Investment Update

Lion Selection Group is pleased to advise it has made two new investments:

1. Increased Lion's holding in Asian Lion from 63% to 90% by acquiring shares from other investors for \$1m.
2. Lion has agreed to invest \$850,000 in One Asia's current equity raising priced at \$0.18 per One Asia share. The principal use of funds is preparatory work for a separate listing of the Awak Mas project targeted for 2017.

Lion has also agreed to convert its existing debt (\$941,730) owed by One Asia into equity at the same price as the equity raising.
