Exploration Consultant Appointment

Quantum Resources Limited (ASX: “QUR” or “the Company”) is pleased to announce the appointment of James Macintosh as Exploration Consultant. Mr. Macintosh will work with management to oversee the mineral exploration and project management team at Dahrouge Geological, who have direct experience in the lithium sector in North America.

Mr. Macintosh holds a B.Sc. (Honours, Geological Sciences) from Queen’s University and currently sits on the Queen’s University Geology Council. During a professional career spanning over thirty years, Mr. Macintosh has been involved in a broad range of technical, analytical and executive positions in mineral exploration, mine development and mining production operations with a focus on North America and Central America. His experience encompasses precious metal, base metal and industrial mineral projects.

Mr. Macintosh is currently the President and CEO of GTA Resources and Mining Inc., a Canadian gold and zinc exploration company. Prior to that he was the Lead Director and Chairman of the Audit Committee for Carlisle Goldfields Limited, a Canadian gold company sold to Alamos Gold Inc (NYSE/TSX: AGI). Mr. Macintosh is also a Director of Silver Mountain Mines Inc. and Continental Mining and Smelting Limited, a private exploration company, whose assets were recently acquired by Galway Metals Inc (TSXV: GWM).

Financing & Cost Saving Initiatives

The Company is investigating the opportunity to reclaim drilling costs through the Province of Manitoba's Mineral Exploration Assistance Program ("MEAP"). The MEAP grants have been put in place by the provincial government to stimulate activities that could lead to the development of new mines and industrial mineral projects in Manitoba. MEAP is directed towards projects with a high likelihood of success. In 2016 / 2017 MEAP will provide for up to 50% of approved expenditures (up to a maximum of C\$200,000) for projects in the Flin Flon & Snow Lake regions, where the Thompson Bros Project is located.

Capital raising

The Company has completed the Placement of 60 million fully paid ordinary shares at an issue price of \$0.011 (1.1 cents), raising \$660,000 before associated costs. Each two shares placed comes with one free attaching option exercisable at 3.25 cents on or before 31 August 2020. (Placement).

The Placement was offered to sophisticated investors under s708 Corporations Act (Cwth) 2001 and pursuant to Chapter 7.1 and 7.1A of ASX Listing Rules.

Funds raised are intended to be used for the development of the Company's advanced Manitoba Lithium Project (Thompson Bros Project) (including the current 2017 Winter Drilling Program), the further development of the Company's existing exploration assets, and otherwise applied to the working capital and administrative costs of the Company.

The Company's applicable Appendix 3B, 3.10.5A Notice and 708 Cleansing Notice is attached to this announcement.
