"This capital raising will position Mithril to accelerate exploration across our district-scale Copalquin property. The strong support from existing shareholders in addition to new institutional investors reflects growing confidence in the immense potential of this extensive high-grade gold-silver system.

Our expanded and highly skilled team has made exceptional progress in advancing multiple high-priority drill targets. With a second drill mobilised in April and plans for a third by late 2025, we are entering a transformational phase of exploration. Mapping and sampling continue to outline extensive high-grade mineralisation across the district, reinforcing Copalquin's potential to host a significant gold and silver in Mexico's prolific Sierra Madre Trend."
