

Innovating Technologies for Life

**ASX Announcement  
30 November 2016**

### **MyHealthTest wins Innovation Connection Grant**

ITL Limited is pleased to announce that its wholly owned subsidiary MyHealthTest Pty Ltd (MHT), the direct to consumer pathology test provider, together with University of Canberra (UC) have been awarded a \$50K Innovation Connection Grant to fund the development of additional tests to be offered by MHT. The grant has been awarded by the Australian Government Department of Industry, Innovation and Science.

MHT has been working with University of Canberra for one year seeking to develop a broader range of tests using dried blood spots with advanced technologies. When achieved this will allow for accurate and economical testing for a range of health conditions such as hormonal imbalances and vitamin deficiencies.

MHT currently supplies the HbA1c test used to diagnose and monitor diabetes. Tests are ordered online, also available in chemists in ACT, then finger prick samples are taken at home, samples are sent to the MHT lab via regular mail and the results are received electronically.

Bill Mobbs, Executive Chairman commented “This grant is an endorsement of the hard work MHT has carried out to expand its portfolio of tests. The Company has been working with University of Canberra for some time and their shared expertise should see the acceleration of new products coming to market.”
