

## **Appointment of Cameron Switzer as Technical Advisor to the Board & Exploration Manager**

Cannindah Resources Limited (ASX: CAE) is pleased to announce the appointment of Mr Cameron Switzer to the position of Technical Advisor to the Board and Exploration Manager.

Mr Switzer is a highly experienced geologist with over 35 years in the mining industry, specializing in mineral exploration, resource development, and project evaluation. He has worked extensively across Australia and internationally, with a strong focus on copper, gold, and base metals projects. His expertise in porphyry copper-gold systems, particularly within the Australian domain and importantly Queensland, is directly aligned with the exploration and development objectives at the Mt Cannindah Project.

Mr Switzer has held key technical and leadership roles throughout his career, including: -

**Exploration Manager APAC Newcrest Mining (PNG & Australia):** Led major exploration programs focused on porphyry copper-gold systems, advancing projects from early-stage exploration through to resource definition. Responsibilities within APAC included all exploration activities at Cadia, Telfer, Lihir, and Gosowong along with greenfield opportunities, as well as being instrumental as part of the team that led to the acquisition, discovery and the delivery of the 8Moz Au Havieron project in the Paterson Province.

**Principal Geologist for Project Generation for Newcrest Mining and Newmont Mining post the takeover of Newcrest mining by Newmont.** This role included the analysis and evaluation of the Copper Industry for the Newmont Copper Study team. Included in his role was also the mentoring and training in Porphyry Systems at Cadia and IRGS at Boddington, the evaluation and assessment of multiple opportunities in APAC, Asia, Europe, USA, and Latin America.

Throughout his career, Mr. Switzer has been instrumental in discovering and advancing significant mineral deposits, with a track record of delivering exploration success and enhancing shareholder value.

As Technical Advisor to the Board and Exploration Manager he will report directly to Managing Director Tom Pickett, and will provide strategic oversight on exploration programs, drilling campaigns, and resource expansion initiatives. His leadership will play a critical role in advancing the Mount Cannindah Project and unlocking further value from the extensive tenement holdings.

**Managing Director, Tom Pickett, commented:**

“We are excited to welcome Cameron Switzer to our team at a pivotal time for Cannindah Resources. His deep technical knowledge, proven track record, and extensive experience in porphyry copper-gold systems make him an ideal addition as we continue to build on the significant exploration success at Mount Cannindah. His appointment strengthens our technical capabilities and ensures we have the expertise needed to drive our next phase of growth.”

The Board welcomes Mr. Switzer and looks forward to his contributions in enhancing the Company’s existing exploration success.
