
TARGET MARKET DETERMINATION

Made by: Investigator Resources Limited (ACN 115 338 979) at 47 King Street, Norwood SA 5067
(Company)

Product: New Options which are being issued under a Prospectus dated 4 March 2025

Effective date: 4 March 2025

This target market determination (**TMD**) has been prepared by the Company in relation to an offer made pursuant to a Prospectus dated 4 March 2025 (**Prospectus**) of a non-renounceable entitlement issue of 1 New Option for every 5 Shares or Options held by Eligible Securityholders exercisable at 4.2 cents by 24 March 2028 (**New Options**).

A copy of the Prospectus is available on ASX at <https://www.asx.com.au>. Expressions used in this TMD have the same meanings as used in the Prospectus, unless the contrary intention applies.

Any recipient of this TMD should carefully read and consider the Prospectus in full and consult their professional adviser if they have any questions regarding the contents of the Prospectus. New Options will be issued in accordance with the terms of the Prospectus. There is no cooling off period in respect of the issue of the New Options. This TMD is not a disclosure document for the purposes of the *Corporations Act 2001* (Cth), and therefore has not been lodged, and does not require lodgement, with the Australian Securities and Investments Commission.

This TMD does not take into account what you currently have, or what you want and need, for your financial future. It is important for you to consider these matters and read the Prospectus before you make an investment decision. This TMD is not intended to provide financial advice or take into account your objectives, financial situations or needs. The Company is not licensed to provide financial product advice in relation to the New Options.

1. TARGET MARKET

Factor	Target market
Investment Objective	The Company expects that an investment in New Options will be suitable to investors who wish to gain exposure to equities in a small-cap exploration and mining Company listed on the Australian Securities Exchange. Particularly, it will be those investors that are allocated New Options pursuant to the offer of New Options made by the Company under the Prospectus.
Investment Timeframe	The target market of investors will take a short to medium term outlook on their investment. Investors with a short-term outlook for their investment will benefit from an ability to exercise New Options and trade the underlying Shares issued on exercise should the New Option exercise price of the New Options be lower than the trading price of Shares. Investors with a medium-term outlook will benefit from an ability to exercise New Options within the term of the New Options which expire on 24 March 2028 and increase their shareholding and exposure to the potential upside in the Company's Shares into the future. Given the need to pay the exercise price in order to acquire Shares, investors in the target market are in a financial position that is sufficient for them to invest their funds on exercise the New Options over this horizon, during which their ability to liquidate their New Options in the Company may be limited by a lack of transferability and

Factor	Target market
	by the trading price of shares. The exercise price of the New Options is greater than the current value of the Shares.
Investment Metrics	While the Company does not have an established eligibility framework for investors based on metrics such as age, expected return or volatility, it is expected that the target market of investors will be able to withstand potential fluctuations in the value of their investment. The New Options offer no guaranteed income or capital protection.
Risk	The Company considers that an investment in the New Options is speculative, such that an investment in the Company is not appropriate for an investor who would not be able to bear a loss of some or all of the investment. Investors should also have a sufficient level of financial literacy and resources (either alone or in conjunction with an appropriate adviser) to understand and appreciate the risks of investing in New Options as an asset class generally and the more specific risks of investing in an Australian listed mining and exploration company. The Prospectus sets out greater detail in relation to risk factors associated with the Company.

2. DISTRIBUTION CONDITIONS

The offer of New Options under the Prospectus is being made to applicants identified by the Company. The Prospectus includes jurisdictional conditions on eligibility.

Eligible investors will be provided with access to a copy of the Prospectus which refers to this TMD and how to access it before they apply for or are issued the New Options.

The Company considers that these distribution conditions will ensure that persons who invest in New Options fall within the target market in circumstances where personal advice is not being provided to those persons by the Company.

3. REVIEW TRIGGERS

The New Options are being offered for a limited offer period set out in the Prospectus, after the conclusion of which the New Options will no longer be available for investment. It follows that the TMD will only apply in the period between the commencement of the offer of the New Options and the issue of the New Options shortly after the close of the offer (**Review Period**), after which the TMD will no longer apply.

To allow the Company to determine whether circumstances exist that indicate this TMD is no longer appropriate to the New Options and should be reviewed, the following review triggers apply for the Review Period:

- (a) a new offer of New Options that requires preparation of a disclosure document is made after completion of the Review Period;
- (b) any event or circumstance that would materially change a factor taken into account in making this TMD;

- (c) the existence of a significant dealing of the New Options that is not consistent with this TMD. The Company does not consider that any possible on-sale of the New Options on market is a significant dealing;
- (d) ASIC raises concerns with the Company regarding the adequacy of the design or distribution of the New Options or this TMD; or
- (e) material changes to the regulatory environment that applies to an investment in the New Options.

4. REVIEW PERIOD

If a review trigger occurs during the Review Period, the Company will undertake a review of the TMD in light of the review trigger.

The Company will otherwise complete a review of the TMD immediately prior to the issue of New Options under the offer.

5. INFORMATION REPORTING

The reporting requirements of all distributors is set out in the table below.

Reporting requirement	Period for reporting to the Company by the distributor	Information to be provided
Whether the distributor received complaints about the New Options.	<ul style="list-style-type: none"> For such time as the Review Period remains open, within 10 business days after the end of each quarter. Within 10 business days after the end of the Review Period. 	<ul style="list-style-type: none"> The number of complaints received. A summary of the nature of each complaint or a copy of each complaint.
A significant dealing of the New Options that is not consistent with this TMD.	As soon as reasonably practicable after the significant dealing occurs, but in any event no later than 10 business days after the significant dealing occurs.	<ul style="list-style-type: none"> Details of the significant dealing. Reasons why the distributor considers that the significant dealing is not consistent with this TMD.
A summary of the steps taken by the distributor to ensure that its conduct was consistent with this TMD.	Within 10 business days after the end of the close of the offer of New Options in accordance with the Prospectus.	A summary of the steps taken by the distributor to ensure that its conduct was consistent with this TMD.
