Third Month Seaweed Sales Results – 50.9% Increase on Prior Period

Highlights

- **Gross sales of A\$267,530 (IDR 2,846,096,000) for the July Sales Period (15 July – 14 August 2025)**
- **Represents:**
 - **a 50.9% increase on the June Sales Period (15 June – 14 July 2025)**
 - **a 77.6% increase on the May Sales Period (15 May – 14 June 2025)**
- **Sales during the period were made to wholesale buyers in Indonesia; international shipments are expected in the coming months**
- **Operations: Seaweed sourced through ongoing partnerships with coastal farming communities in the Nunukan region of Indonesia, reinforcing the Company's sustainability and community engagement commitments**

The Board of BPH Global Ltd (**ASX: BP8**) is pleased to report the sales results for the third month of trading from its new seaweed sales operations in Indonesia, which commenced in May 2025. The business — which sources, processes, and exports sustainably harvested seaweed — generated gross sales of approximately A\$267,530 during the July 2025 reporting period, based on fulfilled purchase orders with payments pending settlement under standard trading terms (compared to [A\\$177,316 in June 2025](#)).

This performance reflects sustained growth in customer demand and further underpins the commercial potential of the Company's Indonesian seaweed operations.

Managing Director Matthew Leonard said: "The July results represent a further, significant step-up in trading performance for our seaweed operations. We are pleased with the rapid uptake from local buyers, and remain focused on expanding sales channels into international markets. As we continue to scale, the business is well-placed to support long-term revenue growth in line with our sustainability values and global demand for responsibly sourced seaweed."

Trading Results

During the period 15 July to 14 August 2025, the Company generated gross sales of approximately A\$267,530 (IDR 2,846,096,000), based on fulfilled purchase orders with payments pending settlement, representing:

- a 50.9% increase on the previous reporting period (June reporting period); and
- a 77.6% increase on the May Sales Period (15 May – 14 June 2025).

Sales were made to wholesale buyers in Indonesia, demonstrating continued traction in the domestic market. Following the initial sales in the May reporting period, additional sales to international customers are anticipated in upcoming reporting periods, supporting the Company's strategy to access global demand for high-quality seaweed products. All sales in this reporting period were conducted under the Company's [previously announced Sales Cooperation Agreement with PT Kebula Raya Bestari](#).

Seaweed was sourced through established partnerships with local farming communities in the Nunukan region of Indonesia, ensuring traceability and responsible harvesting practices. These relationships remain central to the Company's commitment to environmental sustainability and community development.

The operational focus remains on scaling volumes to meet rising demand, progressing international sales opportunities, leveraging [the Company's trade financing facility](#) and finalising additional offtake discussions. The Company expects trading volumes to continue to increase over the coming months.

The Company will continue to provide monthly updates on sales volumes from its Indonesia-based seaweed operations.
