a Fund needs to execute a high volume of securities trades late in the trading day (in order to implement application or redemption requests), the Fund may incur trading losses.

#### 4.21 COUNTERPARTY RISK

Counterparties used in connection with a Fund's investment activities may default on their obligations, for instance by failing to make a payment when due. This may be due to insolvency or other events of default. Such counterparties may include service providers and derivatives counterparties, as well as the Fund's custodian. Default on the part of a counterparty could result in financial loss to the Fund.

#### 4.22 CYBER-SECURITY RISK

With the increased use of technology to conduct business, the Responsible Entity, the Funds and their service providers can be susceptible to information security and related risks including cyber-security attacks or incidents.

Cyber incidents can result from deliberate attacks or unintentional events, and include gaining unauthorised access to digital systems, networks or devices for purposes of misappropriating assets or sensitive information, corrupting data, or causing operational disruption. Cyber-attacks may also be carried out in a manner that does not require gaining unauthorised access, such as causing denial-of-service attacks on websites (i.e. efforts to make network services unavailable to intended users).

Cyber-security breaches may cause disruptions to the Funds' operations, potentially resulting in financial loss.

# 5 HOW TO BUY AND SELL UNITS

**Only Authorised Participants may apply for Units directly through this PDS.**

**Other investors cannot apply for Units through this PDS. Such investors may buy and sell Units by trading on the ASX through a stockbroker or via a financial adviser.**

Prior to being issued Units, an Authorised Participant must execute an Authorised Participant Agreement that deals with, amongst other things, the rights and obligations of the Authorised Participant in relation to applying for Units. See "Applications and Redemptions" below for further information about the Authorised Participant Agreement.

Unitholders who are not Authorised Participants may only redeem Units in the special circumstances described in section 5.6. However, all Unitholders may normally sell their Units by trading on the ASX.

To effect an application or redemption, Authorised Participants must complete the Application Form or Redemption Form that accompanies this PDS or is available from [www.betashares.com.au/authorised-participants](http://www.betashares.com.au/authorised-participants) or by calling Client Services on +1300 487 577 (within Australia) +61 2 9290 6888 (outside Australia).

Applications for, and redemptions of, Units will be settled through the CHESS system.

## 5.1 MINIMUM APPLICATIONS AND REDEMPTIONS

The minimum application and redemption amount is one Creation Unit, unless otherwise agreed with the Responsible Entity. The number of Units that constitute a Creation Unit for each Fund is determined by the Responsible Entity and notified to Authorised Participants.

Applications and redemptions must be for whole multiples of Creation Units, unless otherwise agreed with the Responsible Entity.

Application and redemption amounts are payable or receivable (as applicable) in-kind, unless otherwise agreed with the Responsible Entity.

## 5.2 IN-KIND APPLICATIONS AND REDEMPTIONS

An Authorised Participant must normally apply for, or redeem, Units in-kind, unless the Responsible Entity agrees to a cash application or redemption.

"In-kind" means that, rather than delivering cash in respect of an application and receiving cash proceeds in respect of a redemption, the Authorised Participant applying for Units will deliver, or the Authorised Participant redeeming Units will receive, securities plus or minus a balancing cash component, acceptable to the Responsible Entity.

An in-kind application or redemption will consist of two components:

- application/redemption securities component; and
- cash component (described below).

An application or redemption fee (as applicable) is payable as described in section 3.

The application/redemption securities component generally corresponds to the composition of a Fund's securities portfolio (or a basket or sample of securities that reflects a Fund's securities portfolio) and is prepared in respect of a Creation Unit by the Responsible Entity prior to the opening of trading for every ASX Business Day for the Fund. Details of the daily application/redemption securities will be available by contacting the Responsible Entity on 1300 487 577 (within Australia) or +61 2 9290 6888 (outside Australia).

The Responsible Entity reserves the right to permit delivery of a previously agreed basket of securities as the application/redemption securities component that varies from the composition of a Fund's securities portfolio. From time to time, there may also be some differences between the application securities that are to be delivered by an Authorised Participant and the redemption securities delivered by the Responsible Entity upon redemption.

The application securities and the redemption securities will be the applicable securities determined by the Responsible Entity for the relevant day on which the Issue Price or Withdrawal Amount for the application or redemption is determined (see "Applications and Redemptions" below). In certain circumstances the Responsible Entity may allow an application for or redemption of a number of Units that is not a whole multiple of the Creation Unit. In those circumstances, the Responsible Entity will agree the specific basket of application securities or redemption securities (as applicable) with the Authorised Participant.

The cash component reflects the difference between the value of the application securities/redemption securities and the aggregate of the Net Asset Value per Unit for the number of Units being applied for or redeemed, as at the applicable valuation time. The cash component is therefore a balancing amount that aims to ensure there is no impact (e.g. no dilution in value) for existing Unitholders arising out of an application or redemption.

## 5.3 CASH APPLICATIONS AND REDEMPTIONS

If agreed to by the Responsible Entity, a cash application involves payment to the Responsible Entity or custodian by an Authorised Participant of cash (plus an application fee) in return for the issue of Units by the Responsible Entity to the Authorised Participant.

If agreed to by the Responsible Entity, a cash redemption involves delivery of Units by an Authorised Participant to the Responsible Entity or custodian in return for the payment of cash proceeds (minus a redemption fee) by the Responsible Entity to the Authorised Participant.

## 5.4 PROCESSING OF APPLICATIONS AND REDEMPTIONS

Application/Redemption forms received from Authorised Participants before the Dealing Deadline on a Dealing Day are processed at the Issue Price/Withdrawal Amount (being the Net Asset Value per Unit) for the Fund applicable to that day.

Application/Redemption forms received from Authorised Participants on or after the Dealing Deadline on a Dealing Day, or on a non-Dealing Day, will be treated as being received on the next Dealing Day.

## 5.5 APPLICATIONS AND REDEMPTIONS

For applications, Authorised Participants must deliver to the Responsible Entity or custodian the “in-kind” application securities plus any required cash component (plus the application fee). In return, Authorised Participants will receive Units. If the Responsible Entity agrees to a cash application, the Authorised Participant must deliver cash equal to the aggregate Issue Price for the relevant Units (plus the application fee). In return, they will receive the relevant Units.

For redemptions, Authorised Participants must deliver the Units of the Fund to the Responsible Entity or custodian plus any required cash component (plus the redemption fee). In return, Authorised Participants will receive the “in-kind” redemption securities (plus any required cash component if payable by the Responsible Entity rather than the Authorised Participant). If the Responsible Entity agrees to a cash redemption, the Authorised Participant will receive cash equal to the aggregate Withdrawal Amount for the relevant Units (less a redemption fee).

Details of the securities and/or amounts payable pursuant to applications, or receivable upon redemptions, will be notified to the Authorised Participant by the ASX Business Day following the effective date of the application or redemption.

An application received by the Dealing Deadline (on day T) will generally enable the Authorised Participant to receive the new Units in its CHESS account as set out below for each Fund, provided the Authorised Participant has paid the application consideration and application fee by no later than the standard CHESS settlement cut-off time (11:30am as at the date of this PDS) on that settlement day or as otherwise agreed with the Authorised Participant:

- Betashares Managed Risk Australian Shares Complex ETF: two ASX Business Days later (T+2); and
- Betashares Managed Risk Global Shares Complex ETF: one ASX Business Day later (T+1).

A redemption request received by the Dealing Deadline (on day T) will generally enable the Authorised Participant to receive the redemption payment in accordance with the standard CHESS settlement period as set out below for each Fund, provided the Authorised Participant has transferred the Units and the redemption fee by no later than the standard CHESS settlement time (11:30am as at the date of this PDS) on the following day for each Fund:

- Betashares Managed Risk Australian Shares Complex ETF: two ASX Business Days later (T+2); and
- Betashares Managed Risk Global Shares Complex ETF: three ASX Business Days later (T+3).

The relevant settlement period for applications and redemptions may be extended to accommodate days (such as public holidays) on which an exchange, on which the Fund's portfolio of securities is traded, is closed during the settlement period.

By signing an Authorised Participant Agreement, an Authorised Participant agrees to be bound by certain execution and settlement procedures in relation to applications for and redemptions of Units which are set out in the Authorised Participant Agreement. Settlement failure procedures apply if an Authorised Participant does not comply with its obligations under the procedures. The procedures allow the Responsible Entity to cancel an application or redemption in certain circumstances and to take certain other action. The Responsible Entity may also reject any application in whole or in part at any time, without giving reasons.

## 5.6 UNITHOLDER REDEMPTIONS IN SPECIAL CIRCUMSTANCES

All Unitholders may normally sell their Units by trading on the ASX. Unitholders who are not Authorised Participants will not normally have a right to redeem their Units directly with a Fund. However, all Unitholders will have a right to a cash redemption and to receive payment within a reasonable time if Units are suspended from quotation on the ASX for more than five consecutive trading days, unless:

- the relevant Fund is being wound up;
- the relevant Fund is not “liquid” as defined in the *Corporations Act*; or
- the Responsible Entity has suspended redemptions in accordance with the Constitution for a Fund.

Unitholders may redeem in these circumstances by completing the Redemption Form attached to this PDS. They will receive cash in Australian dollars equal to the aggregate Withdrawal Amount for the relevant Units (less any redemption fee).

No minimum redemption amount will apply.

## 5.7 SUSPENSIONS OF APPLICATIONS AND REDEMPTIONS

There may be occasions where the Responsible Entity may suspend the issue of units or delay or reject redemption requests. This may occur, for example, around the end of a distribution period when the Responsible Entity is calculating and paying the distributable income for the relevant period or where there are factors, as determined by the Responsible Entity, which prevent the accurate calculation of Unit prices. The Responsible Entity will advise Unitholders of any suspension of applications or delay or rejection of redemptions.

Where the Responsible Entity cannot accurately determine the Net Asset Value per Unit, the Responsible Entity may suspend applications for Units and/or delay or reject redemptions of Units.

The Responsible Entity may also scale down redemptions in certain circumstances.

See section 6.2.7 and 6.2.8 for further information.

## 5.8 VALUATIONS AND PRICING

The amount per Unit payable by an Authorised Participant upon an application for Units is known as the Issue Price, and is equal to the Net Asset Value per Unit.

The amount per Unit to which an Authorised Participant (or other Unitholder as described in section 5.6) is entitled on the redemption of Units is known as the Withdrawal Amount, and is equal to the Net Asset Value per Unit.

The Issue Price and the Withdrawal Amount are calculated in the same manner and will have the same value at any time. This value is determined by dividing the Net Asset Value of the Fund by the number of Units on issue in the Fund at the time the Issue Price and/or Withdrawal Amount are determined (the valuation time).

The assets held by a Fund are normally valued at the “closing price” for the day for the relevant security on its relevant market and, in the case of assets denominated in foreign currencies, converted to Australian dollars using 4pm London time exchange rates for currency markets, unless otherwise determined by the Responsible Entity.

The Withdrawal Amount paid to a Unitholder on the redemption of Units may include a distribution of the distributable income of a Fund. Please refer to section 7.1.6 for information regarding how this entitlement is determined.

The Net Asset Value of a Fund is calculated by deducting from the aggregate value of the assets of the Fund all liabilities such as accrued fees and other costs, and provisions relating to the Fund. Fees and other costs, including the Responsible Entity’s fees, are normally accrued daily. A Fund’s assets reflect their market value. The valuation methods applied by the Responsible Entity to value a Fund’s assets and liabilities must be consistent with the range of ordinary commercial practice for valuing them.

Details of the daily Net Asset Value per Unit (and hence the Issue Price and Withdrawal Amount) will be made available on the Betashares website at [www.betashares.com.au](http://www.betashares.com.au).

## 6 ADDITIONAL INFORMATION

### 6.1 THE ROLE OF CERTAIN ENTITIES IN REGARD TO BETASHARES FUNDS

There are a number of parties, in addition to the Responsible Entity, involved in the ongoing operation and administration of the Funds or who otherwise provide services in connection with the Funds:

#### 6.1.1 Custodian and Administrator

The custodian provides custodial services to the Responsible Entity, including holding the assets of the Funds. The custodian may, from time to time, appoint sub-custodians. The custodian has a limited role and has no obligation to monitor whether the Responsible Entity is complying with its obligations as responsible entity of a Fund.

The administrator provides administration services to the Responsible Entity. These services include fund accounting, maintenance of books and records, calculating distribution amounts, valuing a Fund's assets and liabilities, calculating the Issue Price and Withdrawal Amount, and taxation and other services. The Responsible Entity may change the custodian and administrator without prior notice to Unitholders.

As of the date of this PDS, the custodian and administrator is:

Citigroup Pty Limited  
Level 23  
2 Park Street  
Sydney NSW 2000

#### 6.1.2 Registrar

As for any quoted security, the role of the Registrar is to keep a record of the Unitholders in the Funds. This includes details such as the quantity of Units held, tax file numbers (if provided) and details of distribution reinvestment plan participation. The Responsible Entity may change the Registrar without prior notice to Unitholders.

As of the date of this PDS, the registrar is:

MUFG Corporate Markets (AU) Limited  
Level 12  
680 George Street  
Sydney NSW 2000

#### 6.1.3 Market maker

The role of a market maker is to provide liquidity in the market for Units and to satisfy supply and demand for Units. They do this by:

- Subject to certain conditions, providing liquidity to the market through acting as the buyer and seller of Units during a significant part of the trading day; and
- Creating and redeeming Units in the primary market pursuant to this PDS, which helps to ensure the number of Units on issue matches supply and demand.

The Responsible Entity seeks to appoint market making firms: that have experience in making markets in exchange-traded securities both in Australia and internationally; that have the necessary skill and expertise to perform market making functions; and that are

ASX participants (or trade through an ASX participant). To qualify for admission as an ASX participant, a firm must meet admission requirements set out in the ASX Operating Rules, which require the firm to hold an Australian financial services licence that authorises it to carry on its business as a market participant and to satisfy the ASX of various matters including organisational competence and business integrity.

Information about the market maker(s) selected by the Responsible Entity from time to time can be obtained by contacting the Responsible Entity.

The arrangements with the market maker specify certain permitted circumstances where the market making obligations may be suspended (such as operational disruptions, market disruptions or unusual conditions (including those which make the market maker's ability to perform the market making function impossible, impracticable or unduly onerous such as an unusually volatile or "fast market"), other events set out in the ASX Operating Rules, the suspension or rejection of applications for Units or redemption requests, or the market maker not having ASIC relief to allow short selling of Units). If a market maker defaults on its obligations, the Responsible Entity may seek to replace the market maker, although the arrangements with the market maker may limit or exclude any liability on the part of the market maker. The arrangements with the market maker may also provide that the market maker has no liability or responsibility to Unitholders for any act or omission made in connection with the market making arrangements.

Unitholders should be aware that a market maker will retain for its own account any trading profit and bear any loss which may be generated by its market making activities. Subject to the AQUA Rules and the agreement with the market maker, the Responsible Entity may appoint or terminate a market maker in respect of a Fund. The Responsible Entity may determine to no longer appoint a market maker in respect of a Fund in circumstances where it is no longer required to do so under the AQUA Rules.

#### 6.1.4 Auditor

The Responsible Entity has appointed KPMG as the auditor of the financial statements of the Funds and of the Responsible Entity's compliance plan for the Funds.

#### 6.1.5 Monitoring of service providers

The Responsible Entity has procedures in place to monitor the performance of those service providers to whom functions have been outsourced. Monitoring methods include, where appropriate, daily observation of service provider performance, review of regular compliance and audit reports, regular meetings with service providers and performance assessments.

### 6.2 OTHER INFORMATION YOU NEED TO KNOW

#### 6.2.1 Betashares as the responsible entity

Betashares, as the responsible entity, is responsible for the management and administration of the Funds. The Responsible Entity holds an Australian Financial Services Licence (AFSL 341181) that authorises it to act as the responsible entity of the Funds. The powers and duties of the Responsible Entity are set

out in the Constitution of each Fund, the *Corporations Act* and general trust law.

The Responsible Entity has the power to appoint an agent, or otherwise engage a person, to do anything that it is authorised to do in connection with a Fund and, for the purpose of determining whether the Responsible Entity has properly performed its duties as responsible entity, the Responsible Entity is taken to have done (or failed to do) anything that the agent or person has done (or failed to do) because of the appointment or engagement, even if they were acting fraudulently or outside the scope of their authority or engagement.

#### 6.2.2 The Constitution

Each Fund is a registered managed investment scheme governed by a Constitution. Under the Constitution of each Fund, the Responsible Entity has all the powers it is possible to confer on a trustee as though it were the absolute owner of the Fund's assets and acting in its personal capacity. The Constitution for each Fund sets out the rights of the Unitholders and the obligations of the Responsible Entity, as responsible entity of the Fund. This PDS outlines some of the more important provisions of the Constitutions of the Funds, all of which are substantially identical in terms of their material provisions.

A copy of the Constitution in relation to a Fund may be inspected by Unitholders at the Responsible Entity's office, during business hours. The Responsible Entity will provide Unitholders with a copy of the relevant Constitution upon request.

#### 6.2.3 Amendments to the Constitution

The Responsible Entity may amend the Constitution of a Fund from time to time, subject to the provisions of the Constitution and the *Corporations Act*. Generally, the Responsible Entity can only amend the Constitution where the Responsible Entity reasonably considers that the change will not adversely affect the rights of Unitholders. Otherwise the Constitution can only be amended if approved at a meeting of Unitholders by a resolution approved by at least 75% of the votes cast by Unitholders entitled to vote on the resolution.

#### 6.2.4 The compliance plan

The Responsible Entity has prepared and lodged a compliance plan for the Funds with ASIC. The compliance plan sets out the key criteria that the Responsible Entity will follow to ensure that it is complying with the *Corporations Act* and the Constitutions of the Funds. Each year the compliance plan, and the Responsible Entity's compliance with the compliance plan, will be independently audited, as required by the *Corporations Act*, and the auditor's report will be lodged with ASIC.

#### 6.2.5 The compliance committee

The Responsible Entity has established a compliance committee with a majority of members that are external to the Responsible Entity. The compliance committee's functions include:

- monitoring the Responsible Entity's compliance with the compliance plans and reporting its findings to the Responsible Entity;
- reporting breaches of the *Corporations Act* or the Constitution to the Responsible Entity;
- reporting to ASIC if the committee is of the view that the Responsible Entity has not taken or does not propose to take appropriate actions to deal with breaches reported to it by the committee; and

- assessing the adequacy of the compliance plan, recommending any changes and reporting these to the Responsible Entity.

#### 6.2.6 Unit pricing policy

The Responsible Entity has documented its policy on how it exercises discretions when determining Unit prices for the Funds. The policy has been designed to meet the ASIC requirements and is available on request to all Unitholders and prospective Unitholders at no charge.

#### 6.2.7 Suspensions of applications and redemptions

The Constitution of each Fund allows the Responsible Entity to suspend the issue of Units in the Fund by publishing a notice to that effect. Application forms received during a period of suspension may be rejected or treated as received when the period of suspension ceases. The Responsible Entity may also reject any application in whole or in part at any time without giving reasons.

The Constitution of each Fund provides that, in some circumstances, the period for satisfaction of redemption requests may be extended, or that redemption requests may be suspended or rejected for as long as the relevant circumstances apply. Those circumstances are where:

- i. the Responsible Entity has taken all reasonable steps to realise sufficient assets to pay amounts due in respect of Units to which a redemption request applies and is unable to do so due to circumstances outside its control, such as restricted or suspended trading in the market for an asset;
- ii. the Responsible Entity believes that it is impracticable or not possible to transfer, in the manner acceptable to the Responsible Entity, sufficient assets to satisfy the redemption request (for example, because of disruption to a settlement or clearing system);
- iii. the Responsible Entity believes that it is not practicable to determine the redemption securities or carry out the calculations necessary to satisfy the redemption request (for example, because an index on which the redemption securities component is to be based is not compiled or published, or it is impracticable to calculate the Net Asset Value because of restricted or suspended trading in the market for an asset or because the value of any asset cannot otherwise promptly or accurately be ascertained);
- iv. the quotation of any Units on the ASX is suspended or the trading of any Units is otherwise halted, interrupted or restricted by the ASX, or the trading of any Units is subject to a period of deferred settlement, or there is a period during which the Units are subject to a consolidation or division;
- v. the Units cease to be admitted to trading status on the ASX;
- vi. a redemption request is received in a financial year and the Responsible Entity determines that the date on which the completion of the redemption of the Units would otherwise occur would be in the next financial year;
- vii. a redemption request is received during any period before or after a distribution date which period the Responsible Entity determines to be necessary or desirable to facilitate the calculation and distribution of distributable income;

- viii. the Responsible Entity does not consider that it is in the best interests of Unitholders of the Fund taken as a whole to transfer or realise sufficient assets to satisfy the redemption request; or
- ix. the Responsible Entity believes that assets cannot be realised at prices that would be obtained if assets were realised in an orderly fashion over a reasonable period in a stable market.

#### 6.2.8 Spreading redemption requests

The Constitution of each Fund provides that, if the Responsible Entity receives one or more redemption requests in respect of a particular valuation time that seek the redemption in aggregate of more than 10% of the total number of Units on issue, the Responsible Entity may scale down pro rata each redemption request so that no more than 10% of the number of Units on issue will be redeemed in respect of that valuation time. If a redemption request is scaled down in this way, the relevant Unitholder shall be deemed to have made a redemption request with respect to the unsatisfied balance of the Units the subject of the redemption request and that request will be deemed to have been received immediately following the first valuation time. The balance of such unsatisfied redemption request will be satisfied in priority to any subsequently received redemption request and will generally be satisfied in full no later than the 10<sup>th</sup> valuation time following the first valuation time.

#### 6.2.9 Non-Authorised Participant redemption request

If there are no Authorised Participants, the Responsible Entity may accept a redemption request from a person who is not an Authorised Participant, provided such person is an Australian resident at the time of giving the redemption request.

#### 6.2.10 Information relating to redemptions

The information in section 5 relating to redemptions assumes that each Fund is liquid within the meaning of section 601KA of the *Corporations Act*. A Fund will be liquid if at least 80% of its assets, by value, are liquid assets under the *Corporations Act*. Broadly, liquid assets include money in an account or on deposit with a bank, bank accepted bills, marketable securities and other property which the Responsible Entity reasonably expects can be realised for its market value within the period specified in the Constitution for satisfying redemption requests. At the date of this PDS, the Responsible Entity expects that each Fund will be liquid under the *Corporations Act*. If a Fund is not liquid, a Unitholder will not have a right to redeem Units and can only redeem where the Responsible Entity makes a withdrawal offer to Unitholders in accordance with the *Corporations Act*. The Responsible Entity is not obliged to make such offers.

#### 6.2.11 Rights of a Unitholder

A Unit confers a beneficial interest on a Unitholder in the assets of a Fund but not an entitlement or interest in any particular part of the Fund or any asset.

The terms and conditions of the Fund's Constitution are binding on each Unitholder in the Fund and all persons claiming through them respectively, as if the Unitholder or person were a party to the Constitution.

#### 6.2.12 Reimbursement of expenses

In addition to any other indemnity which the Responsible Entity may have under a Fund's Constitution or at law, the Responsible Entity is indemnified and entitled to be reimbursed out of, or paid from, the assets of the relevant Fund for all liabilities, losses and

expenses incurred in relation to the proper performance of its duties as responsible entity of that Fund.

#### 6.2.13 Retirement of Betashares

Betashares may retire as responsible entity of a Fund by calling a meeting of Unitholders to enable Unitholders to vote on a resolution to choose a company to be the new responsible entity. The Responsible Entity may be removed from office by an extraordinary resolution (i.e. a resolution passed by at least 50% of the total votes that may be cast by Unitholders entitled to vote on the resolution) passed at a meeting of Unitholders, in accordance with the *Corporations Act*.

#### 6.2.14 Termination

The Responsible Entity may wind up a Fund at any time. Following winding up, the net proceeds will be distributed to Unitholders pro-rata according to the number of Units they hold.

#### 6.2.15 Limitation of liability of Unitholders

The Constitution of each Fund provides that the liability of each Unitholder is limited to the amount subscribed, or agreed to be subscribed, by the Unitholder, subject to:

- i. the indemnities each Unitholder gives the Responsible Entity for losses or liabilities incurred by the Responsible Entity:
  - a. in relation to the Unitholder's failure to provide requested information;
  - b. for tax or user pays fees as a result of a Unitholder's action or inaction, any act or omission by the Unitholder or any matter arising in connection with the Units held by the Unitholder;
  - c. in relation to the Unitholder paying or failing to pay the issue price or application or redemption fees in accordance with the constitution or otherwise failing to comply with the constitution; and
- ii. execution and settlement procedures prescribed by the Responsible Entity that relate to the issue and redemption of Units.

Subject to the matters described above, a Unitholder is not required to indemnify the Responsible Entity or a creditor of the Responsible Entity against any liability of the Responsible Entity in respect of the Fund. However, no complete assurance can be given in this regard, as the ultimate liability of a Unitholder has not been finally determined by the courts.

#### 6.2.16 Meeting of Unitholders

The Responsible Entity may convene a meeting of Unitholders of a Fund at any time, (e.g. to approve certain amendments to a Fund's Constitution or to wind up the Fund). The *Corporations Act* provides that Unitholders also have limited rights to call meetings and have the right to vote at any Unitholder meetings. Except where that Fund's Constitution provides otherwise, or the *Corporations Act* requires otherwise, a resolution of Unitholders must be passed by Unitholders who hold Units exceeding 50% in value of the total value of all Units held by Unitholders who vote on the resolution.

A resolution passed at a meeting of Unitholders held in accordance with a Fund's Constitution binds all Unitholders of the Fund.

### 6.2.17 Indemnities and limitation of liability of the Responsible Entity

The Responsible Entity is indemnified out of the assets of each Fund for any liability incurred by it in properly performing or exercising any of its powers or duties in relation to that Fund. To the extent permitted by the *Corporations Act*, the indemnity includes any liability incurred by the Responsible Entity as a result of any act or omission of a delegate or agent appointed by the Responsible Entity.

The Responsible Entity is not liable in contract, tort or otherwise to Unitholders for any loss suffered in any way relating to a Fund except to the extent that the *Corporations Act* imposes such liability.

### 6.2.18 Defective applications

The Constitution of each Fund allows the Responsible Entity to cancel Units in certain circumstances including where the Responsible Entity determines that the applicant was not entitled to apply for or hold the Units, the application form was incorrectly executed or was otherwise defective or where the execution and settlement procedures were not complied with.

### 6.2.19 Discretionary redemptions

The Constitution of each Fund allows the Responsible Entity to redeem some or all of a Unitholder's Units at any time. The Responsible Entity will give the Unitholder at least 60 days' notice of such redemption, unless the Unitholder is not entitled to hold Units under any applicable law.

### 6.2.20 Information from Unitholders

The Constitution of each Fund provides that the Responsible Entity may request any information from Unitholders where it believes that such information is necessary to (a) comply with any law or regulatory request; or (b) lessen the risk of the Fund or any Unitholder suffering a material detriment. If a Unitholder fails to provide the requested information, the Unitholder must indemnify the Responsible Entity for any loss suffered by the Responsible Entity in relation to such failure.

### 6.2.21 Borrowings

Each Fund's Constitution places no formal limits on borrowing. It is not the Responsible Entity's intention to enter into borrowing for a Fund, except that temporary borrowings may be used occasionally to manage certain cash flows. Any borrowing may be on a secured or unsecured basis and any borrowing costs would be borne by the Fund.

### 6.2.22 If you have a complaint

If a Unitholder has a complaint regarding a Fund or services provided by the Responsible Entity, please contact Client Services on 1300 487 577 (within Australia) or +61 2 9290 6888 (outside Australia) from 9:00 am to 5:00 pm Sydney time, Monday to Friday, or refer the matter in writing to:

[complaints@betashares.com.au](mailto:complaints@betashares.com.au); or

Manager Client Services  
Betashares Capital Ltd  
Level 46, 180 George Street  
Sydney NSW 2000

A copy of the complaints handling policy can be obtained at no charge by contacting the Responsible Entity.

To expedite a resolution of the matter, copies of all relevant documentation and other information supporting the complaint should be provided when making the complaint.

The Responsible Entity will try to resolve complaints as soon as possible, but in any event, will inform the Unitholder in writing of its determination regarding the complaint within 30 days of receiving the initial complaint.

In the event that a Unitholder is not satisfied with the outcome of a complaint, the Unitholder has the right to request the Responsible Entity to review its decision or to refer the matter to an external complaints resolution scheme. The Responsible Entity is a member of the Australian Financial Complaints Authority ("AFCA"). AFCA provides independent financial services complaint resolution that is free to consumers. Unitholders can contact AFCA as follows:

Website: [www.afca.org.au](http://www.afca.org.au)  
Email: [info@afca.org.au](mailto:info@afca.org.au)  
Phone: 1800 931 678 (free call)  
In writing to: Australian Financial Complaints Authority Limited  
GPO Box 3, Melbourne VIC 3001

Certain eligibility requirements apply for AFCA to hear a complaint, as set out in AFCA's complaint resolution scheme rules. AFCA is only available to retail clients.

### 6.2.23 Protecting your privacy

Privacy laws regulate, among other matters, the way organisations collect, use, disclose, keep secure and give people access to their personal information.

The Responsible Entity is committed to respecting the privacy of a Unitholder's personal information. The Responsible Entity's privacy policy states how the Responsible Entity manages personal information.

The Responsible Entity may collect personal information in the course of managing a Fund. Some information must be collected for the purposes of compliance with the *Anti-Money Laundering and Counter Terrorism Financing Act 2006*.

The Responsible Entity may provide personal information to a Unitholder's adviser if written consent is provided to the Responsible Entity. The Responsible Entity may disclose personal information to authorities investigating criminal or suspicious activity and to the Australian Transaction Reports and Analysis Centre (AUSTRAC) in connection with anti-money laundering and counter-terrorism financing.

The Responsible Entity may provide a Unitholder's personal information to its service providers for certain related purposes (as described under the *Privacy Act 1988*) such as account administration and the production and mailing of statements. The Responsible Entity may also use a Unitholder's personal information and disclose it to its service providers to improve customer service (including companies conducting market research) and to keep Unitholders informed of the Responsible Entity's or its partners' products and services, or to their financial adviser or broker to provide financial advice and ongoing service.

The Responsible Entity will assume consent to personal information being used for the purposes of providing information on services offered by the Responsible Entity and being disclosed to market research companies for the purposes of analysing the Responsible Entity's investor base unless otherwise advised.

Unitholders may request access to the personal information held about them at any time and ask the Responsible Entity to correct this information if it is incomplete, incorrect or out of date.

To obtain a copy of the privacy policy, contact the Responsible Entity on 1300 487 577 (within Australia) or +61 2 9290 6888 (outside Australia).

#### 6.2.24 Anti-money laundering

The Responsible Entity is bound by laws regarding the prevention of money laundering and the financing of terrorism, including the *Anti-Money Laundering and Counter-Terrorism Financing Act 2006* (AML/CTF Laws). By completing the Application or Redemption form, the Unitholder agrees that:

- it does not subscribe to a Fund under an assumed name;
- any money used to invest in the Units is not derived from or related to any criminal activities;
- any proceeds of the investment will not be used in relation to any criminal activities;
- if the Responsible Entity requests, the Unitholder will provide to it any additional information that is reasonably required for the purposes of AML/CTF Laws (including information about the investor, any beneficial interest in the Units, or the source of funds used to invest);
- the Responsible Entity may obtain information about the Unitholder or any beneficial owner of a Unit from third parties if it is believed this is necessary to comply with AML/CTF Laws; and
- in order to comply with AML/CTF Laws, the Responsible Entity may be required to take action, including:
  - delaying or refusing the processing of any application or redemption; or
  - disclosing information that the Responsible Entity holds about the Unitholder or any beneficial owner of the Units to the Responsible Entity's related bodies corporate or service providers, or relevant regulators of AML/CTF Laws (whether in or outside of Australia).

#### 6.2.25 Foreign Account Tax Compliance Act (FATCA) & OECD Common Reporting Standard (CRS)

FATCA was enacted by the U.S. Congress to target non-compliance by US taxpayers using foreign accounts. In order to prevent FATCA withholding tax being applied to any US connected payments made to a Fund in Australia, that Fund is required to collect and report information to the Australian Taxation Office relating to certain U.S. accounts, which may be exchanged with the U.S. Internal Revenue Service.

Similar to FATCA, the CRS is the single global standard for the collection, reporting and exchange of financial account information on foreign tax residents. Australian financial institutions need to collect and report financial account information regarding non-residents to the Australian Taxation Office.

Accordingly, a Fund may request that you provide certain information about yourself (for individual investors) or your controlling persons (where you are an entity) in order for that Fund to comply with its FATCA or CRS compliance obligations.

#### 6.2.26 Other services

The Responsible Entity in its personal capacity, or companies related to the Responsible Entity, may invest in or provide services

to a Fund. Any such services will be provided on terms that would be reasonable if the parties were dealing at arm's length.

#### 6.2.27 Warning statement for New Zealand investors

The following disclosure is made to enable a Fund's Units to be offered by the Responsible Entity in New Zealand under the mutual recognition scheme between Australia and New Zealand:

1. This offer to New Zealand investors is a regulated offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act 2001 (Aust) and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.
2. This offer and the content of the offer document are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act 2001 (Aust) and the regulations made under that Act set out how the offer must be made.
3. There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.
4. The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products.
5. Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to this offer. If you need to make a complaint about this offer, please contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.
6. The taxation treatment of Australian financial products is not the same as for New Zealand financial products.
7. If you are uncertain about whether this investment is appropriate for you, you should seek the advice of a financial advice provider.

#### Currency exchange risk

1. The offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.
2. If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.

#### Trading on financial product market

If the financial products are able to be traded on a financial product market and you wish to trade the financial products through that market, you will have to make arrangements for a participant in that market to sell the financial products on your behalf. If the financial product market does not operate in New Zealand, the way in which the market operates, the regulation of participants in that market, and the information available to you about the financial products and trading may differ from financial product markets that operate in New Zealand.

### **Dispute resolution process**

The dispute resolution process described in this offer document is available only in Australia and is not available in New Zealand.

#### **6.2.28 No minimum Unit holding requirement**

The Responsible Entity does not require an investor who invests through an Australian securities exchange to hold a minimum number of Units in a Fund and therefore permits such an investor to establish a holding in a Fund of one Unit or more. The Responsible Entity may, after giving at least 60 days' notice to Unitholders, update this PDS to specify a minimum number of Units which must be held at any time. Where a minimum holding

amount has been set in respect of a Fund and an existing Unitholder's holding is below the minimum holding amount, in accordance with that Fund's Constitution we may choose to redeem that Unitholder's holding, after giving 60 days' notice to the Unitholder.

This does not affect the minimum application and redemption amounts applicable to Authorised Participants who apply for, or redeem, Units directly with a Fund.

## 6.3 MATERIAL CONTRACTS

The Responsible Entity (or the Responsible Entity's holding company) has entered into a number of contracts in relation to the offer of the Fund, as set out below.

TABLE 6.3: MATERIAL CONTRACTS

CONTRACT AND PARTY	DESCRIPTION
<b>Custody agreement</b>  Citigroup Pty Limited	This agreement sets out the services provided by the custodian on an ongoing basis together with service standards.
<b>Administration services agreement</b>  Citigroup Pty Limited	This agreement sets out the services provided by the administrator (accountancy services, tax services and fund administration services including Unit price calculations), together with service standards.
<b>Registry agreement</b>  MUFG Corporate Markets (AU) Limited	This agreement sets out the services provided by the Registrar on an ongoing basis together with the service standards.
<b>Authorised participant agreement</b>  Authorised Participants	An Authorised Participant Agreement deals with execution and settlement procedures in relation to the application for and redemption of Units. The terms of each Authorised Participant Agreement may vary and each may be amended from time to time.  Under the Authorised Participant Agreement, the Authorised Participant makes certain representations to the Responsible Entity about its status as an appropriately licensed entity and agrees to comply with the Constitution and with the execution and settlement procedures.
<b>Investment advisory services agreement</b>  Milliman Pty Ltd	This agreement sets out the investment advisory services and other terms on which Milliman provides these services to the Responsible Entity in connection with the Fund.
<b>Nominee deed poll</b>  Citigroup Pty Limited	Under this document, if applicable, the Applicant Nominee agrees to hold Units the subject of an application by an Authorised Participant as nominee for the Authorised Participant pending settlement.
<b>Nominee terms</b>  Authorised Participants	By signing the Application Form, if applicable, the Authorised Participant covenants for the benefit of the Applicant Nominee to be bound by the Nominee Terms under which the Applicant Nominee will hold application Units for the Authorised Participant subject to a security interest in favour of the Responsible Entity pending settlement of the application. Under the Nominee Terms, if the Authorised Participant does not comply with its obligations relating to the issue of Units, the Responsible Entity may direct the Applicant Nominee that the Units not be transferred to the Authorised Participant, in which case the Units are to be held solely for the Responsible Entity.

## 6.4 ASIC RELIEF

### Equal Treatment Relief

ASIC Corporations (Relief to Facilitate Admission of Exchange Traded Funds) Instrument 2024/147 exempts the Responsible Entity from the equal treatment requirement in section 601FC(1)(d) of the *Corporations Act*, to the extent necessary to allow the Responsible Entity to restrict eligibility to submit redemption requests in relation to Units to Authorised Participants. The Responsible Entity will not treat Unitholders of the same class equally to the extent that it restricts redemptions from the Fund to such Authorised Participants.

Relief is granted subject to certain conditions, including the condition that all Unitholders will have a right to a cash redemption if Units are suspended from trading on the ASX for more than five consecutive trading days, unless:

- the relevant Fund is being wound up;

- the relevant Fund is no longer a liquid scheme; or
- the Responsible Entity has suspended redemptions in accordance with the relevant Fund's constitution.

If such a redemption occurs, any redemption fee per Unit payable by Unitholders who are not Authorised Participants must not be greater than the redemption fee per Unit that would generally be payable on redemption by an Authorised Participant for a cash redemption when withdrawing the minimum parcel of Units.

### Ongoing Disclosure Relief

ASIC Corporations (Relief to Facilitate Admission of Exchange Traded Funds) Instrument 2024/147 exempts the Responsible Entity from the ongoing disclosure requirements in section 1017B of the *Corporations Act* on the condition that the Responsible Entity complies with the continuous disclosure provisions of the *Corporations Act* that apply to an unlisted disclosing entity as if a Fund was an unlisted disclosing entity. The Responsible Entity will

comply with these continuous disclosure provisions as if a Fund was an unlisted disclosing entity.

### Periodic Statements Relief

ASIC Corporations (Periodic Statement Relief for Quoted Securities) Instrument 2024/14 exempts the Responsible Entity from certain periodic statement requirements. In particular, the Responsible Entity is not required (and does not propose) to include in periodic statements details of the price at which an investor transacts in Units on the ASX, or information on the return on an investment in Units acquired on the ASX (for the year in which the Units are acquired), if the Responsible Entity is not able to calculate this and the periodic statement explains why the information was not included and how it can be obtained.

## 6.5 DOCUMENTS LODGED WITH ASIC

The Responsible Entity is subject to certain regular reporting and disclosure obligations in relation to each Fund as if it were an unlisted “disclosing entity” under the Corporations Act. We will comply with our continuous disclosure obligations under the law by publishing material information on our website in accordance with ASIC’s good practice guidance for website disclosure.

As an investor in a Fund, a Unitholder may obtain the following documents from the Responsible Entity:

- the annual report most recently lodged with ASIC in respect of the Fund;
- any half-year financial report lodged with ASIC in respect of the Fund after the lodgement of the abovementioned annual report and before the date of this PDS; and
- any continuous disclosure notices given in respect of the Fund after the lodgement of the abovementioned annual report and before the date of this PDS.

The Responsible Entity will send a requesting Unitholder a printed or electronic copy of any of the above documents free of charge within 5 business days of the request.

Copies of documents lodged with ASIC in relation to each Fund may be obtained from, or inspected at, an ASIC office.

## 6.6 COOLING OFF

There is no cooling off period in relation to the subscription for Units in any of the Funds. This means that once an application form is submitted, an applicant cannot decide to withdraw the application.

## 6.7 INDIRECT INVESTORS

When an investor invests through a master trust or wrap platform or an IDPS, the operator of the trust, platform or IDPS is investing on the investor’s behalf. Consequently the operator (or the custodian of the platform), and not the investor as an indirect investor, holds the Units and therefore has the rights of a Unitholder in the relevant Fund. For example, if an investor is an indirect investor they will not have rights to attend and vote at Unitholder meetings, to withdraw Units or receive distributions. Instead the platform operator will exercise those rights in accordance with their arrangements with the investor. For

information about their investment, an investor should contact their platform operator.

## 6.8 INFORMATION AVAILABLE FROM BETASHARES

The Responsible Entity is subject to regular reporting and disclosure obligations, in its capacity as responsible entity of the Funds and issuer of the Units. The following information can be obtained from the Responsible Entity by visiting the Betashares website at [www.betashares.com.au](http://www.betashares.com.au) or by contacting Betashares on 1300 487 577 (within Australia) or +61 2 9290 6888 (outside Australia):

- The daily Net Asset Value (NAV) for the Funds;
- The daily NAV per Unit for the Funds;
- The Funds’ portfolio holdings, updated daily;
- The Responsible Entity’s Unit pricing policy;
- The latest PDS for the Funds;
- Copies of announcements made to the ASX via the ASX Market Announcements Platform (including continuous disclosure notices and distribution information);
- Information about distributions as soon as possible after they are declared;
- Annual and any half-year reports and financial statements for the Funds;
- Details of any Distribution Reinvestment Plan;
- Information in relation to the Funds to enable Authorised Participants and market makers to estimate the Net Asset Value per Unit of the Funds during the course of a trading day; and
- The Target Market Determination for each Fund prepared by the Responsible Entity pursuant to the “design and distribution” obligations set out in Part 7.8A of the Corporations Act, which sets out the class of consumers that comprise the target market for the Fund.

## 6.9 DISCLAIMER

Citigroup Pty Limited (“Citigroup”) has been appointed as the custodian and administrator for the Funds. Citigroup’s role as custodian is limited to holding the assets of each Fund. As administrator, Citigroup is responsible for the day to day administration of each Fund. Citigroup has no supervisory role in relation to the operation of the Funds and has no liability or responsibility to Unitholders for any act done or omission made in accordance with the custody and investment administration agreements.

Citigroup and the Funds’ registrar, MUFG Corporate Markets (AU) Limited, were not involved in preparing, nor take any responsibility for this PDS and Citigroup and MUFG Corporate Markets (AU) Limited make no guarantee of the success of a Fund nor the repayment of capital or any particular rate of capital or income return.

# 7 TAXATION

The taxation information in this PDS is provided for general information only. It is a broad overview of some of the Australian tax consequences associated with investing in the Funds for a potential Australian resident investor.

It does not take into account the specific circumstances of each person who may invest in a Fund. It should not be used as the basis upon which potential investors make a decision to invest.

As the circumstances of each investor are different, the Responsible Entity strongly recommends that investors obtain professional independent tax advice relating to the tax implications of investing in and dealing in Units.

The taxation information in this PDS has been prepared based on tax laws and administrative interpretations of such laws available at the date of this PDS. These laws and interpretations may change.

## 7.1.1 Taxation of the Funds

The Responsible Entity intends to manage the Funds such that the Funds are not subject to Australian tax. Changes in the tax law have introduced a new elective taxation regime that is available to certain eligible management investment trusts, known as "Attribution Managed Investment Trusts" (AMITs). The AMIT regime became generally available from 1 July 2016, with the existing tax rules for managed funds applying unless an election is made to enter the regime.

The Responsible Entity has made an irrevocable election for each Fund to enter the AMIT regime.

The Responsible Entity does not generally expect the Funds to be subject to tax on the income of the Funds, as it is intended that:

- for eligible funds that enter the AMIT regime: all taxable income and other relevant amounts will be "attributed" to the unitholders in each financial year; and
- for funds that have not entered the AMIT regime or cease to be eligible to be AMITs: Unitholders will be presently entitled to all the income of a fund in each financial year, with the existing non-AMIT tax rules for managed funds continuing to apply.

Instead, Unitholders pay tax on their share of each Fund's income. Under the AMIT regime, each Fund may make cash distributions that differ from taxable income attributed by the Fund to Unitholders.

## 7.1.2 Taxation of Australian resident Unitholders

The taxable income of a Fund which is attributed to Unitholders, or to which a Unitholder becomes entitled, during a financial year forms part of the Unitholder's assessable income for that year, even if payment of the entitlement does not occur until after the end of the financial year, or the proceeds are reinvested in more of a Fund's Units.

A Unitholder may receive an entitlement to the income of a Fund for a financial year if the Unitholder holds Units at the end of a distribution period, or if the Unitholder redeems any Unit during the financial year.

## 7.1.3 Taxable income of the Funds

The tax impact for a Unitholder of receiving an entitlement to the income of a Fund depends upon the nature of the Fund's income.

### Types of income

A Fund can derive various types of income, depending on the types of investments it makes. A Fund can derive income in the form of dividends, interest, gains on the disposal of investments and other types of income.

Generally, such income derived by a Fund is taxable, although tax credits may be available to Unitholders to offset some or all of any resulting tax liability. For example, income received by a Fund from foreign sources may be subject to tax in the country of source, and Australian tax resident investors may be entitled to claim a foreign income tax offset against their Australian tax liability in respect of their share of the foreign tax paid.

### Capital gains and losses

A trust that qualifies as a managed investment trust ("MIT") can elect to treat its gains and losses on disposal of certain investments as capital gains and losses. The Funds have made this election.

Any assessable capital gains derived by a Fund to which a Unitholder becomes entitled or which is attributed to a Unitholder forms part of the Unitholder's assessable income.

A Unitholder may be eligible for the 50% CGT discount (where the Unitholder is an individual or trust) or a 33 1/3% CGT discount (where the Unitholder is a complying superannuation fund) in respect of the gain that forms part of that Unitholder's assessable income, depending on the Unitholder's circumstances. Unitholders should seek professional advice in relation to the availability of any CGT concession.

### Tax deferred / non-assessable amounts

A Fund may distribute "tax deferred amounts" for non-AMITs, or other non-assessable amounts (other non-attributable amounts) for AMITs, relating to distributions of capital by the Fund, which are generally non-assessable for tax purposes. Where non-assessable, tax deferred amounts / non-assessable amounts reduce the capital gains tax ("CGT") cost base of a Unitholder's Units, and may increase the capital gain or reduce the capital loss subsequently realised on disposal of the Units. Where the total tax deferred amounts / non-assessable amounts received by a Unitholder have exceeded the cost base of their Units, the excess is treated as a capital gain to the Unitholder.

For Unitholders who hold Units as trading stock, distributions from the Funds including capital gains and tax deferred / non-assessable amounts may be fully taxable as ordinary income, depending on the Unitholder's particular circumstances.

Unitholders will be provided with statements after the end of each financial year detailing the components, for tax purposes, of any distributions or attribution of income received from a Fund during the financial year, including on the redemption of Units.

## **Taxation of Financial Arrangements (TOFA)**

The TOFA rules may apply to “financial arrangements” (e.g. cashsettled futures and debt securities) held by a Fund. Under the TOFA rules, there are different methods available for a Fund to recognise gains and losses from financial arrangements in its taxable income calculation. A Fund may determine an appropriate method to use on the basis of its investment strategy.

### **7.1.4 Selling or transferring Units**

If a Unitholder disposes of Units by selling or transferring the Units to another person (e.g. selling on-market), the Unitholder may be liable for tax on any gains realised on that disposal of Units.

If a Unitholder is assessed otherwise than under the CGT provisions on a disposal of Units (e.g. if the Unitholder is in the business of dealing in securities like Units), any profits made on the disposal of the Units should be assessable as ordinary income. Such Unitholders may be able to deduct any losses made on the disposal of Units.

If a Unitholder is assessed under the CGT provisions on disposal of Units, the Unitholder may make a capital gain or loss on the disposal of those Units, in the year in which the contract for the disposal is entered into. Some Unitholders may be eligible for the CGT discount upon disposal of Units if the Units have been held for at least 12 months (excluding the acquisition and disposal dates) and the relevant requirements are satisfied. Unitholders should obtain professional independent tax advice about the availability of the CGT discount.

Any capital loss arising on a disposal of Units may be able to be offset against capital gains made in that year or in subsequent years.

### **7.1.5 Goods and Services Tax (GST)**

The issue and redemption of Units should not be subject to GST. However, fees and expenses, such as management costs, incurred by a Fund would likely attract GST (at the rate of 10%).

Given the nature of the activities of the Funds, they may not be entitled to claim input-tax credits for the full amount of the GST incurred. However, for the majority of the expenses, a Reduced Input-Tax Credit (RITC) may be able to be claimed.

The GST and expected RITC relating to fees and expenses is incorporated in the management cost for the Funds.

### **7.1.6 Applications and redemptions**

A person will generally only be eligible to apply for and redeem Units if they are an Authorised Participant.

This section seeks to provide a summary of the tax consequences for Authorised Participants who are assessed on the disposal of Units otherwise than under the CGT provisions (e.g. because they are in the business of dealing in securities like Units).

Authorised Participants should obtain professional independent tax advice regarding the tax consequences of applying for and the redemption of their Units, particularly if they are assessed on the disposal of Units under the capital gains provisions.

## **Applications**

The Units which an Authorised Participant acquires on an application for Units should be taken to have been acquired at a cost equal to the purchase price of those Units.

## **Redemptions**

An Authorised Participant who redeems Units will become entitled to receive the Withdrawal Amount on the redemption (this may be reduced by the redemption fee).

The redemption of Units by an Authorised Participant may result in the Authorised Participant being assessed on some of the taxable income of the Fund, through a distribution of income or an attribution under the AMIT regime. This includes, but is not limited to, income and other gains realised by a Fund to fund the redemption of Units by the Authorised Participant, and potentially, where fair and reasonable, a portion of undistributed income or gains for the year as at the time of the redemption.

The Withdrawal Amount may therefore comprise a share of the income of a Fund as well as the payment of the redemption price for the Units which are to be redeemed.

An Authorised Participant whose Units are redeemed should be assessed on any profit arising on the redemption of the Units. An Authorised Participant who redeems Units may be entitled to a deduction for any loss arising on the redemption of Units.

For the purposes of determining the profit or loss arising on the redemption, the redemption price (being the Withdrawal Amount less the share of income provided as part of the Withdrawal Amount) should be regarded as the proceeds received in respect of the disposal.

That part of the Withdrawal Amount that is a share of income should also be assessable, based on the components of the distribution of income.

The Responsible Entity will notify persons who have redeemed Units during a financial year of the composition of the Withdrawal Amount, including the composition of any income entitlement they received in connection with the redemption of Units during that year, following the end of the financial year, once that information becomes available.

### **7.1.7 Tax reform**

Tax reform activity that affects trusts is generally ongoing, and such reforms may impact on the tax position of a Fund and its investors. Accordingly, Unitholders should monitor the progress of any proposed legislative changes or judicial developments, and seek their own professional advice, specific to their own circumstances, in relation to the taxation implications of investing in the Funds.

### **7.1.8 Tax File Number (“TFN”) or Australian Business Number (“ABN”)**

Unitholders will be requested by the Funds to provide their TFN or ABN (if applicable) or claim an exemption in relation to their investment in the Fund. It should be noted that there is no obligation to provide a TFN, however, Unitholders who do not provide their TFN or ABN or claim an exemption may have tax deducted from distributions at the highest marginal rate.

### **7.1.9 Other comments**

In cases where Units are to be redeemed by a Unitholder that is an Australian resident for tax purposes, a Fund should generally not be required to withhold any amounts from the Withdrawal Amount paid on redemption of Units.

Distributions to non-resident Unitholders (including on redemption) may have tax withheld by the Responsible Entity.

## 8 GLOSSARY

These definitions are provided to assist investors in understanding some of the expressions used in this PDS:

<b>Applicant Nominee</b>	An entity which holds Units pending settlement on behalf of Authorised Participants applying for Units. As at the date of this PDS the Applicant Nominee is Citigroup Pty Limited. The Responsible Entity may determine that the Applicant Nominee is no longer to be appointed to hold Units pending settlement on behalf of Authorised Participants applying for Units.
<b>AQUA Product</b>	A product admitted under the ASX Operating Rules to the AQUA market of the ASX.
<b>AQUA Rules</b>	Schedule 10A of the ASX Operating Rules and related rules and procedures, as amended, varied or waived from time to time.
<b>ASIC</b>	Australian Securities and Investments Commission.
<b>ASX</b>	ASX Limited or the Australian Securities Exchange, as the case requires.
<b>ASX Business Day</b>	A "Business Day" as defined in the ASX Operating Rules, unless determined otherwise by the Responsible Entity.
<b>ASX Listing Rules</b>	The listing rules of the ASX as amended, varied or waived from time to time.
<b>ASX Operating Rules</b>	The operating rules of the ASX as amended, varied or waived from time to time.
<b>Authorised Participant</b>	A financial institution which is a participant in relation to a financial market (or which has engaged a participant to act on its behalf), which has entered into an Authorised Participant Agreement with the Responsible Entity.
<b>Authorised Participant Agreement</b>	An agreement between the Responsible Entity and an Authorised Participant in relation to Unit applications and redemptions.
<b>CHESS</b>	The Clearing House Electronic Sub-register System or any system that replaces it.
<b>Constitution</b>	In relation to a particular Fund, means the constitution governing the Fund, as amended or replaced from time to time.
<b>Corporations Act</b>	Corporations Act 2001 (Cth).
<b>Creation Unit</b>	In relation to a particular Fund, means a particular number of units of the Fund, as determined by the Responsible Entity from time to time and notified to Authorised Participants.
<b>Dealing Day</b>	<p>In relation to Betashares Managed Risk Australian Shares Complex ETF: an ASX Business Day.</p> <p>In relation to Betashares Managed Risk Global Shares Complex ETF: a day that is both (a) an ASX Business Day and (b) a day on which all of the following securities exchanges are open for trading: New York Stock Exchange, London Stock Exchange, Tokyo Stock Exchange and Eurex Exchange, unless the Responsible Entity determines otherwise.</p>
<b>Dealing Deadline</b>	For an in-kind application/redemption, 4:00 pm Sydney time on each Dealing Day (or such other time advised by the Responsible Entity to Authorised Participants), being the time by which an Application/Redemption Form must be received by the Responsible Entity to be processed for that Dealing Day.
<b>ETF</b>	Exchange traded fund.
<b>Fund or Betashares Fund</b>	The relevant Betashares exchange traded fund offered under this PDS, as the context requires.
<b>Issue Price</b>	The Net Asset Value divided by the number of Units on issue in the relevant Fund.

<b>Net Asset Value or NAV</b>	The net asset value for a Fund calculated in accordance with section 5.6.
<b>Nominee Terms</b>	In relation to an application for Units, the nominee terms made available by the Responsible Entity to the applicant, as described in section 6.3.
<b>PDS</b>	Product Disclosure Statement.
<b>Product Supplement</b>	The part of this PDS appearing after section 8 that contains information specific to each Fund.
<b>Registrar</b>	MUFG Corporate Markets (AU) Limited (ABN 54 083 214 537), or any other registry that the Responsible Entity appoints to maintain the register.
<b>Unit</b>	A unit in the relevant Fund.
<b>Unitholder</b>	A holder of a Unit.
<b>Withdrawal Amount</b>	The Net Asset Value divided by the number of Units on issue in the relevant Fund.

# BETASHARES MANAGED RISK AUSTRALIAN SHARES COMPLEX ETF

## INVESTMENT OBJECTIVE

The investment objective of the Betashares Managed Risk Australian Shares Complex ETF is to:

- provide exposure to a broadly diversified portfolio of Australian shares, generally consisting of approximately 200 of the largest equity securities on the ASX, weighted by their market capitalisation; and
- reduce the volatility of the Fund's equity investment returns and cushion downside risk.

## INVESTMENT STRATEGY

The Responsible Entity will aim to achieve the investment objective by investing the assets of the Fund in a broadly diversified share portfolio, generally consisting of approximately 200 of the largest equity securities listed on the ASX, weighted by their market capitalisation and rebalanced quarterly (the "Securities Portfolio") and selling ASX SPI 200 futures contracts to manage volatility and cushion downside risk.

Although it does not intend to do so as at the date of this PDS, the Responsible Entity may hold exchange traded funds quoted on the ASX that seek to track published Australian equity indices (such as the S&P/ASX 200 Index) where the Responsible Entity believes this will assist in meeting the Fund's investment objective. Only ETFs that obtain their investment exposure through direct investment in underlying index constituents will be held as part of the Securities Portfolio. The investment strategy of the underlying ETFs may permit the lending of securities.

In addition to investing in the Securities Portfolio, the Fund will sell equity index futures contracts (i.e. ASX SPI 200 futures) with the aim of managing the Fund's overall volatility and cushioning downside risk by hedging against market declines. Selling ASX SPI 200 futures can be expected to generate a positive return when the sharemarket declines, and a negative return when the sharemarket increases. The extent to which futures positions will be used will vary over time (typically futures exposure is expected to be in the range of 10-50%, but will not exceed 70%, of the Fund's net asset value) based on the existing and historic volatility of the securities in the Securities Portfolio and the Australian sharemarket in general. Generally, in periods of higher volatility, futures exposure will be increased, with the objective of lowering the Fund's volatility and reducing (although not eliminating) downside exposure.

## SUITABILITY

The Fund is likely to be appropriate for investors seeking capital growth and some income from a portfolio at the high end of the risk spectrum, to be used as an allocation to Australian equities. A minimum investment timeframe of 5 years or more is suggested.

## GENERAL INFORMATION

<b>ASX code</b>	AUST
<b>Periodic distributions</b>	The Responsible Entity intends to make distributions semi-annually.  Information about the timetable for each distribution and the declared distribution amount will be announced via the ASX Market Announcements Platform.  For further information, see "Distributions" in section 2.2 of the PDS.
<b>Distribution Reinvestment Plan</b>	Available.  For further information, see "Distribution Reinvestment Plan" in section 2.2.3 of the PDS.

## SPECIFIC RISK FACTORS

In addition to the risk factors set out in section 4 of the PDS, the following further details on some of those risk factors are relevant to the Fund.

### Risk management strategy may not be effective

The Fund's strategy of using ASX SPI 200 futures may not be effective to protect against adverse changes in the prices of the securities in the Securities Portfolio in all circumstances. While the Securities Portfolio will generally provide exposure to a basket of securities that is similar in composition and weight to the composition of the S&P/ASX 200 Index (upon which the returns of ASX SPI 200 futures are based), it may not be identical. Accordingly, a fall in the value of the Securities Portfolio will not automatically be associated with gains from the Fund's futures contracts (although this is generally expected to be the case in most circumstances). Further, were the Fund to be positioned with a low level of futures exposure at a time when the Securities Portfolio fell rapidly in value, the cushioning effect of the volatility reduction strategy would be limited.

### Selling futures in rising markets

By selling ASX SPI 200 futures as part of the Fund's investment strategy, the Fund will either receive, or be required to pay, a cash settlement amount on expiry of the relevant futures contract, based on the movement in the price of the S&P/ASX 200 Index. During periods when the sharemarket (as measured by the S&P/ASX 200 Index) is rising, the Fund can be expected to make losses on its futures positions and, to that extent, the Fund's capital growth will be lower than it would have been without the futures positions.

## INDICATIVE NET ASSET VALUE PER UNIT

As at the date of this PDS, the Responsible Entity intends to take all reasonable steps to make available, or may designate other persons to make available on its behalf, an estimated indicative Net Asset Value per Unit (**iNAV**) for the Fund from time to time during an ASX Business Day. Such information will be calculated based upon information available to the Responsible Entity or its designate during the ASX Business Day. The iNAV for the Fund will be accessible from the Betashares website at [www.betashares.com.au](http://www.betashares.com.au).

The iNAV calculations are estimates of the net asset value per Unit calculated using market data. The iNAV price is a calculation of the value of a portfolio of assets that is indicative of the Fund's portfolio as at the open of trading on the relevant day based on quotes and last sale prices, less any liabilities of the Fund.

Any iNAV is not, and should not be taken to be or relied on as being, the value of a Unit or the price at which Units may be

applied for or redeemed, or bought or sold on any stock exchange, and may not reflect the true value of a Unit. Investors interested in applying for or redeeming Units, or buying or selling Units on a stock exchange, should not rely on any iNAV which is made available, in making investment decisions but should consider other market information and relevant economic factors. Neither the Responsible Entity nor any designate or other service provider to the Responsible Entity shall be liable to any person who relies on the iNAV.

No assurance can be given that any iNAV will be published continuously, will be up to date or free from error. The publication of an iNAV is dependent on the availability of a suitable data provider and other factors.

# BETASHARES MANAGED RISK GLOBAL SHARES COMPLEX ETF

## INVESTMENT OBJECTIVE

The investment objective of the Betashares Managed Risk Global Shares Complex ETF is to:

- provide exposure to a broadly diversified portfolio of global shares listed on the stock exchanges of the world's major developed economies; and
- reduce the volatility of the Fund's equity investment returns and cushion downside risk.

## INVESTMENT STRATEGY

The Responsible Entity will aim to achieve the investment objective by investing the Fund's assets into a portfolio that provides exposure to a passively managed, broadly diversified portfolio of global shares, generally consisting of approximately 1,500 of the largest companies listed on the stock exchanges of the world's major developed economies, weighted by their market capitalisation (the "Securities Portfolio"). In addition, the Fund will employ a risk management strategy which actively seeks to reduce volatility and defend against losses in declining markets.

Shares from approximately 23 developed countries will be represented within the Securities Portfolio, including the United States, Japan, the UK, France, Switzerland, Germany and Canada.

The Fund will gain its equity exposure either by holding the basket of global shares directly, or by holding shares or units of either Australian and/or US-listed exchange traded funds that provide market-cap weighted, passively managed exposure to developed market global shares ("Underlying ETFs") (or a combination of direct global shares and Underlying ETFs).

As at the date of this PDS, the Responsible Entity intends to obtain the Fund's equity exposure by investing in one or more Underlying ETFs. The Responsible Entity will only invest in Underlying ETFs that obtain their investment exposure substantially through direct investment in the underlying global shares. The Fund may invest in Underlying ETFs that are managed by the Responsible Entity. The investment strategy of the Underlying ETFs may permit the lending of securities.

In addition to investing in the Securities Portfolio, the Fund will employ a risk management strategy. The risk management strategy will be implemented by selling equity index futures contracts with the aim of managing the Fund's overall volatility and cushioning downside risk by hedging against market declines.

Selling equity index futures can generally be expected to generate a positive return when the relevant equity market declines, and a negative return when the relevant equity market increases. The Fund may sell futures contracts linked to benchmark equity indices in any of the markets in which it has equity exposure, although it expects that it will predominantly use S&P 500, Topix, FTSE 100 and Euro Stoxx 50 futures. Futures linked to a global developed market benchmark equity index (such as the MSCI World Index) may also be used. The extent to which futures positions will be used will vary over time (typically futures exposure is expected to be in the range of 10-50% of the Fund's net asset value) based on the existing and historic volatility

of the securities in the Securities Portfolio and the equity markets to which the Fund is exposed in general. Generally, in periods of higher volatility, futures exposure will be increased, with the objective of lowering the Fund's volatility and reducing (although not eliminating) downside exposure.

### Currency Exposure

As the Fund will maintain exposure to assets denominated in overseas currencies, the Australian dollar value of these assets will increase or decrease as a result of exchange rate fluctuations.

The Fund will seek to maintain its currency exposure in line with its effective equity exposure, and may use currency futures for this purpose.

## SUITABILITY

The Fund is likely to be appropriate for investors seeking capital growth from a portfolio at the high end of the risk spectrum, to be used as an allocation to global equities. A minimum investment timeframe of 5 years or more is suggested.

## GENERAL INFORMATION

<b>ASX code</b>	WRLD
<b>Periodic distributions</b>	The Responsible Entity intends to make distributions at least annually.  Information about the timetable for each distribution and the declared distribution amount will be announced via the ASX Market Announcements Platform.  For further information, see "Distributions" in section 2.2 of the PDS.
<b>Distribution Reinvestment Plan</b>	Available.  For further information, see "Distribution Reinvestment Plan" in section 2.2.3 of the PDS.

## SPECIFIC RISK FACTORS

In addition to the risk factors set out in section 4 of the PDS, the following further details on some of those risk factors as well as additional risks are relevant to the Fund.

### Risk management strategy may not be effective

The Fund's strategy of using equity index futures may not be effective to protect against adverse changes in the prices of the securities in the Securities Portfolio in all circumstances. For example, a fall in the value of the Securities Portfolio will not automatically be associated with gains from the Fund's futures contracts (although this is generally expected to be the case in most circumstances). Further, were the Fund to be positioned with a low level of futures exposure at a time

when the Securities Portfolio fell rapidly in value, the cushioning effect of the volatility reduction strategy would be limited.

#### **Selling futures in rising markets**

By selling equity index futures and using currency futures as part of the Fund's investment strategy, the Fund will either receive, or be required to pay, a cash settlement amount on expiry of the relevant futures contract, based on the movement in the price of the relevant equity index (e.g. the S&P 500 Index) or foreign currency. During periods when global sharemarkets (as measured by the MSCI World Index or a similar broad market index) are rising, or when the Australian dollar rises relative to foreign currencies, the Fund can be expected to make losses on its futures positions and, to that extent, the Fund's capital growth will be lower than it would have been without the futures positions.

#### **International investment risk**

International investments may be affected by political and economic uncertainties, lower regulatory supervision, different accounting and auditing standards, movements in foreign currency and interest rates, and more volatile, less liquid markets, compared with Australian investments.

#### **Foreign exchange risk**

Foreign exchange risk is the risk that the Australian dollar value of Fund assets denominated in, or exposed to, foreign currencies will increase or decrease as a result of exchange rate fluctuations.

If the currency in which an investment of the Fund is denominated (or to which an investment of the Fund has exposure) depreciates relative to the Australian dollar, then the value of that investment (in Australian dollar terms, and assuming no other changes) will decrease (and vice versa).

The Fund will seek to maintain its currency exposure in line with its effective equity exposure, and may use currency futures for this purpose.

#### **Underlying ETF risks**

The Fund will be exposed to certain risks through its investment in one or more Underlying ETFs, including:

- although listed for trading on an organised exchange, it is possible that an active trading market in an Underlying ETF's securities may not be maintained.
- trading in an Underlying ETF may be halted or suspended, or it may be delisted.
- although it is expected that the market price of an Underlying ETF will typically approximate its net asset value, there may be times when the market price and the net asset value of the Underlying ETF differ more significantly.
- to the extent an Underlying ETF invests in derivatives to obtain exposure, this may subject the Underlying ETF to risks different from, and possibly greater than, those of investments directly in underlying global shares; and
- certain Underlying ETFs may engage in securities lending. Securities lending involves the risk that the Underlying ETF may lose money because the borrower of the loaned securities fails to return the securities in a timely manner or at all. The Underlying ETF could also lose money in the event of a decline in the value of the collateral provided for loaned securities.

These risks could have the effect of reducing the value of the Fund's investment in an Underlying ETF, causing trading in the Fund's Units on the ASX to be suspended, or reducing liquidity of the Fund's Units on the ASX.
