FFT receives order for Secure Fence Solution valued at approximately A\$460k

- **FFT Secure Fence used to protect government facility located in Europe**

Future Fibre Technologies Limited (FFT) (ASX: FFT), a global leader in fibre optic perimeter intrusion detection systems, has received an order valued at approx. A\$460k.

Multiple FFT Secure Fence controllers will be used to protect 8kms of perimeter fencing at a confidential government facility located in Europe.

FFT Chief Executive Rob Broomfield said that the company was seeing continued interest in its solutions from a broad range of industry sectors across Europe.

About FFT

FFT is a leading developer and manufacturer of fibre optic intrusion detection security systems. Deployed by some of the most security conscious industrial, military and government organisations in the world, FFT's advanced security systems:

- detect and locate **perimeter** intrusions;
- identify third-party interference on oil and gas **pipelines**; and
- protect sensitive **data network** communications cables.

With hundreds of installations in more than 55 countries, FFT has established a solid reputation for delivering highly intelligent, reliable, and award winning intrusion detection solutions. www.fftsecurity.com
