*(Internet of Things)*

*IOT Group has tapped into global niche markets by adapting and enhancing existing trend products and making them more affordable, useful and innovative for consumers. The IOT Group is designing and developing a range of drones including ROAM-e, our flying selfie drone, facial recognition and tracking software and much more; as we look to create a complete IoT ecosystem.*

*Utilising industry specific innovation and our own technology, we've created the first facial recognition flying selfie device operated through smartphones and vision control systems, called ROAM-e. With unique follow me truly functionality, a flight time of up to 20 minutes and the capacity to charge in just two hours! You will always capture perfectly uninterrupted panoramic shots with ROAM-e's 360 degree 1080p HD camera. And you will never miss a moment with ROAM-e's live streaming capabilities, so the action is always in real time whenever, where ever. ROAM-e is your personal companion who will always be within 5m of you, so you never have to worry about invading anyone's personal space. Built with the world's first dual-axis collapsible blades means that ROAM-e's light, compact and easy to carry and ready for any occasion but most importantly not weigh you down. Selfies have reached new heights!*
