MACQUARIE GROUP 2025 EMEA INVESTOR TOUR - DAY 2

PARIS, 11 MARCH 2025 Macquarie Group Limited (Macquarie) (ASX: MQG; ADR: MQBKY) is hosting an investor tour over four days in Paris and London from Monday, 10 March 2025 to Thursday, 13 March 2025.

The second day of the tour will commence in Paris at 9:00am on Tuesday, 11 March 2025 (Central European Time) or 7:00pm on Tuesday, 11 March 2025 (Australian Eastern Daylight Time). The second day will highlight the presence established by Macquarie Capital in Europe, the Middle East and Africa (EMEA).

Head of Macquarie Capital, Michael Silverton, noted “Macquarie Capital has been active across EMEA for three decades and more recently expanding further in Continental Europe. We are pleased with our progress as we continue to focus on clients to deliver specialised industry insights and invest the balance sheet in growing areas such as private credit, infrastructure development and technology.”

Macquarie will release the investor tour materials to the market prior to the commencement of each of the four days. A recording of the presentations will also be made available on Macquarie’s website. Please visit Macquarie’s Investor Centre website at <https://www.macquarie.com/investors/results.html>.

The figures do not include the payment of any fees, carry or costs incurred by Macquarie Capital in relation to the investment (such as due diligence costs).

Our approach is based on core risk management principles and culture

Informed risk-taking is part of our business, making strong risk management core to success

Within Macquarie Capital, we own the risks we take

- We continue to evaluate and manage emerging risks with appropriate risk frameworks and experts, as we pursue growth opportunities

We seek to understand the worst case outcomes

- We leverage our deep understanding of underlying fundamentals to manage risk and inform commercial decisions
- Strong emphasis placed on business selection, in both advisory and investor positions

Risk Management Group provides independent oversight

- Like all the Operating Groups, we value the independent oversight and advice provided by the Risk Management Group in identifying, assessing and mitigating risks

Investing in risk management solutions

- Macquarie Capital views risk management as an essential component of business continuity
- We have selectively chosen to invest in companies that align with our priorities and where we see significant growth and innovative potential

Spotlight on infrastructure balance sheet investing

Infrastructure and Energy Capital (IEC) invests Macquarie Capital's balance sheet, leveraging our deep sector expertise to invest across asset stages in Europe and globally

Focused strategy and clear mandate

Focused on equity and structured equity investments in sectors where we have deep expertise and track record

- Investing across the asset stage lifecycle, from development and construction projects, to backing experienced management teams of operational companies / platforms. Hold periods (typically 2 to 4 years) and returns vary based on sector and region
- Typically targeting earlier stage investments and development projects as compared to infrastructure funds. The flexibility of the balance sheet allows us to uniquely meet clients' objectives on both the structure and capital required
- Highly selective, prioritising opportunities in markets and sectors where we have experience and conviction on our ability to deliver outcomes for the communities and drive returns
- Targeting \$A50m to \$A250m initial equity tickets, often supporting portfolio companies through growth and expansion via follow-on investments

Spotlight on digital infrastructure:

Key investment examples

IEC has committed a majority of its European portfolio to fibre and data centre investments

Sector: Data centre, hyperscaler campus
Location: Netherlands
Stage: Real Estate

Description: 40MW data centre campus in Schiphol, Amsterdam (20MW+ already operational).

Our role: Macquarie has been in partnership with NTT (now NTT DATA) since 2022 to support the company's data centre development plans in Europe.

With NTT (now NTT DATA), we are currently operating and further constructing/developing the prime campus site.

Sector: Data centre, colocation development
Location: Belgium
Stage: Development & Construction

Description: Kevlinx is a pan-European data centre platform that develops and operates data centres for large enterprises, governments and cloud & AI companies.

Kevlinx's first 32MW data centre is in construction in Brussels, Belgium.

Our role: Macquarie was lead equity investor in Kevlinx in 2023, supporting the company's data centre rollout plan.

Sector: Fibre-to-the-home
Location: UK
Stage: Development & Construction

Description: Voneus is a provider of superfast and gigabit broadband for homes and businesses located in poorly connected or difficult to reach communities in the UK.

Our role: As lead equity investor, we have supported Voneus' fibre broadband role out in rural UK, as well as facilitating growth through M&A and via access to third party capital.

In 2023 Macquarie and its partners merged two other rural broadband businesses into Voneus to create a consolidated business with over 100,000 rural premises across the UK.

Sector: Fibre-to-the-home
Location: Spain
Stage: Operational

Description: Onivia is Spain's first independent wholesale fibre network operator.

Our role: As lead equity investor and sponsor, Macquarie created Onivia in 2019. Since then, Macquarie has backed Onivia's growth and expansion through follow-on investments, M&A and access to third party capital.

In 2024, Macquarie together with co-investors led a fibre network acquisition from DIGI that will increase Onivia's coverage to around 10 million homes, over a third of homes in Spain.
