# Capral delivers first half result in line with expectation

*Thursday, 21 August 2025*

### Capral Half Year 2025 Results and Outlook

Capral Limited (ASX: CAA) ("Capral" or the "Company"), Australia's largest extruder and distributor of aluminium products, releases its financial results for the six months ending 30 June 2025 (1H25).

1H25 highlights:

- Volume 31,100 tonnes down 7% on prior period due to reduced demand in the industrial sector and continuing weakness in residential construction
- Sales revenue up 4%, to \$327m, due to higher LME linked prices
- Underlying EBITDA<sup>1</sup> of \$27.7m (1H24: \$28.7m)
- Underlying EBIT<sup>1</sup> of \$16.1m (1H24: \$16.9m)
- EBITDA of \$26.8m (1H24: \$29.2m)
- Net Profit After Tax (NPAT) of \$15.3m includes \$2.5m tax benefit (1H24: \$14.7m)
- Earnings Per Share (EPS) for 1H25 at \$0.89 (1H24: \$0.83)
- Strong balance sheet with net cash at \$53.0m and no debt
- Share buy-back returned \$0.27 per share equivalent in first half (1H24: 18 cps)

"Capral has delivered a solid first half result that is in line with the Company's expectation, despite challenging market conditions due to the housing market being slow to recover and a pullback in industrial sectors. The Company maintained direct customer market share against imports. Capral achieved this result by focussing on operational efficiency, product development, and customer service. This, combined with Capral's strong cash position and solid profitability, drives long-term growth and value for its shareholders," said Capral's CEO, Tony Dragicevich.

He added: "Capral's commitment to enhancing its sustainability performance is a key focus. The Company remains on track to achieve our 2030 carbon emission reduction goals, along with meeting its ASRS reporting requirements for 2025. Capral is certified under the Aluminium Stewardship Initiative and adheres to its standards of responsible production, sourcing, and stewardship of aluminium."

### Outlook and Guidance

Capral anticipates the residential housing market to improve in the second half of 2025, due to lower interest rates and pent-up demand. The industrial sector has softened for the first time since 2020 with transport coming off historical highs and many infrastructure projects coming to an end.

During the second half, Capral will focus on maintaining its market position, optimising its cost base, and managing higher working capital levels. The Company will also pursue growth opportunities, leveraging its balance sheet, product portfolio, technical capabilities, and customer relationships.

## CAPRAL ASX ANNOUNCEMENT

Capral recently announced the acquisition of Comsupply, an aluminium systems and hardware business in WA. The Company expects this transaction to be completed late in August 2025. Recent acquisitions of distribution businesses have bolstered Capral's national footprint and have complemented the Company's servicing and technical capabilities.

Capral remains confident in its long-term strategy and its ability to create value for its stakeholders.

FY25 EBITDA, based on a forecast improvement in market conditions and absent unforeseen events, is expected to be broadly in line with prior year. The on-market share buy-back announced in February of up to 10% of its issued shares will continue through 2025 and recommence 25 August.

## DIRECTORS' REPORT

The directors present their report on the consolidated Group consisting of Capral Limited (**Capral**) and the entity it controlled at the end of, or during, the half-year ended 30 June 2025 and the independent auditor's review report thereon.

### Directors

The following persons were directors of Capral during the half-year and up to the date of this report:

Name	Period Office Held
M. White	1 September 2021 – Date of this report
A. M. Dragicevich	15 April 2013 – Date of this report
K. Ostin	17 June 2020 – 8 May 2025
L. Lefcourt	8 May 2025 – Date of this report
B. Tisher	24 February 2022 – Date of this report

### Review of operations and key results

Capral is pleased to announce its 2025 first half result which was in line with expectation. Profit after tax was \$15.3 million for the half-year ended 30 June 2025 (1H25) including a \$2.5m tax benefit, compared with \$14.7 million for the half-year ended 30 June 2024 (1H24). This resulted in Earnings per Share for the first half of \$0.89, up from \$0.83 per share in 1H24.

### Results Overview

Capral delivered Underlying EBITDA<sup>1</sup> of \$27.7 million down 3% on \$28.7 million in 1H24. Sales volume at 31,100 tonnes was 7% below the first half last year, and sales revenue up 4% to \$327 million due to higher LME Aluminium cost and selling prices, and improved mix. Underlying EBIT<sup>1</sup> fell to \$16.1 million as compared to \$16.9 million in 1H24.

Volume fell as a result of reduced demand from the industrial sector and continuing weakness in residential construction. Housing approvals and commencements have lifted and the Company expects to see demand lift in the second half of 2025. Market share gains against imports to direct customers has been maintained, however volume to resellers is lower. Demand in key industrial sectors has softened, especially transport and infrastructure projects. Marine and cladding remain solid.

The lower volume reduced capacity utilisation in Capral's extrusion plants. However, tight cost control and productivity improvements have assisted in offsetting the lower fixed cost absorption.

The balance sheet remains strong with net cash \$53.0 million at 30 June 2025, after \$11.3 million in shareholder distributions and \$4.3 million capital expenditure.

### Share Buy-back

Capral's solid first half performance and cash position supports continuing distributions to shareholders.

Capral announced the commencement of another on-market share buy-back on 26<sup>th</sup> February 2025 of up to 10% of issued shares during the 2025 year. During 1H25, Capral acquired 448,866 shares, equivalent to 27 cps up from 18 cps in 1H24. No interim dividend has been declared (1H24: Nil).

### Sustainability

Capral is committed to enhancing its sustainability performance. The Company is on track to achieve its 2030 carbon emission reduction goals and well advanced in preparing to meet the ASRS reporting requirements for 2025. Capral remains certified to the Aluminium Stewardship Initiative's Performance and Chain of Custody Standards and has begun mapping Scope 3 emissions.

Capral's ESG team completed training in Life Cycle Assessment methodologies to enhance its climate impact reporting and the development of Environmental Product Declarations. Capral's ongoing approach to sustainability and broader ESG compliance is integral to achieving its long-term sustainability goals and demonstrating commitment to reducing its overall environmental footprint.
