**April FUM impacted by lower equity markets, net retail outflows moderating versus prior months**

In April 2025, Platinum experienced net outflows of approximately \$243 million. This figure includes net outflows from the Platinum Trust Funds<sup>2</sup> of approximately \$215 million. The decline in equity markets contributed to the lower FUM number.

The most recent investment performance for funds managed by Platinum can be found at <https://www.platinum.com.au/investment-performance>

**Termination of institutional mandate and acceleration of cost savings**

Last night, Platinum received notice of termination of an institutional mandate of approximately \$958m to take effect on 9 May 2025. This figure has not been included in the FUM figures above and will flow through to 31 May 2025 figures. The impact to profit of the related loss of revenue will be offset by an acceleration of planned cost savings to be delivered in FY26. These planned cost savings are incremental to the cost savings previously announced to the market.
