Mayfield Secures \$27 Million in Data Centre Contracts, Boosting WIH to \$125 Million

Highlights

- Two contracts awarded with a combined value of \$27 million
- Enhances work-in-hand (WIH) to \$125 million, extending into FY27
- Strengthens position in Australia's growing data centre sector

Contract Details

Mayfield Group Holdings Limited (ASX: MYG) is pleased to announce that it has secured significant contracts to supply more than 90 switchboards for a major Australian data centre development.

The contracts, with a combined value of \$27 million, will see the first 27 switchboards delivered by July 2025, with the remainder being progressively delivered throughout FY26.

These contracts demonstrate Mayfield's growing expertise in delivering scalable infrastructure solutions for the expanding data centre sector, which is experiencing significant growth driven by increasing AI computing demands.

CEO Comment

Andrew Rowe, Managing Director, commented:

These contracts represent a significant milestone in our growth strategy, reinforcing our position as a key player in Australia's electrical infrastructure sector. The data centre market offers significant opportunities as Australia continues to expand its digital infrastructure to support AI computing needs."

Outlook

The recent contract awards in the data centre sector, combined with other contracts secured in recent months, have significantly strengthened Mayfield's order book. The Group's work-in-hand now stands at \$125 million, extending into the 2027 financial year and providing strong revenue growth. Mayfield is well-positioned to capitalise on increasing demand for critical electrical infrastructure as Australia progresses its energy transition and digital transformation journeys.

Mayfield confirms:

- *that it does not consider the identity of the counterparty is information that a reasonable person would expect to have a material effect on the price of Mayfield's shares;*
- *that this announcement contains all of the material information relevant to assessing the impact of the contract on the price of Mayfield shares and is not misleading by omission.*

This announcement has been authorised by the Managing Director, Andrew Rowe.

About Mayfield Group Holdings

Mayfield Group Holdings Limited (ASX: MYG) is a leading Australian manufacturer of electrical infrastructure solutions and provider of related services for critical electrical systems. The Group engineers, manufactures, implements, and services critical electrical infrastructure that forms vital connections for Australia's growing data centre requirements and evolving energy ecosystem, enabling the transition to a more sustainable and electrified nation.

With operations across Australia, Mayfield Group consists of complementary businesses supporting the nation's infrastructure needs:

- **Mayfield Industries:** Design and manufacture of modular electrical infrastructure solutions with customisation capabilities
- **Mayfield Services:** Comprehensive electrical asset management services across high, medium, and low-voltage systems
- **ATI Australia:** Telecommunications and critical power products and services

With a strong focus on Australian manufacturing and technological innovation, Mayfield is uniquely positioned to capitalise on Australia's electrification trend and the growing demand for critical electrical infrastructure.
