### **AstiVita Non Renounceable Rights Issue**

The Board of AstiVita announce today that it will be undertaking a non-renounceable rights issue opening on 4 January 2017.

The offer booklet will be dispatched to shareholders on 4 January 2017. The proposed offer is 1 share for every 1 share held at the record date at 10 cents per share raising some \$3.086 million after costs.

In as much as directors are not expecting an improvement in the current 6 months, the monthly November 16 unaudited result was very close to break even.

The marketing program in association with Ray White Concierge, supporting the launch of the website has been delayed until February 2017 and consequently yet to impact on our results.

Yours sincerely

**Geoff Acton**  
Director
