

BLUE SKY SECURES INSTITUTIONAL MANDATE IN REAL ASSETS DIVISION

20 January 2017

Blue Sky Alternative Investments Limited (**Blue Sky**) yesterday signed a significant investment mandate with LGIAsuper in its real assets division.

This mandate will be deployed across Blue Sky's real assets strategies, which include Australian water entitlements, agribusiness and agricultural infrastructure.

The mandate represents a strong endorsement of Blue Sky's team as well as further progress in the development of Blue Sky's institutional investor base.

We continue to broaden and deepen our relationships with a range of both domestic and international institutional investors, with multiple institutions continuing to conduct due diligence across both our real assets and other investment divisions.
