

ANNEXURE A

ASX Announcement and Media Release

14 February, 2017

SciGen Ltd

Appointment of Executive Director

Following the announcement made on 10 February 2017 on the appointment of Mr. Ashley Morris as Chief Executive Officer of SciGen Ltd (ASX: SIE), the board of Directors are pleased to announce that effective 14 February 2017, Mr Ashley Morris also joins the Board of Directors as an Executive Director of the Company.

Mr Ashley Morris

Mr. Morris has a B.A. Hons. in Politics & Economics from Nottingham University and has over 30 years' experience within the pharmaceutical industry in the Asia Pacific. From 2010 to 2013, Mr. Morris was the Managing Director of Bausch & Lomb covering Asean countries. From 2004 to 2009 he was with Schering-Plough starting as Area Director for South Asia and progressed to General Manager for Malaysia and Singapore. From 2001 to 2003, he was the Vice President for South Asia in Pharmacia. From 1978 to 2001, he held several positions in other Pharmaceutical companies such as Beecham, Farmitalia Carlo Erba, Pharmacia Asia and Pharmacia Philippines.

About SciGen

SciGen Ltd is a progressive biopharmaceutical company involved in co-developing and marketing genetically engineered biopharmaceutical products for human healthcare. SciGen focuses in the areas of gastroenterology, endocrinology and immunology. Its product portfolio includes therapeutics such as rhuman Growth Hormone, rhuman Insulin and GCSF.

SciGen has acquired the rights to manufacture, distribute and market biopharmaceutical products under exclusive licensing arrangements. SciGen's portfolio currently includes proprietary biotechnology-derived products, and biosimilar products, which allows for faster entry into the market, as the biogeneric products have undergone much of the clinical development and trials required to bring new drugs to market. This minimises the risks associated with early stage product development.

SciGen currently undertakes R&D activities in collaboration with strategic partners and institutions.

SciGen's major strength lies in its ability to recognise the potential of new products in their early stages of development. Through joint collaboration with its strategic partners, SciGen uses its extensive expertise in regulatory and clinical environments, in conjunction with marketing and promotional infrastructure, to bring to market products which will have significant long-term benefit.

SciGen's business was established in 1988. SciGen is a Singapore biotechnology company, publicly listed on the Australian Stock Exchange (ASX code SIE). SciGen's headquarters is in Singapore and it also has subsidiary companies and offices in Australia, South Korea, China and Philippines, distribution channels in China, India, Malaysia, Myanmar, Pakistan, Thailand and Indonesia and a contract manufacturer in Poland, Bioton S.A.
