Sydney – 12 June 2025 – MPower Group Limited (ASX: MPR)

Leading specialist renewable energy and battery storage development company MPower Group Limited (ASX: MPR) (**MPower** or the **Company**) announces that it has reached agreed terms for a sale of its renewable energy business that will deliver an attractive outcome for the Company.

MPower has entered into a binding Business Sale Agreement (**Business Sale Agreement**) with Wollemi Energy Group Pty Limited (**Buyer**) and Wollemi Climate Pty Ltd (**Buyer's Guarantor**) (collectively **Wollemi**), a climate-focused investment firm, with respect to a sale of substantially all of the assets of the Company and certain of its subsidiaries (the **Business**) for a total cash consideration of approximately \$19 million (the **Proposed Transaction**).

The Proposed Transaction includes the sale of:

- MPower's renewable energy platform;
- the Lakeland Solar & Storage Project;
- a pipeline of project opportunities;
- MPower's services business; and
- certain other assets as set out in the Business Sale Agreement.

All MPower employees are to be offered employment with the Buyer.

Background and rationale

As previously announced, the Company has undertaken an extensive process during which it has sought to secure capital from a party with an appropriate risk appetite and alignment with the scale of the opportunity that MPower has created. During that process, Wollemi emerged as a suitable capital partner and during negotiations it became clear that the best outcome for the Company's shareholders would be to agree to Wollemi acquiring the MPower platform in order to fully leverage MPower's capabilities and deliver the strategic benefits that have been identified.

Comment

MPower Chief Executive Officer Nathan Wise commented: *"I am proud of the capability, track record and success of the MPower business in its journey to aggregate a leading portfolio of clean energy assets in Australia.*

MPower has achieved significant milestones in recent years with the backing of its shareholders and the support of its lenders. The scale of the future opportunity is very large and it has been challenging to secure project funding in a way that can deliver a sustainable and acceptable outcome to MPower shareholders. The time has come for the next phase of growth under new owners who can bring greater financial capacity.

Wollemi's strategic alignment, growth focus and energy transition expertise make it uniquely positioned to create future value through combining its investment expertise and financial resources with the skills, assets and opportunity that the MPower business brings."

Transaction details

The purchase price of approximately \$19 million is payable in cash, subject to adjustments as set out in the Business Sale Agreement. In addition, the Buyer will also assume responsibility and liability for accrued leave entitlements for those MPower employees who accept the Buyer's offer of employment.

Following completion, the Company expects it will be able to repay all its liabilities in full and retain surplus cash, currently estimated to be approximately \$3.8 million. This represents net assets per share of 1.1 cents, and:

- a 37.5% premium to the last trading price for shares that occurred before the date of this announcement; and
- a 43.2% premium to the 30 day volume weighted average price of the Company's shares in the 30 trading days prior to the date of this announcement¹.

The purchase price is payable at completion, other than \$2 million that is payable 6 months after the date of completion, subject to agreed terms.

A summary of the material terms of the Business Sale Agreement is attached in the Schedule to this announcement. Further details of the Proposed Transaction will be provided in the Notice of Meeting to be dispatched to shareholders for the purpose of convening a general meeting to consider the Proposed Transaction (refer below).

¹ Calculated on the basis that none of the existing options to acquire new shares in the Company are exercised.

Transaction conditions

The Business Sale Agreement is binding on the parties and has several conditions precedent to completion, including:

- (a) approval by shareholders of the Company (refer below);
- (b) the novation or assignment of certain contracts and leases;
- (c) certain employees and executives of MPower agreeing to new employment agreements with the Buyer; and
- (d) re-energisation of the Lakeland Solar & Storage Project that is currently undergoing transformer repairs, to Wollemi's reasonable satisfaction.

Shareholder approval & Directors' recommendation

ASX Listing Rule 11.2 requires a listed company to obtain the approval of its shareholders to dispose of its main undertaking. The Proposed Transaction is a disposal of the Company's main undertaking for these purposes.

A notice of meeting will be dispatched to shareholders and shareholders will have an opportunity to approve a resolution to sell the Company's main undertaking for the purposes of ASX Listing Rule 11.2.

The Directors of the Company unanimously recommend all shareholders vote in favour of the Proposed Transaction, in the absence of a superior proposal (as that term is defined in the Business Sale Agreement). Each Director intends to vote all shares held or controlled by them in favour of the Proposed Transaction in the absence of a superior proposal.

At the meeting, Shareholders will also be asked to approve a resolution to change the name of the Company to "MPR Australia Limited".

Break fee and exclusivity

The Business Sale Agreement sets out various exclusivity obligations that apply to the Company. These include no shop, no talk, no due diligence obligations.

The Business Sale Agreement also sets out the circumstances in which a break fee of \$400,000 would be payable by the Company. Those circumstances include the abovementioned resolution to approve the Company selling the Company's main undertaking for the purposes of ASX Listing Rule 11.2 being voted on, but not being passed by the Company's shareholders.

Further details of the exclusivity arrangements and break fee are contained in sections 2 and 6 of the Schedule to this announcement.

Intended use of proceeds

MPower intends to use the proceeds from the Proposed Transaction to make payments owed to its lenders and creditors. Following these payments, the Company will decide whether to:

- (a) return capital to shareholders to enable Shareholders to liquidate their investments in the Company (after expiry of the warranty claim period in the Business Sale Agreement of 6

- months from the date of Completion) through either a buy back, capital reduction or liquidation;
- (b) acquire a new business through a backdoor listing transaction; or
 - (c) a combination of the uses of proceeds described in paragraphs (a) and (b).

ASX has advised the Company that it will continue to quote the Shares on the ASX for a period of up to 6 months from the date of the Business Sale Agreement, which period ends on 11 December 2025, to allow the Company to complete the Proposed Transaction and to commence the legal process of either winding up the Company or identifying and making an announcement of its intention to acquire a new business as part of its post-transaction business model. If the Company has not completed these matters by 11 December 2025, ASX will suspend the Shares from quotation until the Company has made an announcement acceptable to ASX about the Company's future.

Subject to the Listing Rules and the Corporations Act requirements, the Company anticipates completion of the Proposed Transaction will be in accordance with the following timetable:

ASX Announcement of Proposed Transaction	12 June 2025
Despatch of Notice of Meeting	17 June 2025
