For the purposes of section 708AA(7) of the Corporations Act, the Company advises:

1. the New Shares will be issued without disclosure under part 6D.2 Corporations Act as notionally modified by Instrument 2016/84;
2. this notice is given under section 708AA(2)(f) Corporations Act as notionally modified by Instrument 2016/84;
3. as at the date of this notice, the Company has complied with:
  - a) the provisions of chapter 2M Corporations Act as they apply to the Company; and
  - b) sections 674 and 674A of the Corporations Act; and
4. as at the date of this notice, there is no 'excluded information' of the type referred to in sections 708AA(8) and 708AA(9) of the Corporations Act as notionally modified by Instrument 2016/84 that is required to be set out in this notice under section 708AA(7) of the Corporations Act.
5. The effect and consequence on the control of the Company as a result of the issue of New Shares under the Entitlement Offers is dependent on a number of factors:
  - a) If all eligible shareholders of the Company (**Eligible Shareholders**) take up their Entitlements, the ownership interest (and voting power) will remain largely unchanged and the effect on the control of the Company will be minimal.
  - b) To the extent any Eligible Shareholder does not take up their Entitlements in full, the percentage holding in the Company of that Eligible Shareholder will be diluted by those other Eligible Shareholders who take up some, all or more than their Entitlements.
  - c) To the extent all Entitlements are not taken up by Eligible Shareholders, the voting power of the Company's largest shareholder Idemitsu Lindfield Pty Ltd (**Idemitsu**) in the Company may increase above its current interest of 33.87%, as Idemitsu has committed to take up its Entitlements of New Shares under the Entitlement Offer. Otherwise, on completion of the issue of New Shares under the Entitlement Offer, it is expected that no other shareholder will hold an interest of more than 20% of the Company. Accordingly, the Entitlement Offer is not expected to have any material

effect or consequence on the control of the Company aside from the potential increase in the voting power of Idemitsu.

CMG is building its position in the vanadium market, holding a tenement in north-west Queensland near the town of Julia Creek which is its flagship project known as the Lindfield Vanadium Project. CMG also holds applications for projects at Figtree Creek and Lorena Surrounds, both exciting greenfield copper-gold projects that support CMG's focus on critical mineral opportunities.

CMG is founded on the outlook of the global energy disruption and the transition that is currently underway and the chance to grasp the opportunities arising from the substantial changes in the world around us. The rising standard of living of a growing global population is likely to continue to drive demand for critical minerals for years to come, particularly during the phase of decarbonisation and electrification. The world will need to find a way to meet this growing demand for such minerals, and CMG is well-positioned to meet this new economy mineral demand as the world turns towards a more renewable future.
