- ▶ FY25 PaaS revenue up 391% on FY24
- ▶ Team in place to continue to deliver one-off work for established base of existing clients
 - ▶ c.US\$3m~4m p.a. in one-off revenue for past 3 years
- ▶ Global client base – FY25 revenue split by currency:
 - ▶ 70% USD / 20% NZD / 10% AUD

PaaS platform scaling
with volume increasing
as card numbers
continue to grow

Vertexon PaaS Metrics & Revenue Model

- ▶ 73k+ cards active in AU & NZ
 - ▶ Steady growth in existing client base – particularly from fintech clients
 - ▶ New clients already signed to drive further growth – currently onboarding three clients
- ▶ Focus on growing PaaS platform to drive scale benefits (e.g. margin expansion)
 - ▶ Continuing early AU success key given the large opportunity across Oceania

PaaS – Revenue Types	Description
Platform Fees	Recurring platform fees (e.g. access & feature ‘flag fall’ fees) & recurring monthly minimums
Fixed Transaction Fees	Flat fee per transaction
Variable Transaction Fees	Depending on transaction type, an additional variable fee may be applied
Value-Added Services	Additional fees for fraud protection, digital capability, analytics, chargeback handling, etc.
Interchange	Fee paid by the merchant acquirer to the issuer to compensate the issuer for the value & benefits merchants receive when they accept electronic payments

1. Transactions are denominated in local currencies & have been converted to USD, Change’s reporting currency

Vertexon & PaySim are trusted by leading financial institutions & fintechs globally

Vertexon On-Premises & PaySim Revenue Model

Vertexon On-Premises

- ▶ Client hosts the Vertexon platform in their own environment
- ▶ Current Change clients manage & process more than 45 million credit, debit, & prepaid cards worldwide
- ▶ Revenue model – typically a licence plus ongoing support & maintenance – can include volume tiering arrangements which trigger additional licence fees (plus associated support & maintenance)
- ▶ Card & transaction volumes have limited correlation to resulting revenue

PaySim

- ▶ Software deployed to client’s environment – can be sold globally
- ▶ Revenue model – licence fee per module plus ongoing support & maintenance to receive scheme mandate updates & support

Vertexon On-Premises & PaySim – Revenue Types				
	Initial Licence	Modules & Licence Tiers	Maintenance	Professional Services
Description	New licence sales to new clients	Licence sales for additional features, functionalities or tiers	c.20% p.a. of licence & module sales	Fees for customisation – new features or functionality

Underlying EBITDA ²	200	(694)	1,290

1. Excludes share-based payments included as an expense in the Appendix 4E statutory accounts
2. Excludes interest included as revenue

- ▶ COGS are primarily scheme & connectivity fees which are attributable to Processing & Issuing for Vertexon PaaS
- ▶ FY25 PaaS margin of 26% (ex. US operations), impacted by:
 - ▶ Heavy upfront client onboarding activities – scheme project & certification costs relating to digital pay enablement
 - ▶ Fixed COGS (i.e. minimum threshold / connectivity fees)
- ▶ Expect significant margin expansion in future years as scale benefits begin to be realised

AUD/USD = 0.65 (A\$ amounts are converted for representation purposes to assist the reader)

- ▶ FY25 revenue of US\$15.1m (A\$23.2m), up 42% on pcp
 - ▶ **Record revenue year** – growth driven by PaaS revenue
- ▶ Key roles for PaaS operations in place – ability to add significant volume & revenue whilst keeping fixed cost base relatively steady
 - ▶ Employee expenses +4.2% (excl share-based payments)
- ▶ Technology & hosting cost decrease reflects completion of integration work with Mastercard & hosting rationalisation
- ▶ US wind down of operations completed
 - ▶ Operating leverage significantly increasing driving material improvement in EBITDA & cashflow
- ▶ FY25 Underlying EBITDA (ex. US operations) of US\$1.3m (A\$2.0m)

- ▶ Quantum of investment in software moderated in FY25 as expected with the Vertexon platform fully live & operational in Australia & NZ
 - ▶ Investment in software down 18% v FY24

- ▶ Revenue growth driving increase in customer receipts
- ▶ Significant improvement in net cash flows from operating activities in FY25 primarily due to:
 - ▶ Materially higher cash receipts driven by PaaS clients
 - ▶ Stable fixed cost base
- ▶ Increased operating payments driven by PaaS COGS as volumes increased
- ▶ Volume related receipts & payments will increase as PaaS platform scales
- ▶ US operations wind down driving significant operating leverage

Large Market Opportunity

Vertexon PaaS – ANZ Opportunity

- ▶ Banking in ANZ is dominated by the big banks
- ▶ Leveraging success in NZ market to target the sizeable AU market
 - ▶ Small to medium sized financial institutions (e.g. credit unions, small banks & digital banks)
 - ▶ Non-bank lenders seeking to add card functionality, non-financial institutions & embedded finance opportunities
 - ▶ Credit cards (but not underwriting or providing credit)
 - ▶ White label prepaid card brands / issuers

PaySim – Global Opportunity

- ▶ Powerful modular end-to-end payments testing & certification solution with a global client base
- ▶ Global payment testing market is estimated to be extensive²
 - ▶ More than 32,000 potential clients globally
 - ▶ New licence sales typically in the low six-figure range
 - ▶ Multi billion-dollar global market opportunity
- ▶ Current 140+ PaySim clients is less than 0.5% of total market
 - ▶ Global clients supported from existing office locations

Australian Card Payments¹ Value A\$ (billions)

Positive outlook as
Change builds
momentum &
continues to scale

FY26 Outlook

- ▶ Continued momentum in the growth of the sales pipeline & the speed at which clients are moving through the sales funnel
- ▶ Change is scaling up – not yet at scale
 - ▶ Expect to see continued Underlying EBITDA margin improvement through incremental client wins
- ▶ Solid foundations to deliver revenue growth in FY26 & beyond
 - ▶ Existing Vertexon & PaySim clients
 - ▶ Contracted PaaS clients that are yet to go-live
 - ▶ Maturing sales pipeline
- ▶ **FY26 Guidance¹**
 - ▶ Revenue expected to be in the range of US\$16.5m (A\$25.4m²) to US\$18.0m (A\$27.7m)
 - ▶ Significant increase in Underlying EBITDA³, expected to be in the range of US\$2.5m (A\$3.8m) to US\$3.5m (A\$5.4m)

With strong foundations in place, Change is focussed on delivering profitable growth

Investment Highlights

Building Blocks In Place

- ▶ Platform live in AU & NZ
- ▶ All regulatory & licensing requirements for card issuing via Vertexon in AU & NZ in place
- ▶ Australian Financial Services Licence in AU & Financial Service Provider in NZ
- ▶ Strong relationship with Mastercard

Growth & Scale Focus

- ▶ FY25 revenue of US\$15.1m (A\$23.2m), +42% on PY
- ▶ PaaS revenue scaling
- ▶ Increasing PaySim sales momentum
- ▶ Positive FY26 outlook – strong revenue growth & stable fixed cost base driving material Underlying EBITDA improvement

Marquee Customers

- ▶ Strong validation of PaaS platform with financial institution & fintech clients in Oceania
- ▶ Long-term relationship with two of the largest banks in the Philippines
- ▶ 5 of the top 10 digital payment companies globally use PaySim for payments testing¹

Product Offering

- ▶ Proprietary payments technology platforms
- ▶ Vertexon: leading card management system for processing & issuing
- ▶ PaySim: default standard for eftpos testing in Australia. All participants must use PaySim to validate their technology & systems

Long-term Contracts

- ▶ Longer term client relationships with initial contract terms typically 3-5 years
- ▶ Given critical nature of service provided, challenging to switch from Vertexon

Market Opportunity

- ▶ Continued move towards digital payments as cash usage declines
- ▶ Vertexon: significant card issuing market opportunity in AU & NZ
- ▶ PaySim: <0.5% share of an estimated multi billion-dollar global market opportunity

Appendix

Change's role in the payments process depends on the region, client type & services provided

Vertexon in the Payments Process

- **Processing:** An Issuer (Change's client) using the Vertexon Platform (**technology only**) to manage their cards – client is the Issuer & cards can be issued on any card network supported by Vertexon
- **Processing & Issuing (P&I):** A client using the Vertexon Platform (**technology**) to manage their cards with Change as Issuer (**regulatory & licence**) – **Change** is the Issuer & cards are issued on the **Mastercard Network**

- Processing:** Customer pays with card (all card networks supported) & purchases goods/services from merchant
P&I: Customer pays with a **Change** issued **Mastercard** & purchases goods/services from a merchant
- Payment authenticated – the merchant point-of-sale system captures the customer's account information & securely sends it to the acquirer (i.e. merchant's bank)
- Transaction submitted – merchant acquirer asks card network to get authorisation from the issuer (i.e. customer's bank)
- Processing:** Authorisation requested – card network submits transaction to issuer for authorisation
P&I: Authorisation requested – card network submits transaction to **Change** (as Issuer) for authorisation
- Processing:** Authorisation response – using Vertexon Platform issuer authorises the transaction & routes the response back via the card network & acquirer
P&I: Authorisation response - using the Vertexon Platform **Change** (as Issuer) authorises the transaction & routes the response back via the card network & acquirer
- Processing:** Settlement – card network debits the issuer & pays the acquirer who in turn makes payment to the merchant
P&I: Settlement – card network (**Mastercard**) debits the issuer (**Change**) & pays the acquirer who in turn makes payment to the merchant

Vertexon offering can be tailored by client to offer services that best suit client & end customer needs

- ▶ **Simulates the full transaction lifecycle**, enabling banks & fintechs to complete end-to-end testing of their payment platforms, processes & scheme rule compliance
- ▶ Enables financial institutions to **test their payment systems** to meet the reliability & performance expectations of their customers

PaySim is an all-in-one modular payments testing solution that enables:

- ▶ Payment Simulation & Device Emulation
- ▶ Stress Testing
- ▶ Regression Testing
- ▶ Certification
- ▶ Scheme Settlement

PaySim Market Overview – Global

- ▶ Extremely powerful modular end-to-end payments testing & certification solution embedded into tier 1 banking & payments institutions globally
 - ▶ Core based on global messaging standard ISO 8583 & ISO 20022
 - ▶ Default standard & benchmark for EFTPOS testing in Australia
- ▶ Global payment testing market is estimated to be extensive¹
 - ▶ More than 32,000 potential clients (inc. card issuers, acquirers, ATM deployers, financial institutions & fintechs)
 - ▶ New license sales are typically in the low six-figure range
 - ▶ Multi billion-dollar global market opportunity
- ▶ Key focus & opportunities for growth:
 - ▶ **Partner / reseller network** – leverage existing partner network to drive sales & secure new partners / resellers
 - ▶ **Direct sales** – outbound direct client sales supported by marketing activities
 - ▶ **Cross sell / upsell** – upgrade existing clients to adopt more modules & deepen integration into clients’ systems
 - ▶ **Product development** – new products & features to meet additional payments testing requirements
