

MARKET RELEASE

7 April 2025

Trading Update

Sydney, Australia – Nuix ('the Company', ASX: NXL) today provides an update in relation to trading conditions and expected outcomes for the full year FY25.

The Company is pleased with the growth and quality of its sales pipeline despite the lengthening of the procurement cycle¹. However, recent increases in uncertainty and volatility in the geopolitical and global economic landscape, while creating opportunities, are impacting the predictability of deal closure timeframes.

Against this backdrop Nuix currently expects Annualised Contract Value (ACV) growth for the full year to be in the lower end of the previously advised range of 11-16% in constant currency.

Nuix continues to execute on the rollout of Nuix Neo, expects revenue growth to exceed operating cost growth (excluding net non-operational legal costs) and expects to be Underlying Cash Flow positive for the full year.

This announcement has been authorised by the Board of Nuix.
