## Investment Commentary

Pre-tax NTA increased by 3.02 cents or +1.95% during May to \$1.5794. This result was after the payment of \$516k in cash tax for the quarter. Adjusting for the tax payment, the pre-tax return was +2.35% for May.

Positive performance for May was led by gains in core holdings BCI Minerals, Macmahon Holdings, Cuscal and SRG Global offset by negative contributions from Janison Education and Vitrafy Life Sciences.

Our largest holding, BCI Minerals again led monthly performance as it continues to re-rate post the receipt of Commonwealth Government approval to begin full scale operations in April. Macmahon Holdings also delivered a strong contribution for the month after announcing incremental contract wins across its mining and civil operations. Janison Education continues to drag on overall performance despite providing a relatively positive update demonstrating progress across the business.

During the month, we opportunistically added to existing positions in Airtasker, Credit Clear and Emeco Holdings. In addition, we initiated three new holdings in companies that had been on our radar for some time, each capable of becoming core contributors to future performance. These investments were funded through cash and ongoing trimming in Fleetwood and SRG Global – both to manage Portfolio weightings due to ongoing strong share price performance.

The share buyback was active, repurchasing 202,304 shares at an average price of \$1.31. Net of these movements and tax paid, cash decreased to \$13.61m (10.61%) from \$22.04 (17.47%). Noting we expect to receive ~\$7.2m cash from the TRS takeover in early July.
