# Notes to the Preliminary Final Report

## for the year ended 31 December 2024

### 1. Statement of Significant Accounting Policies

#### Statement of compliance

The financial report included in this preliminary final report is not a full set of statutory financial statements and does not include all the information required for a complete set of financial statements, prepared in accordance with International Financial Reporting Standards as adopted by the European Union ("IFRS"). However, selected explanatory notes are included to explain events and transactions that are significant to understanding the changes in the Group's financial position and performance during 2024. This financial report should be read in conjunction with the statutory consolidated financial statements of the Group, which are prepared in accordance with IFRS, as at and for the year ended 31 December 2024 and also in conjunction with any public announcements made by Oneview Healthcare PLC during the year.

#### Going Concern

The Group adopts the going concern basis of accounting in preparing the Group's annual consolidated financial statements. The going concern basis of accounting has been adopted in preparing this financial report.

At the date of this financial report, management assessed the Group's ability to continue as a going concern and determined that it expects that its existing cash and other working capital will be sufficient to enable the Group to fund its operating expenses and capital expenditure requirements for a period of at least 12 months from the date of this report.

The Group has based this estimate on assumptions that may prove to be wrong, and the Group may use its capital resources sooner than it currently expects. The Group is impacted by the timing of contract execution and project implementation, some of which are beyond the Group's control. New contracts may also incur significant upfront expenses related to the design of original equipment manufacturer's hardware required for certain customer implementations which increase pressures on cash flows and cash management.

After making inquiries, including the review of cashflow projections, and considering the uncertainties described above, the Directors have a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. For these reasons, the going concern basis of accounting has been adopted in preparing this financial report that is included in the preliminary final report.

#### Use of estimates and judgments

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected. In preparing this financial report, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation and uncertainty were the same as those that apply to the consolidated financial statements for the year ended 31 December 2023.

Effect of shares issued	12,936,089	53,678,385
Weighted average number of ordinary shares at 31 December	684,418,316	588,668,829

The calculation of diluted earnings per share has been based on the loss attributable to ordinary shareholders and weighted average number of ordinary shares outstanding after adjustments for the effects of all dilutive ordinary shares. Potential ordinary shares are treated as dilutive when, and only when, their conversion to ordinary shares would decrease EPS or increase the loss per share from continuing operations. As the Group is loss making there is no difference between the basic and diluted earnings per share. The number of ordinary shares, including potentially dilutive shares is 792,503,329 (2023: 703,658,850). The weighted average number of ordinary shares, including potentially dilutive shares, is 716,426,845 (2023: 640,806,485).
