Atomo Diagnostics Limited Directors' report For the half-year ended 31 December 2024

The directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'group') consisting of Atomo Diagnostics Limited (referred to hereafter as the 'company' or 'parent entity') and the entities it controlled at the end of, or during, the half-year ended 31 December 2024.

All amounts are presented in Australian dollars (AUD) unless otherwise stated.

Directors

The following persons were directors of Atomo Diagnostics Limited during the whole of the financial half-year and up to the date of this report, unless otherwise stated:

Director	Appointed	Resigned
John Keith (Chair & Independent Non-Executive Director)	2 December 2011	n/a
John Kelly (Managing Director)	1 April 2010	n/a
Paul Kasian (Non-Executive Director)	4 February 2020	n/a
Deborah Neff (Non-Executive Director)	15 September 2021	n/a
Cheri Walker (Non-Executive Director)	15 November 2022	n/a

The Company Secretary is Mathew Watkins, who was appointed on 9 June 2024.

Principal activities

The principal activities of the group during the course of the half-year were the development and sale of medical devices.

There were no significant changes in the nature of the activities of the group during the half-year.

Review of operations

For the half year ended, Atomo recorded revenues of \$2.05m, an increase of 7% over the prior period. Revenue comprised of product sales of \$1.33m for HIV point-of-care tests and \$465k for OEM point-of-care technology & remaining revenue of \$250k relating to development and other revenue fees.

The loss for the group for the half year after providing for income tax amounted to \$2,758,734 (31 December 2023: \$3,152,282).

Cash and cash equivalents at 31 December 2024 amount to \$2.9m compared to \$3.7m as at 30 June 2024.

Ongoing measures continued to be undertaken during the period to reduce operating expenditure for the group. Overall operating expenses reduced ~\$345k in comparison to 31 December 2023 period with significant investment already made in the development and commercialisation of Atomo's novel patent-protected rapid test devices and finished test products. With manufacturing capacity installed and validated, capital expenditure has reduced significantly. The company continues to invest prudently in expanding the test menu is focuses on, primarily in sexual health and supporting key areas of the business to expand market facing activities, such as increased pharmacy retail penetration and the opening up of channels direct to public health procurement.

Business development activities continue to focus on re-establishing and growing our OEM customer base for Pascal, with particular focus on the US market as Lumos Diagnostics commence their process for FDA CLIA Waiver submission on the Atomo Pascal platform, FebriDx Test. FebriDx test is currently FDA 510(k) approved. New focus is being applied to the assessment of opportunities for the novel Florey device recently disclosed that utilises Atomo's existing blood and reagent buffer technology reformatted to be compatible with standard lateral flow rapid tests in market.

Significant changes in the state of affairs

There were no other significant changes in the state of affairs of the group during the financial half-year.

Atomo Diagnostics Limited
Directors' report
For the half-year ended 31 December 2024

Matters subsequent to the end of the financial half-year

No matter or circumstance has arisen since 31 December 2024 that has significantly affected, or may significantly affect the group's operations, the results of those operations, or the group's state of affairs in future financial years.

Likely developments and expected results of operations

With approximately \$2.9 million of cash at bank and no debt.

- In October 2024, Atomo successfully secured a Cooperative Research Centres Projects (CRC-P) grant with the Commonwealth Government for \$2.44m funding the development of Active Syphilis test on our leading rapid test Pascal platform, with partners, the Burnett Institute and IDE Group. Key activities commencing in December 2024.
- Continued roll-out of HIV self-testing continues globally, with a focus on developed healthcare markets where
 margins are better. Atomo re-negotiated and signed a supply agreement with key UK distributor partner,
 Newfoundland Diagnostics, rebalancing the agreement into a long-term commitment, valued over \$5m over
 the next 5 years. Additionally, continued successfully rollout and sales demand in the Australian market,
 supported by locked in funding of key government programs supporting a national scale up of HIV self-testing
 and consumer awareness for continuous monitoring and screening.
- Focus on the expansion of Atomo's Point-of-Care (POC) cassette supply business, especially in the US market where the FDA 510(k) clearance of the Pascal FebriDx test obtained by Lumos Diagnostics has provided visibility to the platform. Commencement of the FDA approval Clai Wavier clinicals on the Atomo Pascal device opens a pathway for Atomo product and for new Diagnostics partners seeking improved user-friendly solution for POC and self-test markets.
- Growing the emerging development services business where Atomo is being paid to develop products and custom solutions for partners seeking access to Atomo technology and products.
- The next-generation clip-in blood test device, the Florey platform, is currently under development, incorporating Atomo's patented blood collection and buffer delivery system to improve usability and accuracy in standard rapid blood tests, which are often prone to user errors. Designed to accept a standard cassette, Florey enables the test to be completed using the Atomo device, and it could serve as an accessory to already-approved standard tests, making it suitable for adoption by test already approved and commercialized in market.

Business risk

The group's operations are not subject to any significant environmental regulation under Australian Commonwealth or State law.

The company has identified the following material business risks that may cause its revenue and profitability to decline and are important to key stakeholders such as investors, consumers, customers, supplier, governments and employees.

- Regulatory risk: The company sells medical devices and finished products that require regulatory approvals to be maintained (for existing approved products), and to be obtained (for new products) in multiple jurisdictions. This includes obtaining and maintaining product approvals from the TGA in Australia, the FDA in the US, comparable bodies in Asia and South America, the World Health Organisation for LMIC global health markets, and compliance with the IVDD and IVDR regimes in Europe. There are risks associated with these regulatory approvals that may impact on the business should approvals be withdrawn for existing products or not obtained for new products.
- Product quality and safety: Should quality or safety issues arise with Atomo's products, there is the potential
 for negative financial and or reputational impacts. To mitigate this risk Atomo sources materials from quality
 suppliers, complies with ISO 13485 Medical Devices Quality Management, and delivers safe products to
 customers. Atomo aims to adhere to or exceed strict regulatory standards in all jurisdictions that it serves and
 investigates all concerns to ensure our products maintain the highest quality. We are frequently inspected by
 independent regulatory authorities auditing compliance with these standards.
- **Compliance:** Responsibility to drive compliance with legal and regulatory requirements applicable to our global business. Includes development of policies and controls, communication and training, oversight and continuous improvement. Consequently, compliance affects every aspect of what we do, to deliver quality products to consumers.
- Supply chain: Responsibility to partners to ensure our product line is free from human rights concerns such
 as forced labour and trafficking, unsafe labour standards and unfair treatment. Atomo relies on third party

Atomo Diagnostics Limited Directors' report For the half-year ended 31 December 2024

manufacturers in certain areas and as such has potential exposure to supply chain disruption risks. The company takes steps to stay closely engaged with its supply chain and ensures sufficient stock on hand to mitigate this risk.

- **Employees and skilled labour:** Atomo's business relies on key qualified personnel. Atomo seeks to ensure our employees are appropriately remunerated and work in a safe environment, which meets or exceeds relevant regulatory expectations, addresses health and safety concerns as they arise and mitigates the risk of reoccurrence of incidents.
- Operational risk: Atomo has international operations, including a manufacturing facility in South Africa and as such is potentially exposed to additional political, legal, economic and regulatory risk specific to those locations
- Atomo operates in a competitive industry: Strategies and initiatives designed to provide diagnostics at
 competitive prices to ensure it can develop, manufacture and market high-quality generic and branded
 products, with a particular focus on accessible diagnostics for the global health and Lower and Middle Income
 markets.
- **Corruption and bribery:** Business must be conducted with transparency, and free from unethical persuasion. Ethical business practices relate to every aspect of Atomo's business, from identifying product sources, through the development of diagnostics, transactions with regulatory bodies and sale to customers.
- Resource use and waste management: Includes energy usage during manufacture and logistics, water usage and waste as a by-product of manufacture, with particular consideration given to the fact that the products are classified as medical waste upon use.
- **Climate risk:** The board is considering on an ongoing basis the potential response to climate risk and considering potential implementation of a formal review and policy response in future years.

The Board believes that the group has adequate systems in place for the management of its exposure to environmental and social risks.

Proceedings on behalf of the Group

No person has applied to the Court under Section 237 of the *Corporations Act 2001* for leave to bring proceedings on behalf of the group, or to intervene in any proceedings to which the group is a party for the purpose of taking responsibility on behalf of the group for all or part of those proceedings.

Rounding of Amounts

The group is of a kind referred to in *Corporations Instrument 2016/191*, issued by the Australian Securities and Investments Commission, relating to 'rounding-off'. Amounts in this report have been rounded off in accordance with that Corporations Instrument to the nearest dollar.

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out immediately after this directors' report.

This report is made in accordance with a resolution of directors, pursuant to section 306(3)(a) of the Corporations Act 2001.

DECLARATION OF INDEPENDENCE BY RAJNIL KUMAR TO THE DIRECTORS OF ATOMO DIAGNOSTICS LIMITED

As lead auditor for the review of Atomo Diagnostics Limited for the half-year ended 31 December 2024, I declare that, to the best of my knowledge and belief, there have been:

- 1. No contraventions of the auditor independence requirements of the *Corporations Act* 2001 in relation to the review; and
- 2. No contraventions of any applicable code of professional conduct in relation to the review.

This declaration is in respect of Atomo Diagnostics Limited and the entities it controlled during the period.

Note 1. Material accounting policy information

The principal accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated.

Basis of preparation

These general purpose financial statements for the interim half-year reporting period ended 31 December 2024 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2024 and any public announcements made by the company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

Going concern

The half year report has been prepared on the going concern basis, which assumes continuity of normal business activities and the realisation of the assets and the settlement of liabilities in the ordinary course of business.

During the financial period ended 31 December 2024 the group has reported a loss after tax of \$2,758,734 (31 December 2023: \$3,152,282) and cash used in operating activities of \$726,950 (31 December 2023: \$1,882,366). As at the 31 December 2024, the group holds cash and cash equivalents of \$2,896,419 (30 June 2024: \$3,687,990).

As a result of these matters, there is a material uncertainty related to events or conditions that may cast significant doubt on whether the company will continue as a going concern and, therefore, whether it will realise its assets and settle its liabilities and commitments in the normal course of business and at the amounts stated in the financial report.

The continuing viability of the group and its ability to continue as a going concern and meet its debts and commitments as they fall due are dependent upon the group being successful with the following factors:

- The ability of the group to raise additional funds from shareholders, new investors and or debt markets. The group has successfully conducted a number of capital raises in the recent years. When taking these into account, there is a reasonable expectation that alternative sources of funding can be sourced, as and when required. Further, the group understands it will require further funding to continue to execute its growth strategy as planned. In its determination on going concern, the Board placed significant reliance upon the representations of its Corporate Advisor with respect to its confidence in its ability to continue raising capital on behalf of the group;
- Increased revenue from opportunities with existing and new customers and sales arrangements as they are realised into sales revenue; and
- Effective monitoring and reduction of the group's overhead expenditures, including the continued realisation of head office cost reductions.

In the event that the group is unable to achieve the matters detailed above, it may not be able to continue as a going concern and therefore the group may not be able to realise its assets and extinguish its liabilities in the ordinary course of operations and at the amounts stated in the financial statements.

No adjustments have been made to the recoverability and classification of recorded asset values and the amount and classification of liabilities that might be necessary should the consolidated entity and the company not continue as going concerns.

New or amended Accounting Standards and Interpretations adopted

The group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Note 1. Material accounting policy information (continued)

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated.

Reclassification of prior year amounts and balances

When required by Accounting standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

Operating segments

The Group manages its operations as a single business operation and there are no parts of the Group that qualify as operating segments under AASB 8 Operating Segments. The CEO (Chief Operating Decision Maker or "CODM") assesses the financial performance of the Group in an integrated basis only and accordingly, the Group is managed on the basis of a single segment, being medical device research and development. Information presented to the CODM on a monthly basis is categorised by type of expenditure.

Grant income

During the period, Atomo was awarded a CRC-P grant to develop Active Syphilis test. The Group receives grant funds to undertake certain activities to develop the Active Syphilis rapid blood test. Government grants relating to costs are deferred and recognised in profit or loss over the period necessary to match them with the costs that they are intended to compensate. Where grant income is received upfront and yet to be expended, the funds received is recognised as deferred revenue. As at 31 December 2024, \$444,432 has been recognised as deferred revenue.

Atomo Diagnostics Limited Directors' declaration For the half-year ended 31 December 2024

In the directors' opinion:

- the attached financial statements and notes comply with the Corporations Act 2001, Australian Accounting Standard AASB 134 'Interim Financial Reporting', the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- the attached financial statements and notes give a true and fair view of the company's and group's financial position as at 31 December 2024 and of their performance for the financial half-year ended on that date; and
- there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of directors made pursuant to section 303(5)(a) of the Corporations Act 2001.

On behalf of the directors

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Atomo Diagnostics Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Atomo Diagnostics Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2024, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, material accounting policy information and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001* including:

- i. Giving a true and fair view of the Group's financial position as at 31 December 2024 and of its financial performance for the half-year ended on that date; and
- ii. Complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be the same terms if given to the directors as at the time of this auditor's review report.

Material uncertainty relating to going concern

We draw attention to Note 1 in the financial report which describes the events and/or conditions which give rise to the existence of a material uncertainty that may cast significant doubt about the Group's

ability to continue as a going concern and therefore the Group may be unable to realise its assets and discharge its liabilities in the normal course of business. Our conclusion is not modified in respect of this matter.

Responsibility of the directors for the financial report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is true and fair and is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including giving a true and fair view of the Group's financial position as at 31 December 2024 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting and the Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
