Terms Common to the Firm Offer and the Exchange Offer	
Firm Offer and Exchange Offer Issue Amount:	The sum of the Firm Offer Issue Amount and the Exchange Offer Issue Amount has been set at \$122,559,333 of Infrastructure Bonds.
Rate Set Date:	4 June 2025
Issue Date:	16 June 2025
Expected Date of Initial Quotation on the NZX Debt Market:	17 June 2025
Maturity Date:	16 June 2032
Interest Rate:	6.16% per annum
	The Interest Rate has been set as the greater of:
	(a) the sum of the Issue Margin and the Base Rate determined on the Rate Set Date; and
	(b) the Minimum Interest Rate.
	The Issue Margin was set by Infratil in consultation with the Arranger (identified on page 11 below) at 2.30% per annum. The Base Rate on the Rate Set Date was 3.86% per annum. Accordingly, the sum of the Issue Margin and the Base Rate on the Rate Set Date (being 6.16% per annum) applies to the Infrastructure Bonds as the Interest Rate.
Minimum Interest Rate:	6.00% per annum
Issue Margin:	2.30% per annum
Base Rate:	The mid-market rate for a New Zealand dollar interest rate swap of a term matching the period from the Issue Date to the Maturity Date as determined by Infratil in consultation with the Arranger (identified on page 11 below) on the Rate Set Date in accordance with market convention with reference to Bloomberg page ICNZ4 (or any successor page), in each case expressed on a quarterly basis (and rounded to 2 decimal places, if necessary, with 0.005 being rounded up).
Interest Payment Dates:	16 March, 16 June, 16 September and 16 December of each year until and including the Maturity Date (commencing on 16 June 2025).

Interest Payments:	Other than for the first Interest Payment Date, Infratil will pay interest in arrear in equal amounts on each Interest Payment Date. Interest will be paid to the Holder of the Infrastructure Bond on the Record Date for each Interest Payment Date.
	Interest payable on each Infrastructure Bond on the first Interest Payment Date will accrue at the Interest Rate from (and including) the date on which your subscription moneys have been banked into the trust account operated in respect of the Offer to (but excluding) the first Interest Payment Date. The first Interest Payment Date is 16 June 2025, which is the same date as the Issue Date.
	 For Infrastructure Bonds allotted under the Firm Offer, because the first Interest Payment Date is also the Issue Date, no interest will have accrued on the first Interest Payment Date and no interest will be payable on that date.
	 For Infrastructure Bonds allotted under the Exchange Offer, the redemption proceeds of the 2025 Bonds will be banked into the trust account operated in respect of the Offer on 13 June 2025 (the business day immediately preceding 15 June 2025) and interest on those Infrastructure Bonds will accrue at the Interest Rate from that date and will be payable on the first Interest Payment Date (16 June 2025). The interest payment will be paid to the original subscriber for the relevant Infrastructure Bonds.
	In addition, if the Infrastructure Bonds are redeemed on a day that is not an Interest Payment Date (see "Right to Redeem Early" and "Early Redemption Events" on page 7 below), the amount of interest that will be payable to you will be adjusted to reflect the number of days in the interest period in which the interest accrued.
Interest Suspension and Dividend Stopper:	Infratil may suspend the payment of interest where an Interest Suspension Event exists. If the payment of interest is suspended:
	(a) interest will continue to accrue (without compounding) and will be paid by Infratil when the Interest Suspension Event ceases to exist; and
	(b) Infratil will not pay or make any distribution to shareholders or provide any financial assistance for the acquisition of shares in Infratil.
Interest Suspension Events:	In summary, an Interest Suspension Event may occur if:
	(a) the interest payment would be likely to breach the solvency test in section 4 of the Companies Act 1993;
	(b) the interest payment would be likely to result in a breach of the terms or conditions of other financial indebtedness incurred by Infratil or certain of its subsidiaries; or
	(c) the interest payment would be likely to result in a breach of any other legal obligation by Infratil or certain of its subsidiaries.
Right to Redeem Early:	Infratil has the right to redeem all or some of the Infrastructure Bonds prior to the Maturity Date by giving you no less than 5 Business Days' notice. Infratil may not exercise this right if:
	(a) the Supervisor has declared the Infrastructure Bonds due and payable because an event of default as described in clause 8.1 of the Trust Deed exists; or
	(b) the notice of early redemption is given at a time on or after the day falling 25 Business Days before the Maturity Date.
	You have no right of early redemption except following an Early Redemption Event.

Redemption Price:	Redemption on the Maturity Date or following an Early Redemption Event	
	Each Infrastructure Bond redeemed on the Maturity Date, or earlier following an Early Redemption Event, will be redeemed at an amount equal to its Face Value less all withholding tax or deductions required to be made.	
	Early Redemption	
	If an Infrastructure Bond is redeemed early due to Infratil exercising its right to redeem early, it will be redeemed at an amount equal to the greater of:	
	(a) its Face Value plus accrued but unpaid interest; and	
	(b) the current market price of the Infrastructure Bonds (determined in accordance with clause 6.1(l)(ii) of the Trust Deed),	
	in each case less all withholdings or deductions required to be made.	
Early Redemption Events:	In summary, an Early Redemption Event may occur if:	
	(a) an event of default as described in clause 8.1 of the Trust Deed occurs; or	
	(b) certain takeover offers are made in respect of the shares in Infratil.	
	In general terms, the events of default include non-payment for 14 days or more and the occurrence of certain insolvency related events in relation to Infratil.	
Liabilities to Assets Covenant:	Infratil has agreed for the benefit of Holders that, on the last day of each financial year and financial half-year of Infratil (and in certain other circumstances), Borrowed Money Indebtedness of the Issuer Group (being Infratil and certain of its 100% owned subsidiaries) will not exceed 50% of Tangible Assets of Infratil and its subsidiaries as at that date.	

Ranking of Infrastructure Bonds:

The Infrastructure Bonds are unsecured and unsubordinated debt obligations of Infratil. This means that in a liquidation of Infratil your rights and claims as a Holder:

- (a) will rank **after** the claims of (i) secured creditors of Infratil (if any), and (ii) creditors of Infratil who are preferred by law (e.g. the Inland Revenue Department in respect of unpaid tax);
- (b) will rank equally with the claims of all other unsecured, unsubordinated creditors of Infratil; and
- (c) will rank in **priority** to the claims of (i) subordinated creditors of Infratil (if any) (being creditors who have agreed to accept a lower priority in respect of their claims in a liquidation of Infratil), and (ii) shareholders.

Infratil is a holding company with investments in various companies. **Holders have no claims against, or recourse to the assets of, any of those companies.** Infratil's ability to make timely payments on the Infrastructure Bonds is dependent on the returns it receives from its investments, its capital structure and the quality of its management.

In a liquidation of the Infratil group, creditors of Infratil's subsidiaries and associates (including lenders) would have to be paid out in full before the distribution of any residual assets to Infratil's liquidator (claiming as shareholder in the companies). Only these residual assets would be available to Infratil's liquidator and therefore Infratil's creditors (including Holders).

As an example of this, the diagram below illustrates the position of Holders relative to the banks which provide loan facilities to Infratil's Wholly-Owned Subsidiaries.
