

## Treasury Update

04 July 2025

Sydney, 4 July 2025: Sustainability Solutions Company Simble Solutions Limited (ASX:SIS) (**Simble** or the **Company**) is pleased to announce that, as foreshadowed in its announcement on 18 June 2025, it has purchased 383.95 Bittensor (TAO), at an average price of AUD\$520.89 per TAO for a total holding of ~\$200,000.

### Highlights

- **383.95 TAO purchased, at an average price of AUD\$520.89 per TAO for a total holding of ~\$200,000**
- **TAO is the leading AI digital currency which powers decentralised, blockchain based machine learning (AI) models and infrastructure**
- **Initial purchase of TAO is part of a series of strategic initiatives the Company intends to undertake to grow its revenues and strengthen its balance sheet**
- **The staked TAO is estimated to generate a gross yield of 8-12%**

The Company, on 18 June 2025, announced that it was undertaking a number of strategic initiatives to grow its immediate revenues and strengthen its balance sheet. As part of this, the Company intends to build a long-term strategic holding of TAO.

### Why TAO?

Simble has strategically purchased TAO because of its decentralised AI focus and the Company's current belief in the utility of the TAO blockchain, its ongoing development and the potential scope to utilise blockchain technologies in the Company's existing products.

### What is staking?

Staking is the process of committing digital assets to the blockchain, in this instance the TAO blockchain, to support the security and operation of the blockchain network. In return for committing the digital assets to the blockchain, the holder is allocated rewards, by way of additional digital assets, which can then be sold, or added to the digital assets already being staked. The yield generated is influenced by factors such as the number of digital assets staked, the networks' consensus mechanism and the

reward structure offered by the network. The Company is currently staking its TAO through BitGo, the leading infrastructure provider of digital asset solutions.

Importantly, staking of the TAO, does not require the Company to transfer ownership of its TAO, and the Company can withdraw its TAO from the staking activities at any time on short notice.

The current anticipated yield from the Company's staking activities is estimated to be between 8%-12% per annum based on current data available.

Faldi Ismail – Non-Executive Chairman

*“This initial purchase of TAO reaffirms our commitment to technological leadership in the energy industry. The sector is beginning to leverage breakthroughs in decentralised AI, blockchain, and distributed computing networks such as Bittensor. These systems offer the potential to connect data streams, and intelligent models across regions - enhancing real-time optimisation, predictive maintenance, and demand forecasting. TAO is positioned at the intersection of decentralised AI infrastructure and blockchain, presenting Simble with a unique strategic opportunity.”*

Fadi Geha - CEO

*“By tapping into decentralised AI networks, businesses can access a global, constantly improving pool of machine intelligence - without relying on centralised data monopolies. This approach accelerates innovation, fosters transparency, and can improve energy and cost efficiencies and resilience. As the world transitions to a more distributed energy future, deploying decentralised AI solutions positions us at the forefront of a smarter, more adaptive, and globally coordinated infrastructure layer. Simble's acquisition of TAO aligns with these beliefs.”*

### About Simble

Simble Solutions Limited (ASX:SIS) is a global Energy and Sustainability provider with integrated solutions across energy efficiency, sustainability and renewable energy development, supporting the global transition to Net Zero.

Simble's operations are built around two core business pillars:

#### 1. Energy and Sustainability Software Solutions & Training

- a. Simble's flagship platforms, *SimbleSense* and *CarbonView* provide real-time energy intelligence, carbon footprint tracking, and enterprise-grade carbon reporting tools to help organisations reduce emissions and optimise energy usage.

## Simble Solutions Limited (ASX:SIS) | ASX Announcement

- b. *SimbleAcademy* supports these solutions with a professional training and education platform offering industry-relevant programs in carbon accounting, energy management, and ESG. *SimbleAcademy* equips individuals and organisations with the skills required to thrive in the Net Zero era.

### **2. Renewable Energy Developments**

Focused on developing large-scale, clean energy infrastructure including solar, hydrogen, and battery projects, this division supports Australia's transition to a low-carbon economy by delivering bankable, scalable renewable energy assets.

Simble operates across the Commercial & Industrial and Medium Sized Enterprise segments across Australia and the United Kingdom. We distribute our solutions directly via B2B sales, as well as through multiple channel partners. Simble has an international presence with teams in Australia, the United Kingdom and Vietnam.
